

**JUSTIFICATION FOR SOLE SOURCE  
(Simplified Procedures - MPT to ≤ SAT)**

**Purchase Request/Document number:** *1301353702-N6659626PR00027*

The supplies or services described herein are being solicited on a *sole source* basis and competition is precluded in accordance with *FAR 12.102(a)* for reasons indicated below. There are no substitutes available for the supplies or services.

**Restricted to the following source.**

☒ **Service:**

|                    |                            |
|--------------------|----------------------------|
| <b>Contractor:</b> | <i>The MathWorks, Inc.</i> |
| <b>Cage Code:</b>  | <i>0C524 / 13-1142747</i>  |

☐ **Supply:**

|                                                                                                            |  |
|------------------------------------------------------------------------------------------------------------|--|
| <b>Original Manufacturer Name:</b>                                                                         |  |
| <input type="checkbox"/> Check here if obtaining product through authorized resellers of the manufacturer. |  |

**Description of the supplies or services required, the estimated price/cost, and required delivery date or period of performance.**

*Naval Submarine Medical Research Laboratory (NSMRL) requires renewal of (13) MATLAB customized licenses.*

*MATLAB Software Maintenance Service Renewal*

*Master License No.: 30718021*

*License No.(s): 40611965, 40704148, 41164379, 41164380, 606953, 606954, 718021, 906381, 972769*

*MATLAB Software Maintenance Service Renewal*

*Master License No: 31337887*

*License No.(s): 40831381, 40831382, 40918413, 40918414*

*Required Delivery Date:* *Prior to 01 July 2026*

*In conclusion, the requested supplies or services represent the minimum requirements of the government.*

**Describe in detail why only this source(s) can furnish the requirements to the exclusion of other sources.**

*The Naval Submarine Medical Research Laboratory (NSMRL) executes critical research on behalf of the Navy, delivering evidence-based solutions to the submarine fleet by investigating areas of undersea human factors, underwater biological effects, sensory sciences, and operational medicine. To achieve these mission objectives, NSMRL requires a robust, high-fidelity platform to ensure the accuracy, integrity, and objective analysis of collected data. This requirement is for the renewal and maintenance of existing data analysis software licenses, specifically MATLAB.*

*The MathWorks, Inc. (CAGE 0C524) is a large business and the Original Equipment Manufacturer (OEM) and the sole proprietor of MATLAB software. All software licenses and associated technical support are exclusively managed and serviced by MathWorks.*

*The requested data analysis software maintenance/renewal service is specifically performed and manufactured by The MathWorks, Inc. MATLAB has been deeply integrated into earlier and ongoing phases of critical research at NSMRL and its associated partners. To maintain the accuracy, integrity, and continuity of research data, an exact product match is mandatory. Transitioning to an alternative platform would disrupt ongoing testing processes and compromise data validity. Because MATLAB is proprietary to MathWorks, and MathWorks is the exclusive provider of its license management and technical support, no other vendor can fulfill this requirement. Therefore, to meet mission objectives and sustain ongoing research, this software renewal and maintenance service must be restricted to MathWorks, Inc. as a sole-source procurement. Therefore, based on the statements listed herein, the software renewal service must be restricted to one Sole Source only.*

☒ **The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.**

*NSMRL currently utilizes MATLAB and its associated Toolboxes as the standard analytical engine across approximately 15 research projects and numerous external collaborative sites to ensure consistent data collection and analysis protocols. The requested renewal service is required to maintain the form, fit, and function of this existing infrastructure by providing critical patches, version updates, and license-specific technical support that only the OEM can deliver. Because all ongoing research is platform-dependent, this service is essential for coordinating license reassignments and ensuring the technical continuity of data integrity across all Naval submarine research initiatives.*

☒ **A patent, copyright or proprietary data limits competition.**

*The MathWorks, Inc. owns and maintains the proprietary data for MATLAB and associated Toolboxes. The MATLAB software and associated Toolboxes are protected by numerous U.S. and international patents (see [mathworks.com/patents](http://mathworks.com/patents) for full list).*

☒ **These are "direct replacement" parts/components for existing equipment.**

**Other information to support a sole source action:**

Competition for this procurement is strictly limited by intellectual property rights.

---

#### **TECHNICAL/REQUIREMENTS CERTIFICATION:**

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS <SOLE SOURCE OR BRAND NAME> JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
