

ITEM NUMBER	CATEGORY	CHARACTERISTIC/CAPABILITY	CONTRACTOR RESPONSE	WHITE PAPER MAXIMUM LIMITATION
1	Experience	Describe your experience in providing military grade common hardware parts kits to the Government and/or other customers	Address in White Paper	1 Page
2	Experience	In efforts performed for other customers, did the parts count exceed 2000 different part numbers?	Address in White Paper	1 Page
3	Experience	Do you have a methodology for ensuring counterfeit parts are detected and never included in kits?	Yes, No, or Unknown	N/A
4	Experience	Briefly describe your kit marking and packaging experience. Include how you ensure parts are protected from damage during lit assembly and shipping. State if re-usable containers or disposable containers are envisioned to support the requirements in the draft SOW.	Address in White Paper	1/2 Page
5	Experience	The draft SOW does not contain a method for the Government to replace any kit parts that are lost or damaged during repair of radar systems. Based on your experience what recommendations would you make to overcome this obstacle? The response should provide a methodology for a quick turnaround of lost or damaged individual piece parts within kits. The approach should define if the resolution is based on a cost or fixed price Contract Line-Item Number (CLIN).	Address in White Paper	1/2 Page

6	Quality/Test	The Government will perform 100% inspection on the first kit of each type (First Articles). Part plating, coating, material, hardness, dimensional tolerances, and performance are all areas which could be tested by the Government. Describe what your company will do to ensure the Government testing will be successful on the first pass.	Address in White Paper	1/2 Page
7	Quality/monitoring	Even though the SOW requires the Government be informed of any process or part changes, your suppliers may change processes without notifying you. What random testing and/or monitoring will you perform to ensure products delivered to the Government continue to meet specified requirements throughout contract execution?	Address in White Paper	1/2 Page
8	Quality	Is your company's quality program certified to ISO 9001-2015 or higher?	Yes, No, or Unknown	N/A
9	Quality	If your quality program is not ISO certified, does your quality system meet the following requirements: monitor and control critical processes; continuously improve processes; establish mechanisms for performance feedback; and maintain an effective root cause analysis and corrective action system?	Yes, No, or Unknown	N/A
10	Quality	Does your quality program contain methodology to pass the Government's requirements down to suppliers and/or subcontractors?	Yes, No, or Unknown	N/A

11	Risk/Cost Reduction	Review the draft SOW. Identify any requirements which add risk or unnecessary cost to the effort. Provide recommendations for improvement to meet Government requirements in the most cost-effective manner.	Address in White Paper	1 Page
12	Requirement Compliance	Can you meet all requirements contained in the SOW through your own company and/or through the use of suppliers/subcontractors/teaming partners?	Yes, No, or Unknown	N/A
13	Small Business Status	Are you a Small Business in accordance with Federal Acquisition Regulations? If yes, please indicate your designations (i.e. HUBZone, Veteran Owned, Woman Owned, etc.)	Yes, No, or Unknown	N/A
14	Small Business Status	For companies that self-identify as a Small Business, please indicate whether you intend to respond as a prime contractor to any future solicitation to provide parts kits for Radar Restoration.	Yes, No, or Unknown	If Yes, address how you would perform more than 50% of the requirements IAW 52.219-14 1/2 Page
15	Facility	Due to the facility requirement, do you have the facility/warehousing capabilities, as stated in the Statement of Work Section, to store these kits and provide to the Government upon request?	Address in White Paper	1/2 Page

16	General	Provide amplifying information or clarification of any other requirements to support this Market Research. Responders may identify Government customers and/or industry customers for whom they have provided parts kits. Responders may include any information explaining why they are fully capable of meeting all requirements for supplying parts kits in support of Radar Restoration.	Address in White Paper	1 Page
17	Nonmanufacturer Rule	The Government anticipates that this acquisition may be a total or partial Small Business set-aside. As such, potential responders are advised that the Nonmanufacturer Rule, as defined in FAR 52.219-33, may apply. Within your response, if you are Small Business, include a detailed explanation of your ability to comply with the Nonmanufacturer Rule for the parts kits requirements described in this RFI.	Address in White Paper	1 Page
18	General	In reviewing Appendix A, is your company able to perform the entire contract? If only able to perform a portion, list by CLIN number and kit name what your company is capable of doing.	Address in White Paper	1 Page
