Miscellaneous text in this section has been modified to:

SOLICITATION W81K00-26-Q-A074 QUESTIONS AND ANSWERS

Q1: I reviewed the attached Solicitation, and I believe it is referring to our MultiView MBS chair but am looking to confirm this. Is this correct? Also, the Solicitation refers to quantity (4) - is this referring to needing (4) chairs?

A1: The request is for a step-stool/platform configuration, not a chair, with the intent that the patient be able to bear their full weight for the shot with detector slots in various positions to achieve the correct imaging angle, in accordance with the salient characteristics. Yes; the request is for 4x total platforms.

Q2: Could you please confirm whether the facility has a loading dock, or if a liftgate will be required for delivery?

A2: A loading dock is available at the delivery location.

Q3: We respectfully request that you provide the exact model of the flat panel detector used with the GE XR650 and/or AMX700 systems to help us assure the appropriate response in the quote.

A3: URP Radio Board (Model: YYJ-5406102)
