DESCRIPTION

THIS IS A SOURCES SOUGHT

DISCLAIMER

This Sources Sought Notice is issued solely for information and planning purposes and does not constitute a solicitation. All information received in response to this Sources Sought Notice that is marked as proprietary will be handled accordingly. Responses to this notice are not offers and cannot be accepted by the Government to form a binding contract. Responders are solely responsible for all expenses associated with responding to this Sources Sought Notice.

The submission of pricing, capabilities for planning purposes, and other market information is highly encouraged and allowed under this Sources Sought Notice.

SOURCES SOUGHT DESCRIPTION

This is **NOT** a solicitation announcement. The purpose of this Sources Sought Notice is to gain knowledge of potential qualified sources and their size classification relative to NAICS 339112 Surgical and Medical Instrument Manufacturing. Responses to this Sources Sought Notice will be used by the Government to make appropriate acquisition decisions and after review of the responses to this Sources Sought Notice, a solicitation announcement may be published. Responses to this Sources Sought Notice are not considered adequate responses for a solicitation announcement.

The information identified below is intended to be descriptive, not restrictive, and to indicate the quality of the supplies that will be satisfactory. It is the responsibility of the interested source to demonstrate to the Government that the interested parties can provide the supplies that fulfill the required specifications and/or the authority from the manufacturer to distribute the supplies.

If you are interested and are capable of providing the sought-out supplies, please provide the requested information indicated below in #1 thru 4. Response to this Sources Sought Notice shall include:

Company name, address, point of contact, EUI, and size of business in addition to the following questions:

1. Is your company considered small under the NAICS code 339112 identified under this Sources Sought Notice? (If so, provide the small business identifier, e.g., SDVOSB, VOSB, WOSB etc.)
2. Provide the www.SAM.gov Unique Entity ID (UEI) number.

Sources Sought Notice

3. Does your company have a Federal Supply Schedule (FSS) contract with GSA, VA NAC, or any other Federal contract, that can be utilized to procure the requirement listed above? **If so, please provide the contract number.**
4. Does your company have an **Authorized to Distribute** letter from a manufacturer? **If so, please provide a copy.**

Please submit your capabilities that show **clear, compelling, and convincing evidence** that you can provide the requirement described in the following Statement of Requirements.

Responses to this notice shall be submitted via E-mail are due **on or before March 12, 2026 by 11:00 a.m. Central** and sent to Teresa Cabanting at teresa.cabanting@va.gov. Send all questions to Teresa Cabanting at teresa.cabanting@va.gov.

Telephone responses or questions **shall not** be accepted.

If a **solicitation** is issued it shall be **announced, at a later date**, and all interested parties must respond to that solicitation announcement **separately** from the responses to this Sources Sought Notice.

Responses to this Sources Sought Notice are not a request to be added to a prospective offerors list **nor to receive a copy of a solicitation**. It is not incumbent upon the Contract Specialist to constantly update any vendor about the procurement course of action that will be taken. It is incumbent upon the vendor to watch all public places for any solicitations that may be posted, e.g., www.sam.gov.

The Department of Veterans Affairs (VA), VISN 15 Network Contracting Office, is seeking sources that can provide the following:

Statement of Requirements

STATEMENT OF REQUIREMENTS

Introduction

The Department of Veterans Affairs (VA), Harry S Truman VA Medical Center - Multi-Specialty Community Based Outpatient Clinic (CBOC) – Rolla is seeking to install a free-standing inventory management storage with a weight-based inventory management system that will be interfaced with **Generic Inventory Package (GIP)**, to ensure proper storage of medical and surgical products.

Sources Sought Notice

- A. The inventory management system shall produce an accurate real-time reading of quantities on-hand accessible by web-based program and provide data mining capabilities that shall include at a minimum current stock level, recommended order points, average usage levels per item and ability to track medical supply usage per patient treated at the Harry S Truman VA Medical Center - Multi-Specialty Community Based Outpatient Clinic (CBOC) – Rolla.
- B. The System will be interfaced with GIP. The primary purpose of the interface is to identify out of balance on-hand quantities and values between GIP and the the Bin System.
- C. The Bin System will identify out of balance on hand quantities and values, accounting for any due out or due ins. If the out of balance condition is caused by a pending due in or due out, it will be displayed separately to easily identify. The bin due-ins and due-outs will automatically be removed when GIP due-in and due-outs are “cleared”.
- D. The Bins shall have color-coded stickers for item identification based on standard color-coding system shown in attachment A.

General Requirement

All equipment to be supplied under the specifications shall be the newest and the most current model of a standard product of the manufacturer. The manufacturer of record is defined as a company whose main occupation is the manufacture for sale of the items of equipment and which:

- Maintains a factory production line.
- Maintains a stock of replacement parts for the item.
- Maintains engineering drawings, specifications, operating manuals and maintenance manuals.
- Has published and distributed descriptive literature and equipment specifications on the equipment.

Any equipment or service as applicable must be in compliance with the Memorandum dated March 6, 2025, Subject: Electronic Health Record Modernization Standardization (VIEWS 12862405).

Upon an award: Activations Program Manager will contact contractor in regard to specific delivery and installation dates to coordinate with other services.

Specifications:

1. Inventory Management System:
 - a. Must be weight based.
 - b. Easily calibrated and accurate.

Sources Sought Notice

- c. Provide real time visibility to our secondary inventory locations.
- d. Shall be able to interface with Generic Inventory Package (GIP) package in IFCAP
- e. Shall be capable of tracking, adjusting, and reporting comprehensive real time information pertaining to the inventory of a secondary location
- f. It is imperative that depletion of stock triggers "pick" tickets based on Periodic Automatic Replacement levels, Re-order points, and Emergency Stock Levels
- g. Software shall be intuitive and easy to train on
- h. Software shall be able to utilize multiple users with different levels of permissions
- i. Reports generated by software shall be relevant to APICS Principles of Inventory Management
- j. Shall be able to handle a wide range of products based on size, thickness, and weight.
- k. Complete generic identification: Weight-based inventory Supply Chain Solution
- l. Applicable model/make/catalog number: A weight-based automation software and system compatible with VA current and future electronic health records.
- m. Communication about system status including system failures
- n. Materials Management Status -
 - Open Orders
 - Emergency/Critical Item Levels
 - Negative Quantities on-Hand
- o. Item Locator
- p. Customer Item Requisition
- q. OEM Level Analysis
- r. Current Levels -
 - Level recommendations by cost and usage demand SKU reduction recommendations
 - Items over OEM level
 - Stock outs and critical hits OEM level value over time
- s. Consumption
 - Average monthly usage
 - Consumption analysis including time
 - Consumption deviation
 - Consumption over time
- t. Reports
 - Activity detail (sales, receipts, adjustments, etc.) to include time inventory on hand changed
 - Quantity on-hand Value on-hand
 - Department transactions
 - Cycle count sheet
 - Out of balance with GIP - on hand Due-ins

Sources Sought Notice

- Due outs
- Issue multiple discrepancy between GIP and Bin
- Emergency levels
- u. Orders
 - Existing orders
 - Order preview
- v. Items
 - Item master Item history
 - Item classification Reconciliation history
 - Most recent reconciliation per item
- w. Must include licensing for use of inventory management system and related support.
- x. Must include automatic software upgrades of the installed program and software.
- y. Web-based program shall be available on any computer and/or mobile device for reporting purposes and evaluation of inventory levels for an unlimited number of users.
- z. Support:
 - Support to include continuous monitoring by means of a minimum of four remote checks of equipment functionality by a Proactive Technical Product Support (PTPS) system every 24 hours.
 - Contractor personnel shall remotely respond to service calls no later than 24 hours after being notified of a problem with either equipment or installed software.
 - Remote Support staff shall work with the Contracting Officers Representative (COR) and the Rolla CBOC Staff onsite to replace supported hardware within 48hrs of notification of a problem if the Government is not at fault for damage or defect. This assumes there is backup equipment onsite. If backup equipment is not onsite, remote Contractor Support staff will work with the COR and the Rolla CBOC Staff onsite to replace equipment when it arrives.

Work Hours:

Normal business hours are 8:00AM to 4:30PM Monday thru Friday excluding Federal Holidays. Work completed outside this time shall be requested through the COR and/or the Activations PM.

The Government recognized US holidays are: New Year's Day, Martin Luther King, Jr. Day, Presidents Day, Memorial Day, Juneteenth, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, and Christmas Day. If the holiday falls on Sunday, it is observed on Monday.

Sources Sought Notice

Installation

The Contractor shall be responsible for the installation, performance verification and validation of the equipment with the COR and Activations PM who will accept the equipment.

All requested products shall be completely manufactured as specified and delivered to the respective delivery locations as described above.

White glove installation shall be included for all products provided under this award.

Install software, on one Government owned desktop or laptop computer, the program and software package used to add, delete, and edit items stored in the bins/platforms to manage inventory items and levels at each designated facility. Install software, on one Government owned laptop computer, for system set-up and installation. Install and prepare Government owned server for transmission of information between the Contractor and the Government for maintenance and monitoring of equipment in use.

Training:

The Contractor shall coordinate through the COR and Rolla CBOC POC to provide a hands-on training session to staff selected by the Rolla CBOC. Training shall be completed within 45 days after final installation of equipment. The Contractor will record the training and provide an electronic copy of the training to the COR and Rolla CBOC POC for the Government to use to train additional personnel at a future date. In addition, the Contractor shall provide any additional training documents to the COR and Rolla CBOC POC for training additional persons at a future date.

Warranty and Support:

The Contractor shall provide a manufacture's one-year, free replacement warranty on units with normal wear and tear, including free return shipping, from date of delivery.

Use of Government Premises

If during the performance of this contract, work will be carried out on Harry S Truman VA Medical Center - Multi-Specialty CBOC – Rolla premises, the Contractor shall perform all work in such a manner that will cause a minimum interference with operations and the operations of other contractors on the premises.

The Contractor shall communicate through the COR and Rolla CBOC POC any required coordination requirements with the General Construction contractor prior to and during delivery and installation activities.

Sources Sought Notice

The delivery and installation of this equipment may occur at an active construction site. The Contractor shall take all necessary precautions to protect the premises and all persons and property therein from damage or injury. The Contractor shall assume responsibility for taking precautions for the Contractor's (and any associated Sub-contractors') employees, agents, licensees, and permittees. The Contractor shall abide by any safety requirements imposed by the Construction General Contractor (e.g., hard hats, safety vests).

GOVERNMENT AND CONTRACTOR RESPONSIBILITIES

The Government shall provide the Contractor with copies of all required documents.

The Contractor shall request other Government documentation deemed pertinent to the work accomplishment directly from the COR. The Contractor is expected to use common knowledge and resourcefulness in securing all other reference materials, standard industry publications, and related materials that are pertinent to the work.

The Contractor shall maintain frequent communications with the COR and Rolla CBOC Program Office to conduct work in progress reviews if necessary.

Progress reports shall be delivered electronically to the COR, with an electronic courtesy copy to the Activations PM.

The Contractor assumes full responsibility for the delivery of the Bin System equipment and shall assume all the duties, responsibilities and obligations for installation and verifying the system is working.

The Contractor assumes liability for its Sub-contractors and shall ensure that its Sub-contractors shall comply in all respects with the relevant terms of this agreement to the extent that it or they are retained by the Contractor.

The Contractor shall deliver the Bin System equipment to the Harry S Truman VA Medical Center - Multi-Specialty CBOC – Rolla locations listed in section B4 Delivery Schedule of the contract.

End of Statement of Requirements
