- (ii) A statement of the net amount determined to be due in settlement of the contract.
- (6) Include subject matter or short title of solicitation/contract where feasible.
- (i) Item 16B. The contracting officer's signature is not required on solicitation amendments. The contracting officer's signature is normally affixed last on supplemental agreements.

Continued from page 1:

Answer 1: Multiple locations are acceptable. NOTE: (1) The minimum requirement for a location is at least 10,000 Rentable Square Feet (RSF) and (2) greater weight will be given to offers meeting the government's requirements at a single property location.

Question 2: Is the clear ceiling height of 20' a hard requirement? Would 19' be considered?

Answer 2: The center height of 20-feet is a minimum requirement.

Question 3: If the building is not compliant with the Energy Star certification, what is the timeline in order to meet the certification requirement?

Answer 3: The Solicitation is amended, as noted below Question 6, as set forth therein. Newly built buildings and existing buildings that have had an Energy Star® label or are able to produce documentation that it can receive an unofficial score of 75 or higher, but are unable to obtain a label in the most recent year because of insufficient occupancy, shall achieve an Energy Star® label within 18 months after occupancy by the Government. For warehouses over 10,000 square feet, see also Attachment D, which states in part:

“If the space has not earned the Energy Star label in the most recent year, then describe how and when the space will be either renovated to meet the Energy Star label, or renovated for all energy efficiency and conservation improvements that would be cost effective over the firm term of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems. Attach any supporting documents as necessary to answer this question. Renovations under Energy Star requirements shall be made without cost or expense to the Government occupants prior to the Government's acceptance of the space. If no improvements are proposed, the Offeror must demonstrate to the Government why no energy efficiency and conservation improvements are cost effective,”

Question 4: If the GSA Form 12000 is not able to be completed by the proposal submission timeline, would this be a basis for rejection of the proposal?

Answer 4: No. The Solicitation is amended, as noted below Question 6, to require either a completed and signed GSA Form 12000-WH or an explanation why the form was not completed and signed, as well as confirmation that GSA Form 12000-WH will be completed and signed before an award.

Question 5: Is the anticipated commencement date of 1 June 2026 a hard timeline or would July or August be sufficient?

Answer 5: The offered space must be available no later than June 1, 2026.

Question 6: Understand the Base Year and option years for the contract. However, is the intent to occupy the space(s) for less than the full period of performance of the contract (1 + 4)? Is the intent to occupy the space(s) longer than the specified period of performance?

Answer 6: The Lease will have an initial term of one (1) year followed by four consecutive renewal options of one year each.

SOLICITATION IS HEREBY AMENDED AS FOLLOWS:

On page 4, Energy Star Label, add the following as subsection 3.b.(3)

3.b.(3) If a statutory exception is met, then a contract to lease offered space in a building that has not earned the Energy Star label in the most recent year may be executed so long as prior to occupancy:

(A) The space is renovated for all energy efficiency and conservation improvements that would be cost effective over the life of the lease, including improvements in lighting, windows, and heating, ventilation, and air conditioning systems.

(B)

(i) Subject to clause (ii), the space is benchmarked under a nationally recognized, online, free benchmarking program, with public disclosure, unless the space is a space for which owners cannot access whole building utility consumption data, including spaces

(I) that are located in States with privacy laws that provide that utilities shall not provide such aggregated information to multitenant building owners; and

(II) for which tenants do not provide energy consumption information to the commercial building owner in response to a request from the building owner.

(ii) A Federal agency that is a tenant of the space shall provide to the building owner, or authorize the owner to obtain from the utility, the energy consumption information of the space for the benchmarking and disclosure required by this subparagraph.

On page 9, Part One: Written Technical Submission – delete subsection (a) in its entirety and replace with the following:

a. (1) Completed and signed forms and certifications:

(A) Energy Star Label Form (Attachment C if space offered is 10,000 NSF or less) or Attachment D (if space offered is over 10,000 NSF.) As applicable, include proof of the Energy Star® label from the Environmental Protection Agency.

(B) GSA Form 3518, Representations and Certifications (see Attachment E and Attachment F).

(2) Completed and signed GSA Form 12000-WH, Prelease Fire Protection and Safety Evaluation (see Attachment J) **OR** an explanation why the form was not completed and signed, as well as confirmation that GSA Form 12000-WH will be completed and signed before an award.
