

Statement of Work (SOW)

Title: IBM Software and Subscription offerings for NASA Enterprise IT Support

1. Introduction

This Statement of Work (SOW) defines the requirements for a Contractor to provide IBM-branded software licenses/subscriptions, associated maintenance and support, and Services Special Options (SSSO) offerings. The Contractor shall furnish all software product, Subscription, and Support Services necessary to deliver a complete and functioning solution that meets the Government's business, technical, security, and compliance needs.

2. Background

NASA relies on International Business Machines (IBM) technologies as the foundation of its business operations, enterprise IT infrastructure, and mission systems. IBM products and services are deeply integrated into the Agency's application development lifecycle, artificial intelligence, business intelligence, compute resources, data management, enterprise asset management, finance, IT infrastructure management, IT security, mission systems, scientific research, and statistical analysis. This broad implementation of IBM technologies supports all NASA centers, mission directorates, and partner organizations.

3. Scope/ Objectives

The Contractor will provide NASA with access to all IBM Software and SSSO offerings, which include:

- IBM Software Products and Programs;
- IBM Subscription & Support ("S&S") renewals for previously acquired Programs;
- Expert Lab Services; and
- Remote Services.

The Contractor will support current IBM utilization throughout the agency and provide IBM SSSO offerings that will enable the agency to remain resilient and adaptable to evolving technological and operational demands.

4. Requirements

Task Area 1: IBM Platinum Partner & Special Software Terms Certifications

The Contractor shall hold and maintain the Platinum level partner certificate and a Special Software Terms certificate with IBM which allows NASA to renew existing or establish new Enterprise License Agreements (ELAs) with IBM. The Contractor shall provide proof of certification when requested by the Government.

The Contractor shall provide NASA with product knowledge and support to enable NASA to most efficiently manage current entitlements and strategically plan for upgrades and modernization.

Task Area 2: Software Products

The Contractor shall provide the following IBM brand software products, programs, and IBM Subscription & Support ("S&S") renewals, including but not limited to:

• IBM Cloud • IBM Cluster System Management for Linux • IBM Content Analytics • IBM Data Analytics: Infosphere, DB2 and BigInsights • IBM Business Analytics: Cognos and SPSS (Statistical Package for the Social Sciences) • IBM Decision Optimization Center • IBM General Parallel File System • IBM HPSS (High Performance Storage System) • IBM i2 • IBM ILOG • IBM Informix	• IBM MaaS360 • IBM Maximo • IBM MQ • IBM Power Systems: Spectrum, PowerAI • IBM Rational • IBM Security • IBM Sterling Connect:Direct • IBM Systems Director • IBM Tririga • IBM Watson • IBM Websphere • IBM XL Compilers
---	---

Software License keys or access credentials shall be delivered within 2 days of call order award.

Task Area 3: Named Point of Contact / IBM License Specialist

The Contractor shall provide a named representative to serve as a point of contact with NASA and a liaison with IBM. This resource shall have at least 2 years of experience with IBM licensing metrics and compliance and be knowledgeable with IBM's current and future products and offerings to provide NASA with information and guidance to NASA for efficiently managing our current set of IBM entitlements and strategically planning for future needs and modernization.

Task Area 4: IBM offered Support Services

The Contractor shall ensure NASA has access to the IBM Support Services, if needed, to assist with the implementation, integration, or enhancement of purchased software or subscriptions: IBM Expert Labs and Consulting Support.

Task Area 5: Ensure Access to IBM Management Tools

The Contractor shall ensure NASA has authorized access to the IBM Support Community and the IBM Passport Advantage Online systems.

Task Area 6: Software License and Asset Management (SLAM) Purchase Report

The contractor shall provide entitlement information of the products procured in a standard SLAM Purchase Report format provided by NASA within 5 business days of each BPA call order. Contractor shall send reports to the CO/COR and agency-slam@mail.nasa.gov. NASA will update format of the report as needed. At minimum, the report may include, but is not limited to the following data fields:

- Manufacturer Part Number
- Publisher
- Product
- Version
- Edition
- Purchase Date

- License Type (Perpetual, Subscription, Perpetual + Maintenance, Maintenance, etc.)
- Quantity Purchased (Purchased Rights)
- Unit Cost
- License Metric (Per Core, Per Device, Per Named User, etc.)
- Start Date
- End Date
- Customer Name
- Customer Email
- NASA Center
- Vendor
- IBM Site ID
- Government Order Number

Task Area 7: Monthly Cumulative Entitlement Snapshot

The Contractor shall provide NASA with a monthly report that provides an up-to-date cumulative snapshot of NASA owned licenses purchased through the contractor. The monthly updated cumulative licenses owned report shall include: IBM Product Name, SKU or product ID, total licenses / entitlements owned, license metric, and IBM Site ID. The data shall be grouped by IBM Product and IBM Site ID.

Task Area 8: Information & Guidance for License Compliance

The contractor shall provide NASA with up-to-date information and guidance, as needed, for meeting license or entitlement compliance, especially with metrics and reporting for each of the different IBM Products owned by NASA.

5. Deliverables

The Contractor shall ensure:

Deliverable	Description	Due Date
Platinum level partner certificate and Special Software Terms certificate with IBM	IBM provided certificates or letters of designation as a Platinum level partner and a Special Software Terms provider (for ELA establishment)	Upon Request
Software Licenses	Delivery of license keys or access credentials	Within 2 business days of call order
Dedicated representative and IBM License Specialist	Named point of contact for license assistance on product knowledge and license issue resolution.	As needed per request
Software License and Asset Management (SLAM) Purchase Report	Delivery of purchased entitlement data, using the NASA provided template to the CO/COR and agency-slam@mail.nasa.gov	Within 5 business days of call order
Monthly Cumulative Entitlement Report	A report of cumulative up-to-date number of NASA owned licenses or entitlements grouped by IBM Product and IBM Site ID. Data fields shall include IBM Product Name, SKU or product ID, total licenses / entitlements owned, license metric, and IBM Site ID.	First business day of each Month
Information & Guidance for License Compliance	Information and guidance to provides an overview and details of the license/entitlement compliance and any metric or reporting requirements for the licenses/entitlements purchased and owned by NASA.	Upon Request

6. Place of Performance

NASA Centers and facilities across the United States, including remote and hybrid work environments.

7. Period of Performance

The BPA will have a five (5) year ordering period from the effective date of award.
