IPPS-A SV-8 Systems Evolution Description
Version 1.36 (FINAL)
16 May 2025

Current Functional Baseline

Active/ARNG/USAR - Personnel System 59 Systems 73 Interfaces (I = 30 , O = 43)		
Interfaces	Subsumed Systems	
	System Name	Date Subsumed
ACT (OP2P)	EDAS	09/23/24
AORS (I)	eMILPO	03/20/23

GRAY TEXT	Planned additions to the Functional Baseline and/or Subsumptions

	DV-8 Revision Updates
3/31/2025	ECR 72553 - Reformatted SV-8 to represent IPPS-A capabilities as the Current Functional Baseline and Future Capabilities
3/31/2025	ECR 72553 - Changed system name LAAWS-JAGCNET to JAGCNET to align with APMS
3/31/2025	ECR 72553 - Changed RCMS-Guard name to SMMS [RCMS-Guard] - Subsumed by SMMS 3/31/2025
3/31/2025	ECR 72553 - Changed RCMS-Guard [AUVS] name to SMMS [AUVS] - RCMS-Guard subsumed by SMMS 3/31/2025
3/31/2025	ECR 72553 - Changed RCMS-Guard [Record Brief] name to SMMS [Record Brief] - RCMS-Guard subsumed by SMMS 3/31/2025
3/31/2025	ECR 72553 - Changed RCMS-Guard [Roster Builder] name to SMMS [Roster Builder] - RCMS-Guard subsumed by SMMS 3/31/2025
3/31/2025	ECR 72553 - Removed TAP XXI (OT)(TSCRS) from "Current Functional Baseline:Interfaces" - they obtain IPPS-A data from E920 database.
3/31/2025	ECR 72553 - Removed AORS (OT) from "Current Functional Baseline:Interfaces" - they obtain IPPS-A data from E920 database
3/31/2025	ECR 72553 - Removed ARISS (OT) from "Current Functional Baseline:Interfaces" - they obtain IPPS-A data from E920 database
3/31/2025	ECR 72553 - Removed ASBS-S (OT) from "Current Functional Baseline:Interfaces" - they obtain IPPS-A data from E920 database
3/31/2025	ECR 72553 - Removed KEYSTONE - RETAIN (OT) from "Current Functional Baseline:Interfaces" - they obtain IPPS-A data from E920 database
3/31/2025	ECR 72553 - Removed PaYS (OT) from "Current Functional Baseline:Interfaces" - they obtain IPPS-A data from E920 database
3/31/2025	ECR 72553 - Added SMS Web [E920] (OT) to "Current Functional Baseline:Interfaces"
3/31/2025	ECR 72553 - Removed EPS (formerly SEPS) from HRC Landing Zone - Subsumed by ASBS
3/31/2025	ECR 72553 - Removed IPAS-EPM (formerly EPM) from HRC Landing Zone - Retired System
3/31/2025	ECR 72553 - Removed TESS ** from HRC Landing Zone - Not associated with E920
3/31/2025	ECR 72553 - Relabeled from "HRC Landing Zone" to "HRC E920 Database"
3/31/2025	ECR 72553 - Combined Inc II Rel 2 Subsumed systems to "Current Functional Baseline:Subsumed Systems"
3/31/2025	ECR 72553 - Added Subsumption Date to "Active/ARNG/USAR - Personnel System:Subsumed Systems"
3/31/2025	ECR 72553 - Separated future interfaces from Post R3 Go Live interfaces with a separator Near Future Interfaces
3/31/2025	ECRs 25933 and 25286 - Added GEX (I/OP2P)(P) to "Current Functional Baseline:Near Future Interfaces" and R4 INC II Future Capabilities
3/31/2025	ECRs 25933 and 25286 - Aded PAM (I/OP2P)(P) to "Current Functional Baseline:Near Future Interfaces"
3/31/2025	ECRs 27228 and 27229 - Added ITS (I/OT)(P) to"Current Functional Baseline:Near Future Interfaces" and R4 INC II Future Capabilities
3/31/2025	ECR 59918 - Added GFEBS (I/OP2P)(P) to "Current Functional Baseline:Near Future Interfaces" and R4 INC II Future Capabilities - EPIC 42675
3/31/2025	ECR 54504 - Added IPERMS (I)(P) to "Current Functional Baseline:Near Future Interfaces" and R4 INC II Future Capabilities
4/29/2025	ECR 72553 - Removed TDD (OT) from Future Capabilities per FMD guidance
4/29/2025	ECR 72553 - Under HRC E920 DATABASE changed" TAP-XXI" to "TSCRS" per APMS
4/29/2025	ECR 72553 - Changed"TKE" to "TC" per APMS (System Name TRADOC Cloud) per FMD Guidance
5/07/2025	ECR 72553 - Changed"ASBS" to "ASBS-S" to match current APMS acronym/name per FMD Guidance
5/07/2025	ECR 72553 - Added TAPDB-R to HRC E920 Database Membership
5/07/2025	ECR 72553 - Removed Revision History for revisions prior toIPPS-A SV-8 Version 1.36. Archived Revision History available upon request
5/16/2025	ECR 72553 - Added SMS Web Inbound to Current Interfaces

IPPS-A Incremental Release Capability Descriptions

Increment I Capabilities: Increment I capabilities (Release 1.0) resulted in a multi-component trusted database containing all necessary personnel and pay enabling data to allow for the generation of a Soldier Record Brief (SRB) and nine predefined queries. INC I was deployed to all Components (Active Army, Army National Guard and US Army Reserve).

ARNG Personnel System Capabilities: ARNG Personnel System Capabilities (Release 2.0) was built upon Increment I capabilities and provide the functionality necessary to subsume SIDPERS-ARNG for all Army National Guard (ARNG) locations. End-to-end Business Process development considerations were evaluated to support various Human Resources (HR) activities to include, but not be limited to, promotions/demotions, training requirements, member benefits, duty status, and unit level manning.

Active/ARNG/USAR Personnel System Capabilities: Active/ARNG/USAR Personnel System Capabilities (Release 3.0) is now the IPPS-A Functional Baseline. It provides capabilities that support accountability and essential personnel services necessary to subsume numerous legacy field systems including eMILPO and TAPDB-R. IPPS-A has established a consolidated system that provides accountability of Soldiers and tracking of all personnel, including deployed Soldiers. It allows Commanders in the field to access timely, accurate, and standardized personnel data for Soldiers in all components and provides a basic means to identify Soldiers who should be on the payroll. In addition to delivering most of the functions required to establish an Army-wide HR system, Release 3.0 has brought HR payroll drivers on board to enhance accuracy of pay, credit for service, and benefits. IPPS-A is now the authoritative data source for all Soldier-related transactions within the Army.

One Pay System Capabilities: One Pay System capabilities (Future Capabilities) will focus on pay services by building upon the IPPS-A Functional Baseline to provide the basis for a fully integrated personnel and pay system. IPPS-A will incorporate pay functionality to include, but not be limited to, base pay, taxes, allowances, bonuses, allotments and leave. At deployment, IPPS-A Future Capabilities will serve as the authoritative data source for Soldier personnel and pay data and will fully support the Army's audit readiness goals for the Military Personnel Appropriations.
