DRAFT

1.0 Program Structure and Objective

The government plans to award a single Indefinite Delivery Indefinite Quantity (IDIQ) contract for the KC-135 Center Console Refresh (CCR) program to address obsolescence and enhance long-term sustainability, the USAF is seeking an integrated flight deck solution that replaces the Fuel System (FS), Flight Display System (FDS), and Integrated Processing Cabinet (IPC). The new solution must improve supportability, maintainability, and offer growth potential. The program scope also includes the addition of autothrottle systems. As configured today, the line-replaceable units (LRUs) that make up each of these systems are outlined in Table 1 below. Descriptions of these systems can be found in the KC-135 Center Console Refresh System Requirements Document (SRD), Attachment 2.

Table 1: KC-135 CCR LRUs

Flight Display System (FDS)	Fuel System (FS)	Integrated Processing Cabinet (IPC)	Autothrottle
• Multi-Function Displays (MFD) • Control Display Units (CDU)	• Integrated Fuel Management Panel (IFMP) • Fuel Management Advisory Computer (FMAC) • Tank Interface Unit (TIU)	• Common Computing Module (CCM) • Input/Output Concentrator (IOC) • Power Environmental Module (PEM) • Digital Switching Module (DSM)	• *Proposed solution dependent

The government desires a modernized solution for the KC-135 that retains or improves the functions and capabilities of the aging parts and components that are replaced.

The Government plans to award a single Indefinite Delivery/Indefinite Quantity (ID/IQ) contract as a result of this solicitation. Award will be made on the basis of “best value” and may utilize tradeoff source selection procedures in accordance with (IAW) Department of Defense (DoD) Source Selection Procedures. If used, the tradeoffs will be made only between Subfactor 2, technical risk, past performance, and price among those Offerors who have been determined technically acceptable in Factor 1, Subfactors 1, 3 and 4. Award will be made to the Offeror that provides the best value to the Government IAW Section M, Evaluation Factors for Award over the entire period of performance (PoP). The Government intends to award without discussions but reserves the right to conduct discussions if necessary.

1.1 Budget/Funding Information

Funding will be obligated on individual orders, as required, for the Cost-Plus Incentive Fee (CPIF) and Firm Fixed Price (FFP) Contract Line-Item Numbers (CLINs) established in the basic contract, as well as the Cost Reimbursable (CR) for Travel.

1.2 Facility Clearance Information

The Offeror, and subcontractors working classified requirements with access to classified information, must possess, prior to award, a final facility clearance equal to the highest classification specification (DD Form 254)

attached to this solicitation. The Industrial Security Facilities Database (ISFD) will be used to verify final facility clearances prior to award. Offerors who do not have a final facility clearance equal to the highest classification specification (DD Form 254) attached to this solicitation in the ISFD database one business day prior to the Source Selection Authority Decision Brief will be considered non-responsive and will not be eligible for award. Any determination that an Offeror is non-responsive will be IAW FAR Part 9.

1.2.1 COMSEC

Proscribed Classified COMSEC Information Notice to Offerors and any and all subcontractors: Proscribed classified COMSEC information may be involved in this effort. Therefore, US companies operating under Foreign Ownership, Control or Influence (FOCI) as defined in the National Industrial Security Program Operating Manual (NISPOM) with a Special Security Agreement as the mitigation instrument are on notice that a National Interest Determination (NID) will be required. The NID decision will be made by the Government and documented prior to award of the contract. The Government is not obligated to delay contract award in order to complete the NID process. If the NID is denied, the contractor will be determined non-responsive and will not be eligible for award. Any determination that an Offeror is non-responsive will be in accordance with FAR Part 9. Reference Addendum to FAR 52.212- 1, paragraph 6.3.6.3. if the Offeror intends to subcontract classified COMSEC work.

1.3 Contractor Technical Proposal

All or parts of the Contractor's Technical Proposal may be added to the contract. Should there be any discrepancies between the Technical Proposal and the Statement of Work (SOW), the SOW will take precedence unless otherwise approved by the Procuring Activity.

2.0 General Instructions

This section of the Instructions to Offerors (ITO) provides general guidance for preparing proposals as well as specific instructions on the format and content of the proposal. The Offeror's proposal must include all data and information requested by the ITO and must be submitted in accordance with these instructions. Any Offeror who submits an incomplete package may be considered non-responsive to the solicitation and therefore ineligible for award. The offer shall be compliant with the requirements as stated in the Statement of Work (SOW) and appendices. Non-conformance with the instructions provided in the ITO may result in an unfavorable proposal evaluation.

The proposal shall be clear, concise, and include sufficient detail for effective evaluation and for substantiating the validity of stated claims. The proposal shall not simply rephrase or restate the government's requirements but rather shall provide convincing rationale to address how the Offeror intends to meet these requirements. Offerors shall assume that the government has no prior knowledge of their facilities and experience and shall base its evaluation on the information presented in the Offeror's proposal.

Elaborate brochures, documentation, binding, detailed artwork, or other embellishments are unnecessary and are not desired.

The proposal acceptance period is specified in Section A of the model contract/solicitation. The Offeror shall make a clear statement in Section A of the proposal documentation volume that the proposal is valid until this date.

In accordance with FAR Subpart 4.8 (Government Contract Files), the government will retain one copy of all unsuccessful proposals.

All, or parts of the Offeror's technical proposal will be added to the contract. Should there be any discrepancies between the technical proposal and the SOW or Systems Requirement Document (SRD), the SOW and SRD will take precedence unless otherwise approved by the requiring activity.

3.0 General Information

3.1 Point of Contact

The Procuring Contracting Officer (PCO) is the **sole** point of contact for this acquisition. Address any questions or concerns you may have to the PCO. Written requests for clarification may be sent to the PCO at the address located in Section A of the model contract/solicitation.

3.2 Debriefings

The PCO will promptly notify offerors of any decision to exclude them from the competitive range, whereupon they may request and receive a debriefing in accordance with FAR 15.505. Offerors excluded from the competitive range may request a pre-award debriefing or they may choose to wait until after the source selection decision to request a post-award debriefing. However, offerors excluded from the competitive range are entitled to no more than one debriefing for each proposal. The PCO will notify unsuccessful offerors in accordance with FAR 15.503. Upon such notification, unsuccessful offerors may request and receive a debriefing. Offerors desiring a debriefing must make their request in accordance with the requirements of FAR 15.505 or 15.506, as applicable.

3.3 Discrepancies

If an Offeror believes that the requirements in these instructions contain an error, omission, or are otherwise unsound, the Offeror shall immediately notify the PCO in writing with supporting rationale as well as the remedies the Offeror is asking the PCO to consider as related to the mission or error. The Offeror is reminded that the government reserves the right to award this effort based on the initial proposal, as received, without discussions. This reservation includes matters of additional or substitute pages of the initial proposal.

3.4 Electronic Reference Documents

All referenced documents for this solicitation are available on the System for Award Management (SAM) website at <https://www.sam.gov>. Potential offerors are encouraged to subscribe for real-time e-mail notifications when information has been posted to the website for this solicitation.

3.5 Amendments to Solicitation

If this Request for Proposal (RFP) is amended, all terms and conditions that are not amended remain unchanged and in full force and effect. Offerors shall acknowledge receipt of any amendment and provide confirmation upon submission of the Offeror's proposal. Any unacknowledged amendments in the Offeror's proposal will render the proposal ineligible for award.

3.6 Submission, Modification, Revision, and Withdrawal of Proposals

Proposal packages shall be transmitted to the Solicitation PCO via the Solicitation Module of the Procurement Integrated Enterprise Environment (PIEE) (<https://piee.eb.mil>). No other submission method, such as mail, hand carried, or other electronic system (e.g. DoDSAFE) are authorized by the solicitation unless specifically authorized by the PCO pursuant to paragraph 3.11 below. Detailed submittal instructions are located in ITO paragraph 3.11 and 3.12.

3.7 Communications

Exchanges of source selection information between Government and offerors will be controlled by the PCO. E-mail (encrypted when possible or with password protected attachments) may be used to transmit such information to offerors and shall include “Source Selection Information – See FAR 2.101 & 3.104 – CONTROLLED UNCLASSIFIED INFORMATION” in the subject line.

3.8 Organization/Number of Copies/Page Limits

3.8.1 Title Pages

The title page of each volume shall contain the solicitation number, name, address, and telephone and facsimile numbers of the Offeror and electronic e-mail address if available.

3.8.2 Team List

A team list of the Offeror’s primary point of contacts shall be submitted in each volume using the format shown in Attachment 2 of the ITO. The Offeror shall prepare the proposal as set forth in the Proposal Organization Table (Table 2 below). The titles and contents of the volumes shall be as defined in this table, all of which shall be within the required page limits and with the number of electronic copies as specified in Table 2. Each Volume identified in Table 2 below shall be submitted as a distinct electronic file and uploaded to DoD SAFE as described in paragraph 3.6. and 3.11. The contents of each proposal volume are described in the ITO paragraph as noted in the table below.

Table 2: Proposal Organization Table

Volume	ITO Paragraph Number	Volume Title	Electronic Copies	Page Limit
I	4.0	Technical	1	75
	3.8.1	Title Page (Not included in 75-page limit)		1
	3.8.2	Team List (see ITO Attachment 2.0) (Not included in 75-page limit)		5
	3.8.8 4.2.2	Table of Contents (Not included in 75-page limit) Volume Organization		Unlimited
	3.8.8	List of Tables, Drawings, and Figures (Not included in 75-page limit)		Unlimited
	3.8.9	Glossary of Abbreviations and Acronyms (Not included in 75-page limit)		Unlimited

	3.8.6	Cross Reference Matrix (See Table 3) (Not included in the 75-page limit)		Unlimited
	4.2.3 4.2.4 4.2.5 4.2.6	Subfactor 1 Technical Solution Subfactor 2 Objective Requirements & Exceedances of Threshold Requirements Subfactor 3 Data Rights Subfactor 4 Schedule		Included as part of the 75-page limit
	5.0	Technical Risk		Included as part of the 75-page limit
II	6.0	Past Performance	1	Unlimited
	3.8.1	Title Page		1
	3.8.2	Team List (See ITO Attachment 2.0)		5
	3.8.6	Cross Reference Matrix (See Table 3) (Not included in the 75-page limit)		Unlimited
	6.3.1	Past Performance Information Forms (PPIF) (See ITO Attachment 1.1)		N/A
	6.1.1	Consent Letter (See ITO Attachment 1.4)		Unlimited
	6.1.2	Client Authorization Letters (See ITO Attachment 1.5)		Unlimited
	6.1.3	Commitment to Perform as Proposed Letter (See ITO Attachment 1.6)		Unlimited
	6.2	Present/Past Performance Questionnaires (See ITO Attachment 1.2)		Not included in the Offeror's Proposal
	6.3.1	Relevant Contract Narrative		Request Max 5 pages per contract
	6.3.2	Organizational Structure Change History		2
III	7.0	Price	1	Unlimited
	7.1	General Information		Unlimited
	3.8.6	Cross Reference Matrix (See Table 3) (Not included in the 75-page limit)		Unlimited
	7.4	Volume Organization		Unlimited
IV	8.0	Contract Documentation	1	Unlimited
	3.8.1	Title Page (SF33)		1
	3.8.2	Team List (see ITO Attachment 2.0)		5
	3.8.8. 4.2.2	Table of Contents Volume Organization		Unlimited
	3.8.8	List of Tables, Figures, and Drawings		Unlimited
	3.3.8.9	Glossary of Abbreviations and Acronyms		Unlimited
	3.8.6	Cross Reference Matrix (See Table 3) (Not included in the 75-page limit)		Unlimited
	8.1	Model Contract (Sections A-J)		N/A
	8.5	Representations and Certifications (Section K)		N/A

	9.2-9.4	Contact Information		Unlimited
	9.5	Attachments to the Model Contract		Unlimited

3.8.3 Names

Offerors shall submit volumes with the following file names: Volume I – Technical.doc or .docx, Volume II – Past Performance.doc or .docx, Volume III – Price.doc or .docx with PricingMatrix.xlsx, and Volume IV – Contract.doc or docx. Files provided in .pdf format are also acceptable if conversion is made from a Word document or equivalent Word processing software while maintaining searchable text.

3.8.4 Page Limitations

Page limitations shall be treated as maximums. If exceeded, the excess pages will not be considered in the evaluation of the proposal. Page limitations may also be placed on responses to Evaluation Notices (ENs). The specified page limits for EN responses will be identified in the letters forwarding the ENs to the offerors. Each page shall be counted except the following: blank pages, title pages, tables of contents, tabs, indexes, glossaries, and those noted in the Proposed Organization Chart as unlimited.

3.8.5 Pricing Information

All pricing information shall be addressed ONLY in the Price Proposal and Contract Documentation volumes (Volumes III and IV). Price Trade-Off information, work-hour estimates, and material kinds and quantities may be used in other volumes only as appropriate for presenting rationale for alternatives or design and Trade-Off decisions.

3.8.6 Cross Referencing

The technical volume shall be written on a stand-alone basis so that its contents may be evaluated without cross-referencing to other volumes of the proposal. Information required for the technical proposal evaluation, which is not found in the technical volume, will be assumed to have been omitted from the proposal, and will not be considered in the technical evaluation.

Cross-referencing within a proposal volume is permitted when its use would conserve space without impairing clarity. The past performance and price evaluation will utilize information from each's respective volume for the evaluation but may also utilize information from other volumes as well. The Offeror shall complete the cross-reference matrix provided in Table 3 that will indicate the corresponding proposal paragraph or location which addresses the referenced item, and this shall be included in the Technical Volume submission. Table 3 is not included as part of the Technical Volume page limit.

Table 3: Cross-Reference Matrix

Cross Reference	SOW Para (not all inclusive)	RFP Attachment 4 – Section L	RFP Attachment 5 – Section M	Proposal (Volume & Para)
FACTOR 1: TECHNICAL		4.0.	2.2	
Subfactor 1 – Technical Solution	2.2, 2.3, 2.3.1, 2.3.2, 2.3.3, 5.13, 6.1, 6.2, 6.3, 6.6, 6.9.1, 7.0, 9.0, 9.4, 12.0, 12.1, 12.2, 17.0	4.2.3.	2.2.1	

Subfactor 2 – Exceeding Requirements and Demonstrating System Strengths	2.3.2, 6.2, 6.5.2, 6.9.1	4.2.4.	2.2.2	
Subfactor 3 – Data Rights	5.1, 5.13, Appendix A	4.2.5	2.2.3	
Subfactor 4 - Schedule	5.4, 5.5, 7.0, 9.4	4.2.6		
FACTOR 2: TECHNICAL RISK	SOW 5.1, 5.12, 5.13, 9.8, 13.2, 13.2.1, and SOW references included in Subfactors 1-4	5.1	2.3	
FACTOR 3: PAST PERFORMANCE	N/A	6.0	2.4	
FACTOR 4: PRICE	N/A	7.0	2.5	

3.8.7 Indexing

Each volume shall contain a more detailed table of contents to delineate the subparagraphs within that volume. Tab indexing shall be used to identify sections.

3.8.8 Tables and Figures

Include an indexed list of tables, figures, and drawings.

3.8.9 Glossary of Abbreviations and Acronyms

Each volume shall contain a glossary of all abbreviations and acronyms used, and with an explanation for each. Glossaries do not count against the page limitations for their respective volumes.

3.9 Page Size and Format

A page is defined as each face of a sheet of paper containing information. When both sides of a sheet display printed material, it shall be counted as two pages. Page size shall be 8.5 x 11 inches, not including foldouts. Page line spacing shall be 1.5 lines. Except for the reproduced sections of the solicitation document, the text size shall be no less than Arial 12 point. Offerors are prohibited from using other Arial fonts such as Arial Black, Arial Narrow or Arial Rounded MT Bold. Tracking, kerning, and leading values shall not be changed from the default values of the word processing or page layout software. Use at least 1-inch margins on the top, bottom, and side margins. Pages shall be numbered sequentially by volume. These page format restrictions shall apply to responses to Evaluation Notice (ENs).

Legible tables, charts, graphs, and figures shall be used wherever practical to depict organizations, systems, layouts, implementation schedules, plans, and related information. These displays shall be uncomplicated and shall not exceed 11 x 17 inches. If foldout pages are printed, they shall fold entirely within the volume and shall count as a single page. Foldout pages may only be used for large tables, charts, graphs, diagrams, and schematics; they shall not be used for pages of text. The following text-size limitation shall apply only to the technical volume: Text intended for evaluation within all figures, charts, tables, and graphs, including embedded images, shall be no less than Arial 10 point. These limitations shall apply to electronic proposals, and noncompliant text will not be considered in the evaluation.

3.10 Labeling

A cover sheet shall be included in each proposal volume, clearly marked as to volume number, title, copy number, solicitation identification, and the Offeror's name. For each proposal volume, the Offeror shall apply all appropriate markings including those prescribed IAW FAR 52.215- 1(e), Restriction on Disclosure and Use of Data, and FAR 3.104-4, Disclosure, Protection, and Marking of Contractor Bid or Proposal Information and Source Selection Information.

3.11 Electronic Offers

All proposals shall be submitted in the PEE Solicitation Module, <https://piee.eb.mil/>. For instructions on how to post an offer, please refer to the Posting Offer demo at https://pieetraining.eb.mil/wbt/sol/Posting_Offer.pdf or https://pieetraining.eb.mil/wbt/sol/Posting_Offer.html. Be advised that classified information cannot be transmitted via the PEE Solicitation Module. The PEE Solicitation Module does allow the safe and secure transmission of CUI.

Offerors shall submit all proposal documents against Solicitation Number FA810526RB001 in the PEE Solicitation Module. If a proposal is not submitted in the PEE Solicitation Module against this Solicitation Number, then the submission will not be considered as having been submitted in response to this Solicitation. For example, any proposals that are submitted under the PEE Solicitation Module's "Unsolicited Proposal" section are not considered to have been submitted in response to this Solicitation Number. Additionally, if a proposal is inadvertently submitted against a different Solicitation Number in the PEE Solicitation Module, then that proposal will not be considered as a response to this Solicitation. Similarly, if a portion of a proposal is incorrectly submitted (such as in the wrong PEE module, the PEE Solicitation Module "Unsolicited Proposal" section or under another solicitation number), then the incorrectly submitted portion of the proposal will not be considered as having been submitted in response to this Solicitation and will therefore not be evaluated by the Government.

It is the Offeror's responsibility to follow the registration instructions found on the PEE website. It is advised that all potential prime Offerors and their subcontractors ensure the proper company points of contact are registered in the PEE Solicitation Module based on their CAGE codes and have the proper roles assigned well in advance of the solicitation closing date. Subcontractors are only required to register in the PEE Solicitation Module if they want to submit their proprietary proposal information separate from the prime offer. Documents submitted by the subcontractor directly to the Government must have the prime contractor's name, CAGE, and RFP number on the first page of the document.

As described above, the Government will not search for incorrectly submitted proposals in the PEE Solicitation Module. The submission date for all Volumes shall be no later than the date and time specified in the solicitation. Offerors are on notice that the PEE Solicitation Module will determine a proposal as late, or untimely, if the submission is not fully submitted prior to the time specified in the solicitation. For example, if the time specified in the solicitation is 3:00 pm CST, then the PEE system will consider a proposal as later if it is submitted at 3:00:01 pm CST, one second after the deadline. The PEE Solicitation Module should notify an Offeror if the proposal was submitted after the deadline for submission, and whether a proposal is late. However, even if the PEE Solicitation Module does not provide this notification, the PCO will utilize the time stamp(s) of the proposal submission(s) to make a determination if the proposal submission(s) was timely submitted. If multiple drop-offs occur, any drop-off after the time identified in the solicitation would render the entire proposal as late. Offerors are responsible for ensuring that the Government receives the complete proposal by the due date and time for proposal submission.

If there is an unanticipated PEE System outage within 24 hours of the proposal due date and the outage has

interrupted normal Government processes so that proposals cannot be received by the exact time specified in the solicitation, the Offeror shall immediately notify the PCO. This notification shall occur prior to the proposal submission deadline and shall be made in writing. The Offeror shall obtain written approval from the PCO to submit the proposal via an alternate method or the PCO may advise the Offeror that the Government will follow the procedures set forth in FAR 15.208(d) for amending the solicitation closing date.

Offerors should consider the following suggestions for avoiding last-minute proposal submission problems:

- Verify your account's ability to submit the necessary proposal information (either as a prime or subcontractor) well in advance of the closing time. This may be accomplished through the following steps:
 - a. Login to the PEE system as the Proposal Manager and access the Solicitation Module.
 - b. To access the Solicitation Module, Offerors are required to register for a PEE account. If an Offeror already has a PEE account, the role of Proposal Manager can be added to the existing PEE account. If an Offeror does not already have a PEE account, the Offeror can self-register for a PEE user account and add the role of Proposal Manager.
- Review resources on how to navigate the PEE Solicitation Module are available at <https://dodprocurementtoolbox.com/site-pages/solicitation-module>.

For questions related to the PEE Solicitation Module please contact disa.global.servicedesk.mbx.eb-ticket-requests@mail.mil. You can also reach PEE support by phone at 866-618-5988.

All electronic documents and files submitted shall contain the volume number and title. Use separate files to permit rapid location of all portions, including subfactors, required plans, exhibits, appendices, and attachments, if any. The Offeror shall submit volumes I through IV in electronic format. Each volume shall be submitted as a separate file. The electronic copies of the proposal shall be submitted in a format readable by Microsoft (MS) Office 365 Word, MS Office 365 Excel, MS Office 365 Power Point, and Adobe PDF Note: files must be searchable and able to copy and paste. For amendment purposes to the proposal, the "original" proposal shall be clearly identified.

3.12 Distribution

Once the Offeror has uploaded the Offeror's proposal in its entirety to PEE Solicitation Module, the Offeror shall take a screen shot (Print Screen function) of the Offeror's PEE Solicitation Module submission screen showing all the uploaded files included in the proposal submission. The Offeror shall notify the PCO, Ms. Brandi Shelden (brandi.shelden@us.af.mil) and Contract Specialist (CS), Ms. Alejandra Marchesano (alejandra.marchesano@us.af.mil) by email that the files have been uploaded and provide a copy of the PEE Solicitation Module submission screen shot.

4.0 Factor 1 – Technical

4.1 General

The Technical Volume should be specific and complete, ensuring legibility, clarity, and coherence. Responses will be evaluated against the technical subfactors defined in Section M, Evaluation Factors for Award. Therefore, using the instructions provided below, offerors should specifically detail the methodology they would employ for accomplishing and/or satisfying these subfactors. Offerors should assume the government

has no prior knowledge of their experience or facilities; the evaluation will be based solely on the information presented in the proposal. All requirements specified in the solicitation are mandatory; submission of the proposal represents the offeror's commitment to fulfilling these requirements. It is neither necessary nor desirable to simply reiterate the objectives or reformulate the requirements stated in the solicitation.

4.2 Format and Specific Content

4.2.1 Technical

The Offeror shall address its proposed approach to meeting the minimum performance or capability requirements of each technical subfactor in the Offeror's technical volume.

4.2.2 Volume Organization

The technical volume shall be organized according to the following general outline:

- Team List ITO Attachment 2.0
- Table of Contents
- List of Tables, Figures, and Drawings
- Glossary
- Cross Reference Matrix
- Subfactor One – Technical Solution
- Subfactor Two – Exceeding Requirements and Demonstrating System Strengths
- Subfactor Three – Data Rights
- Subfactor Four- Schedule
- Technical Risk

4.2.3 Subfactor One: Technical Solution

The offeror shall provide an approach that demonstrates their understanding and ability to meet the threshold requirements, in the CCR Systems Requirements Document (SRD) through the EMD & Production phases. As a minimum, the approach shall address the following elements:

- a) The Offeror shall provide an approach to teaming arrangements and Associated Contract Agreements (ACA) and describe how the team members will support EMD and Productions phases. The proposed approach shall include identification of all significant subcontractors, teaming partners, and or joint venture partners proposed to perform the work outlined in this solicitation in accordance with (IAW) SOW paragraph 5.13 and provide ACAs IAW SOW paragraphs 17.0. If signed ACA are unavailable, provide a Letter of Intent and a statement with rationale describing the steps the Offeror will take to satisfy the requirement of signed ACAs by contract award. If the Offeror does not have any teaming partners or Subcontractor, then provide a statement of no subcontractors in your proposal.
- b) An approach to the Engineering Manufacturing and Design (EMD) Phase IAW SOW 1.2.1 that includes the identification of Title 10 §4401 compliance; projected Technical Readiness Level (TRL) of each

system; model-based systems engineering, model-based design, and Technical Data Package digital files; SIL stand-up, integration, and testing; autothrottle solution, Diminishing Manufacturing Sources and Material Shortages (DMSMS), integration, and testing; and the need, if any, to reverse engineer interfaces with KC-135 legacy systems.

- i. For Title 10 §4401 compliance, as a minimum, Offeror shall provide a detailed explanation and diagram of their Modular Open Systems Approach (MOSA) that will be designed into the CCR system. This design must comply with 10 U.S.C. § 4401 (c)(1)(B)(i) or (c)(1)(B)(ii) and prioritize maximum adaptability to potential future mission requirement changes. (SOW 6.2.)
 - ii. Offeror shall clearly state the current TRL achieved by the proposed CCR solution and its subcomponents. To demonstrate the claimed TRL, the Offeror must provide objective evidence that includes but not limited to test data, analysis reports, integration documentation. (SOW 6.9.1)
 - iii. A description of how Digital Material Management principles and tools will be applied throughout the integration, test, and certification process. As a minimum, the approach should include specific examples of how Digital Material Management will improve efficiency, reduce risk, and enhance collaboration. (SOW 6.1, 6.3)
 - iv. Offeror shall provide a detailed explanation and diagram of their approach to standing up a SIL and utilizing the SIL for integration and testing. (SOW 7.0, 9.4)
 - v. Offeror shall provide a detailed explanation of their approach to integrating and testing autothrottle. (SOW 2.2, 9.0)
 - vi. Offeror shall identify the need to reverse engineer any interfaces with the KC-135 systems based on the technical data provided in the Bidder's Library. Offeror shall identify any technical gaps in the Bidder's Library and describe the complexity of the reverse engineering effort. (SOW 6.6)
- c) An approach to the Production Phase that describes how the Offeror will meet kit and installation requirements IAW SOW 1.2.2.
- i. Offeror shall provide a comprehensive approach for the production, packaging, transportation, storage, and tracking of A- and B-Kits. As a minimum, the approach must address that complete installation kits are available at the designated location(s) at least 30 calendar days prior to the scheduled installation. (SOW 12.0, 12.1)
 - ii. Offeror shall describe the process for installing the new CCR system on the aircraft. As a minimum, the approach should include detailed key milestones, dependencies, procedures, diagrams, and any applicable special instructions (SOW 12.1, 12.2)
- d) An approach for Small Business Participation. As a minimum, the approach shall provide the following essential components:
- a. A narrative description demonstrating the offeror's commitment to small business utilization during the performance of the contract
 - b. Submit a completed Small Business Participation Commitment Document (SBPCD) as an attachment. (See ITO Attachment 3.0 for SBPCD Template).
 - i. As a minimum, the offeror shall include the small business minimum quantitative requirement (MQR) of 30%.
 - ii. The offeror shall describe their small business participation based on total evaluated price (TEP) for this contract effort.

Other than small businesses may achieve their proposed level of small business participation through subcontracting to small businesses and small business socioeconomic categories. Small businesses may achieve their proposed level of small business participation through their own performance/participation as a prime and also through a joint venture, teaming arrangement, and subcontracting to other small

businesses; small businesses are not required to subcontract to other small businesses in order to achieve their proposed level of small business participation.

NOTE: The SBPCD differs from the subcontracting plan* requirements IAW FAR 19.7. Also, work to be performed directly by a small business prime offeror shall be evaluated as Small Business Participation. Small business prime offerors shall include their information in the provided SBPCD template as required.

*The subcontracting plan will only be required within the Contract Volume per Section L paragraph 6.3 (SOW 5.13)

4.2.4 Subfactor Two: Exceeding Requirements and Demonstrating System Strengths

The Offeror is afforded an opportunity to receive a best value credit by identifying and explaining how and why different aspects of their solution exceed requirements and/or demonstrate system strengths as outlined in the CCR SRD and/or SOW. As a minimum, the Offeror shall provide the following:

a) Exceeding Threshold Requirements:

- i. The Offeror is afforded an opportunity to receive a best value credit for a proposed solution which utilizes a glass cockpit that incorporates the majority of objective requirements in SRD Paragraph 3.16 Trade Space Adaptability Components.
- ii. The Offeror is afforded an opportunity to receive a best value credit the proposed solution that includes meeting Objective requirements for Fuel System improvements (SRD 3.14.3, 3.14.6, 3.14.7, 3.14.13, 3.14.5, 3.14.8, 3.14.14, 3.14.16).
- iii. The Offeror is afforded an opportunity to receive a best value credit for a proposed solution improves navigation as defined in SRD Paragraph 3.6.4.2.
- iv. The Offeror is afforded an opportunity to receive a best value credit for a proposed solution that meets system MTBF objective requirements as defined in SRD Paragraph 3.28.3.2.
- v. The Offeror is afforded an opportunity to receive a best value credit for a proposed solution which replaces the current Electronic Engine Instrument Display (EEID) as defined in SRD Paragraph 3.16.14.
- vi. The Offeror is afforded an opportunity to receive a best value credit for a proposed solution that meets objective requirements for Annunciator Lights/Warning, Cautions, and Advisories in SRD Paragraph 3.4.

b) Demonstrating System Strengths:

- i. The Offeror is afforded an opportunity to receive a best value credit by providing documentation and assessments of environmental testing results, environmental standard adherence, and environmental certifications that have already been accomplished on LRUs that are proposed as part of your CCR solution. (SOW 6.5.2)

- ii. The Offeror is afforded an opportunity to receive a best value credit by providing a plan for how the Government can incorporate new technologies and incorporate upgrades over the system's lifecycle. This plan should include a roadmap for technology insertion, a description of the processes for evaluating and integrating new technologies, and identify areas that would be dependent on the OEM for integration of new capability. The Offeror should consider the following topics in the submitted plan: hardware and software additions for new requirements; autonomous refueling capabilities; new or upgraded communication capabilities that include displaying federated systems onto CCR displays; and future addition of TEMPEST requirements. (SOW 2.3, 2.3.1, 2.3.2, 2.3.3, 6.2)
- iii. The Offeror is afforded an opportunity to receive a best value credit by providing Technical Standard Order (TSO) authorization for the offeror's solution. (SOW 6.9.1)
- iv. The Offeror is afforded an opportunity to receive a best value credit by identifying and describing how their approach provides additional capabilities or provides a relevant and significant benefit to the Government. (SOW 2.3.2)

4.2.5 Subfactor Three: Data Rights

The Offeror shall provide a completed Data Rights Assertion Matrix (DRAM) (RFP Attachment 6) indicating proposed data rights asserted with complete rationale. An explanation is required for anything less than what the Government requested on the DRAM (RFP Attachment 6).

If licensing is necessary to fulfill data rights requirements, the offeror shall identify the number of enterprise-wide, site, or seat licenses to technical data and computer software pertaining to commercial products or commercial services it will grant the Government to any part of any CDRL listed in the DRAM (RFP Attachment 6).

If a subcontractor owns and is providing any data rights required to perform this contract, the Offeror shall submit a letter of attestation from the subcontractor, affiliate, and/or vendor at all tiers to establish that all of the technical data and computer software the Offeror is required to deliver will be delivered to the Government, regardless of who owns the IP. The letters will clearly show which data rights the subcontractor, affiliate, or vendor will deliver to the Offeror and/or Government.

4.2.6 Subfactor Four: Schedule

The Offeror shall provide an approach for Schedule. As a minimum, the Offeror must provide an approach for the following elements:

- a) The Offeror shall provide an initial Integrated Master Schedule (IMS) and Integrated Master Plan (IMP) that must identify and address significant events and milestones and must include a rationale for how the IMS and IMP will be executed. (SOW 5.4, 5.5)
- b) The Offeror shall identify long lead time material/parts for their approach. The Offeror shall address how the items will be available in order to meet schedule requirements (SOW 5.4, 5.5).
- c) The Offeror shall provide a detailed schedule and diagram of their approach to standing up a SIL

- and utilizing the SIL for integration and testing. (SOW 7.0, 9.4)
- d) The Offeror shall identify lead time requirements for standing up and exercising Contractor Fly-In Facility option. (SOW 12.2)

5.0 Factor 2 – Technical Risk

5.1 General

The Offeror shall address technical risk associated with the approach provided in the following:

Subfactor One, Technical Solution

Subfactor Two, Exceeding Requirements and Demonstrating System Strengths

Subfactor Three, Data Rights

Subfactor Four, Schedule

The Offeror shall address all technical risks that the Offeror considers having potential to disrupt schedule, increased cost, degradation of product performance, increase need for Government oversight, or the increased likelihood of unsuccessful contract performance. For each identified risk, the Offeror shall provide the rationale for the risk and quantitative estimates for both potential consequence (to cost, schedule, and/or performance) and the probability of the risk to occur. The Offeror shall also outline a mitigation approach describing how each risk is eliminated or reduced to a Low or Moderate overall (combined potential and consequence) level

6.0 Factor 3 – Past Performance

6.1 General

Each Offeror shall submit a past performance volume with its proposal, containing past performance information in accordance with the format contained in ITO Attachment 1.1.

The Offeror shall provide a team list, which includes the prime contractor, all significant subcontractors, teaming partners, and/or joint venture partners proposed to perform the work outlined in the solicitation. The Offeror shall describe the portion of effort each team member is proposed to perform in relation to the Factor 1 Technical subfactors (Technical Solution, Exceeding Requirements and Demonstrating System Strengths, Data Rights and Schedule); Factor 4 Price, and Scope, Magnitude, and Complexity. The Government's Past Performance Evaluation Team (PPET) evaluates each member of the Offeror's team for relevancy and performance quality, based on their proposed portion of effort. Therefore, it is important for the Offeror to provide a detailed portion of effort description, in order for the PPET to conduct an accurate assessment. Offerors shall also provide approximate percentages for portion of effort for each team member. For the past performance evaluation, the government will use data provided by the Offeror in the past performance volume, as well as data obtained from other sources.

6.1.1 Attachment 1.4 Consent Letter

This letter shall be executed and signed by each subcontractor, teaming partner, and/or joint venture partner. The letter authorizes the release of adverse past performance information to the Offeror so the Offeror can respond to such information.

6.1.2 Attachment 1.5 Client Authorization Letter

For each identified effort for a commercial customer, the Offeror shall submit a client authorization letter (ITO Attachment 1.5) authorizing release to the Government of requested information on the Offeror's performance.

6.1.3 Attachment 1.6 Commitment to Perform as Proposed Letter

This letter shall be executed and signed by the Prime Contractor and each Subcontractor. The letter states that, in the event a contract is awarded to the Prime Contractor, the Prime Contractor and Subcontractor (to include teaming partners, and/or joint venture partners) commit to joint contract performance as described in the proposal. A separate letter shall be completed for each subcontractor separately. If the signed commitment is not fully executed by both parties and provided with the Past Performance Proposal, the subcontractor references will not be evaluated or considered. In the event the signed letter is not submitted with the initial proposal, but is later submitted during the evaluation, the subcontractor references will be considered at that point.

6.2 Early Proposal Information

Each Offeror is requested to submit the Past Performance volume fifteen (15) calendar days prior to the solicitation's closing date. The Past Performance volume early proposal information is a request and not a requirement. Failure to submit early proposal information will not result in Offeror disqualification, nor will offerors be penalized.

As soon as practicable, offerors shall complete Section 1 of the attached Past Performance Questionnaire (ITO Attachment 1.2) and e-mail it and the Sample Questionnaire Cover Letter (ITO Attachment 1.3) to all points of contacts (POCs) the Offeror has listed in the Past Performance Information Form (ITO Attachment 1.1). The POCs will complete the questionnaires and forward them directly to the PCO. Email address for questionnaires is brandi.sheldon@us.af.mil. **RESPONDENTS TO THE QUESTIONNAIRES SHALL NOT SEND THE COMPLETED INFORMATION SHEETS BACK TO THE OFFEROR.** Offerors shall not follow-up with respondents to ensure they have completed the questionnaires. The PPET will conduct such follow-up with any POC as necessary.

6.3 Relevant Contracts

The Offeror shall provide Past Performance Information (PPI) on current or previous contracts (or efforts). The PPI shall be completed in accordance with ITO Attachment 1.1, Past Performance Information Form (PPIF). The Offeror shall submit PPIFs for contracts which include all or some performance within the past five (5) years, as defined in Section M, paragraph 2.4.2.1, Recency Assessment. The government requests that each Offeror submit up to three (3) PPIFs for the prime contractor, and up to 3 PPIFs for each significant subcontractor/teaming partner. Significant subcontractor is defined as a contractor who is proposed to perform over 5% of the total effort, or a contractor who is proposed to perform less than 5% of the total effort but is determined to be performing a critical function. NOTE: The requested number of PPIFs for the prime and subcontractors are preferences and not requirements. Offerors may submit more than the preferred number if the Offeror believes the extra contracts are needed to fully describe their relevancy. Offerors who submit less than the preferred number of PPIFs are not automatically assigned a "Neutral Confidence" rating. Fewer numbers may be acceptable, if the government determines there is sufficient information to determine a confidence rating. Request each PPIF not exceed a target of 5 pages, although more or less may be submitted, if necessary and relevant to the KC-135 CCR program.

6.3.1 PPI Relevant Contract Narrative

For each PPIF, the Offeror shall provide a narrative explaining what aspects of the contract is deemed relevant to the proposed effort, and to what aspects of the proposed effort they relate. Specifically, the narrative should focus on similarities to the Factor 1 Technical Subfactors (Technical Solution, Exceeding Requirements and Demonstrating System Strengths, Data Rights and Schedule); Factor 4 Price; and Scope, Magnitude, and Complexity as defined in Section M, paragraph 2.4.2.2, and should be tailored to the proposed portion of effort. Categorize the relevant information into the specific technical subfactors and price assessment used to evaluate the proposal. The narrative may include a discussion of efforts accomplished by the Offeror to resolve problems encountered on prior contracts as well as past efforts to identify and manage program risk. Merely having problems does not automatically equate to a Limited or No Confidence rating, since the problems encountered may have been on a more complex program, or an Offeror may have subsequently demonstrated the ability to overcome the problems encountered with corrective actions. The Offeror shall clearly demonstrate management actions employed in overcoming problems and the effects of those actions, in terms of improvements achieved or problems rectified. This may allow the Offeror to be considered a higher confidence candidate. For example, submittal of quality performance indicators or other management indicators that clearly support that an Offeror has overcome past problems is required. The Offeror is requested to limit the narrative to a maximum of 5 pages. However, the Offeror may exceed the requested page limit, if determined necessary to fully describe relevancy. Affiliate companies, sister companies, teaming arrangements, joint venture agreement, etc., will be considered, provided that sufficient documentation is included in the proposal. The Prime contractor must demonstrate that the affiliate will perform significant and critical aspects of the contract if awarded. Proposal documentation should include a copy of the signed arrangement such as documented affiliation, a copy of the teaming agreement, a copy of the joint venture agreement, etc. If the required information is not included in the proposal, the proposed affiliate companies, sister companies, joint venture companies, etc. will not be evaluated or considered.

6.3.2 Organizational Structure Change History

Many companies have acquired, been acquired by, or otherwise merged with other companies and/or reorganized their divisions, business groups, subsidiary companies, etc. In many cases, these changes have taken place during the time of performance of relevant past efforts or between the conclusion of recent past efforts and this source selection. As a result, it is sometimes difficult to determine what past performance is relevant to this acquisition. To facilitate this relevancy determination, offerors shall include a "roadmap" describing all such changes in the organization of the Offeror's company. A pamphlet or other commercial document describing such reorganizations may suffice. As part of this explanation, show how these changes impact the relevance of any efforts you identify for past performance evaluation/performance confidence assessment. Since the government intends to consider past performance information provided by other sources as well as that provided by the Offeror(s), the "roadmap" should be both specifically applicable to the efforts identified, yet general enough to apply to efforts on which the government receives information from other sources.

7.0 Factor 4 – Price

{The program office will update this section as soon as it is available.}

8.0 Contract Documentation

8.1 Model Contract/Representations and Certifications

The purpose of this volume is to provide information to the government for preparing the contract document and supporting file. The Offeror's proposal shall include a signed copy of the Model Contract, and Sections A through K.

8.2 Solicitation/Contract Form (Section A)

Completion of blocks 15-18 to include signature and date of the SF33. Signature by the Offeror on the SF33 constitutes an offer, which the government may accept. The "original" copy should be clearly marked under separate cover.

8.3 Supplies or Services and Prices (Section B)

Completed pricing information in Section B of the model contract.

8.4 Contract Clauses (Section I)

The Offeror shall provide required information to complete clauses as required.

8.5 Representations, Certifications, and other Statements of Offerors (Section K)

The Offeror has completed the annual representations and certification electronically via the System for Award Management (SAM) website accessed through <https://www.sam.gov>. After reviewing the SAM database information, the Offeror verifies by submission of this offer that the representation and certifications currently posted electronically are correct.

8.6 Exceptions to Solicitation Requirements

Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements, in addition to those identified as evaluation factors or subfactors. Failure to meet a requirement may result in an offer being ineligible for award. Offerors must clearly identify any exception to the solicitation terms and conditions and provide complete accompanying rationale.

Each exception shall be specifically related to each paragraph and/or specific part of the solicitation to which the exception is taken. Provide rationale in support of the exception and fully explain its impact, if any, on the performance, schedule, cost, and specific requirements of the solicitation. This information shall be provided in the format and content of Table 4. Offerors are cautioned the government could determine any identified exceptions to be unacceptable, which would make the proposal ineligible for award.

Table 4: Solicitation Exceptions

Solicitation Document	Page/ Paragraph	Requirement/ Portion	Rationale
SOO, SOW, SPEC, Model Contract, ITO, etc.	Applicable Page and Paragraph Numbers	Identify the requirement or portion to which exception is taken	Describe why the requirement can/will not be met

9.0 Other Information Required

9.1 Ombudsman

An Ombudsman has been appointed to hear concerns from offerors or potential offerors during the proposal development phase of this acquisition. The Ombudsman for this acquisition is AFSC/PZC, located at Tinker AFB, OK. This does not diminish the authority of the program director or CO, but communicates Offeror concerns, issues, disagreements, and recommendations to the appropriate government personnel. When requested, the Ombudsman shall maintain strict confidentiality as to the source of the concern. The Ombudsman does not participate in the evaluation of proposals or in the source selection process; interested parties are invited to call AFSC/PZC at 405-736-3273.

9.2 Authorized Offeror Personnel

Provide the name, title, and telephone number of the company/division point of contact regarding decisions made with respect to your proposal and who can obligate your company contractually. Also, identify those individuals authorized to negotiate with the government.

9.3 Government Offices

Provide the mailing address, telephone and fax numbers and facility codes for the cognizant Contract Administration Office, DCAA, and Government Paying Office. Also, provide the name and telephone and fax number for the Administrative Contracting Officer (ACO).

9.4 Company/Division Address, Identifying Codes, and Applicable Designations

Provide company/division's street address, county, and facility code; CAGE code; DUNS code; TIN; size of business (large or small); and labor surplus area designation. This same information must be provided if the work for this contract will be performed at any other location(s). List all locations where work is to be performed and indicate whether such facility is a division, affiliate, or subcontractor, and the percentage of work to be performed at each location.

9.5 Attachments to the Model Contract

The Offeror shall provide the following as attachments to the model contract:

- a) Subcontracting Plan. Include a subcontracting plan IAW FAR 19.704. The plan must be approved by the PCO prior to contract award.
- b) Supply Chain Risk Management Plan (SCRM) - As part of the terms and conditions of the solicitation requirements, Offerors are required to submit a Supply Chain Risk Management (SCRM) Plan in accordance with SOW 13.2.
- c) Failure to include Subcontracting Plan, Supply Chain Risk Management Plan and Estimated Price List as part of your initial proposal may deem your proposal ineligible for award.

ITO ATTACHMENT 1.1

Past Performance Information (PPI) for Offerors

Offerors must use the PPI Tool (Use latest version at <https://www.sam.gov>) in order to electronically submit the PPI portion of the Past Performance Volume in accordance with the RFP.

Downloading the PPI Tool

The PPI Tool can be downloaded by performing the following steps (if you are unable to download the Tool, contact the CO for assistance):

- a) Access the <https://www.sam.gov> website.
- b) Find the solicitation posting.
- c) Locate, download, and open the “PPI_Tool_Download_Instruction” Word document which will contain an embedded ppi.toolaccdb file.
- d) Right-click on the ppi_tool.accb icon. Select Copy. Paste the ppi_tool.accb icon to a location on your computer. Right-click on the newly pasted ppi_tool.accdB icon and rename the file name as the prime contractor + RFP number + file extension. (e.g. XYZCompanyFAXXXX21RXXXX.accdB).

If the copy/paste function does not work, select the ppi_tool.accdB icon and drag it to a location on your computer desktop and rename the file name as the prime contractor + RFP number + file extension. (e.g. XYZCompanyFAXXXX21RXXXX.accdB).

Note: PPI Tools saved in Microsoft Office versions 2007 and greater will be saved with “.accdb” file extension.

Entering information in the PPI Tool

After selecting and saving the tool, enter information by performing the following steps:

- 1) Open the saved PPI Tool.
- 2) Select the “Options” button from the “Security Warning” banner, if applicable

- 3) The “Security Alert” pop-up screen displays.

(i)

Figure 1: Security Alert Pop-up

Note:

- Files saved using Microsoft Office 2010 will have the “Enable Content” button on the “Security Warning” banner and therefore will not get a Security Alert pop-up.
- If a "read only" file is opened, in order to populate data in the file, click "Save As" in the "Read-Only" message bar. Enter the filename as the prime contractor + RFP number + file extension (e.g. XYZCompanyFA861710R6158.accdb).

- 4) Select “Enable this content” and then click “OK.” A setup pop-up screen display.

Figure 2: Setup Pop-Up

- 5) Select the “Start” button. The “Application Setup” screen displays.

A screenshot of the "Application Setup" dialog box. It contains the following text: "Please enter both the Offeror's name and the Request for Proposal (RFP) number. This information will allow the Source Selection Team to import and use your data when you return this database with your Past Performance volume. Click Help if you have a question, or contact the Contracting Officer designated in the RFP for assistance." Below the text are two input fields: "Offeror's Name:" and "RFP Number:". At the bottom, there are three buttons: "Next >>", "Exit", and "Help".

Figure 3: Application Setup Screen

Note: Once the Offeror’s Name and RFP Number have been entered they can be edited by selecting the “Edit Offeror and RFP Number” button from the “Contractor’s Menu”

- 6) Enter the Offeror’s Name and RFP Number and then click the “Next” button. The application setup continues.

A screenshot of the "Application Setup" dialog box, showing the next step. The text says: "How will you be entering your Past Performance data? Selecting the appropriate option below will tailor this application to your situation." There are two radio button options: "The Offeror Prime will be entering Past Performance data for all subcontractors" (which is selected) and "The Prime and individual subcontractors will each enter their own Past Performance data". At the bottom, there are four buttons: "<< Back", "Next >>", "Exit", and "Help".

Figure 4: Continue the Application Setup

- 7) Choose the appropriate option by selecting the corresponding radio button and then click the “Next” button. The “Contractor’s Menu” displays.

Figure 5: Contractor’s Menu

- 8) Click the “Step 1: Set up Business Relationships” button  to create a business relationship, if applicable, for each business entity before proceeding throughout the PPI Tool (refer to Addendum to FAR 52.212-1 of the RFP for detailed instructions). Identify all prime and sub-prime organizations and categorize them according to the appropriate role in the proposed acquisition. The “Business Relationships” screen displays.

Figure 6: Business Relationships

- 9) Click the “New” button to create a business relationship for the proposed acquisition. An additional “Business Relationships” screen displays.

Figure 7:Enter New Business Relationship

10) Complete the fields as follows (fields marked on the screen with an asterisk “*” are required):

- Contractor’s Name: Self-explanatory
- Role in Proposed Acquisition: Choose one of the four options – Prime, Sub, Joint Venture, or Other (Explain). An explanation comment box will display when you select “Other.”
- Place of Work: Location where contractor will perform work.
- Percentage of Work: Identify percentage of work contributed by specified business entity
- Responsibilities: Detail proposed responsibilities of specified business entity.

11) Select one of the buttons at the bottom of the screen.

- Add – Saves the current business relationship and allows for the addition of a new one.
- Close – Cancels the current business relationship without saving.

Note: In order to edit or delete an existing business relationship in the list, double-click on it.

12) Select the “Close” button on the “Business Relationships” screen after all of the business relationships has been added.

13) Click the “Step 2: Enter Past Performance Information (PPI)” button  to enter the Past Performance Information. The “Past Performance” screen displays.

Figure 8: Past Performance

- 14) Click the “New” button to enter Past Performance Information for the proposed acquisition. An additional “Past Performance” screen displays.

Figure 9: Enter Past Performance Information

- 15) Complete the fields on each of the tabs as follows (fields on the screen marked with an asterisk ‘*’ are required):

- Contract Information Tab
- Contractor: Select from the dropdown the appropriate business entity.
- Cage Code: Self-explanatory.
- Contract Number: If you don’t have a contract number, enter “N/A.”
- Program Title: Enter full name of program.

- Contractor Agency/Customer: Enter servicing contracting agency and customer (office symbols suffice).
- DUNS Number: Self-explanatory
- Delivery Task/Order: If the order is provided as a stand-alone reference, enter the task/call/delivery/purchase order number.
- Contract Type: Enter Firm-Fixed-Price (FFP), Cost Plus Fixed-Fee (CPFF), Indefinite Delivery/Indefinite Quantity (ID/IQ), LH, Blanket Purchase Agreement (BPA), Cost Plus Incentive-Fee (CPIF), Cost Plus Award Fee (CPAF), etc. For additional clarification, click the question mark button.
- Short Program Title (i.e. Acronym): Enter abbreviated title for the program or enter “N/A.”
- Contract Dollar Value:
 - Original: Input total contract dollar value, with all options if applicable, in the amount originally awarded on the referenced contract.
 - If ID/IQ or BPA, provide total ceiling.
 - If stand-alone task/call/delivery/purchase, provide amount of the individual contract.
 - Current: Input total contract dollar value, with all options if applicable, as the contract stands at time of PPI submission.
 - If ID/IQ or BPA, provide total ceiling.
 - If stand-alone task/call/delivery/purchase, provide amount of the individual contract.
 - Explain the differences in Contract Value, if applicable: Enter an explanation of the difference between the original contract dollar value and the revised value as of the time of PPI submission.
- Period of Performance (mm/dd/yy)
 - Start Date: Input start date of contract.
 - Original End Date: Input original end date based on award.
 - Current End Date: Input end date, as the contract stands at time of PPI submission.
 - Explain the differences in Period of Performance, if applicable: Enter an explanation of the difference between “Original End Date” and “Current End Date.”
- Program Details Tab
 - Brief Description of Effort as:
 - Select Prime, Sub, Joint Venture, or Other (Explain). An explanation comment box will display when you select “Other.”

- Provide a brief description of the service provided and actual work performed under this contract reference.
- ****If applicable: Provide information on performance problems encountered on the identified contracts. At a minimum, briefly describe the problem experienced, actions taken to alleviate the problem, and whether or not the problem was satisfactorily overcome.****
- Explain how your performance on this contract is relevant for each applicable factor or subfactor, as instructed under Past Performance in Addendum to FAR 52.212-2 of the RFP. Include any unique aspects that demonstrate relevancy in this effort. Provide evidence to support such relevance to the requirements as described in the RFP.
- Describe the nature or portion of the work on the proposed effort to be performed by the business entity being reported here. Also estimate the percentage of the total proposed effort to be performed by this entity, and whether this entity will be performing as the prime, subcontractor or a corporate division related to the prime (define relationship).

Percentage of Work to be Performed

Subfactor 1 – Technical Solution

Subfactor 2 – Objective Requirements and Exceedances of Threshold Requirements

Subfactor 3 – Data Rights

Subfactor 4 – Schedule

- Compliance with FAR 52.219-8, Utilization of Small Business Concerns. Leave this section blank.
- Subcontracting Plan. Leave this section blank.
- POC & Key Individuals Tab
 - **Key Individuals:** Click the “New” button to specify any key individual or individuals who participated in this program or who may support the proposed acquisition. Also indicate their roles for both acquisitions, previous and current. To edit or delete an existing key individual, double-click an item from the list.

Note: In accordance with FAR 15.305(a)(2)(iii), relevant contract efforts performed by from key personnel may be evaluated. If you wish to include the past performance of individual key personnel, select the “New” button for each individual and fill out the necessary information.

- **Customer Points of Contact:** Click the “Program/Site Manager,” “Contracting Officer” or “Admin POC” button for the point of contact that you would like to add, edit, or delete.

Note: For government contracts provide current information on Program Manager, Contracting Officer, and Admin POC, if available. For commercial contracts provide points of contact fulfilling these same roles, if available.

16) Select from the buttons at the bottom of the Past Performance screen:

- **Save** – Saves the Past Performance Information and displays the “Contract Information” tab on the Past Performance screen.
- **Close** – Closes the Past Performance screen. If there were any updates, a pop-up window displays asking to save before closing.
- **Delete** – Deletes the current PPI record. A pop-up window displays, select “Yes” to delete the record or “No” to close the window without deleting the record.

Note: In order to edit or delete an existing PPI record in the list, double-click on it.

17) Select the “Close” button on the “Past Performance Information” screen after all of the PPI records have been added.

Printing Reports and Submitting PPI Tool

In order to print the Business Relationships and PPI reports, perform the following steps:

1. Click the “Step 3: Print Report” button . A pop-up displays asking which report to print.

Figure 10: Select Report to Print

2. Select separately each of the two options, “Business Relationships” or “Past Performance.” The Business Relationships and Past Performance documents will print separately; combine the two to create your Past Performance Volume.

In order to submit the Business Relationships and PPI, perform the following steps:

3. Click the “Step 4: Submit” button . The “Submission Instructions” screen displays.

Figure 11: Submission Instructions

4. Follow the submission instructions.

Note:

- Submit an electronic copy (e.g. CD) of the saved PPI database file with your proposal. If a prime contractor is submitting the file enter the filename as:
 - prime contractor + RFP number + file extension (e.g. XYZCompanyFA861710R6158.acddb)
- If a subcontractor is submitting the file enter the filename as:
 - subcontractor + RFP number + file extension (e.g. ABCCCompanyFA861710R6158.acddb)
- Once the file is saved to a CD or any location that is marked as “Read-only,” it must first be saved to the desktop in order to read/edit the file.

Editing Offeror and RFP Number

In order to edit the Offeror name and/or the RFP number identified during start-up, perform the following steps:

1. Click the “Edit Offeror and RFP Number” button . The “Application Setup” screen displays.

Figure 12: Change Name and RFP Number - Application Setup

2. Update the Offeror's name and/or RFP number.

Click the "Next" button  twice to return to the "Contractor's Menu".

ITO ATTACHMENT 1.2
PAST PERFORMANCE QUESTIONNAIRE

WHEN FILLED IN THIS DOCUMENT IS SOURCE SELECTION SENSITIVE INFORMATION IAW FAR 3.104

SECTION 1: CONTRACT IDENTIFICATION

- A. Contractor: _____
- B. Cage Code of contractor contract was awarded to: _____
- C. Contract number: _____
- D. Contract type: _____
 (If multiple types (i.e. Firm-Fixed Price with Time & Material), list percentage and dollar amount of Firm-Fixed Price portion)
- E. Was this a competitive contract? Yes _____ No _____
- F. Period of performance: _____
- G. Initial contract cost: \$ _____
- H. Current/final contract cost: \$ _____
- I. Reasons for differences between initial contract cost and final contract costs:

- J. Description of service provided:

SECTION 2: CUSTOMER OR AGENCY IDENTIFICATION

- A. Customer or agency name:

- B. Customer or agency description (if applicable):

- C. Geographic description of services under this contract, i.e. local, nationwide, worldwide, other Commands:

SECTION 3: EVALUATOR IDENTIFICATION

- A. Evaluator's name: _____
- B. Evaluator's title: _____
- C. Evaluator's phone/fax number: _____
- D. Evaluator's email: _____
- E. Number of years evaluator worked on subject contract: _____

SECTION 4: EVALUATION

Please indicate your satisfaction with the contractor's performance by placing an "X" in the appropriate block using the scale provided to the right of each question. This scale is defined as follows:

<u>CODE</u>	<u>PERFORMANCE LEVEL</u>
B	BLUE/EXCEPTIONAL – The contractor's performance meets contractual requirements and exceeds some or many (requirements) to the Government's benefit. The contractual performance was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.
G	GREEN/SATISFACTORY – The contractor's performance meets contractual requirements. The contractual performance contained some minor problems for which corrective actions taken by the contractor appear or were satisfactory.
Y	YELLOW/MARGINAL – Performance does not meet some contractual requirements. The contractual performance reflects a serious problem for which the contractor has not yet identified corrective actions or the contractor's proposed actions appear only marginally effective or were not fully implemented.
R	RED/UNSATISFACTORY – Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance contains serious problem(s) for which the contractor's corrective actions appear or were ineffective.
N	NOT APPLICABLE - Unable to provide a score.

Factor 1 Technical**Subfactor 1 Technical Solution**

	B	G	Y	R	N
1. How well did the contractor adequately address requirement for Modular Open Systems Approach (MOSA)?					
2. Did the contractor deliver a design that met the operational, safety, suitability, and effectiveness requirements?					
3. Did the contractor adequately meet the design requirement without excessive engineering change orders?					
4. Did the contractor adequately rectify technical problems with its sub-contractors in a timely manner?					
5. Did the contractor adequately identify and supply the personnel and facilities required for integration and test?					
6. Did the contractor provide adequate and timely technical support post modification installation?					
7. Did the contractor deliver requirements without any defects, obsolescence, or deficiencies?					
8. How well did the contractor adequately identify and mitigate risk prior to delivery to the customer?					
9. Did the contractor adequately meet all preservation, packaging, packing, and marking needs?					
10. Did the contractor effectively implement a proactive DMSMS program?					
11. Did the contractor deliver a system architecture that satisfied the modularity requirements of the referenced contract?					

Additional Comments:

Subfactor 3 Data Rights

	B	G	Y	R	N
1. Did the contractor adequately address requirement for Data Rights Assertions Matrix?					
2. Did the contractor adequately deliver all contract requirements with the data rights requested?					
3. Did the contractor deliver all CDRLs with Government approved markings?					
4. Did the contractor comply with IP deliverable and IP license requirements?					
5. Did the contractor flow down requirements for IP deliverables, associated IP licenses, or both, to its subcontractors, affiliates, or vendors during its performance of the referenced contract?					
6. Did the contractor provide any resolution of any disagreements over contract requirements? and					
7. Did the government exercise any remedies in response to the contractor's failure to deliver that content to the Government (e.g., DFARS 252.227-7030 (Technical Data—Withholding of Payment), DFARS 252.246-7001 (Warranty of Data)), or issued any related Final Decisions under that reference contract?					

Additional Comments:**Subfactor 4 Schedule**

	B	G	Y	R	N
1. The Contractor met schedule requirements established in the original contract					
2. The contractor adequately notified the customer of any schedule slips, staffing shortfalls, and technical issues					

Additional Comments:**Cost and Price**

	B	G	Y	R	N
1. How well does the contractor manage proposed costs?					
2. How well does contractor manage subcontractor cost?					
3. Were funds status reporting accurate and timely? If not, please explain.					
4. Did the contractor submit timely proposals for additional customer and/or unscheduled requirements and perform within proposed prices? If not, please explain.					

5. Did the contractor promote savings for the customer and ensure best value-pricing in proposals? Please explain.					
6. Did the contractor adhere to contract price/cost. If not, please explain.					

Overall

	B	G	Y	R	N
1. How would you rate the contractor's overall performance against your requirements?					
2. Was the contractor responsive to your needs?					
3. Did the contractor team work well with stakeholders at working group meetings?					
4. Was the contractor proactive in heading off and mitigating unexpected challenges?					

Additional Comments:

1. Please discuss each and every response for which you indicated B (Blue), Y/M (Yellow/Marginal) or R/U (Red/Unsatisfactory) in response to the questions above (use additional sheets, if necessary).
2. Government Contracts Only: Has/was this contract been partially or completely terminated for default or convenience or are there any pending terminations?

Yes _____ Default _____ Convenience _____ Pending Terminations _____

No _____

If yes, please explain (e.g., inability to meet cost, performance, or delivery schedules, etc).

SECTION 5: NARRATIVE SUMMARY

What were the contractor's most positive aspects in the performance of the contract?

What were the contractor's most negative aspects in the performance of the contract?

Would you have any reservations about soliciting this contractor in the future or having them perform one of your critical and demanding programs?

Please provide any additional comments concerning this contractor's performance, as desired.

ITO ATTACHMENT 1.3 SAMPLE QUESTIONNAIRE COVER LETTER

LETTERHEAD

(Date)

FOR OFFICIAL USE ONLY

SUBJECT: Present/Past Performance Questionnaire for the KC-135 Center Console Refresh (CCR) Program Solicitation Concerning Contract Numbers(s) (CONTRACT AND ORDER NUMBER (IF APPLICABLE) TO BE EVALUATED). The effort was performed by (SPECIFIC ENTITY THAT PERFORMED THE WORK) under (CAGE CODE).

We are currently responding to Legacy Tanker Division (WLT), Air Force Life Cycle Management Center (AFLCMC), Tinker Air Force Base, Oklahoma, Request for Proposal (RFP) FA810526RB001 for the KC-135 Center Console Refresh (CCR) Program requirements. This acquisition is being conducted as a Technical /Technical Risk/Past Performance/Price Trade-Off Source Selection. The RFP specifically requires that we, as an Offeror, send the attached questionnaire to several Points of Contact (POCs) on recent and relevant efforts that we (or a proposed team member) have performed. As such, please take a few moments of your time to fill out the attached questionnaire.

- a. DO NOT RETURN THE COMPLETED QUESTIONNAIRE TO US. The information contained in the completed Present/Past Performance Questionnaire is considered sensitive and cannot be released to us, the Offeror. The completed Present/Past Performance Questionnaire should be sent directly to the Government not later than (DATE TO BE INSERTED BY OFFEROR).

The questionnaires should be emailed to: brandi.shelden@us.af.mil

- b. If you have any questions regarding the source selection, contact the Procuring Contracting Officer, Ms. Brandi Shelden. If you have questions regarding the clarification of contract number, POC or program title on the questionnaire, please contact (CONTRACTOR'S POC AND PHONE NUMBER FOR PAST PERFORMANCE ISSUES).
- c. Thank you for your timely assistance.

Sincerely,

(TITLE AND NAME OF COMPANY OFFICIAL)

Attachment: Present/Past Performance Questionnaire

NOTE: Offeror to insert information where there is (*italics text surrounded by parentheses*) in the sample letter.

ITO ATTACHMENT 1.4 SAMPLE CONSENT LETTER**SUBCONTRACTOR/TEAMING PARTNER CONSENT FORM FOR THE RELEASE OR PAST AND PRESENT PERFORMANCE INFORMATION TO THE PRIME CONTRACTOR**

Past performance information concerning subcontractors and teaming partners cannot be disclosed to a private party without the subcontractor's or teaming partner's consent. Because a prime contractor is a private party, the Government will need that consent before disclosing subcontractor/teaming partner past and present performance information to the prime during exchanges. In an effort to assist the Government's Past Performance Evaluation Team (PPET) in assessing your past performance relevancy and confidence, we request the following consent form be completed by the major subcontractors/teaming partners identified in your proposal. The completed consent forms should be submitted as part of your Past Performance Volume.

Dear (Contracting Officer)

We are currently participating as a (subcontractor/teaming partner) with (prime contractor or name of entity providing proposal) in responding to the Department of the Air Force (location) Request for Proposal (solicitation number) for the (program title or description of effort).

We understand that the Government is placing increased emphasis on past performance in order to obtain best value in source selections. In order to facilitate the performance confidence assessment process we are signing this consent form to allow you to discuss our past and present performance information with the prime contractor during the source selection process.

ITO ATTACHMENT 1.5 SAMPLE CLIENT AUTHORIZATION LETTER

In an effort to assist the Government's Past Performance Evaluation Team (PPET) in assessing your past performance on recent and relevant commercial contracts, we recommend that the following letter be sent to your points of contact for those commercial efforts that you identify in your Past Performance Volume:

SAMPLE CLIENT AUTHORIZATION LETTER

(For commercial contracts)

Note: This should be placed on company

letterhead Client Authorization Letter

Dear (Commercial Client/Customer)

We are currently responding to the Department of the Air Force, AFLCMC/WLTK Request for Proposal (RFP No.) for the (KC-135 Center Console Refresh (CCR)).

The Government is placing increased emphasis on past performance in order to obtain best value in source selections. They are requesting that clients of companies who submit proposals in response to their RFP for the program/effort identified above be identified and that their participation in the validation process be requested. Therefore, in the event you are contacted for information on work we have performed on (list program); you are hereby authorized to respond to those inquiries.

We have identified Mr./Ms. (Name) of your organization as the point of contact based on their knowledge concerning our work. Your cooperation is appreciated. Any questions may be directed to (Name, title, phone number and fax number for the POC)

ITO ATTACHMENT 1.6 SAMPLE COMMITMENT TO PERFORM AS PROPOSED LETTER**SUBCONTRACTOR/TEAMING PARTNER COMMITMENT TO PERFORM AS PROPOSED LETTER**

The Prime Contractor and Subcontractor shall complete and sign the letter. A separate letter is required for each subcontractor/teaming partner, etc.

SAMPLE COMMITMENT TO PERFORM AS PROPOSED LETTER

Note: This should be placed on company letterhead

Commitment to Perform as Proposed.

In the event a contract is awarded resulting from the proposal submitted by XXXX (prime contractor), Prime contractor XXXX and Subcontractor XXXX hereby commit to joint performance as described in the proposal.
