

**SINGLE SOURCE DETERMINATION USING
SIMPLIFIED ACQUISITION PROCEDURES (SAP)
FOR AN ACTION NOT EXCEEDING THE SIMPLIFIED ACQUISITION THRESHOLD
(AUTHORITY: FAR 6.302-1)**

143071-26-0011

1. Agency and contracting activity. Department of Commerce, NOAA, NMFS, Pacific Islands Fisheries Science Center, Protected Species Division, Marine Turtle Biology and Assessment Program and NOAA Fisheries Pacific Islands Fisheries Science Center.

2. Description of supplies or services required to meet agency needs (including the estimated value).

Biomark PIT (Passive Integrated Transponders) tags and scanners. PIT tags have been the industry standard and primary means in mark-recapture studies for sea turtle research for the past decades. They are an instrumental tool to help conduct our population assessments throughout the Pacific Island Region. Expected delivery date is before 4/15/2026. Purchase through Stand alone order. [REDACTED]

Without tagging data, NMFS will not be able to adequately meet the mandates set under the Endangered Species Act (1973), and the Magnuson–Stevens Fishery Conservation and Management Act (2007).

3. Identification of the single source or the brand name to be solicited.

Biomark

[REDACTED]

A. 705 S 8th st, Boise, Idaho 83702 USA

D. +1 208-955-6760

O. +1 208-275-0011

[REDACTED]

4. Supporting rationale. Only one source or brand name is reasonably available as detailed below:

- ☐ Brand Name – This particular brand name is essential to the requirement and market research indicates similar products do not meet or cannot be modified to meet agency needs.
- ☐ Compatibility to existing systems or equipment - The required supplies or service must be compatible in all aspects (form, fit, and function) with existing systems or equipment, and the source is uniquely qualified to meet the requirement.
- ☐ Exclusive Licensing Agreement/Restrictive Rights/Authorized Reseller - The source has one or more of the following: an established exclusive licensing agreement, proprietary data, limited rights in data, patent rights, OEM required certifications or OEM authorized reseller, copyrights, or secret processes with regard to the supplies or services required.
- ☐ Urgency – The nature of the requirement has been deemed urgent due to unusual and compelling circumstances. Following competitive procedures would result in unacceptable delays resulting in serious injury to the Government.

X Other - Only one source is capable - Biomark has been the leading industry standard for PIT tags used in sea turtle research and is currently the only manufacturer that provides sterile PIT tags in the right size with the right needle gauge as required under our NMFS and USFWS research permits. BioMark delivers quality products and service year after year, and without their product we would not be able to conduct our long-term research under current permits. In addition, it is imperative to maintain consistency with the data we have accumulated using Biomark tags in the past, and a switch to a different manufacturer, if an option were to become available that offered exactly what we need to comply with our strict NMFS and USFWS research permit requirements, could compromise the integrity or comparability of our existing datasets. This would be counterproductive to us meeting our sustainable fisheries and endangered species mandates.

5. Market Research.

Other companies (Avidid, Unified Information Devices, Inc, Vodaiq, etc) do not have products listed available that meet our industry standards or products that can be used under our current permits.

6. Technical/Requirements Representative Certification

I certify that this requirement constitutes the Government's minimum needs and the supporting data provided herein is accurate and complete to the best of my knowledge and belief.

Jan Willem Staman
Biological Science Technician

____1/22/2026____
Date

7. Determination

I hereby determine that the circumstances of this action deem only one source is reasonably available. This determination is accurate and complete to the best of my knowledge and belief.
