SOURCES SOUGHT NOTICE
Cableway Dismantling and Removal Services (Arizona)

NAICS CODE: 238910 – Site Preparation Contractors
SIZE STANDARD: $19.0 Million

INTRODUCTION

The U.S. Geological Survey (USGS) is conducting market research in accordance with FAR Part 10 to identify qualified sources capable of providing dismantling, removal, and disposal services for discontinued cableway structures located in Arizona.

This Sources Sought Notice is issued for market research and acquisition planning purposes only. This notice does not constitute a solicitation, nor does it restrict the Government to a particular acquisition approach. The Government will not reimburse respondents for any costs incurred in responding to this notice.

REQUIREMENT

The USGS requires contractor support to dismantle and remove discontinued cableway structures at multiple field locations within Arizona.

The work generally includes removal of cableway structures, removal of full-length cables, removal of saddle blocks (if present), removal of all associated hardware and connecting equipment, cutting U-bars flush at the concrete surface, and removal, transport, and lawful disposal of all debris.

The Contractor shall restore the site to as close to natural condition as possible following removal activities.

Reference enclosed statements of work for additional information.

SPECIAL CONSIDERATIONS

Work is limited to dismantling and removal and does not include new construction. Contractors may retain removed materials; salvage value is considered incidental. The Contractor shall be responsible for obtaining all required permits, licenses, and approvals. All work must comply with applicable Federal, State, local, and Tribal regulations.

CAPABILITY STATEMENT INFORMATION REQUESTED

Interested firms should submit a capability statement demonstrating their ability to perform the required work.

Responses shall include company name, address, and point of contact; UEI number and confirmation of SAM registration; business size and socioeconomic status under NAICS 238910; relevant experience performing similar work; description of equipment and technical capability; experience working in remote or environmentally sensitive locations; experience working on Federal or Tribal lands (if applicable); and ability to obtain necessary permits and coordinate site access.

SUBMISSION INSTRUCTIONS

Responses shall be limited to five (5) pages and submitted electronically.

Submit responses via email to:
