

PERFORMANCE WORK STATEMENT (PWS)
(Includes associated Performance Requirements Summary (PRS))

Academic and Analytical Wargame Development

PART 1
GENERAL INFORMATION

1. General: This is a non-personal service(s) contract under which the personnel rendering the service(s) are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees.

1.1 Description of Services/Introduction: This is a non-personal service(s) contract to provide academic and analytical wargame support.

1.2 Background: A growing demand for academic and analytical wargames has surpassed the capacity of the Department of Strategic Wargaming (DSW). To meet this demand, DSW requires an additional capability and capacity to support both the academic-institutional pillar and government organizations/agencies.

1.3 Scope: The Contractor shall provide non-personal service(s). The Contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items necessary to perform services as described in the PWS and associated contract documents, except for those items specified in Part 3 Government Property and Services. The Contractor shall perform to the standards and acceptable quality levels identified in this PWS and associated contract documents.

1.4 Objectives: The objective of this contract is to provide additional wargame design and development capacity to meet the growing demand for academic and analytical wargames.

1.5 General Information:

1.5.1 Quality Control Plan (QCP): This acquisition is for commercial services and will be performed using FAR Part 12 procedures. The contractor's existing quality assurance system shall be utilized In Accordance With (IAW) FAR 12.208.

1.5.2 Quality Assurance: The Government will evaluate the Contractor's performance under this contract IAW the Quality Assurance Surveillance Plan (QASP). This plan is primarily focused on what the Government must do to ensure that the Contractor has performed IAW the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the acceptable quality levels (performance thresholds).

1.5.3 Recognized Holidays: The following provides information on recognized holidays for the purpose of the PWS. If submittal of any tasks or documentation (e.g., deliverables, submittals,

etc.) deadlines fall on a holiday, the closest workday prior to the holiday will apply as the deadline for submittal.

1.5.3.1 U.S. Holidays: Work shall not be performed on U.S. federally recognized holidays occurring during the normal workweek unless otherwise directed by the Contracting Officer. When a U.S. holiday occurs on a Saturday or a Sunday, the holiday is observed on the preceding Friday or following Monday, respectively.

New Year's Day	Labor Day
Martin Luther King Jr.'s Birthday	Columbus Day
President's Day	Veteran's Day
Memorial Day	Thanksgiving Day
Juneteenth	Christmas Day
Independence Day	

1.5.4 Operating Hours: The Government facility office hours, facility operating hours, and the Contractor support hour requirements often coincide, however, they may differ. Please refer to the following.

1.5.4.1 Government Facility Office Hours: The Government facility office hours are 0800 to 1700, Monday through Friday except U.S. Holidays identified in paragraph 1.5.3.1 above or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings.

1.5.5 Place of Performance: The work to be performed under this contract will be performed at Carlisle Barracks, Collins Hall Building 650 in Carlisle Pennsylvania. All travel to and from Carlisle Barracks, Pennsylvania shall be at the expense of the contractor.

1.5.5.1 Telework Capabilities: Telework may be authorized following approval from the Government Supervisor of this contract for non-emergent working days.

1.6 Clearance Requirements: The following information is provided on security clearance related matters.

1.6.1 Facility Clearance Program: Contracted vendors performing work under this contract must have a SECRET level Facility Clearance at time of offer submission and must maintain the level of security required for the life of the contract. The security requirements are IAW with the DoD Contract Security Classification Specification (DD Form 254), which is currently accessible at the following link: <http://www.dtic.mil/whs/directives/forms/eforms/dd0254.pdf>

1.6.2 Personnel Security Clearance Requirements: Contractor personnel performing work under this contract must have an active personnel security clearance at the SECRET level in the Defense Information System for Security (DISS) at time of offer submission and must maintain the level of security required for the life of the contract. The security requirements are IAW the DoD Contract Security Classification Specification DD Form 254. The Contractor shall ensure that contractor employees and subcontractor employees performing services under this

contract shall comply with FAR 52.204-2, Security Requirements. This clause involves access to information classified "Confidential," "Secret," or "Top Secret" and requires contractors to comply with (1) The Security Agreement (DD Form 441), including the National Industrial Security Program Operating Manual (DoD 5220.22-M); (2) any revisions to DOD 5220.22-M, notice of which has been furnished to the contractor.

1.6.3 Controlled Unclassified Information (CUI): DFARS provision 252.204-2019 and DFARS clause 252.204-7012 apply to this PWS, which requires the contractor to comply with NIST SP 800-171 (800-171). The Government will follow procedures outlined in DFARS 204.73 and verify vendors have an adequate 800-171 summary assessment score within the Supplier Performance Risk System (within PIEE). If the score doesn't show a medium- or high-level assessment with a score of 110 or better (as described in the 800-171 DoD Assessment Methodology"), DFARS clause 252.204-7020 shall apply, and the Government will obtain the vendor's "system security plan" and "plan of action" for 800-171 verification and assurance by Army security officials. See <https://csrc.nist.gov/publications/search?keywords-lg=800-171&sortBy-lg=Number+ASC&viewMode-lg=brief&ipp-lg=all&status-lg=Final&series-lg=SP&topicsMatch-lg=ANY&controlsMatch-lg=ANY> for the current revision of 800-171.

1.7 Installation Access: Access to U.S. installations, buildings and controlled areas is limited to personnel who meet security criteria and are authorized. Failure to submit required information/data and obtain required documentation or clearances will be grounds for denying access to U.S. installations, buildings, and controlled areas. The Contractor shall ensure that any subcontractors used in performance of this contract complies with these requirements and that all employees, of both the Contractor and any subcontractor utilized by the Contractor, are made aware of and comply with these requirements.

The Contractor shall be aware of and comply with the requirements associated with Installation Access Control. The Government is not liable for any costs associated with performance delays due solely to a firm's failure to comply with Installation Access Control System (IACS) processing requirements.

The Contractor shall return installation passes and/or issued identification to the issuing IACS office when the contract is completed or when a Contractor employee no longer requires access. This includes when an individual is terminated or at the expiration of their employment or when the contract ends (whether due to expiration, termination, or cancellation).

1.7.1 Background Checks: Contractor and all associated subcontractor employees shall provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements (FAR clause 52.204-9, Personal Identity Verification of Contractor Personnel) as directed by DOD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in contractor security matters or processes.

1.7.2 Common Access Cards (CAC):

1.7.2.1 For contractors requiring Common Access Card (CAC). Before CAC issuance, the contractor employee requires, at a minimum, a favorably adjudicated National Agency Check with Inquiries (NACI) or an equivalent or higher investigation in accordance with Army Directive 2014-05. The contractor employee will be issued a CAC only if duties involve one of the following: (1) Both physical access to a DoD facility and access, via logon, to DoD networks on-site or remotely; (2) remote access, via logon, to a DoD network using DoD-approved remote access procedures; or (3) physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD on a recurring basis for a period of 6 months or more. At the discretion of the sponsoring activity, an initial CAC may be issued based on a favorable review of the FBI fingerprint check and a successfully scheduled NACI at the Office of Personnel Management.

1.7.2.1.1 The Contractor shall provide the following information: Last, First and Middle Names, government issued personal identifier (e.g., Social Security Number, Federal Identification Number, or Tax Identification Number), date of birth, primary email address (this email address will be used to contact the individual) and any other necessary information required to obtain a CAC or installation access card, to the COR within 5 after award (**Deliverable #1**). The Contractor shall ensure safeguarding of Personally Identifiable Information (PII).

Note: CACs are Government property.

1.7.2.2 For contractors that do not require CAC but require access to a DoD facility or installation. (If applicable, **AT/OPSEC Item 2b**) Contractor and all associated sub-contractors employees shall comply with adjudication standards and procedures using the National Crime Information Center Interstate Identification Index (NCIC-III) and Terrorist Screening Database (Army Directive 2014-05/AR 190-13), applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative); or, at OCONUS locations, in accordance with status of forces agreements and other theater regulations.

1.8 Physical Security: The Contractor shall safeguard all Government equipment, information, and property provided for Contractor use. At the close of each work period, Government facilities, equipment, and materials shall be secured IAW the Army Physical Security Program (AR 190-13.)

1.8.1 Operations Security (OPSEC) Requirements: Contractor personnel shall adhere to facility security policies and restrictions. The Contractor shall immediately report suspicious activities to security personnel. Government-issued access badges shall not be worn outside designated facilities where visible to the general public.

1.8.2 Key (Card) Control: NOTE: All references to keys include key cards. The Contractor shall establish and implement methods of making sure all keys issued to the Contractor by the Government are not lost or misplaced and are not used by unauthorized persons. No keys issued to the Contractor by the Government shall be duplicated. The Contractor shall develop

procedures covering key control. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The Contractor shall immediately report any incidents of lost or duplicate keys to the Contracting Officer. In the event keys, other than master keys, are lost or duplicated, the Contractor shall, upon direction of the Contracting Officer, re-key or replace the affected lock or locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from payment due to the Contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the payment due to the Contractor. The Contractor shall prohibit the use of Government issued keys by any persons other than the Contractor's employees. The Contractor shall prohibit the opening of locked areas by Contractor employees to permit entrance of persons other than Contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the Contracting Officer. The Contractor shall establish and implement methods of ensuring that all lock combinations are not revealed to unauthorized persons. The Contractor shall ensure that lock combinations are changed when personnel having access to the combinations no longer have a need to know such combinations.

1.9 Post Award Conference/Periodic Progress Meetings: The Contractor shall attend any post award conference convened by the contracting activity or contract administration office IAW FAR Subpart 42.5. The Contracting Officer, COR, and other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the Contracting Officer will apprise the Contractor of how the Government views the Contractor's performance and the Contractor shall apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the Government.

1.9.1 The Contractor shall attend, participate in, and furnish input to scheduled and unscheduled meetings, conferences, and briefings that relate to the functions and services herein as required by the Government to provide effective communication and impart necessary information. The Contract Manager or designated representative shall attend meetings as requested by the Government. Meeting attendees shall at times include Contractor managerial, supervisory, and other personnel knowledgeable of the subject matter. Meetings may start or end outside of regular duty hours.

1.10 Contracting Officer's Representative (COR): Refer to Part 2 of this PWS for the definition of a COR. As determined by the Contracting Officer, a COR will be appointed and identified by letter of designation, a copy of which will be provided to the Contractor by the Contracting Officer. The designation letter states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates, or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is not authorized to obligate the Government. If the work is not written in the contract, the COR is not authorized to request new work. The COR is authorized to perform the following functions: assure that the Contractor performs the technical

requirements of the contract, perform inspections necessary in connection with contract performance, maintain written and oral communications with the Contractor concerning technical aspects of the contract, issue written interpretations of technical requirements, including Government drawings, designs, specifications, monitor Contractor's performance and notifies both the Contracting Officer and Contractor of any deficiencies, coordinate availability of Government property, and coordinate site entry of Contractor personnel.

1.11 Contract Managers: The following personnel are considered essential personnel by the Government: Contract Manager and Alternate Contract Manager. The Contractor shall provide a Contract Manager who shall be responsible for the performance of the work. The name of this person and an Alternate Contract Manager, who shall act for the Contractor when the Contract Manager is absent shall be provided in writing to the Contracting Officer Representative during the post-award meeting (**Deliverable #2**). The Contract Manager and Alternate Contract Manager shall have full authority to act for the Contractor on all contract matters relating to daily operation of this contract. The Contract Manager or Alternate Contract Manager shall be available during operating hours listed in PWS 1.5.4.

1.12 Additional Key Personnel: Certain experienced professional and/or technical personnel are essential for successful accomplishment of the work to be performed under this contract. These Key Personnel must be identified by name within the contractor's offer for their resumes (and any additional documents) to be evaluated during the source selection process.

1.12.1 The contractor agrees that such personnel shall not be removed or replaced within the performance of this contract unless the following measures are taken:

1.12.1.1 If one or more of the key personnel, for any reason, becomes or is expected to become unavailable for work under this contract for a continuous period exceeding 30 work days, or is expected to devote substantially less effort to the work than indicated in the proposal or initially anticipated, the contractor shall, subject to the concurrence of the KO or COR, promptly replace personnel with personnel who possess equal or better qualifications as the original employee.

1.12.1.2 All requests for approval of substitutions hereunder must be in writing and provide a detailed explanation of the circumstances necessitating the proposed substitutions. The request must contain a resume for the proposed substitute, and any other information requested by the KO or COR. The KO or COR must concur in writing with the change.

1.12.1.3 If the KO or COR determines that suitable and timely replacement of Key Personnel who have been reassigned, terminated, or have otherwise become unavailable for the contract work is not reasonably forthcoming or that the resultant reduction of productive effort would be so substantial as to impair successful completion of the contract, the KO may terminate the contract for default or for the convenience of the Government, as appropriate, or make an equitable adjustment to the contract to compensate the Government for any resultant delay, loss or damage.

1.12.2 Key Personnel Qualifications: Individuals must possess a bachelor's or master's degree in game, Computer, or areas related to Graphic Design. They must possess 5+ years of experience in strategic wargame design and development and have demonstrated excellent analytical and communication skills.

1.13 Identification of Contractor Employees: All Contractor personnel attending meetings, answering Government telephones, and working in other situations where their contractor status is not obvious to third parties must identify themselves, to include proper marking of signature blocks in correspondence, to avoid creating an impression in the minds of members of the public that they are Government officials. The Contractor shall ensure that all documents or reports, produced by Contractors are suitably marked as Contractor products or that Contractor participation is appropriately disclosed.

1.13.1 Contractor Identification Badges: Contractor personnel shall be easily identifiable through the display of badges IAW Contractor Identification

1.14 Contractor Travel: The Contractor may be required to travel to various locations including, but not limited to, the National Capital Region, Army Service Component Commands, and other academic institutions during the performance of this contract to attend meetings, conferences, and/or training. The Contractor shall be authorized travel expenses at rates no higher than the substantive provisions of the Joint Travel Regulation (JTR), IAW FAR 31.205-46, and the limitation of funds specified in this contract. All travel requires Government written approval/authorization and notification to the COR prior to travel. Failure to obtain prior authorization could result in invoice denial. Government will only pay for costs incurred; all costs must be accompanied by documentation.

1.15 Other Direct Costs (ODCs): No Other Direct Costs (ODCs) are associated with this contract.

1.16 Data Rights: The Government has unlimited rights to all documents and materials produced under this contract. All documents and materials, to include the source codes of software, produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership and copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.17 Non-Disclosure Requirements: Performance under this contract may require the Contractor to access data and information proprietary to a government agency, another Government Contractor, or of such nature that its dissemination or use other than as specified in this work statement would be averse to the interests of the Government or others. The Contractor and Contractor personnel shall not divulge, or release data or information developed, or obtained under performance of this PWS, except to authorized Government personnel or upon written approval of the Contracting Officer. The Contractor shall not use, disclose, or reproduce proprietary data, which bears a restrictive legend, other than as

specified in this PWS. All documentation showing individual names or other personal information shall be controlled and protected under the provisions of the Privacy Act of 1974, Public Law 93-579, 5 United States Code (U.S.C.) Section 552a.

1.18 Protection of Government and Contract Information: Per Public Use Notice of Limitations stated by Defense Media Activity and contained at www.dma.mil/Services/Visual-Information/References/Limitations/, the Contractor shall not cite any information (e.g., contract information, pictures, locations, etc.) obtained from the Government through this contract on any hard copy or digital marketing tools to include its company website. Information shall not be used in a manner that could imply endorsement of an individual, for-profit business, non-profit organization, or any other non-Federal entity (including DoD contractors), product, or service. This applies to both domestic and international users. Endorsement of a non-Federal entity, event, product, service, or enterprise may be neither stated nor implied.

1.19 Non-Disclosure Statements: If applicable, the Contractor shall provide signed non-disclosure agreements to the Government no later than five (5) (**Deliverable #3**) prior to commencement of work under the contract. Disclosure of information by Contractor personnel may result in removal of Contractor personnel from performance under this contract.

1.20 Organizational Conflict of Interest (OCI): If applicable, Contractor and subcontractor personnel performing work under this contract may receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent OCI as defined in FAR Subpart 9.5. The Contractor shall notify the Contracting Officer immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the Contracting Officer to avoid or mitigate any such OCI (**Deliverable #4**). The Contractor's OCI Mitigation Plan will be determined to be acceptable solely at the discretion of the Contracting Officer. In the event the Contracting Officer unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the Contracting Officer may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

1.21 Phase In /Phase Out Period: Not Applicable to this Contract

1.22 Safety: The following provides information pertaining to Safety and Accident Prevention:

1.23 Environmental Compliance: N/A

1.23.1 Environmental Compliance Plan and Program: N/A

1.24 Required Training: The following provides information on training requirements.

1.24.1 Anti-Terrorism (AT) "Level I" Training: (AT/OPSEC **Item 1**) All contractor employees, to include subcontractor employees, requiring access Army installations, facilities and

controlled access areas shall complete AT “Level I” Awareness training within **30 days** after contract start date or effective date of incorporation of this requirement into the contract, whichever is applicable. The contractor shall submit certificates of completion for each affected contractor employee and subcontractor employee, to the COR or to the contracting officer, if a COR is not assigned, within **five (5) days** after completion of training by all employees and subcontractor personnel (**Deliverable #4**). AT “Level I” Awareness training is available at the following website: <http://jko.jten.mil>. Contractor personnel shall complete refresher training every twelve (12) months.

1.24.2 iWATCH Training: (AT/OPSEC Item 4) The Contractor and all associated subcontractors shall brief all employees on the local iWATCH program (training standards provided by the requiring activity ATO). This locally developed training will be used to inform employees of the types of behavior to watch for and instruct employees to report suspicious activity to the COR. This training shall be completed within **30 days** after the contract is awarded or new employees commence contract performance, with the results reported to the COR within **five (5) days** after completion (**Deliverable #5**).

1.24.3 OPSEC Training: (the AT/OPSEC Item 7) All Contractor employees, including subcontractors, shall complete OPSEC “Level I” training within **30 days** of employment under this contract. Verification of the training shall be provided to the COR within **five (5) days** after completion of the training (**Deliverable #6**). OPSEC “Level I” training is available at <http://www.cdse.edu/catalog/elearning/GS130.html>. Contractor personnel must complete refresher training every 12 months. Verification of the training shall be provided to the COR within **five (5) days** after completion of the training.

1.24.4 Information Assurance (IA) Training

1.24.4.1 (AT/OPSEC Item 5) All Contractor employees, including subcontractors, performing services under this contract with access to a Government Info System (IS) will be registered in the U.S. Army’s AVS (Account Validation System) at commencement of services, and must successfully complete the DOD Information Assurance Awareness prior to access to the IS and then annually thereafter. Verification of registration shall be provided to the COR within **30 days** after registration. Verification of the training shall be provided to the COR within **five (5) days** after completion of the training (**Deliverable #7**). Contractor personnel must complete refresher training every twelve (12) months.

1.24.4.2 (AT/OPSEC Item 8) All contractor employees and associated subcontractor employees must complete the DoD IA awareness training before issuance of network access and annually thereafter. All contractor employees working in IA/IT functions must comply with DoD and Army training requirements in DoDD 8570.01, DoD 8570.01-M and AR 25-2 within six months of appointment to IA/IT functions. **Verification of the training shall be provided to the COR within five (5) days after completion of the training (Deliverable #8).**

1.24.4.3 (AT/OPSEC Item 9) Per DoD 8570.01-M, DFARS 252.239.7001 and AR 25-2, the contractor employees supporting IA/IT functions shall be appropriately certified upon contract

award. The baseline certification as stipulated in DoD 8570.01-M must be completed upon contract award (**Deliverable #9**).

1.24.5 Personnel Security Clearance Training: (AT/OPSEC Item 14) For all contractors with security clearances. Per AR 381-12 Threat Awareness and Reporting Program (TARP), contractor employees must receive annual TARP training by a CI agent or other trainer as specified in AR 381-12 2-4b within **30 days** after contract start date. The contractor shall submit proof of completion for each affected contractor employee and subcontractor employee, to the COR or to the contracting officer, if a COR is not assigned, within **five (5) days** after completion of training by all employees and subcontractor personnel (**Deliverable #10**).

1.24.6 Personally Identifiable Information (PII): Contractor employees, including subcontractors, performing services under this contract with access to PII and Government information shall complete "Identifying and Safeguarding PII" within 30 calendar days of employment. Contractor personnel shall complete refresher training every twelve (12) months from initial completion. The Contractor shall provide the COR a copy of the training certificates for its employees no later than **five (5) days** after completion (**Deliverable #11**). Training is available at <http://iatraining.disa.mil/eta/piiv2/launchPage.html>

1.24.7 OPSEC TRAINING. In accordance with Army Regulation 530-1, Operations Security, and per the Secretary of Defense Memorandum dated 20 July 2020, all "ON-SITE" contractor employees shall complete the following training courses:

- 1.) OPSEC Awareness for Military Members, DoD Employees and Contractors [GS130.16] OR (Alternate) Army OPSEC Level 1 (Newcomers and Refresher) via ALMS at <https://www.lms.army.mil>
- 2.) Unauthorized Disclosure of Classified Information for DoD and Industry [IF130.16]
- 3.) Insider Threat Awareness Training [INT101.16]
- 4.) Introduction to Security Course [IF011.16]

The SEC DEF training shall be completed within 30 calendar days of on-site contractor employees reporting for duty. All contractor employees shall complete annual OPSEC awareness training. The contractor shall complete training within 5 days of commencement of work and shall submit certificates for each contractor employee that will be working "ON-SITE" to the COR within 5 calendar days of completion of training.

This training is available at: <https://www.cdse.edu/catalog/elearning/index.html>.

1.24.8 Additional Training Requirements: Contractor shall accomplish any additional training that the Department of Defense, Department of the Army, local commanders may determine necessary for personnel working on military installations or working with military personnel (not to exceed 10 hours of instruction **per contract**).

PART 2 DEFINITIONS & ACRONYMS

2. Definitions and Acronyms

2.1 Definitions: Although not inclusive of every term used within this PWS, the following provides a list of definitions used throughout this PWS and commonly used in the acquisition field.

Contracting Officer – means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings on behalf of the Government. **Note: The only individual who can legally bind the Government.**

Contracting Officer's Representative (COR) – As defined in DFARS 202.101, means an individual designated and authorized in writing by the Contracting Officer to perform specific technical or administrative functions. DoD Instruction (DoDI) 5000.72, Part II Definitions states the following when defining a COR: “Defined in subpart 202.101 of Reference (f). Any individual delegated responsibilities pursuant to subpart 1.602-2 of Reference (e), regardless of local terminology, must be certified IAW this instruction. For example, local terminology can be COR, Contracting Officer’s technical representative, technical point of contact, technical representative, alternate COR, administrative COR, assistant COR, line-item manager, task order manager, quality assurance personnel, quality assurance evaluator, or COR management.” In addition, Army Regulation 70-13, Chapter 2, paragraph 2-2g, states, in part, the following when providing other surveillance support personnel to assist the COR when needed, “...These other surveillance support personnel may serve as on-site representatives of the COR in performance of actual contract surveillance if they meet all COR requirements and have been appointed by the Contracting Officer as alternate CORs.”

Contractor – means a supplier or vendor awarded a contract to provide specific supplies or service to the Government. The term used in this contract refers to the prime.

Contractor-acquired Property - means property acquired, fabricated, or otherwise provided by the Contractor for performing a contract and to which the Government has title.

Day – means, unless otherwise specified, a calendar day.

Defective Service – means a service output that does not meet the standard of performance associated with the Performance Work Statement.

Deliverable – means anything that can be physically delivered but may include non-manufactured things such as meeting minutes or reports.

Government-furnished Property – As reflected in FAR 52.245-1, Government-furnished Property “means property in the possession of, or directly acquired by, the Government and subsequently furnished to the Contractor for performance of a contract. Government-furnished property includes, but is not limited to, spares and property furnished for repair, maintenance,

overhaul, or modification. Government-furnished property also includes contractor-acquired property if the contractor-acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract.

Government Property - means all property owned or leased by the Government. Government property includes both Government-furnished and Contractor-acquired property. Government property includes material, equipment, special tooling, special test equipment, and real property. Government property does not include intellectual property and software.

Property Administrator - means an authorized representative of the Contracting Officer appointed IAW agency procedures, responsible for administering the contract requirements and obligations relating to Government property in the possession of a Contractor.

Physical Security – means that part of security concerned with physical measures designed to safeguard personnel; to prevent unauthorized access to equipment, installations, material, and documents; and to safeguard against espionage, sabotage, damage, and theft.

Quality Assurance – (or Government contract quality assurance) means the various functions, including, inspection, performed by the Government to determine whether a Contractor has fulfilled the contract obligations pertaining to quality and quantity.

Quality Assurance Surveillance Plan (QASP) – means the key Government-developed surveillance process document and is applied to Performance-Based Service Contracting (PBSC). The QASP is used for managing Contractor performance assessment by ensuring that systematic quality assurance methods validate that Contractor quality control efforts are timely, effective, and are delivering the results specified in the contract or task order. The QASP directly corresponds to the performance objectives and standards (i.e., quality, quantity, timeliness) specified in the Performance Work Statement (PWS). It provides specific details on how the Government will survey, observe, test, sample, evaluate, and document Contractor performance results to determine if the Contractor has met the required standards for each objective in the PWS. The QASP, with very few if any exceptions, is an internal to Government document.

Quality Control – means all necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

Statement – means the specific results-based activities required to satisfy objectives. A statement contains a result, the context of the statement, and the required action(s). Statements focus on “what” is to be accomplished; however, they are not prescriptive in describing “how” the outcome is to be achieved. Each objective may have several statements to flesh out the areas necessary to meet the objective. Statements are similar to Level 3 in a Work Breakdown Structure.

Subcontractor – means one that enters into a contract with a prime Contractor. The Government does not have privity of contract with the subcontractor.

Workday - The number of hours per day the Contractor provides services IAW the contract.

Work Week - Monday through Friday, unless otherwise specified.

2.2 Acronyms: Although not inclusive of every term used within this PWS, or that may be included in an acquisition, the following provides a list of acronyms commonly used in the acquisition field.

ACOR	Alternate Contracting Officer's Representative
AFARS	Army Federal Acquisition Regulation Supplement
AHA	Activity Hazard Analysis
AR	Army Regulation
AT	Anti-terrorism
ATCTS	Army Training Certification Tracking System
CAC	Common Access Card
CBPA	Carlisle Barracks, Pennsylvania
CCE	Contracting Center of Excellence
CFR	Code of Federal Regulations
CONUS	Continental United States (excludes Alaska and Hawaii)
COR	Contracting Officer's Representative
COTS	Commercial-Off-the-Shelf
CSL	Center for Strategic Leadership
DA	Department of the Army
DD250	Department of Defense Form 250 (Receiving Report)
DD254	Department of Defense Contract Security Requirement List
DFARS	Defense Federal Acquisition Regulation Supplement
DMDC	Defense Manpower Data Center
DSW	Department of Strategic Wargaming
DoD	Department of Defense
FAR	Federal Acquisition Regulation
FPCON	Force Protection Condition
GFP	Government Furnished Property

PART 3

GOVERNMENT PROPERTY (GP) AND SERVICES

3. Government Property and Services

3.1 Services: The Government will provide access to facilities, network, and wargame development materials.

3.2 Facilities: The Government will provide designated workspace necessary for the Contractor to provide the support outlined in the PWS to include desk space, storage rooms, etc. In accordance with clause FAR 52.237-2, the Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation on the Government installation. If the Contractor's failure to use reasonable care causes damage to any of this property, the Contractor shall replace or repair the damage at no expense to the Government as the Contracting Officer directs. If the Contractor fails or refuses to make such repair or replacement, the Contractor shall be liable for the cost, which may be deducted from the contract price.

3.3 Utilities: The Contractor shall instruct employees in utilities conservation practices. The Contractor shall operate under conditions that preclude the waste of utilities, which include turning off the water faucets or valves, light switches, etc. after using the required amount to accomplish tasks requiring the use of the utilities.

3.4 Equipment: The Government will provide the Contractor with access to laptops, telephones, printers, scanners, supplies, and other items necessary to design/develop strategic academic and analytical wargames.

3.5 Materials: The Government will provide Standard Operating Procedures, workbooks, historical data, and wargame development materials to the Contractor.

3.6 Common Access Cards (CAC): The Government will provide Common Access Cards (CAC) via the Trusted Associate Sponsorship System (TASS) (Web site <https://www.dmdc.osd.mil/tass/>).

PART 4
CONTRACTOR FURNISHED ITEMS AND SERVICES

4. Contractor Furnished Property and Services

4.1 General: The Contractor shall furnish all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items necessary to perform services as described in the PWS and associated contract documents, except for those items specified in Part 3 Government Property and Services.

4.2 Secret Facility Clearance: The Contractor shall possess and maintain a SECRET level facility clearance from the Defense Security Service IAW DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM) and AR 380-49, Industrial Security Program. The Contractor's employees, performing work in support of this contract shall have been granted a SECRET level clearance from the Defense Industrial Security Clearance Office. The Facility Security Clearance must match the highest security clearance required for personnel. The DoD Contract Security Classification Specification (DD 254) is provided as an attachment in the basic contract.

4.3 Materials: Not Applicable

PART 5 SPECIFIC TASKS

5. Specific Tasks

5.1 Basic Services: The Contractor shall provide services for the design, development, facilitation, training, and analysis of strategic level academic and analytical wargames. Generally, there are 3-4 academic and analytical wargames (each) produced per calendar year. These basic services are measured by deliverables such as design briefs, prototypes, rulesets, analysis plans, etc.

5.2 Academic Wargame Designer/ Developer Tasks: Tasks consist of the following:

5.2.1 Wargame Design and Planning

5.2.1.1 Requirement Analysis: Gather and analyze the wargame sponsor's requirements, aims, and specific research questions/objectives.

5.2.1.2 Concept Development: Develop the core wargame concept, including the scope, theme, players, and constraints.

5.2.1.3 Research: Conduct comprehensive academic and professional research related to the wargame's theme, existing relevant wargames, and applicable doctrine.

5.2.1.4 Rules and Mechanics Design: Create or adapt the core rules, mechanics, and adjudication methods for the wargame, ensuring they align with the analytical goals.

5.2.1.5 Scenario Development: Develop the scenario to ensure it effectively covers academic objectives and achieves course learning outcomes.

5.2.1.6 Documentation: Prepare and maintain comprehensive documentation, including design outlines, diagrams, rules manuals, and a detailed design and development brief for sponsor approval.

5.2.2 Wargame Development and Testing

5.2.2.1 Component Creation: Create any necessary physical or digital components such as maps, game boards, markers, and adjudication tools.

5.2.2.2 Prototyping: Develop functional prototypes of the game for presentation and testing.

5.2.2.3 Playtesting and Refinement: Plan and oversee playtests to ensure the game mechanics are balanced, fun, and meet the intended academic outcomes. Refine the design based on player feedback and playtest results.

5.2.2.4 Quality Control: Conduct quality assurance (QA) testing to ensure the game functions correctly and adheres to the original vision and academic instructor/facilitator requirements.

5.2.2.5 Data Collection Plan: Coordinate with the lead analyst to develop a Data Collection and Analysis Plan (DCAP) that outlines how data will be collected during the game to demonstrate student understanding.

5.2.3 Wargame Execution and Analysis

5.2.3.1 Facilitation/ Moderations: Assist in the facilitation of the wargame during execution, which may include acting as an adjudicator or subject matter expert (SME) during game play.

5.2.3.2 Data Collection Oversight: Manage or serve as part of the analyst team to collect data against the DCAP during the wargame.

5.2.3.3 Observation and Feedback: Provide observations and insights into player decision-making and game outcomes.

5.2.3.4 Analysis and Reporting: Oversee and produce the final analysis report, focusing on insights derived from the wargame results as they pertain to achieving academic objectives.

5.3 Analytical Wargame Designer/ Developer Tasks: Tasks consist of the following:

5.3.1 Wargame Design and Planning

5.3.1.1 Requirement Analysis: Gather and analyze the wargame sponsor's requirements, aims, and specific research questions/objectives.

5.3.1.2 Concept Development: Develop the core wargame concept, including the scope, theme, players, and constraints.

5.3.1.3 Research: Conduct comprehensive academic and professional research related to the wargame's theme, existing relevant wargames, and applicable doctrine.

5.3.1.4 Rules and Mechanics Design: Create or adapt the core rules, mechanics, and adjudication methods for the wargame, ensuring they align with the analytical goals.

5.3.1.5 Scenario Development: Develop the scenario to ensure it effectively covers academic objectives and achieves course learning outcomes.

5.3.1.6 Documentation: Prepare and maintain comprehensive documentation, including design outlines, diagrams, rules manuals, and a detailed design and development brief for sponsor approval.

5.3.2 Wargame Development and Testing

5.3.2.1 Component Creation: Create any necessary physical or digital components such as maps, game boards, markers, and adjudication tools.

5.3.2.2 Prototyping: Develop functional prototypes of the game for presentation and testing.

5.3.2.3 Playtesting and Refinement: Plan and oversee playtests to ensure the game mechanics are balanced, fun, and meet the intended academic outcomes. Refine the design based on player feedback and playtest results.

5.3.2.4 Quality Control: Conduct quality assurance (QA) testing to ensure the game functions correctly and adheres to the original vision and academic instructor/facilitator requirements.

5.3.2.5 Data Collection Plan: Coordinate with the lead analyst to develop a Data Collection and Analysis Plan (DCAP) that outlines how data will be collected during the game to demonstrate student understanding.

5.3.3 Wargame Execution and Analysis

5.3.3.1 Facilitation/ Moderations: Assist in the facilitation of the wargame during execution, which may include acting as an adjudicator or subject matter expert (SME) during game play.

5.3.3.2 Data Collection Oversight: Manage or serve as part of the analyst team to collect data against the DCAP during the wargame.

5.3.3.3 Observation and Feedback: Provide observations and insights into player decision-making and game outcomes.

5.3.3.4 Analysis and Reporting: Oversee and produce the final analysis report, focusing on insights derived from the wargame results as they pertain to achieving academic objectives.

5.3.4 Government/Military-Specific Coordination and Compliance

5.3.4.1 Interagency Coordination: Coordinate with interagency partners to ensure a complete and comprehensive understanding and agreement.

5.3.4.2 Security and Classification Management: Maintain compliance with all Security Classification Guides (SCAs) and relevant security directives.

5.3.4.2 Integration with Force Development: Ensure analytical wargames include, or inform, force design, force development, and force modernization.

5.3.4.3 Formal Briefings and Documentation: Prepare and deliver formal, high-level briefings to senior leaders and external stakeholders.

5.3.4.4 Compliance Reporting: Provide timely and accurate progress reports as specified in the requisite regulations.

5.3.4.5 Wargame Repository: Ensure all relevant data, game components, and reports are properly stored and identified in a designated government/ DSW repository.

5.4 Service Contract Reporting

5.4.1 System for Award Management (SAM) Service Contract Report (SCR): The Contractor shall report ALL Contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract via a secure data collection site. The Contractor is required to completely fill in all required data fields through the following web address: www.sam.gov. Reporting inputs will be for the labor executed during the period of performance during each Government FY, which runs from October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk by clicking "View Assistance for SAM.gov" which is located at the top of the SAM.gov website. From there, you can select "Contact Our Service Desk" which will allow you to contact SAM.gov directly. If contract period of performance ends prior to September 30, the Contractor has 30 calendar days from end date of the contract to complete the SAM SCR requirement.

Steps for Submitting a Service Contract Report (SCR)

1. Go to www.sam.gov and log in.
2. Select Entity Registrations and then select Service Contract Reporting.
3. SAM displays your entities which have service contracts and meet the reporting criteria. Select View by entity to see the service contracts for each entity.
4. Next, select Add for the service contract against which you want to create a Service Contract Report. Each service contract which meets the FAR Subpart 4.1703 reporting thresholds is displayed.
5. You will be taken to the Complete Service Contract Report page. SAM displays the contract details and allows you to report. You are required to enter the following information:
 - **Total Amount Invoiced**: Total dollar amount invoiced for services performed during the previous Government fiscal year under the contract (this amount should include the prime and any subcontract amount).
 - **Prime Contractor Hours Expended**: Prime contractor direct labor hours expended on the services performed during the previous Government fiscal year. The amount you enter is automatically divided by 2,080 hours to calculate a Full Time Employee (FTE) equivalent, displayed under the Prime Contractor Hours Expended as Prime Contractor FTEs.
6. Report any required Tier 1 subcontractor information by selecting the Add Tier 1 Subcontract Information button.

7. When you are ready to submit the report, select Submit. This saves your report and returns you to the Select Service Contract page where you can create other SCRs or edit an existing SCR.

Steps for Editing a Submitted Report

1. Follow steps 1-4 above. Any previously submitted SCR will have a View/Edit button instead of an Add button.
2. Select View/Edit. You will be able to view the current SCR, edit available fields, and resubmit the record. You can also delete previously entered information altogether.

STD: All information provided by the Contractor shall be accurate, complete, and not exceed suspense dates noted in corresponding paragraph above.

AQL: 100% Compliant

Deliverable #12

PART 6

APPLICABLE PUBLICATIONS

6. Applicable Publications (Current Editions): The following publications, manuals, regulations, etc. are mentioned in this PWS and are listed below.

- 6.1** Department of Defense Contract Security Classification Specification (DD Form 254)
- 6.2** Department of Defense Security Agreement (DD Form 441)
- 6.3** National Industrial Security Program Operating Manual (DoD 5220.22-M)
- 6.4** The Army Physical Security Program (AR 190-13)
- 6.5** U.S. Army Corps of Engineers Safety and Health Requirements Manual (EM 385-1-1)
- 6.6** Information Assurance Workforce Improvement Program (DoD 8570-M)
- 6.7** Information Assurance Training Certification and Workforce Management Directive (DoDD 8570.01)
- 6.8** Information Assurance (AR 25-2)
- 6.9** Policies and Procedures for Property Accountability (AR 735-5)
- 6.10** Safeguarding Covered Defense Information and Cyber Incident Reporting (DFARS 252.204-7012)
- 6.11** Chairman of the Joint Chiefs of Staff Instruction (CJCSI 3030.01-series)
- 6.12** Concept Development and Capabilities Determination and Integration TRADOC Regulation 71-20

PART 7
ATTACHMENT AND TECHNICAL EXHIBIT LISTING

7. Attachment and Technical Exhibit List

7.1 Technical Exhibit A – Performance Requirements Summary

7.2 Technical Exhibit B – Deliverables Schedule

TECHNICAL EXHIBIT A
PERFORMANCE REQUIREMENTS SUMMARY (PRS)

PERFORMANCE OBJECTIVE	STANDARD	ACCEPTABLE QUALITY LEVELS (AQLs)	METHOD OF SURVEILLANCE
PRS#1 - (5.2.1.1) The contractor shall create a Requirements Analysis	A requirements analysis is completed for every wargame after meeting with the stakeholder and prior to wargame design.	All objectives and research questions are documented, are 100% in compliance with the Sponsor, and align with the project scope.	Periodic Inspection by the COR IAW the QASP.
PRS#2 - (5.2.1.2) The contractor shall create a concept & rules design.	Wargame mechanics, rules, and adjudication procedures that are fit for the purpose of the wargame.	Mechanics are consistent, clearly documented and are within 95% compliance with requirements analysis.	Random Sampling conducted by the COR scheduled monthly.
PRS#3 - (5.2.1.3) The Contractor shall conduct research.	Conduct comprehensive academic and professional research related to the wargame's theme.	Comprehensive research informs scenario and game mechanics with zero deviation from standard.	Periodic Surveillance
PRS#4 - (5.2.1.4) The contractor shall develop rules/ mechanics.	Design innovative wargame mechanics, rules, and adjudication procedures that are fit-for-purpose and analytically robust.	Mechanics are internally consistent, clearly documented, and approved by the sponsor.	Random Sampling conducted by COR monthly.
PRS#5 - (5.2.1.5) The contractor shall develop scenarios.	Lead a scenario development team to ensure the scenario supports the game mechanics and analytical objectives	Scenario inputs are provided on schedule with zero deviation from the standard.	Periodic Surveillance
PRS#6 - (5.2.1.6) The contractor shall document all work.	Prepare and maintain comprehensive documentation, including design outlines, diagrams, rules manuals, and briefs.	Maintained with 95% compliance.	Random Sampling conducted by COR monthly.

PERFORMANCE OBJECTIVE	STANDARD	ACCEPTABLE QUALITY LEVELS (AQLs)	METHOD OF SURVEILLANCE
PRS#7 - (5.2.2.1) The contractor shall create game components.	Create physical or digital components such as maps, game boards, markers, and adjudication tools.	Game components shall be created as required with zero deviation from standard.	Random Sampling conducted by COR monthly.
PRS#8 - (5.2.2.2) The contractor shall construct prototypes.	Develop functional prototypes of the game for presentation and testing.	Prototypes are functional, durable, and 100% complete	Periodic Surveillance
PRS#9 - (5.2.2.3) The contractor shall hold playtests.	Plan and oversee playtests to ensure the game mechanics are balanced, fun, and meet the intended outcomes.	No less than two (2) playtests are to be held.	100% Inspection.
PRS#10-(5.2.2.4) The contractor shall conduct quality control.	Conduct quality assurance (QA) testing to ensure the game functions correctly and adheres to the original vision and sponsor requirements.	Following scheduled playtests with 100% compliance.	Periodic Surveillance
PRS#11-(5.2.2.5) The contractor shall lead the DCAP	Coordinate with the lead analyst to develop a Data Collection and Analysis Plan	No less than one (1) meeting per month with lead data analyst.	100% Inspection.
PRS#12-(5.2.3.1) The contractor shall facilitate the wargame.	Assist in the facilitation of the wargame during execution, which may include acting as an adjudicator or subject matter expert	100% compliance.	100% Inspection.
PRS#13-(5.2.3.2) The contractor shall oversee the DCAP	Manage or serve as part of the analyst team to collect data against the DCAP during the wargame	100% compliance.	100% Inspection.
PRS#14-(5.2.3.3) The contractor shall provide feedback.	Provide observations and insights into player decision-making and game outcomes.	100% compliance.	Random Sampling.

PERFORMANCE OBJECTIVE	STANDARD	ACCEPTABLE QUALITY LEVELS (AQLs)	METHOD OF SURVEILLANCE
PRS#15-(5.2.3.4) The contractor shall report observations/outcomes.	Oversee and produce the final analysis report, focusing on insights derived from the wargame results as they pertain to achieving academic objectives.	100% compliance.	100% Inspection.
PRS#16-(5.3.4.1) The contractor shall coordinate with Interagency.	Coordinate with interagency partners to ensure a complete and comprehensive understanding and agreement.	All relevant interagency equities are identified, and coordination meetings are documented with zero deviations.	100% Inspection.
PRS#17-(5.3.4.2) The contractor shall conduct classification management.	Manage all wargame materials in compliance with applicable security classification guides (SCGs).	100% Compliance	100% Inspection.
PRS#18-(5.3.4.3) The contractor shall Integrate Force Development.	Ensure wargame results and insights inform the Army's force design/ force development.	A clear linkage is established with no less than 75% deviation from current or future requirements.	Random Sampling.
PRS#19-(5.3.4.4) The contractor shall hold formal briefings.	Prepare and deliver formal, high-level briefings	Briefings are professional, evidence-based with zero deviation from standard.	100% Inspection.
PRS#20-(5.3.4.5) The contractor shall report all compliance.	Provide timely and accurate technical, financial and progress progress reports IAW FAR and DFARS.	100% compliance.	100% Inspection.
PRS#21-(5.3.4.6) The contractor shall manage a repository.	Ensure all relevant data and final reports are uploaded and properly tagged within designated government wargaming repository.	Data is submitted in the required format and on schedule with 10% deviation from the standard.	Random Sampling.

TECHNICAL EXHIBIT B DELIVERABLES SCHEDULE

<u>Deliverable</u>	<u>Frequency</u>	<u>Medium/Format</u>	<u>Submit To</u>
1. Information to obtain CAC (PWS 1.7.2.1.1)	Once within five (5) days post contract award.	PDF or Word.docx	COR
2. Contract Manager Information (PWS 1.11)	Once during the post-award meeting.	Word.docx	KO
3. Non-Disclosure Agreements (PWS 1.19)	Once within five (5) days of post contract award.	PDF or Word.docx	KO
4. AT Level I Training (PWS 1.24.1)	Within 30 days of contract award and annually thereafter.	PDF	COR
5. iWATCH Training (PWS 1.24.2)	Once within 30 days of the contract award.	PDF	COR
6. OPSEC Training (PWS 1.24.3)	Within 30 days of contract award and annually thereafter.	PDF	COR
7. ATCTS Registration (PWS 1.24.4.1)	Once within 30 of post contract award.	PDF	COR
8. DoD IA Awareness Training (PWS 1.24.4.2)	Within 30 days of contract award and annually thereafter.	PDF	COR
9. IA/IT Certifications (PWS 1.24.4.3)	Once within 30 days of post contract award.	PDF	COR
10. TARP Training (PWS 1.24.5)	Within 30 days of contract award and annually thereafter.	PDF	COR
11. PII Training (PWS 1.24.6)	Within 30 days of contract award and annually thereafter.	PDF	COR
12. Service Contract Report (PWS SCR)	Within 30 days of contract completion date	SAM System	KO
13. Requirements Analysis (PWS 5.2.1.1)	Within 5 days after meeting with wargame sponsor.	Word.docx	COR
14. Design Plan and Rules Manual (PWS 5.2.1.2)	A DRAFT within 30 days of project initiation and updated monthly thereafter.	Word.docx/ PDF	COR
15. Game Prototypes (PWS 5.2.2.2)	Within 60 Days of project initiation and within 14 days post playtesting.	Word.docx/PDF	COR
16. DCAP (PWS 5.2.2.5)	Within 60 days of project initiation and updated monthly thereafter.	Word.docx/PDF/E xcel	COR

<u>Deliverable</u>	<u>Frequency</u>	<u>Medium/Format</u>	<u>Submit To</u>
17. Feedback/ Observation Reports (PWS 5.2.3.4)	Within five days of reaching identified milestones as indicated in requirements analysis, playtests and execution.	Word.docx/PDF	COR
18. Briefings (PWS 5.3.4.4)	No later than 3 days prior to any briefing.	Power Point	COR
19. Monthly Status Reports of work completed.	Monthly to be sent no later than the 5 th of each month.	PDF	COR

ATTACHMENT 3 KEY PERSONNEL QUALIFICATIONS

The Government shall evaluate the offer in accordance with Low Price Technically Acceptable (LPTA) evaluation procedures in accordance with FAR 15.101-2. All personnel shall meet the required qualifications listed below. Documentation of evidence of meeting qualifications may be, but not necessarily limited to, Resume, Curriculum Vitae, Writing Samples, Samples of published games, etc. Stating that an individual meets a requirement without supporting documentation is insufficient and may cause the offer to be rejected.

Offers are limited to team of up to two (2). Both candidates must meet the minimum qualifications”

During execution of this contract, if the evaluated individual who is performing work needs to be excused from work, requests must be presented to the COR and KO for evaluation IAW PWS 1.10.2

Subfactor 1: Education. Candidate must possess a minimum of a bachelor’s degree in game design, computer software design, or a related field.

Subfactor 2: Experience. Candidate must have a minimum of 3 years’ experience designing, developing, and facilitating strategic level wargames.

Subfactor 3: Security Clearance. Candidate must possess, or be able to obtain, a Secret security clearance.
