2. Alternative
Spencer Melillo, Naval Architect
stephen.s.melillo.civ@us.navy.mil

Description

1. **SUMMARY:** PMS 300 will host an Industry Day to provide an overview for the recapitalization effort of the USS Arizona Memorial (AZM) Tour Boat (TB) fleet, hereafter referred to as the AZM TB. The AZM TB fleet of 6 boats is designed to support a mission of two boats (rotating) operating 11 hours per day for 362-days a year to provide access to one of the Nation's most sacred memorials. Overall, the AZM TB must

be reliable, fuel efficient, provide for a solemn ride, and not detract from the memorial experience. The overall mission objective is "Reliable, Efficient, and Solemn." Industry Days will be held on 18 March 2026 and 19 March 2026. The objective of this event is to obtain industry feedback on different recapitalization courses of action (whether that be new construction or refurbishment) and to increase the fidelity of any work estimates to help inform the program's broader market research.

2. BACKGROUND

The current fleet of six AZM TBs has been in service for over a decade, honorably transporting millions of visitors to this hallowed site. However, the fleet now faces challenges that impact mission readiness and the visitor experience. The vessels experience operational risk due to the age of their systems, sometimes leading to mission-impacting failures and requiring costly maintenance. Additionally, the noise and emissions from the current diesel engines detract from the solemnity of this memorial, impacting a key aspect of the mission objective. There is also a desire, if feasible, to move to a more environmentally friendly alternative with these vessels.

In pursuit of a long-term solution, PMS 300 has conducted market research, including the issuance of a Request for Information (RFI) to gather initial industry feedback on potential replacement or refurbishment strategies. This research has identified several viable courses of action, including new construction vessels with modern diesel, hybrid-electric, or all-electric propulsion systems, as well as various refurbishment and conversion options for the existing fleet.

This Industry Day serves as the next step in this research process. The event will provide a platform for industry partners to gain a firsthand understanding of the operational environment at the memorial site. It is also an opportunity for the Government to solicit direct feedback on the feasibility and costs associated with viable courses of action, refine cost and schedule estimates, and ensure that any future solicitation is structured to achieve the best possible value for the U.S. Navy and the American taxpayer.

INDUSTRY DAY DETAILS

Date: 18 March 2026 – 19 March 2026

Time: Day 1: (0600) 0800 – 1700 Hawaii Standard Time (UTC-10)

Day 2: 0800 – Finish (Schedule Determined with attendee list)

Location: Joint Base Pearl Harbor-Hickam, Honolulu, Hawaii

The Industry Day will be conducted over two (2) days. The first day will include a Navy-led brief of the AZM TB fleet and their mission, an AZM TB ride, and an extended time

for AZM TB inspection (the inspection will likely be of two to four of the boats in the fleet to get a representative assessment of the conditions of all the boats as they are in similar condition). The second day will consist of one-on-one meetings between government representatives and industry to understand initial conclusions. Industry attendees are encouraged to participate in both parts; however, it is not required.

Restrictions:

Please be advised that this visit is being conducted on an active installation. In accordance with base security requirements:

- Photography and video recording are strictly prohibited at any time during this visit.
- Cell phones may be brought onto the installation, however they may not be used for photo or video capture.
- Written materials are permitted. Attendees are encouraged to bring notebooks or other writing materials to take notes during the walkthrough.

These measures are in place to protect operational security and ensure compliance with installation policies. We appreciate your cooperation and professionalism in adhering to these requirements.

If you have any questions regarding access or restrictions, please raise them prior to the start of the walkthrough.

3. **REGISTRATION:** Registration is **mandatory** for all attendees.

Registration Deadline: Registration **must be completed no later than 1600 EDT on 10 March 2026. Submission of Form SECNAV 5512/1 must be completed and submitted ASAP to greatly alleviate logistics of access to Joint Base Pearl Harbor-Hickam.**

If 5512/1 is not processed by the base in time, then attendees will need to arrive at the visitor center at 0600 for the badging process which will likely take an hour to complete. To encourage expedited responses, submittal of 5512/1 will not be taken as an indication of intent to attend this event (registration will be considered indication of intent).

If there is a need to substitute an attendee, please notify Jason Pratt and Spencer Melillo by email. Provide the attendee, first and last name, who will not be attending. **10 March 2026**, is the latest date attendees can be substituted.

To Register:

<https://forms.osi.apps.mil/r/Ltd7Jdz3vG>

The Registration process will require companies to provide the following items at time of registration:

- The name, email, and phone number for the main Point of Contact and up to an additional two (2) representatives. Note that eligible attendees must be US Citizens with no prior felony convictions.
 - Submission of the attached form, 5512/1, for each person that will be attending. Please leave information about “Base Sponsor” in box 24 blank as this will be filled out by the government team. Also, if possible, use electronic signature to sign, otherwise, please sign by hand and scan form. In accordance with the supplementary instructions, please attach a copy of your Real ID Act Compliant ID to the Form. The form + ID copy can be emailed to Spencer Melillo with Jason Pratt on the CC line. Please name the document “*SECNAV 5512 - LASTNAME FIRSTNAME*”. If Real ID Compliant Copy of ID cannot be attached to the same document, please send it as a PDF named “Real ID Act Compliant ID – LASTNAME FIRSTNAME”.
 - Provide if the company has obtained/holds an active Cybersecurity Maturity Model Certification (CMMC).
 - Provide whether the company has obtained Level 1, 2, or 3 certification.
4. **DISCLAIMER:** This Special Notice is issued for informational and planning purposes only. It does not constitute a solicitation, request for proposal (RFP), or offer to contract. Participation in the Industry Day does not obligate the Government to issue a solicitation or award any contracts, nor does it imply a commitment to procure any services or products. The Government will not reimburse respondents for any costs incurred in responding to this notice or attending the Industry Day.

Any data, materials, or information provided by attendees during the event will be treated as informational only and will not be considered as formal proposals or binding offers. Submission or discussion of materials does not confer any competitive advantage, nor will it form the basis for any contractual obligation unless otherwise stated in a future solicitation

5. **ATTACHMENTS:**

- Agenda/Schedule
 - The notional agenda schedule is subject to change within the confines of the two working days.
- Form SECNAV 5512/1
- Supplementary information for Form SECNAV 5512/1

6. **FUTURE UPDATES:** All future information, including any changes to the Industry Day schedule, agenda, or content, will be posted exclusively on SAM.gov under this Special Notice. Interested parties are strongly encouraged to monitor SAM.gov regularly to ensure they receive the most current updates and instructions.
