Solicitation Number: 140L5726Q0012

Project Identification: Diesel Standby Generator – Tooele Air Center

Point of Contract: Mark Renforth, Contract Specialist email: mrenforth@blm.gov

Project Description: The Tooele Air Center requires a reliable standby power system to support critical operations during utility outages. Peak demand measurements from August 2025 recorded 370 kWh per day, necessitating a 60-kW diesel generator paired with an Automatic Transfer Switch (ATS) for automatic power switching. The facility's electrical infrastructure already includes pre-installed provisions for generator and ATS integration. The project involves furnishing and installing a complete standby generator system, verifying load calculations, constructing a new concrete pad at the designated site per facility blueprints, performing full installation, and conducting startup, testing, and commissioning to ensure seamless performance and compliance with applicable codes.

Project Location: The Tooele Air Center is situated at the Tooele Valley Airport (also known as Bolinder Field, FAA LID: TVY), in Erda, Utah (Tooele County), approximately five miles northwest of the city of Tooele and near State Highway 138.

Magnitude of Construction: In accordance with FAR 36.204, the estimated magnitude of this construction requirement is between \$25,000.00 - \$100,000.00.

Estimated Period of Performance: 45 days from issuance of Notice to Proceed.

North American Industry Classification System (NAICS) Code: 238210 – Electrical Contractors and Other Wiring Installation Contractors

Product Service Code: Z1BZ – Maintenance of Other Airfield Structures

Small Business Size Standard: \$19.0M

Solicitation Set-Aside: 100% Total Small Business - Only companies that qualify as a small business under the applicable size standard will be considered.

Solicitation Issuance Date: BLM-UT anticipates issuing a subsequent request for quotes (RFQ) on or about March 13, 2026, to SAM.gov. To obtain the solicitation and/or amendments/updates for this project, contractors shall monitor the solicitation at the sites listed above. Interested parties shall periodically check for amendments and other changes to the solicitation documents. This service is provided for convenience only and does not serve as a guaranteed notification. Subscribers to this service are ultimately responsible for reviewing this site for all information relevant to this solicitation.

Registration Requirements: To be considered eligible for award, vendors must be registered and have active profiles with completed representations and certifications in the System for Award Management (SAM) database (<https://sam.gov/content/entity-registration>). There is **NO** fee to register for this site.

Site Visit: A site visit will be scheduled within the first two weeks after the solicitation is posted. Details of the site visit, including date, time, location, and any registration or attendance instructions, will be provided in the solicitation. All prospective quoters are strongly encouraged to attend the scheduled site visit prior to submitting a quote.

Bonding: Payment bond required for contract awards **over** \$35,000.00 (*See FAR 52.228-15*)

Attachments: The attachments are DRAFTs only. Finalized attachments will be issued with the subsequent RFQ.
