

ATTACHMENT C

ENERGY STAR LABEL FORM (to be completed for proposed leases 10,000 NSF or less), SFO N69450-25-RP-00086

1. Has the offered space proposed to be leased to the Government earned the Energy Star label in the most recent year? If so, provide/attach supporting documents.

2. If the space has not earned the Energy Star label in the most recent year, then describe how and when the space will be either renovated to meet the Energy Star label, or renovated for all energy efficiency and conservation improvements that would be cost effective over the FIRM TERM of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems. Attach any supporting documents as necessary to answer this question. Renovations under Energy Star requirements shall be made without cost or expense to the Government occupants prior to the Government's acceptance of the space except in the case of a succeeding or superseding lease where the successful offeror shall have up to one year from the date the lease is fully executed. If no improvements are proposed, the Offeror must demonstrate to the Government why no energy efficiency and conservation improvements are cost effective.
