SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): The purpose of this amendment is to update the RFP to incorporate MCPP support in Australia and Palau. Summary of Changes are as follows:
Section B: Moved MCPP Australia and MCPP Palau from CLIN X004 (OLS) to CLIN X003 (OCONUS).
Section E-1(c)(4): Added "and Ashore Prepositioning Sites."
Section L-1: Replaced instructions to Offerors regarding submission of questions. Link to submit questions: https://forms.osi.apps.mil/r/hdwUasGhwr
Attachment J-4 (DD Form 254): Updated Blocks 8 and 9.
Attachment J-5 (SOW): Added Australia and Palau requirements throughout SOW; see Sections 1, 2, 3, 4, 5, 7, 8, 9, and 10.
Attachment J-7 (Cost Model Workbook): Added Australia and Palau in the drop down in Column F for Tabs CLIN X003 and X003 OT. Updated Government plug numbers in Column C for CLIN X004.
Attachment S-2 (Notional Manning Document): Updated CLIN X003 to include Notional Manning and Hours for Australia and Palau.
Section J (Exhibit A CDRL Listing by CLIN): Updated Exhibits A-3 and A-4 to include CLINs X001, X002, and X003 in Block A. Added new DD Form 1423 Exhibit A-13 for MCPP Australia & MCPP Palau.
Exhibits A-3 & A-4: Updated Block A to include CLINs X001, X002, and X003.
Exhibit A-13: Added new DD Form 1423 for MCPP Australia & MCPP Palau.

Section B - Supplies or Services & Prices or Costs

Section E - Inspection and Acceptance

Miscellaneous text in this section has been modified to:

E-1 INSPECTION/MONITORING OF PERFORMANCE

(a) Inspection and monitoring of services performed under this contract will be conducted to verify accomplishment of work in compliance with the Statement of Work and all applicable publications, adherence to established MCMC processes, to determine timeliness of actions taken, and to ascertain quality of the efforts. The goal of contract performance and the inspections is to attain 100% of required supplies and equipment, maintain them at 100% fully mission capable status and to ensure 100% data accuracy is achieved at the levels described in the SOW. Technical standards for maintenance preservation and inspection will be those contained in the SOW and equipment technical manuals.

(b) In addition to inspection and monitoring by the Government, inspection and monitoring of services shall be performed by the MCMC in accordance with his approved quality control plan. The MCMC's Quality Control Plan must align with the BICmd Risk and Performance Manual (CmdO P5000.11) to comply with ISO Joint Certification requirements. Documentation associated with MCMC Quality Control shall be available to Government Quality Assurance (QA) personnel upon request. The MCMC shall use the Government provided Quality Management Support System, to document all MCMC inspection and monitoring of services as identified in the approved quality control plan.

(c) Inspection and monitoring of services under this contract may be accomplished by any of the following Government personnel:

(1) The Contracting Officer and/or assigned Contracting Officer's Representative (COR).

(2) Quality Assurance Representatives (QAR) personnel responsible for the inspection and monitoring of equipment, supplies, or processes.

(3) Personnel who inspect equipment as an adjunct to their primary task of equipment employment.

(4) Cognizant personnel at Marine Corps Logistics Command and Blount Island Command charged with the responsibility for the MPS Program, MCPP-N, MCPP-PHIL and Ashore Prepositioning Sites.

(d) Government personnel will inspect and monitor through:

(1) Examination and employment of equipment and supplies,

(2) Reviewing records of maintenance actions taken,

(3) Reviewing written reports from the MCMC

(4) Reviewing the maintenance, supply or other Government approved records, and

(5) Monitoring established MCMC processes.

(e) The extent of Government Verification inspection will be determined by the Government. Such inspections will normally not exceed the definitive quality assurance requirements established in the SOW, specifications, and/or contract; however, the Government reserves the right to perform any amount of inspection (including 100% inspection), when it determines such inspection is warranted.

(f) At the option of the Government, Government inspection may be performed concurrently with the MCMC, or independently on samples selected by the Government representative. When independent Government inspection is performed, the MCMC shall ensure that adequate test equipment is available to perform the inspection.

(g) Inspection or monitoring by the Government may be accomplished at any time convenient to the Government.

(h) All MCMC generated quality records shall be available for review by Government personnel via QMSS at all times.

(i) Discrepancies noted by any of the above personnel will be brought to the attention of the MCMC. All official notification of discrepancies shall be in writing from either the Contracting Officer, COR, or personnel duly assigned by the Contracting Officer. Any official notice of unsatisfactory performance shall be in writing from the Contracting Officer.

(j) In addition to the foregoing inspections, inspection of the methods of performing the services under this contract may be performed by the Master or Officers of a prepositioning ship to assure conformance with applicable maritime laws, rules, and regulations relating to the performance of such activities on board ships and to ensure the general safety and sea-worthiness of the ship. Any shipboard MCMC activity or condition found by the Master of a ship to be in violation of, or not in consonance with, any of the foregoing may be brought to the attention of the COR by the Master of the vessel or one of her Officers on his behalf. If the activity or condition is not discontinued or corrected as directed by the Master within such time period and in such manner as shall be acceptable to the Master, the Master may issue a written notice to the COR with a copy to the MCMC; such notice may be the basis of removal from the vessel as expeditiously as possible of the employee(s) responsible for the failure to comply with the Master's instructions.

(k) Differences in interpretation of technical issues or the inspection reports will be brought to the attention of the COR for resolution. Issues not resolved at this level will be forwarded to the Contracting Officer for final determination.

(l) The Government reserves the right to participate in MCMC ISO 9001:2015 internal audits or perform independent ISO 9001:2015 external audits.

E-2 ACCEPTANCE

Place of acceptance is Blount Island, Jacksonville, Florida unless other is designated on the individual task order. No written acceptance document is required. Certification of invoices for payment shall be considered acceptance of services and supplies delivered unless a formal notice of unsatisfactory performance has been issued in accordance with paragraph E-l, (i) above.

Section J - List of Attachments

The following attachments were added:

The following attachments were deleted:

Section J. Exhibit A - CDRLs List by CLIN

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

Miscellaneous text in this section has been modified to:

L-1 **PREPROPOSAL INFORMATION**

All questions or requests for clarification must be submitted using the designated link below and are due no later than thirty (30) business days after issuance of this Request for Proposal (RFP). After this date, offerors are encouraged to keep submitting questions, however questions received after this date may not be answered. Responses will be issued in writing to all prospective Offerors. The Government reserves the right to choose which questions will be answered; all answered questions will be published in PIEE.

Link to submit questions: https://forms.osi.apps.mil/r/hdwUasGhwr

None of the regulations, manuals, technical orders, or other publications referenced in the RFP (herein referred to as the "Program Data and Technical Library") will be issued with the solicitation. All documents referenced in the SOW (i.e., Attachment J-9), not otherwise available to the public, will be provided upon request. Offerors must submit a request to obtain an electronic copy of the Program Data and Technical Library (RFP Attachment #S-1). A completed Non-Disclosure Agreement (RFP Attachment #S-4) must be executed prior to issuance of the Program Data and Technical Library. Only one Program Data and Technical Library is permitted per Offeror (Prime Contractors only); Offerors are responsible for forwarding Non-Disclosure Agreements for joint venture entities and/or subcontractors prior to disseminating the Program Data and Technical Library. Requests must be submitted via e-mail to timothy.l.rivers@usmc.mil no later than thirty (30) business days after the issuance of this RFP. Offerors must ensure that Program Data and Technical Library information is requested in a timely manner to permit adequate proposal development. The Government intends to deliver Program Data and Technical Library media to Offerors by USPS or FedEx overnight delivery, return receipt required. Please note information provided is "Controlled Unclassified Information (CUI)".

At proposal submission, the Offeror shall possess a SECRET facility security clearance to assume contract tasks and responsibilities. If an Offeror does not have this type of clearance at the time of proposal submission, the proposal will NOT be evaluated and is not eligible for award. The Government will NOT sponsor Offerors for facility clearances.

Proprietary information submitted in response to this solicitation shall be clearly marked as such and will be protected from unauthorized disclosure as required by Subsection 27 of the Office of Procurement Policy Act as amended (41 U.S.C.423) as implemented in the FAR. Any unmarked information, which may include proprietary information, will be considered releasable under the restrictions of the Freedom of Information Act.

Funds are not presently available for this effort. No award will be made until funds are available. The Government reserves the right to cancel this solicitation, either before or after the closing date. In the event the Government cancels this solicitation, the Government has no obligation to reimburse any Offeror for any costs incurred in the development of the proposal.

The Government intends to incorporate RFP Attachment #J-7 Cost Model Workbook into this contract, and may incorporate other parts into this contract, by reference or full text, portions of the successful Offeror's proposal submitted in response to this solicitation as revised and supplemented through the final proposal revision. Offerors are advised that any features or technical offerings that exceed SOW requirements and are accepted by the Government may be incorporated as a requirement in the resultant contract.

L-2 **NOTICE OF ORGANIZATIONAL CONFLICT OF INTEREST (OCI) AVOIDANCE FAR 9.5**

The Offeror's attention is directed to Section H, Paragraph H-16 relating to OCI.

L-3 (RESERVED)

L-4 **PROPOSAL PREPARATION INSTRUCTIONS TO OFFERORS (ITO)**

1. **GENERAL INSTRUCTIONS**

The instructions in this section prescribe the format of proposals and describe the approach for the development and presentation of the proposed data. The proposal shall include all of the information requested in the specific instructions. The Offeror's initial proposal should contain the Offerors best terms from a management, technical and cost/price standpoint. Failure to include all information requested may adversely affect the evaluation or may cause the proposal to be rejected. A proposal that merely reiterates or promises to accomplish the requirements of the SOW will be considered unacceptable. In addition, Offerors shall assume that the Government has no prior knowledge of their experience and will base its evaluation on the information presented in the Offeror's proposal and other obtained Past Performance Information (PPI). A proposal that is orderly and sufficiently documented will enable the Government to easily understand and perform a thorough and fair evaluation.

This section provides general guidance for preparing proposals as well as specific instructions on the format and content of the proposal. Each volume shall be complete in itself. Unless otherwise specified, any form of presentation, such as narrative, pictures, tables, graphs, schematics, logic and other functional block diagrams may be used to provide a concise description of information. The construction of each volume shall be separate and independent; each volume must stand on its own and therefore not require extensive searching throughout the document(s) to locate and evaluate each any items or area being evaluated.

2. **ESTIMATED PERIOD OF PERFORMANCE FOR PROPOSAL PREPARATION**

This solicitation covers a base ordering period of 60 months and one 60-month optional ordering period IAW DFARS 217.201-270(a)(2) and FAR 52.217-9.

Anticipated award date is on or about 4 June 2027. The contractor shall complete all phase in transition activities within the first 90 days following contract award. The Base Ordering Period will begin on the date of award and will continue for a period of five years. Option 1 consists of an additional five year ordering period, which may be exercised in accordance with FAR 52.217-9.

3. **PROPOSAL SUBMITTAL INSTRUCTIONS**

(a) Proposals shall be submitted electronically via the Procurement Integrated Enterprise Environment Capabilities (PIEE) Solicitation Module to Timothy L. Rivers (timothy.l.rivers@usmc.mil).

Vendor Registration Guide for Contractors: https://cac.piee.eb.mil/xhtml/unauth/web/homepage/vendorGettingStartedHelp.xhtml

PIEE Solicitation Web Based Training:
https://pieetraining.eb.mil/wbt/xhtml/wbt/sol/index.xhtml

(b) Proposal Due Date and Time - The time and date for receipt of offers is stated in Block 9 of the SF 33. The Offeror must complete the submission of its proposal in the PIEE Solicitation Module by this due date and time to be evaluated. Initial proposals and any modifications thereto must be submitted on or before the closing date and time cited in Block 9 of the SF 33. Late submissions will not be considered for evaluation unless the conditions of FAR 15.107(b) apply.

(c) The maximum allowable file size for the PIEE Solicitation Module is **1.9 GB per file**, with no limit on the number of files. It is the Offerors responsibility to ensure their proposal documents are submitted within the file size limits, in the correct format to be accepted by the system.

4. **PROPOSAL ORGANIZATION**

A complete proposal is defined as one consisting of eight (8) separate volumes within the required page count, in the number of copies below. Strict compliance with these proposal preparation instructions will be considered in the evaluation of the proposal. Evaluators will read only up to the maximum number of pages specified. Pages in excess of the maximum will be removed from the proposal and not evaluated.

4.1 **Matrix Table**

Volume	**Section L Number / Title / Page Limit**
I	**Section 5: VOLUME I** **EXECUTIVE SUMMARY** Overview - *10 Pages* Master Table of Contents *(all Volumes)* - *Unlimited* Standard Proposal Information: *Unlimited* Table of Contents List of Tables and Figures Glossary of Abbreviations & Acronyms Note: Additionally, one copy of the Executive Summary Overview shall be included in all volumes.

VIII	**Section 12: VOLUME VIII** **PROPOSAL DOCUMENTATION** Standard Proposal Information: -*Unlimited* Table of Contents List of Tables and Figures Glossary of Abbreviations & Acronyms Section 12.1: Solicitation Submission -*Unlimited* Sections 12.1.1 and 14.1: Required Documents -*Unlimited* Section 12.1.2: Exceptions to Terms and Conditions -*Unlimited*

4.2 **Proposal Format**

4.2.1 Guidance

(a) This section of the Instructions to Offerors (ITO) provides general guidance for preparing proposals as well as specific instructions on the format and content of the proposal.
(b) The Offeror's proposal must include all data and information requested by the ITO and must be submitted in accordance with these instructions.

4.2.2 Price/Cost Information

All cost or pricing information shall be addressed ONLY in Volume VI, Cost/Price Proposal. Cost proposal information shall be provided in the format contained in paragraph 10. Both Adobe Acrobat (.pdf) and Excel (.xlsx) files should be used for respective documents.

4.2.3 No Cross-Referencing

(a) Each volume shall be written on a standalone basis so that its contents may be evaluated without cross-referencing to other volumes of the proposal.

(b) The Organizational Chart / Manning Document required in the Volume I - Executive Summary Overview shall be provided in a Microsoft excel format and provide a cross reference to all CLINs; Offerors shall identify full time equivalents (FTEs) that support multiple CLINs and the level of support they provide to each CLIN. Offerors shall include manning level and associated LOE hours in the Cost Template (RFP Attachment #J-7 Cost Model Workbook), specifically, the Labor Categories and Level of Effort required by Labor Category. The Offeror's proposed Organizational Structure must be consistent with the proposed Cost Model Workbook.

(c) The Notional Organizational Structure (RFP Attachment #S-2) will guide the development of the management, technical, and cost proposals (Volumes II, III, IV, and VI). Note: Total hours displayed on RFP Attachment #S-2 are total ANNUAL hours. The Notional Organizational Structure is presented at the department level. The offeror shall provide their organizational chart at the most granular level possible (Branch/Section).

The Labor Categories within the Notional Organizational Structure reference various experience levels. Where "Various Experience Levels" are listed next to the labor category, the Offeror should design its structure to capture the range of experience levels the Offeror determines appropriate. As an example, "Material Spec" has multiple skill levels in the CBA (RFP Attachment #J-3); Material Spec I, Material Spec II, Material Spec III, etc. The Offeror may utilize any combination of those Labor Categories to meet the minimum level of effort hours.

(d) The proposed Organizational Chart / Manning Document required in the Executive Summary (Volume I) will not count towards individual volume page limitations.

(e) Offerors shall not include cost and/or pricing information in proposal volumes other than the Cost/Price Volume.

(f) Information required for proposal evaluation that is not found in its designated volume, will be assumed to have been omitted from the proposal.

4.2.4 <u>Table of Contents</u>

(a) Each volume shall contain detailed Table of Contents to delineate the subparagraphs within that volume. Pages of the Offeror's proposal will be numbered sequentially with the exception of "exempt" pages identified below.
(b) The Table of Contents will not count against the page limitations for their respective volumes.

4.2.5 <u>List of Tables and Figures</u>

(a) Each volume shall list any tables and figures used within that volume.
(b) The List of Tables and Figures will not count against the page limitations for their respective volumes.

4.2.6 <u>Glossary of Abbreviations and Acronyms</u>

(a) One glossary shall be developed for the entire proposal and provided in each volume.
(b) Glossaries do not count against the page limitations for their respective volumes.

4.2.7 <u>Electronic Copies (E-Copies)</u>

(a) General requirements
(1) Complete electronic copies of all volumes shall be submitted in Adobe Acrobat Portable Document File (.pdf) **<u>searchable text format</u>**. Complete electronic copies of Volume VI shall be submitted in both Adobe Acrobat Portable Document Files (.pdf) **<u>searchable text format</u>** and Microsoft Excel Files (.xlsx). All documents shall be submitted in a format that is not protected (password, filtered, hidden, format, structure, etc.) in a manner that would prohibit the Government from filtering, sorting, or otherwise evaluating all associated proposal information.
(2) Electronic file directory titles and organization shall reflect the titles and organization of these instructions.
(3) Electronic copies of each volume shall be compatible with the following available Government equipment and software products:
a. Adobe Acrobat
b. Windows 11
c. Microsoft Office Professional Suite
(4) Sound or video (e.g. MPEG) files shall **<u>not</u>** be embedded into the proposal files.

(b) Cost Breakdown requirements
(1) The Cost Model Workbook includes a summary of all CLINs, inclusive of FFP CLINs, subtotaled by each period within the Ordering Period (Base and Optional). The files shall not be password protected or otherwise "locked" or "hidden" to permit thorough evaluation of proposal formulas.
(2) Electronic copies of .xlsx documents must include clearly visible formulas and must not include any hidden columns or rows. Offeror's cost breakdown spreadsheets must not be password protected.

4.2.8 <u>Page Format Restrictions and Limitations</u>

4.2.8.1 <u>Page Format</u>

(a) All pages shall include an appropriate header and footer that identifies the Solicitation number, contractor name as identified in the System for Award Management (SAM) and Unique Entity Identifier (UEI) number, date, volume number and page number. Each paragraph (in addition to heading levels) shall be uniquely numbered within each Volume of the proposal. **Offerors shall provide SOW references in their proposal as applicable to facilitate evaluations and to demonstrate the Offeror's understanding of the requirement.**

(b) Text pages shall be portrait oriented. Graphics and tables may be landscape oriented if required to properly present the information.

(c) Pages shall be typed with at least single line spacing. Pages shall contain page numbers in the footer.

(d) No narrow or condensed fonts allowed. Times New Roman or Arial is required. The font size shall be no less than 12 point except for the following:

(1) The reproduced sections of the solicitation document shall be as reproduced.

(2) The font shall be no smaller than 10 point for text in tables, charts, graphs, and figures.

(3) The font for table cell, chart, graph, or figure labels shall be no smaller than 10 point.

(e) Margins on all four edges of each sheet will be at least one inch.

(f) Proprietary statements, security markings, and page numbers can fall within the defined margin area.

4.2.8.2 RESERVED

4.2.8.3 Page Limitations

(a) Page limitations shall be treated as maximums. What Counts as a Page: A page is defined as 8.5 x 11" sheet of paper (minimum of one-inch margins). Each side of a sheet counts as one page. Foldouts will be counted as the appropriate number of pages based on an 8.5 x 11" sheet. Each page shall include an appropriate header and footer identifying the Solicitation number, contractor name as listed in the SAM, the Offeror's UEI number, date, volume number and page number. If an Offeror creates an ambiguity, the Government will use its discretion in determining the page count. All material shall be contained within the page limits specified for each volume, unless otherwise stated. All appendices, charts, graphs, diagrams, tables, photographs, drawings, etc. are included in the page count.

(b) If page limits are exceeded, the excess pages will not be read or considered in the evaluation of the proposal.

4.2.8.4 Pages Counted

(a) Each page shall be counted except the following. All pages exempt from the page count shall be marked as "exempt" and may contain a page number. Pages that are marked as exempt, but the Government determines that they do not meet the requirements of an exempt page, shall not be considered, and will be treated the same as pages in excess of the page count.

(1) Cover pages
(2) Table of Contents
(3) List of Tables and Figures
(4) Glossaries
(5) Blank pages marked "Intentionally Left Blank"
(6) Labor Category Descriptions/Position Descriptions
(7) Resumes and letters of commitment
(8) Continuation of Essential Contractor Services Plan
(9) Contract Transition or Phase-In / Phase-Out Plan

4.2.8.5 Proposal Due Date Schedule: Entire Contract Proposal is due at RFP closing; See SF33 Block 9.

5. **VOLUME I - EXECUTIVE SUMMARY**

The Executive Summary is a concise narrative summary of the entire proposal, highlighting key or unique features. The executive summary will describe an overview of the organizational concept including the positioning of the MCPP project within the corporate structure, functions to be provided from the corporate entity, a discussion of critical/key subcontractors, teammates, and / or Joint Venture partners; and a description of the organizational approach to be implemented in order to fulfill the requirements of the MCPP RFP, and an organizational chart providing an overview of the organizational structure to be implemented. Offerors shall include a detailed, bulletized listing of all assumptions made in proposal development. Any summary of proposal information presented within the Executive Summary shall not be considered as meeting the requirements for any portions of other volumes of the proposal.

6. **VOLUME II - MANAGEMENT PROPOSAL**

Offerors shall provide a Management Proposal that sets forth in the most comprehensive manner, the Offeror's management approach to achieve MCPP requirements. Volume II shall specifically address:

-The Offeror's intended organizational structure to accomplish MCPP RFP / SOW requirements.

-Human Resource Management (SOW C.2.1.1). The proposal must describe how the Offeror will recruit, hire, train and retain a workforce capable of executing MCPP requirements; address staffing of the HR function including labor category and number of Human Resources personnel on site at MCSF-BI. Describe what HR support is to be provided from the corporate entity.

-Fiscal Resource Management (SOW C.2.1.2). The proposal must describe the Offeror's staffing of the finance and accounting functions, the labor category and number of finance / accounting personnel on-site at MCSF-BI, and what finance / accounting support is to be provided from the corporate entity. Of critical importance, the proposal must address the Offeror's process to provide Contract Cost and Status Reports (CCSR) per SOW C.2.1.2.2 and Section G-6, with emphasis on accurate and up-to-date Estimates at Completion (EAC) for each CPFF Task Order.

-Quality and Risk Management (SOW C.2.2). The proposal must describe how the Offeror will implement a Quality Control (QC) program to achieve MCPP requirements; the Offeror's QC staffing including the number of Quality Inspectors (QI) and Process Control Analysts (PCA), and the position of the Quality function within the proposed organizational structure.

-Production Planning and Control (PP&C) Management (SOW C.2.3). The proposal must describe how the Offeror will plan production schedules; the methods / processes to be used to achieve schedule compliance; PP&C staffing by labor category and number of personnel, and the position of the PP&C function within the organizational structure.

-Maintenance Management (SOW C.2.4). The proposal must describe the location of the Maintenance Management Office within the Offeror's organizational structure, the staffing by labor category and number of personnel, and how Maintenance Management responsibilities will be implemented within the proposed organization. Note: Technical details of the Maintenance Management function must be addressed in the USMC Technical volume as described in the instructions for that volume.

-Contract Transition - Phase-In/Phase-Out Plan (H-21). The proposal must describe how the Offeror will meet the requirements of H-21 to ensure a successful transition.

7. **VOLUME III - TECHNICAL PROPOSAL - USMC**

Offerors shall provide a USMC Technical Proposal describing how the Offeror will achieve MCPP requirements for USMC Supply and Distribution (SOW C.4), USMC Maintenance Management (SOW C.2.4) and USMC Maintenance for activities conducted at MCSF-BI in Jacksonville, FL (SOW C.3); while deployed aboard Maritime Prepositioning Ships (MPS) (SOW C.7), and at land-based prepositioning sites (SOW C.3, C.4). The Offeror will also provide a section within the USMC Technical Proposal addressing how the Offeror will accomplish MCPP requirements for Medical Materiel and equipment (SOW C.5)

7.1 <u>USMC Supply and Distribution (SOW C.4)</u>. The USMC Technical Proposal must include a comprehensive Supply and Distribution methodology. The Supply and Distribution methodology must clearly describe how the Offeror will achieve MCPP requirements in the performance of supply activities at MCSF-BI, aboard ships and at land-based prepositioning sites. At a minimum the Offeror must address the following:

-Demand Planning of Materiel Requirements
-Procurement and Sourcing
-Inventory Management
-MMC Supply Production
-Container Management
-Transportation and Distribution Management

7.2 <u>USMC Maintenance Management (SOW C.2.4)</u>. The USMC Technical Proposal must include a comprehensive Maintenance Management methodology. The Maintenance Management methodology must clearly describe how the Offeror will achieve MCPP requirements within SOW C. 2.4. At a minimum the Offeror must address the following:

-Maintenance Administration
-Records and Reporting
-Maintenance Management Training
-Publication Control
-Equipment Availability
-Preventive and Corrective Maintenance
-Maintenance Related Programs

7.3. <u>USMC Maintenance (SOW C.3, C.7)</u>. The USMC Technical Proposal must include a comprehensive Maintenance methodology. The Maintenance methodology must clearly describe how the Offeror will achieve MCPP requirements within SOW C.3 and SOW C.7. At a minimum the Offeror's Maintenance methodology must address the following:

-SL-3 Inventory and Inspection
-Limited Technical Inspections
-Preventive Maintenance Checks and Services (PMCS)
-PMCS and Corrective Maintenance (CM) of Organic Assets
-CM
-MCPP-PHIL Maintenance
-MCPP-N Maintenance
-Surge Support
-Shipboard Maintenance

7.4 <u>USMC and Medical Materiel Manning</u>. The Offeror shall provide a work breakdown structure with staffing levels by labor category for each component of the proposed organization. This work breakdown structure is in addition to and supported by the organizational structure overview required in Volume I, Executive Summary. The work breakdown structure shall correlate and provide traceability to the required Employee Qualifications provided in SOW Attachment C.2.1.1. The work breakdown structure should include Medical Materiel (SOW C.5). The work breakdown structure shall be segregated by supervisory levels, providing the proposed management to supervisor ratio and the supervisor to labor ratio for each operating location to include ashore prepositioning sites (MCPP-N and MCPP-PHIL), shipboard, and at MCSF-BI. Labor Categories shall align with the applicable Collective Bargaining Agreement and Service Contract Act. Offerors shall provide a clear naming convention for Exempt employee positions so that the intended organizational role is clear.

8. **VOLUME IV - TECHNICAL PROPOSAL - NAVY**

8.1 Navy Supply: Offerors shall describe their relevant experience and capabilities to perform the MCPP II requirements for supply chain support of Navy Civil Engineer Support Equipment (CESE), Navy containerized capability sets (CAPSETs), Navy organic assets and Navy watercraft assigned to the Maritime Prepositioning Force (MPF) Program in compliance with SOW C.6. The offeror shall submit a detailed Navy Supply Methodology that clearly describes at a minimum each of the following elements:

-Navy Supply Center (NSC)
-Facility organization and cleanliness
-Navy Warehousing
-Supply Administration
-Inventory Management and Control (Relational Supply)
-Interface/Interaction with USMC Supply effort
-Procurement Sourcing
-Disposition
-Transportation
-Distribution
-Materiel Handling Equipment support
-OGP Accountability and Serviceability
-Supply Chain Quality Control (QC)

8.2 CAPSET Production: The offeror shall describe their Navy containerized Capability Set production strategy to achieve prescribed timelines, at an acceptable level of quality and attainment for Navy Containerized assets. The Offeror shall describe their proposed partnering for container repairs. The Offeror shall submit a detailed Navy production methodology that clearly describes at a minimum each of the following elements:

-Containerized CAPSET production strategy, including surge capability and cross utilization of NSC resources to achieve prescribed timelines, at an acceptable level of quality and attainment for Navy Containerized assets. Approach includes strategy for receiving, inspecting, certifying, production, contents replenishment, inventory, serviceability and any interface or interaction with desegrated maintenance shops necessary for CAPSET maintenance
-Interface/Interaction/Coordination with multiple maintenance shops
-Container Maintenance Administration (NTCSS OMMS-NG)
-Container management procedures that identify how to record, schedule, track status, and execute all maintenance, repair, and logistics related tasks will be accomplished for container management.
-Container management approach for container refurbishment, corrosion control and repairs.
-Data processing, labeling and marking processes
-Quality Control (QC) for internal and external Capability Set production/maintenance

8.3 CESE Maintenance: The Offeror shall describe their Maintenance strategy to achieve prescribed timelines, at an acceptable level of quality for Navy CESE, including containerized capability set maintenance in support of NSC production efforts and supply chain support required from the (NSC) to support CESE maintenance. The CESE maintenance production approach, such as scheduling, prioritization, resource allocations, management, and integration of CESE maintenance production with USMC effort must include, at a minimum, the following:

-CESE maintenance afloat
-CESE COSIS
-CESE ALTS/FSB/SOUM processing
-CESE Quality Control (QC)

8.4 Watercraft Maintenance: The Offeror shall describe their maintenance strategy to achieve prescribed timelines, at an acceptable level of quality for Navy watercraft assigned to the MPF Program. The Offeror shall describe their proposed partnering for intermediate and depot level repairs. The Offeror shall submit a detailed Navy Maintenance Methodology that clearly describes at a minimum each of the following elements:

-Maintenance Requirements Package (MRP) program compliance and management, categories 1-4
-SYSALTS/FSB/SOUM processing
-Work Definition Conference (WDC) process requirements
-Master Schedule and Maintenance Model schedule management and understanding
-Subcontract strategy for organizational level maintenance (Ex., Calibration/sanitation resourcing)
-Maintenance Administration (NTCSS OMMS-NG) processes and resourcing
-Local industry partnering/sub-contracting for intermediate and depot level repairs
-Watercraft Corrosion Control and Coating systems maintenance at the organizational level
-Operations Support Team (OST)/Watercraft Berthing, Drydocking, Launching, Towing, Portage, Cross-decking and Watercraft Monitoring, Pre MAT & Post MAT
-Navy Watercraft Maintenance Center (WMC) / Preventive and Corrective Maintenance, resourcing, organization, facilities and production strategy to improve watercraft readiness
-Control Systems Support (CSS) strategy and resourcing
-Navy watercraft corrosion control maintenance in the CRF

-Maintenance Augment Team (MAT) strategy and Navy watercraft monitoring (COSIS) program approach
-Intermediate Maintenance Team (IMT) strategy
-Strategy to subcontract services combined with local industry capability to support Intermediate and Depot level watercraft repairs impacts maintenance milestones with compounding effects to on time delivery of Navy Capability Sets. The Navy technical proposal should identify solutions that maximize the efficiency and effectiveness of watercraft maintenance operations.
-Quality Control (QC) for internal and external Capability Set production/maintenance

8.5 Organic Government Property (OGP) Serviceability: The Offeror shall describe their Maintenance strategy to achieve prescribed timelines, at an acceptable level of quality for Navy owned OGP, including major Material Handling Equipment (MHE)/ Weight Handling Equipment (WHE) that is assigned to the MPF Program, addressing the following at a minimum:

-Strategy for OGE Subcontract Work
-Maintenance Administration (NTCSS OMMS-NG)
-OGE inventory management
-OGE preventive maintenance
-OGE corrective maintenance
-OGE corrosion control and coating systems maintenance, organizational, intermediate and depot level.
-Quality Control (QC), for both internal and external maintenance.
-NAVFAC P-307 program compliance

8.6 Navy Manning: The Offeror shall provide a work breakdown structure with staffing levels by labor category for each component of the proposed organization. This work breakdown structure is in addition to and supported by the organizational structure overview required in Volume I, Executive Summary. The work breakdown structure shall correlate and provide traceability to the required Employee Qualifications provided in SOW Attachment C.2.1.1. The work breakdown structure shall be segregated by supervisory levels, providing the proposed management to supervisor ratio and the supervisor to labor ratio for each operating location such as shipboard, and at MCSF-BI. Labor Categories shall align with the applicable Collective Bargaining Agreement and Service Contract Act. Offerors shall provide a clear naming convention for Exempt employee positions so that the intended organizational role is clear.

9. VOLUME V - PAST PERFORMANCE

9.1 The Offeror shall provide up to three (3) relevant and recent past performance references. Relevancy and recency are defined in Section M. Each Offeror can provide in its proposal any information regarding its (to include subcontractors) past performance of contracts similar to the Government's requirement that it would like the Government to consider. Such information may supplement what the Government has readily available, what is included in CPARS or other databases, or what the Offeror considers essential to the Government's evaluation. Offerors may also provide explanatory information regarding any substandard or poor performance and the corrective actions taken to prevent a recurrence.

Past performance may include Federal, State and Local Government and private sector contracts. If subcontractor experience is submitted for consideration as part of the proposal, the offeror should include a commitment signed by offeror and subcontractor certifying that if a contract is awarded resulting from the proposal, the parties commit to joint performance as proposed. If the signed commitment is not fully executed by both parties and provided with the Past Performance Proposal, subcontractor references will not be evaluated or considered. Affiliate companies, sister companies, teaming arrangements, joint venture agreement, etc., will be considered provided that sufficient documentation is included in the proposal. The primary offering entity must demonstrate that the affiliate will perform significant and critical aspects of the contract if awarded. Documentation includes a copy of the signed arrangement such as documented affiliation, a copy of the teaming agreement, a copy of the joint venture agreement, etc.

The Government reserves the right to verify statements and representations made in the Offeror's proposal. To obtain information, the Government may contact the points of contact listed by the Offeror; however, the Government is not required to contact the points of contact provided by the Offeror and may limit the number of references it chooses to contact. The Government may also contact references not provided by the Offeror in order to evaluate the Offeror's past performance. Offerors shall ensure that the information provided in Volume V is current and accurate, including validated phone numbers and email addresses for all points of contacts. The burden of providing thorough and complete past performance information remains with the Offeror.

Offerors should provide the following information for up to three relevant and recent past performance references:

Section 1 - Basic Past Performance Information
-Name of Past Performance Effort
-Name and Contact Information for Contracting Agency or Private Sector Company
-Name(s) and Contact Information of COR(s) and Quality Assurance Representatives, as applicable
-Contract Number
-Contract Type (COST TYPE, FFP, etc.)
-Initial Contract Value
-Total Contract Value (including all contract modifications to date)
-Period of Performance
-Role Performed (Prime Contractor, Subcontractor, etc.)
-Historical compliance with the requirements of FAR 52.218-8 (for all Offerors) and 52.219-9 (for large business offerors)

Section 2 - Relevance to Current Requirement
-Describe the work products and/or services delivered to customers under this past performance reference.
-Demonstrate the relevance by describing how this past performance correlates with the Requirements (i.e. SOW requirements) in terms of scope, magnitude, and complexity (see section M).

9.2 Past Performance Questionnaire

If there is a CPARS evaluation record available for the referenced contract, the Offeror does not need to have an assessor fill out the PPI Questionnaire (RFP Attachment #S-3). The Offeror may instead include a copy of the CPARS evaluation. If there is NOT a CPARS evaluation record available for the referenced contract, the Offerors shall fill in the relevant fields of the questionnaire (RFP Attachment #S-3) for each relevant contract and e-mail to the Government/commercial assessor within 30 calendar days after issuance of the solicitation. The Offeror shall e-mail the PPI Questionnaire Letter to all points of contact (POCs) the Offeror has listed in the Past Performance Information Sheets.

The POCs/assessors will complete the PPI Questionnaires and forward them by emailing them directly to the Contracting Officer no later than the RFP response date. Email to Timothy L. Rivers at timothy.l.rivers@usmc.mil. Respondents to the questionnaires shall not send the completed information sheets back to the Offeror. PPI Questionnaires submitted to the Government by the Offeror will not be accepted; Questionnaires must come from the POCs/assessors.

NOTE: CPARS records will not count towards the page count for this volume.

10. **VOLUME VI - COST/PRICE PROPOSAL**

The purpose of the Cost/Price Proposal volume is to include all pertinent contract and cost information.

10.1 Standard Proposal Information

(a) Provide a Table of Contents for Volume VI per ITO paragraph 4.2.5.
(b) Provide a List of Tables and Figures for Volume VI per ITO paragraph 4.2.6.
(c) Provide a Glossary of Abbreviations & Acronyms per ITO paragraph 4.2.6.

10.2 Cost/Price

In accordance with FAR 15.403-1, information other than certified cost or pricing data is required to support the reasonableness, completeness and realism of proposed costs (realism is applicable to only COST TYPE CLINS) of this requirement. The Government retains the right to request additional supporting cost information through the course of the evaluation. The cost proposal shall contain a complete and traceable description of all costs, which includes the Cost Model Workbook provided at RFP Attachment #J-7. Offerors shall provide a detailed description of the basis of the costs and shall provide all supporting data as appropriate to support reasonableness, completeness and realism. Specific instructions on how to complete the Cost Model Workbook (RFP Attachment #J-7) are provided in the workbook Tab 1 "Instructions" and in each individual Tab. Those instructions are not repeated in this section.

In addition, Offerors shall provide a narrative of all proposal assumptions and specific details associated with the respective impacts of those assumptions. An Offeror's cost/price proposal shall represent the Offeror's best efforts to respond to the solicitation. Any inconsistency between promised performance and cost shall be explained in the proposal. For example, if unique and innovative approaches are the basis for an abnormally low cost, the nature of these approaches and their impact on cost must be explained. If an Offeror proposed to absorb a portion of costs, it should explain the impact on price.

Subcontract Pricing Considerations in accordance with FAR 15.404-8. The prime contractor or proposed subcontractor(s) shall analyze costs/prices to establish reasonableness of proposed subcontract prices, and include the results and supporting documentation related to these analyses in the cost proposal. Subcontractors shall send a sanitized proposal directly to the prime offeror. The sanitized proposal shall include fully burdened labor rates for all proposed labor categories. The prime offeror shall use the information in the subcontractor's sanitized proposal to include in its cost/pricing model.

Compliance with the instructions is mandatory and failure to comply may result in rejection of the Offeror's proposal. Note that unrealistically low or high proposed costs (COST TYPE), initially or subsequently, may be grounds for eliminating a proposal from competition either on the basis that the Offeror does not understand the requirement or has made an unrealistic proposal. The burden of proof for credibility of proposed costs rests with the Offeror.

Offerors who submit uncompensated overtime shall comply with the requirements of FAR 52.237-10 Identification of Uncompensated Overtime.

10.3 Summary Descriptions and Narrative

The Offeror shall provide a summary description of their standard estimating system or methods used in the preparation of the cost proposal. The summary description shall cover separately each major cost element, e.g., Direct Labor, Indirect Labor, Other Direct Costs, etc. The Offeror shall identify any proposed cost reductions attributable to commonality with other programs, company-funded efforts or capitalization of equipment.

10.3.1 Summary and Supporting Schedules

The Offeror is required to complete Section B of the solicitation. This section shall be rounded up to the nearest whole dollar. The Offeror shall price the optional ordering period CLINs as well, although exercising of the options is at the sole discretion of the Government and not guaranteed.

10.3.2 Proposal Summary. A proposal summary shall be provided for each Contract CLIN as identified in Section B (both COST TYPE and FFP), summarized by each year within the respective ordering period utilizing the Cost Model Workbook provided at RFP Attachment #J-7.

10.3.3 Reserved.

10.4 Cost Breakout and Supporting Data by COST TYPE CLIN.

The Cost Breakout totals for each CLIN shall align with the Proposal Summary and the Cost Model Workbook provided at RFP Attachment #J-7.

For Year 1-10, the Offeror shall complete all required cost elements in the Cost Model Workbook, including labor categories, proposed hours, direct labor rates, indirect rates, profit, and Transition (CLIN 0008). The Government-provided notional organizational structure (RFP Attachment #S-2) is furnished solely to support evaluation consistency and does not prescribe staffing levels or resource allocations; but does describe the minimum total annual hours Offerors must propose for CLINs X002 and X003. Offerors may use the notional structure as a reference; however, each Offeror's proposed labor mix, FTEs, hours, and rates shall be consistent with its technical approach. All proposed values must be internally consistent and traceable to the Offeror's cost narrative.

10.4.1 Labor. The Offeror shall provide labor rates by category of labor (not employee) and number of personnel within each category. Offerors shall identify the labor/skill mix associated with the requirements as well as the required number of hours by labor category. Each category must be clearly marked as CBA, Service Contract Wage Determination, or Professional/Exempt. Offerors shall provide position/job descriptions for Professional /Exempt employees. Personnel subject to the CBA should be proposed in compliance with the CBA conditions as required by 41 U.S.C. 6707(c) (FAR 22.1002-3). Labor rates should be rounded to the nearest cent. All loading factors, such as, fringe benefits rates, applicable overhead, general and administrative rates, facility capital cost of money (if applicable) and fee, time phased from contract start to contract completion shall be provided. All employee training labor and associated training costs shall be in accordance with the Offeror's Disclosure Statement.

10.4.2 Cost Reimbursable Material, Travel and Overtime. Materials associated with FFP CLINs shall be proposed within the respective FFP CLIN. Contractor Acquired Materials shall be reimbursed on the basis of actual costs (except as provided in FAR 31.205-26(e) and (f)); the Government will provide the estimated amount of contractor acquired materials associated with maintenance that will be accounted for in CLIN X006 (Other Direct Costs) IAW DFARS 252.217-7028. Offerors shall clearly identify Material Handling costs and appropriate indirect costs allocated, which are allocable to direct materials in accordance with the Offeror's usual accounting procedures as identified in the Offeror's Disclosure Statement. Material handling includes the expenses related to acquiring, transporting, receiving, inspecting, handling and storing materials. The COST TYPE LOE CLINs X002 (CONUS) and X003 (OCONUS) provide direct labor to support these functions, therefore, Offerors who propose Material Handling indirect costs must show that the costs included in their indirect pools "clearly exclude direct labor employees" and must provide a detailed narrative and supporting calculations from their accounting system that demonstrates how direct labor employees supporting these functions are excluded from the indirect pool. The Government reserves the right to verify this during post-award audits. If the Offeror proposes indirect rates on subcontracted services, they shall comply with Section I clauses DFARS 252.215-7003 and DFARS 252.215-7004 and describe the added value (as well as the other requirements in the DFARS clauses) in their proposal. Travel will be funded by the Government on a cost reimbursable basis when required. No indirect rates or fee shall be applied to the Travel CLINs. Fee is also not permitted on Cost Reimbursable Material or Overtime.

10.4.3 Other Direct Costs. Any "Other Direct Costs" required to support the COST TYPE CLIN shall be proposed in accordance with the Offeror's Disclosure Statement. All Safety Equipment and Uniforms for all contractor employees providing services under either the FFP CLINs and COST TYPE CLINs shall be included in CLIN X006 (Other Direct Costs).

10.4.4 Indirect Cost Rates. Cost reimbursement is subject to the Indirect Rate Ceilings in accordance with Contract Section G-3 Invoicing, Vouchering, and Payment Instructions and G-8 Indirect Cost Rates.

10.4.5 Segregation of Costs by Accounting Classification Reference Number (ACRN)/Funding Sources: Each Offeror shall demonstrate the capability and explain accounting system processes associated with segregating costs by ACRN (for example, USMC and Navy ACRNs); Offerors must provide a narrative and associated sample reports for all ACRNs by month, quarter, and Fiscal Year.

10.4.6 Subcontracts. Offerors shall provide a summary chart of proposed subcontractors (exceeding $350,000) by name and provide the type of proposed subcontract (e.g., CPFF, FFP, T&M, labor hour. etc.), proposed subcontractor total value, hours, summary description of the effort to be performed by each subcontractor, contract value (breaking out cost and fee if applicable), hours, the basis for proposed pricing (competition, sole source, etc.) and a narrative as to the treatment of subcontractor costs in compliance with the current Disclosure Statement. The Offeror shall also submit a subcontractor summary that includes the estimated percentage of individual subcontractor support in terms of contract value per year as compared to the overall contract value per year. Offerors shall identify proposed subcontractor support with the basis of other than full and open competition and provide a description of the supporting rationale associated with the requirement to exclude competition and the associated analysis to support fair and reasonable pricing. Offerors shall summarize any performance or cost incentives contemplated for the subcontractors.

It is the offeror's responsibility to ensure that each subcontractor proposed to receive a cost-reimbursement subcontract has an adequate accounting system. Proposed subcontractors that do not have an accounting system determined to be adequate shall be proposed on an FFP, T&M, or labor-hour basis.

The offeror shall conduct appropriate cost or price analyses consistent with FAR 15.404-3 to establish reasonableness of **all** proposed subcontract prices and evaluation of subcontractor's role and technical support in the proposed effort and include these analyses in its cost proposal.

In some cases, the subcontractor(s) may deny the offeror access to its proprietary cost data. This does not alleviate the offeror's obligation with respect to conducting cost or price analyses and providing its analysis as part of its cost proposal. As a responsible source, the offeror will always perform a price analysis to determine that the overall subcontract price is fair and reasonable. When the offeror has been denied access to a subcontractor's records, the offeror shall provide the subcontractors' written denial and the basis of the denial to the contracting officer as part of the cost proposal with the required cost or price analyses as described in the paragraph above. The prime remains responsible for submitting a price analysis and narrative justifying why the subcontractor's overall proposed price is reasonable based on the information available to them.

For subcontractors proposed to receive a cost-reimbursement subcontract that do not wish to provide detailed cost information to the offeror, the offeror shall have the subcontractors submit its cost proposal directly to the Government using the same submission instructions included in Section L and ensure subcontractor's total proposed price is accounted for in Attachment J-7 Cost Model Workbook. It is still the offeror's responsibility to ensure that the subcontractor complies with the cost proposal submission requirements and format. Cost data provided separately by a subcontractor must be received by the time and date specified for receipt of the offeror's proposal.

10.4.7 Fee Structure. The offeror shall identify the fee rate, the total fee proposed by CLIN, and the various cost elements for which fee is applied (applicable to the CPFF CLINs only). The limitations of FAR 15.404-8, FAR 16.304, and DFARS 216.304 apply to any proposed fee. The maximum total fee shall not exceed 10 percent of the estimated cost, excluding fee and Facilities Capital Cost of Money (FCCOM).

10.4.8 Substantiating Information for Cost Realism

To support the cost analysis of the CPFF line items, the offeror and all subcontractors proposed to receive cost-type subcontracts must provide information on the direct and indirect costs and/or rates (paragraphs i through iii below) they believe necessary to perform the work and used to estimate the cost of performance for CPFF CLINs. If applicable, the Offeror must provide copies of its Forward Pricing Rate Agreement(s) (FPRA) or Forward Pricing Rate Recommendation (FPRR), or any Forward Pricing Rate Proposal (FPRP) (including the transmittal letter) used for this proposal and copies of DCAA or DCMA responses to those submissions. The Offeror must provide an explanation of extent that DCMA FPRA/FPRR or other Government accepted indirect rates were utilized, and explain any differences between FPRA/FPRR and proposed rates, if any. If there is an update to the agreement, recommendation, or proposed rates during the evaluation period, the Offeror must provide the update.

Supporting Cost Information/Documentation

The offeror and all subcontractors shall provide a cost methodology with a summary description of how it arrived at these estimates used to develop its cost proposal. For all subcontracts, the prime shall provide an explanation of how it determined the subcontractor's price fair and reasonable. For all non-fixed price line items this explanation shall provide sufficient information to permit a cost realism analysis. A detailed explanation is required if the offeror uses rates lower than incurred rates in its estimate and is required if other costs appear to be low for the level of work required. The offeror is encouraged to provide enough substantiating information, as necessary, to demonstrate the realism of its proposed cost. Providing substantiating information, without demonstrating its relevance, may indicate that the offeror lacks an understanding of the costs involved in performing the solicitation's requirements, which would indicate cost and/or performance risks.

i. Direct Labor Rates

For all positions, the offeror must disclose and explain the accounting method used to calculate the proposed direct productive per person (DPPH) hours (e.g. 1,920, 2,080, etc.) used in their cost estimate.

For Professional / Exempt positions:

Acceptable documentation to support cost realism evaluation includes the following (required for CPFF and CR line items only):

a. Payroll data (if proposing current, named employees). Offerors may submit Payroll data in Adobe Acrobat .pdf format.

b. Labor Category Averages. If labor category averages proposed are consistent with the offeror's accounting practice and approved by DCAA, the offeror shall provide a detailed narrative and include the calculations used to establish the category average.

c. Signed Letter of Intent that indicates agreed upon annual salary and proposed start date (if proposing named, new hire). Offeror may submit in Adobe Acrobat .pdf format.

d. Current fiscal year FPRA, FPRR, or similar approved rate documentation on file with DCMA or DCAA (to be submitted with Business System Approvals and Direct/Indirect Rate Information section).

For proposed labor rates lacking the above documentation, offerors shall provide a detailed, comprehensive description of the methodology used to establish the proposed direct rate. The description shall include both the source where the rate was obtained and a description of how the resulting rate was calculated. Merely stating or referencing the source(s) is not sufficient. The offeror shall include a detailed description that includes the recognized national/regional compensation surveys and studies of professional, public, and private organizations used in establishing the total compensation structure. Recognized compensation surveys are defined as those which are publicly available for purchase, updated regularly, and provide data segmented by geographic location, industry, and job function. The Offeror must provide the name of the survey, the data cut (e.g., date, region, percentile), and the specific job mapping used. Offerors that propose weighted or blended rates to account for the contract period of performance crossing the offeror's fiscal year must include a worksheet showing the computation of the rates.

For proposed labor rates that are not covered by an FPRA, FPRR, or FPRP, offerors must provide sufficient data to provide a basis for evaluating the reasonableness of the proposed direct labor rates. This may include payroll reports, salary surveys or any other data to substantiate the proposed rates. If the offeror proposes labor rates based upon salary survey, it must provide the survey data and demonstrate how the survey salaries reflect and align to the offeror's actual salary structure or pay setting practices for similar labor categories. Additionally, the offeror must indicate how many of its existing personnel it intends to employ for this effort and what their actual salaries are, if applicable.

For SCA-Wage Determination-covered Positions:

For each SCA wage determination-covered labor category, provide a clear mapping of the offeror's proposed labor categories to the specific job classifications listed in the applicable Wage Determination. State the basis for the proposed direct labor rate. This should specify if the rate is based on the WD minimum, current average rates for incumbent staff, market data, or a corporate salary structure. If proposing a current, named employee, provide verified payroll data (redacted for PII) showing the actual labor rates currently being paid for SCA-covered positions. Provide a detailed breakdown of how the proposed fringe benefit costs for SCA employees are calculated and how they comply with the WD's Health & Welfare (H&W) requirements.

For CBA-covered Positions:

The offeror shall provide a clear mapping of their proposed labor categories to the job classifications specified in the provided CBA. The proposal shall clearly demonstrate how all CBA-mandated wage escalations for the entire period of performance have been factored into the proposed costs. If the applicable CBA will expire during the contract's period of performance, the offeror shall describe their assumptions and methodology for forecasting rates beyond the CBA's expiration date.

ii. Direct Labor Escalation

The offeror and subcontractors, as applicable, shall provide a comprehensive description of the methodology and calculation used to establish the proposed escalation rate for each year (if applicable) for the Professional/Exempt employees, including the source (e.g. FPRA, FPRR, historical, Global Insight). Rationale shall include detailed offeror historical rate information for the last three (3) fiscal years, and any other relevant information. Offerors proposing lower direct labor escalation rates in the outyears risk a cost realism adjustment (CPFF line items only) or a determination that pricing is unbalanced (FFP line items) if the rationale is insufficient and the lower rates are determined to be unrealistically low. Simply stating that the proposed escalation is what has "always been used" or another statement to that effect is not sufficient. NOTE: Escalation /inflation for Service Contract and CBA personnel will be accomplished by negotiation and modification of the contract each time a new wage determination is incorporated into the contract in accordance with FAR 52.222-43 Fair Labor Standards Act and Service Contract Labor Standards-Price Adjustment (Multiple Year and Option Contracts).

iii. Indirect Rates

For CPFF and CR line items submit current fiscal year FPRA, FPRR, provisional billing rates (PBR) or similar approved rate documentation on file with DCMA or DCAA.

If the above listed approved rate documentation is not available from DCMA or DCAA or does not exist to support proposed indirect rates, the offeror shall submit historical indirect data, to include actual incurred rates, annual incurred cost claims (if submitted), and provisional rates for the three (3) fiscal years prior to the offeror's current fiscal year.

If a proposed indirect rate (for any year in the ordering period(s)) is more than 25% below the three-year historical actual incurred average, offerors (and subcontractors) shall provide a supporting narrative describing the basis for the discrepancy between the historical information and proposed rate. For example, where the three-year historical actual incurred average is 30%, a proposed rate below 22.5% would require a supporting narrative. Information provided shall be consistent with the offeror's disclosed accounting practices and shall identify how the rates were derived. Offerors shall identify the basis for the various cost elements for which each rate is applied. The offeror must clearly explain and demonstrate the application of each rate. Offerors that propose weighted or blended rates to account for the contract period of performance crossing the offeror's fiscal year must include a worksheet showing the computation of the blended rate.

For proposed rates that are not covered by an FPRA, FPRR, or FPRP, offerors must provide sufficient data to provide a basis for evaluating the reasonableness of the proposed rates. The proposal must state how the offeror computed and applied the indirect costs, and include cost breakdowns, forecasts, trends, budget data, and any other relevant data to support the proposed indirect costs. The offeror must submit, for each indirect rate, year-end pool and base amounts for the last three completed fiscal years. The offeror must include forecasts, trends, budget data, and any other relevant data to support the proposed indirect costs. If the offeror does not elect to claim facilities capital cost of money (FCCOM) in its proposal, it will be considered an unallowable cost if included in the contract billings.

a. Fringe Benefits: In accordance with the offeror's normal accounting practice, the offeror shall identify the current and projected fringe benefit rate (s) proposed and identify the cost elements for which the fringe benefit rate is applied.

b. Labor Overhead: In accordance with the offeror's normal accounting practice, the offeror shall identify the current and projected labor overhead rate(s) and total labor overhead cost proposed and identify the cost elements for which labor overhead is applied. For cost proposal purposes only, offerors shall assume 100% of the effort will be performed at a Government's site.

c. General and Administrative (G&A): In accordance with the offeror's normal accounting practice, the offeror shall identify the current and projected G&A rate(s) and the total G&A cost proposed and identify the various cost elements for which the G&A rate is applied.

d. Material & Subcontractor (M&S) Handling: In accordance with the offeror's normal accounting practice, the offeror shall identify the current and projected M&S Handling rate and the total M&S Handling cost proposed and identify the various cost elements for which the M&S Handling rate is applied.

e. Facilities Capital Cost of Money (FCCOM): If FCCOM is proposed, the offeror shall submit a completed DD Form 1861, Contract Facilities Capital Cost of Money, and include documentation supporting the computations within the form. If the offeror does not propose this cost, the resulting task order will include FAR clause 52.215-17 Waiver of Facilities Capital Cost of Money.

10.5 Other Information

The Offeror, and any subcontractors proposed to receive cost-reimbursement subcontracts, shall provide the following information:

(a) Company Organization. The Offeror shall identify the name, title, telephone number, facsimile number, and e-mail address of the individual responsible for proposal clarifications and authorized to obligate the Offeror contractually. The Offeror shall also identify those individuals authorized to negotiate with the Government.

(b) Defense Contract Audit Agency (DCAA). The Offeror shall identify the cognizant DCAA field office that has oversight to the Offeror's organization. Provide the name, title, address, telephone number, and e-mail address.

(c) Defense Contract Management Agency (DCMA). The Offeror shall identify the cognizant DCMA field office and Administrative Contracting Officer that has oversight to the Offeror's organization. Provide the name, title, address, telephone number, and e-mail address.

(d) Disclosure Statement/Cost Accounting Standards (CAS). Offerors shall provide a copy of their current Disclosure Statement, as well as identification of compliance with CAS, if applicable and any CAS violations and subsequent corrections. Offerors shall clearly identify and discuss any RFP requirements that do not align with their Disclosure Statement.

(e) Estimating and Accounting System(s). Cost-reimbursement contracts can only be used when the contractor's accounting system can adequately segregate, accumulate and allocate costs specifically attributed to the contract or order during contract performance. Offerors shall provide evidence of Government (DCMA) approval of their Estimating and Accounting Systems in accordance with DFARS 252.242-7005 Contractor Business Systems, which complies with the Disclosure Statement. The Offeror must describe their process for estimating and accruing labor, overtime, materials/subcontracts, and travel.

(f) Purchasing System. Offerors shall provide documentation of DCMA approved purchasing system in compliance with DFARS 252.244-7001 Contractor Purchasing System Administration, which complies with the Disclosure Statement. In addition, the Offeror shall describe their process for control costs associated with materials and subcontracts to attain the best value for the required quality; the Offeror must describe the proposed process for submission of proposed pricing to the Government for approval, to include the information which will be submitted to substantiate the proposed pricing as fair and reasonable. Offerors shall describe their process for conducting DLA research to conduct Government system purchases in lieu of open/commercial market purchases. Offerors must describe their processes associated with the management of reoccurring subcontract services to ensure competition. Offerors shall describe their ability and proposed process to share information related to open market/commercial purchases with the Government on a near real-time basis.

(g) Contractor Utilization of Business Systems. The Offeror shall provide a narrative which discusses the proposed use of Contractor Business Systems (Estimating, Accounting, Purchasing, Material Management, and Property Management), to also include Microsoft Project, to develop Planned Value, Earned Value, and Actual Cost reporting and Estimate At Completion (EAC) Projections associated with the USMC and Navy ACRNs and individual Task Orders.

10.5.1 Transition Pricing (FFP). The Offeror shall propose a single Firm Fixed Price (FFP) for all transition activities required by H-21. The Offeror shall clearly identify:
-The proposed Firm Fixed Price for transition
-Any assumptions used in developing the transition price (including CAC and travel for OCONUS personnel)
-A description of the elements that make up the proposed transition price. The Government is not asking for a cost breakdown, but rather high level detail such as total price for labor, total price for any travel, total price for ODCs and/or any other items required for transition. This information will help in the fair and reasonable determination for this CLIN.

The Transition will be included in the Total Evaluated Price (TEP). The Offeror's proposed FFP for transition will be evaluated for fair and reasonable pricing in accordance with FAR 15.404 1, as described in Section M.

11. **VOLUME VII - SMALL BUSINESS PARTICIPATION PLAN AND SUBCONTRACTING PLAN**

This acquisition will require the successful Offeror to comply with various regulations that promote small business & other small business socioeconomic goals. These socio-economic regulations flow down to any subcontractor working under the successful Offeror. The goals for this acquisition are provided below:

-Small Business Concerns 30%
-Small Disadvantaged Business 5%
-Woman-Owned 5%
-HUBZone 3%
-Service-Disabled Veteran-Owned 3%
-Veteran-Owned Small Business 3%

Both the Small Business Participation Plan and the Small Business Subcontracting Plan requirements are detailed below. These are two (2) separate Plans.

Small Business Participation Plan: All Offerors (regardless of business size) are required to submit a Small Business Participation Plan discussing the extent of participation of small businesses (SB) concerns and small disadvantaged business (SDB) concerns in performance of this contract (as a small business prime and/or small business subcontractors). This Plan is an evaluation Factor (Factor 6). Small Business Participation Plans are evaluated in accordance with the criteria found in DFARS 215.104-70.

Small Business Subcontracting Plan: Only "Other than Small" Businesses are required to submit a Small Business Subcontracting Plan. Small Businesses are NOT required to submit a Small Business Subcontracting Plan. Small Business Subcontracting Plans are NOT part of an evaluation Factor but rather reviewed for compliance with FAR 52.219-9 Alt II.

It is noted that while these two plans are separate, they shall be consistent in terms of the small business and other socio-economic small business goals and values an Offeror is proposing to utilize.

11.1 Small Business Participation

The Offeror will address the following areas in their Small Business Participation Proposal:

11.1.1 Identify each small business firm that will participate in the execution of this contract, including any socio-economic category they also qualify under. State what role they will play in the performance of this contract (e.g., prime contractor, subcontractor, joint venture, teaming arrangement etc.). State what percentage of total estimated contract value each business will perform. In order to be found Acceptable, Offerors must propose to meet at a minimum, the Small business and socio-economic goals in section 11 above.

11.1.2 Describe your commitment to using these firms during performance.

11.1.3 Describe the complexity and variety of work to be performed by each small business. Description of the type of work to be performed needs to align with SOW sections.

11.2 Small Business Subcontracting Plan

All business identified as "Other than Small" are required to provide a Small Business Subcontracting Plan IAW FAR 52.219-9 Alt II, to include addressing all of the elements required of FAR 52.219-9 Paragraph (d).

11.2.1 Subcontracting Plan Format Offerors are encouraged to read FAR 19.206-2, 19.206-3, 52.219-9 ALT II, DFARS 219.109, 219.206, and 252.219-7003. The contractor shall use the format required in 52.219-9 ALT II.

12. **VOLUME VIII - PROPOSAL DOCUMENTATION**

12.1 Solicitation Submission

The purpose of this section is to provide information to the Government for preparing the contract document and supporting file.

12.1.1 Required Documents

Cover Letter: A cover letter must be included with the following information provided:
(i) Solicitation Number;
(ii) The name, address, Unique Entity Identifier (UEI), CAGE code, Tax Identification Number (TIN) and telephone number of the Offeror;
(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the RFP and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;
(iv) Names, titles, emails, and telephone numbers of persons authorized to negotiate on the offeror's behalf with the Government in connection with this RFP;
(v) Name, title, and signature of person authorized to sign the proposal.
(vi) Proposal Expiration Date: The Offeror agrees to hold the prices in its offer firm for 365 Calendar days from the date specified for receipt of offers in block 9 of SF 33.

Signed SF 33 & Amendments: The Offeror shall complete, sign, and submit Standard Form (SF) 33 (Uniform Contract Format) Section A. An official having the authority to bind the Offeror contractually must sign the SF33 and all SF30 amendments in accordance with FAR 4.102. The original copy of the SF33 and SF30s must bear an original signature.

DD254 Form: Offerors shall complete and submit DD 254 (RFP Attachment #J-4) at time of proposal. The Offeror shall possess the required facility security clearance at time of proposal submission. The Government will not sponsor a security clearance. Failure of an Offeror to possess a facility security clearance at time of proposal submission will render the proposal ineligible for contract award.

Representations and Certifications - Complete your representations and certifications in the System for Award Management (SAM). Ensure all representations and certifications included in this solicitation are completed in SAM. If any representations and certifications included in this solicitation are not available in SAM, submit your representations and certifications in Volume VIII in addition to certifying that all other representations and certifications have been completed in SAM.

Organizational Conflict of Interest (OCI) (see FAR 2.101) - Disclose any potential or actual OCIs that your company (to include subcontractors and any other teaming partners) may have with the requirements of the SOW/solicitation. Include a description of the OCI(s) and the action(s) taken, if any, to avoid, mitigate, or neutralize the OCIs. A negative response is required.

12.1.2 Exceptions to Terms and Conditions

Offerors are advised that taking any exception to any of the requirements specified in this solicitation may result in their proposal being found unacceptable. Clarification of Government requirements should be handled by submitting a question/recommended change prior to the proposal due date. If the Offeror still finds it necessary to take exception to any of the requirements specified in this solicitation, clearly indicate each exception along with a complete explanation of why the exception was taken and what benefit accrues to the Government. All exceptions to the solicitation requirements (Sections A through M), to include the SOW and supporting rationale shall be identified as such and consolidated into the solicitation exception section. This section is only required if the Offeror takes exception to any requirement in the solicitation. This section will not be included in the proposal page limitation described above. In the event the Offeror takes no exception to the stated requirements, a statement to this effect shall be included in the subject volume.

This information shall be provided in the format and content listed below in Table 12.1.

Solicitation Document	**Paragraph/Page**	**Requirement/Portion**	**Rationale**
Contract Clause, RFP paragraph, Solicitation Submission, ITO, etc.	Applicable Page and Paragraph Numbers	Identify the requirement or portion to which exception is taken	Justify why the requirement will not be met.

13. Reserved

14. **Plan Submissions**

14.1 Mission-Essential Contractor Services Plan - The Offeror shall provide with its offer a written plan describing how it will continue to perform the essential contractor services (all CLINs under this contract), during periods of crisis IAW DFARS 252.237-7023.
