SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): Amendment 0001: The purpose of this amendment is to make the following changes:

- Change the anticipated award type from a Single Indefinite Delivery Indefinite Quantity (IDIQ) contract to a Multiple Award IDIQ.
- Section 4.0.3 was added to the PWS
- Questions and Answers from the solicitation were added as an attachment in Section J
- The due date was extended to March 9, 2026, at 10:00 AM (Pacific Standard Time).

Changes to the ordering procedures, Section L, Section M, and PWS are in red. It is the responsibility of the offerors to fully review the entire solicitation to ensure they comply with the changes incorporated in this amendment.

Section A - Solicitation/Contract Form

The following changes have been made:

INFORMATION	FROM	TO
Response Due Time	02:00 PM	10:00 AM
Response Due Date	25 Feb 2026	09 Mar 2026

Section H - Special Contract Requirements

Miscellaneous text in this section has been modified to:

DESIGNATION OF ORDERING ACTIVITY

The following Naval activity is hereby authorized to place delivery orders:

NAVSUP FLC San Diego Code 200

3985 Cummings Road

San Diego, CA 92136-4000

The Contracting Officer will issue a letter to the contractor coincident with contract award listing the authorized ordering officer(s) by name. The authorized ordering officer is responsible for issuing and administering any orders placed hereunder. Ordering officers have no authority to modify any provisions of the basic contract. Any deviations from the terms of the basic contract must be submitted to the Procuring Contracting Officer (PCO) for contractual action. Terminations of delivery orders for convenience or for default shall be issued only by the PCO.

MINIMUM AND MAXIMUM QUANTITIES

As referred to in paragraph (b) of the "Indefinite Quantities" clause of this contract, the contract minimum quantity is a total of \$500.00. The maximum quantity is the total estimated quantity for each item as set forth in the schedule. The maximum quantity shall not be exceeded except as may be provided by formal modification to the contract.

GOVERNMENT REVIEW OF RESUMES

The Government reserves the right to review the resumes of contractor employees performing under the contract solely for the purpose of ascertaining their qualifications relative to the personnel qualifications terms of the contract. Accordingly, the contractor shall furnish such resumes to the Contracting Officer upon request by the Contracting Officer's Representative, Ordering Officer or Contracting Officer.

I. ORDERING PROCEDURES

All orders shall be placed by an authorized ordering officer prior to issuance of material to any government employee. NAVSUP FLCSD will place orders. The ordering office will issue a task order specifying the type of classes and numbers required. Class locations shall be specified on a spreadsheet and provided to the contractor as an attachment at task order level. Additionally, if any travel is required, the COR shall specify the amount as a Not to Exceed (NTE) **amount at the task order level**. Travel must be approved by the **COR and performed in accordance with the Joint Travel regulations (JTR)**. **Partial payments are authorized at the task order level.**

Task Orders.

Task orders placed under this Indefinite Delivery Indefinite Quantity (IDIQ) Multiple Award Contract (MAC) may be conducted and issued weekly, monthly, quarterly, and/or yearly and priced out by class. The Government reserves the right to issue multiple task orders for the same time period but for separate regions.

Task orders will be competed among all awarded MAC vendors and will be pursuant to the terms and conditions of the MAC and FAR 16.505 (b).

Individual Task Orders will specify the type of order to be used and may incorporate/modify additional clauses not incorporated in the basic IDIQ MAC into the task order. Such additional clauses will pertain only to the individual task order.

Orders may be issued by the Government on a competitive basis using approved competitive procedures or on a non-competitive basis when an Exception to Fair Opportunity as described in FAR 16.505(b)(2) exist. All decisions regarding the procurement method and selection criteria shall be made by the Contracting Officer. Information regarding the type of order, award basis and selection criteria shall be provided to the awardee with each request for proposal.

Offerors are cautioned that in conducting the task order evaluation, the Government may use data provided by the offeror in its quotations as well as data obtained from other sources (such as DCAA audits, available industry market rates for labor and overhead, and/or Past Performance. While the Government may elect to consider data obtained from other sources, the burden of providing thorough and complete information rests with the offeror.

Pursuant to FAR 16.505(b), the Contracting Officer shall ensure that each prime contractor is provided with a fair opportunity to be considered for each order in excess of \$2,500 Micropurchase threshold.

Task Order competitions will identify the specific criteria and order of importance for award decisions based upon the requirements set forth in the individual task order solicitations. MAC awardees need not be given an opportunity to be considered for a particular task order if the ordering officer makes a determination in accordance with FAR 16.505(b)(2).

Ordering Period. Task Orders may be placed during the contract performance period. The Ordering Period is the same as the contract period of performance. This means that as long as there is a contract in place, Task Orders may be issued if there is contract ceiling remaining. Task Orders issued during the ordering period may be for a period of up to 12 months.

II. MINIMUM/MAXIMUM QUANTITIES AND MINIMUM GUARANTEE

The Government minimum obligation is a quantity of one class. Both the accounting and appropriation data will be established at the Task Order level. As referred to in paragraph (b) of FAR 52.216-22, Indefinite Quantity, the total contract maximum award made will be the awarded amount of the contract, including all options.

III. CEILING

The Contracting Officer Representative (COR) and Technical Assistant (TA) along with the awarded contractor are responsible for tracking the ceiling for task orders placed during the ordering period for motorcycle traffic safety training courses each year on orders placed with the contractor.

SUPTXT243-9400(1-92) AUTHORIZED CHANGES ONLY BY THE CONTRACTING OFFICER

Insert the following text in solicitations and contracts, when it is anticipated that liaison and communication between contractor and government technical personnel will be required.

AUTHORIZED CHANGES ONLY BY THE CONTRACTING OFFICER

(a) Except as specified in paragraph (b) below, no order, statement, or conduct of government personnel who visit the contractor's facilities or in any other manner communicate with contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(b) The contractor shall not comply with any order, direction or request of government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(c) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely with the Contracting Officer. In the event the contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and telephone number of the Contracting Officer is:

NAME: _____

ADDRESS: _____

TELEPHONE: _____

SUPTXT 203.1106-1 (3-18) NAVY USE OF ABILITYONE SUPPORT CONTRACTOR - RELEASE OF OFFEROR INFORMATION

NAVSUP FLC San Diego may utilize contractor support through the AbilityOne Program, as needed, to perform contract closeout functions for this acquisition. Information, including business sensitive/confidential or proprietary data, that the offeror provides to the government or information already in the possession of the government may be viewed and utilized by the AbilityOne Program support contractor personnel during the course of its contract performance. The information that may be made available to the support contractor may include, for example, pricing and technical proposals, historical contract, pricing and performance information, Commercial Asset Visibility (CAV) reporting information and similar data /information.

By submission of a proposal in response to this solicitation, the offeror and its subcontractors consent to a release of their business sensitive /confidential or proprietary data to the government's AbilityOne Program support contractor personnel. AbilityOne will have a Non-Disclosure/Non-Use Agreement in place with the Government in order to comply with DFARS 252-227-7025. The offeror retains the right to engage AbilityOne in a non-disclosure agreement pursuant to DFARS 252.227-7025(b)(5)(iv).

TRAVEL AND PER DIEM EXPENSES IAW JOINT TRAVEL REGULATIONS (JTR)

Travel expenses incurred in the performance of the contract will be reimbursed on the basis of actual costs when the facilities of a common carrier are used or on the basis of reasonable actual costs when performed by a privately owned vehicle not to exceed prevailing Federal Travel Regulation mileage rates.

Reimbursement for travel by commercial air transport in connection with the performance of work hereunder shall be reimbursed on the basis of cost, provided such reimbursement does not exceed the costs of jet coach, if such accommodations are available from established air carriers to destination, and there is a necessity for arrival there at a prescribed time schedule, and all other factors considered.

All such travel must be approved in advance by the Contracting Officer Representative (COR) in writing.

If applicable, G&A or such other administrative costs may be added to travel or per diem expenses in accordance with the contractor's established policy. In no event, however, shall reimbursement be made hereunder in excess of amounts normally paid by the contractor to employees engaged in comparable functions the cost of which is not reimbursed under Government contracts, nor exceeding those costs considered acceptable pursuant to the provisions of the contract or by Subpart 31.2 of the Federal Acquisition Regulation in effect on the date of this contract. Actual invoices are required for travel reimbursement.

ADVERTISING OF AWARD

The Contractor agrees not to refer to awards in commercial advertising in such a manner as to state or imply that the product or service provided is endorsed or preferred by the Federal Government or is considered by the Government to be superior to other products or services. Contractor shall submit all proposed advertising to the COR prior to publication.

Miscellaneous text in this section has been modified to:

Section L - Instructions, Conditions & Notices

CLAUSES INCORPORATED BY FULL TEXT:

52.233-2 SERVICE OF PROTEST (SEP 2006)

Protests, as defined in section 31.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from Ms. Juana Perez, Contracting Officer, FLCSD San Diego Code 240, 3985 Cummings Road, Building 116-3rd Floor-South End, San Diego CA 92136-4200.

The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

1.0 GENERAL INSTRUCTIONS

1.1 This solicitation is issued for a small business set-aside (SBSA).

1.2 The Government contemplates award of an **Indefinite Delivery Indefinite Quantity (IDIQ) Multiple Award Contract (MAC)** with the ability to place Firm fixed Price (FFP) task orders from this solicitation. The resultant contract is for program level support on Motorcycle Traffic Safety designed to sustain and preserve the well-being of today's motorcyclist service members in accordance with the PWS provided herein. **Multiple awards will be awarded** and award will be based on a best value trade-off procurement under Federal Acquisition Regulations (FAR) Part 12, Acquisition for Commercial Items and FAR Part 15, Contracting by Negotiation. Award will consist of a one-year base period of performance followed by four one-year option periods.

1.3 The multiple contracts awarded will provide for the issuance of Firm Fixed Price (FFP) task orders. The Government anticipates competing the requirements among all MAC holders within the task order level. Each period of performance for all task orders shall in no event exceed one year. Task orders may contain option periods, however each option period shall in no event exceed one year.

1.4 For evaluation purposes only, offerors are instructed to price out a six-month option at the end of the last option period. Evaluation of contractor prices will include five- and one-half years. However, the awarded contract will be made on a five-year effort, and the six-month option will be incorporated only if clause 52.217-8 is exercised.

1.5 All offers must be received by the date specified in the RFP. The posted closing date and time applies to all submissions, as well as to all parts of the proposal which are to be considered for award. Any proposal modification or revision not received/submitted in the portal by the exact time specified for receipt of offers is "late" and will not be considered.

1.6 Offerors shall not take exception to any term or condition of this RFP, propose any additional term or condition, or omit any required information. Offerors that take exception to the Government's technical requirements, propose any

additional term or condition, or omit any required information without prior resolution with the Contracting Officer might be eliminated from consideration. The Offeror's initial proposal should contain the Offeror's best terms from a price and technical standpoint.

1.7 The Government intends to evaluate proposals and award multiple IDIQ contracts based upon initial written proposals. However, the Government may contact any or all or a limited number of Offerors with questions concerning its responses as permitted under FAR Part 16.

1.8 Offerors shall submit proposals electronically via email to the Contract Specialist, Russell McCullough, at russell.a.mccullough.civ@us.navy.mil. To ensure proper receipt and handling, the subject line of the submission email should adhere to the following format: "**Proposal Submission - N0024426RS003 - [Offeror's Company Name]**". The complete proposal, including all volumes and attachments, must be submitted in a single email. If file size limitation are a concern, multiple emails may be used, but they must be clearly labeled (e.g. "Email 1 of 3, Email 2 of 3") in the subject line. Proposals must be successfully received by the Government no later than the closing date and time specified in the solicitation. Offerors are solely responsible for ensuring their proposals is received by the deadline. It is recommended that offerors submit their proposal well in advance of the closing time to mitigate any risks of technical issues. An email acknowledgement receipt will be sent by the Government upon successful delivery of the proposal. Offerors who do not receive an acknowledgment within one business day should contact the Contract Specialist to verify receipt.

THE GOVERNMENT RESERVES THE RIGHT TO REJECT ANY PROPOSAL THAT DOES NOT COMPLY WITH PROPOSAL PREPARATION/SUBMISSION INSTRUCTIONS CONTAINED IN SECTION L.

2.0 PROPOSAL FORMAT AND CONTENT

2.1 Offerors shall submit their proposals in the following format:

Volume I - Offer

Volume II - Technical Proposal

Volume III - Past Performance

Volume IV - Price

Volume Name	Page Limit
Volume I - Offer	Unlimited

Volume II - Technical Proposal*	35 pages exclusive of an acronym list, cover page, and table of contents.
Volume III- Past P erformanc e	3 pages per reference. Number of Past Performance references are limited to a maximum of 3 for Prime contractors. Offeror may submit no more than three (3) OPPDs. Subcontractors may submit no more than two (2) OPPDs. OPPD submission and reference page(s) are excluded from page count.
Volume IV- Price**	Unlimited

*Note Volume II must not contain any price or cost information.

**Offerors may submit a Price narrative in word but shall submit a detailed price breakdown in excel format.

2.2 Proposals are to be submitted in electronic format. Documents shall be submitted in Adobe PDF, Microsoft Word, or Excel format. Zip files are not allowed. Any other formats may not be accessed and may be determined as mishandled.

2.3 Proposals must be legible, in Microsoft Word and have a font size of 12 point or higher. Tables, charts, and graphic depictions may be single space but limited to data and reference material presentation and textual summarizations only. Tables, charts, and graphic depictions may be used to increase the clarity and readability of the proposal but should not be used to circumvent page or font limitations set forth for the proposal.

2.4 All pages in each volume shall be numbered sequentially (i.e., 1-30); pages identified above that are not included in the page limitation may be number differently or not at all. The Government will only evaluate that part of the proposal that complies with the instructions set forth herein.

3.0 PROPOSAL CONTENT

Each proposal shall include the following:

3.1 Cover Letter: Offerors shall provide a cover letter with the following information (both Prime and Subcontractors):

- Solicitation number and requirement title, "COMMANDER NAVY INSTALLATIONS COMMAND (CNIC) MOTORCYCLE TRAFFIC SAFETY PROGRAM"
- The name, address, e-mail address, and telephone number of the Offeror;
- A statement confirming agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which price are offered at the price set opposite each item;
- A statement that the proposal is valid through 180 calendar days from the date specified or receipt of proposals;

- Names, titles, telephone number, and e-mail addresses of persons authorized to negotiate on the Offeror's behalf with the Government in connection with this solicitation;
- Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office. The Offeror's signature on their proposal indicates the company will meet all requirements of the SOW/PWS, without exception;
- Identify all enclosures being transmitted as part of the offeror's proposal; and
- If an Offeror believes no organizational conflict(s) of interest exists, an affirmative statement that no such conflict exists shall be included in the cover letter

3.2 Volume I - OFFER

3.2.1 Complete and submit the following, which will constitute Volume I:

- a. Standard Form 1449, "Solicitation, Offer, and Award" with blocks 17a, 30a, 30b, and 30c completed with original signatures The proposed ceiling price for each Contract Line Item Number (CLIN).
- b.) FAR Clause 52.212.3 - Offeror Representations and Certifications-Commercial Items (OCT 2025) Alternate I including additional RFP Certification requirements set forth herein
- c. Acknowledgement of any and all RFP amendments, by electronic signature and title on each applicable Standard Form 30.

4.0 Volume II - TECHNICAL PROPOSAL

4.1 Clarity and completeness of the proposal are of the utmost importance. The proposal must be written in a practical, clear, and concise manner. It must use quantitative terms whenever possible and must avoid qualitative adjectives to the maximum extent possible. The proposal must convey evidence the offeror understands all RFP and PWS requirements and their interrelationships. It must demonstrate the Offeror's familiarity with the detailed aspects of the requirements, and clearly show that the offeror correctly interpreted all of the requirements. Offerors are cautioned against restating PWS requirements in their proposal, particularly with regard to technical requirements; and must state how all RFP and PWS requirements will be met. Statements such as "the offeror understands" and "the offeror shall/can comply", along with reference or industry references) does not reflect that the offeror understands the requirements, and will likely result in a diminished evaluation rating.

4.2 Volume II is Factor I Technical Proposal and is comprised of two Sub-factors: Sub factor (1) - Technical Approach and Sub factor (2) - Management Approach/Staffing Plan. No cost or pricing information shall be included in any part of the Technical Volume.

4.3 Volume II should be organized in a manner to permit independent evaluation of each sub-factor under the Technical Proposal. Each sub-factor should be clearly identified and discussed in greater detail. The proposal must clearly discuss how the offer intends to comply with each sub-factor.

4.4 Sub-factor (1) Technical Approach

4.3.1 The technical proposal shall provide, in detail, an approach that will successfully demonstrate the offeror's understanding and plan to complete all requirements set forth in the solicitation. Offerors are cautioned not to provide statements paraphrasing the PWS or parts thereof and using phrases such "standard procedures will be employed" or "well known techniques will be used," etc., will be considered unacceptable. Offerors should provide narratives, charts, and documentation demonstrating its Technical Approach.

4.3.2 Technical areas to be addressed include technical expertise to provide professional training by certified instructors for the trainings listed in PWS Section 4.1.2, developing 90-day traffic course schedules, maintaining the CNIC N35 System of Record, optimizing class sizes, providing training motorcycles, and providing instructional material to each student.

4.3.3 Security Requirements: The offeror shall document how they will comply with the security requirements in PWS Section 6.0 and 7.0.

4.4 Sub-factor (2) Management Approach/Staffing Plan

4.4.1 The proposal must provide a Management Approach and Staffing Plan describing how the offeror will perform this requirement across the Continental United States (CONUS), Guam and Hawaii. The proposal shall clearly explain the Offeror's approach to organizing, staffing, and managing all training requirements.

4.4.2 Program Management: Offeror shall describe overall management structure, key roles, communication processes, and methods for coordinating multiple Navy regions and varying training demands. In addition, offeror shall describe how contractor-owned training motorcycles for BRC-1 courses will be managed for student use.

4.4.3 Instructor Staffing and Certification: Offeror shall describe proposed staffing levels, methods for ensuring availability of certified instructors in accordance with PWS Section 4.02 and 7.0, process for tracking/maintain required certifications, and plans for backfill and turnover

4.4.4 Training Delivery and Quality Control: Offeror shall describe approach to ensuring consistent, compliant course delivery; internal oversight; performance monitoring; and correction of training deficiencies.

4.4.5 Geographic Coverage: Offeror shall describe approach to supporting all required locations (attachment 2) - through instructor placement, travel, and logistics.

4.4.6 Transition: The offeror shall provide a plan for achieving full operation capability once the contract is award.

4.4.7 Subcontractor(s): Each offer shall address what role, if any subcontractor(s) will play and its relationship with the prime contractor.

5.0 Volume III- Past Performance Confidence

5.1 Offerors should provide relevant past performance information for similar or related work under contracts completed during the last five years. Offerors may submit performance data regarding current contract performance as long as a minimum of one year of performance has been completed as of the closing date of this solicitation. Each Offeror has the opportunity to provide in its proposal any information regarding its past performance of contracts similar to the Government's requirement that it would like the Government to consider. The Offeror may include Federal, State and Local Government and private sector contracts.

5.2 Offerors shall contact their past performance references and request that each reference complete the "Offeror's Past Performance Data" (OPPD) - Section J. Completed OPPDs shall be submitted by email directly to Russell.a.mccullough.civ@us.navy.mil no later than the closing date of this solicitation. The subject line of the emailed OPPD must read "SOLICITATION N00244-26-R-S003 OPPD". Offerors may submit no more than three (3) OPPDs as the prime contractor and offered subcontractors may submit no more than two (2) OPPDs.

5.3 In addition to the OPPD, Offeror's shall include in Volume III, a one to two-page document listing all potential references. Information to be provided is reference name, address, phone number, email address, and any other identifying information with respect to the OPPD such as Contract Number or type of work provided.

Failure to submit any past performance references shall be considered certification that the offeror has no past performance in relevant services for the Government to evaluate.

6.0 Volume IV - Price

6.1 Each offeror's price proposal must be submitted in a spreadsheet format and the required soft copy must be in Excel format. Do not submit this spreadsheet in PDF format. The spreadsheet must list the factors used to calculate the billing rates for the base year and each option period. Training courses and Travel shall be in accordance with those specified herein. Price per session shall include any applicable educational course fee involved. There is no page limitation for Price information.

6.2 The price volume shall be a complete and detailed breakdown and include all elements of price and such other data as considered appropriate to support the Offeror's proposal. Offerors are required to propose for travel using the ceiling amounts (not to exceed) provided in this solicitation for the base period and each option year. (inclusive of handling) for the base and each option year.

Base	\$159,700.00
Option Year One	\$162,454.00
Option Year Two	\$165,263.00
Option Year Three	\$168,128.00
Option Year Four	\$171,050.00

6.3 Offerors are instructed to price a six-month option at the end of the option period four. The six-month option should not exceed 50% of the last option year. Should clause 52.217-8 Option to Extend Services be executed, the six-month option will be incorporated into the contract by a contract modification.

6.4 Cost/Price Realism: A cost/price realism will not be performed for the evaluation.

6.5 Price Narrative: Offerors may submit a price narrative in word but shall submit a detailed price breakdown in excel format.

Section M - Evaluation Factors for Award

Miscellaneous text in this section has been modified to:

Section M - Evaluation Factors

Section M - Evaluation Factors

1.0 Basis for Award:

1.1 The award resulting from this solicitation will be an Indefinite Delivery Indefinite Quantity (IDIQ) **MAC** with the ability to place Firm Fixed Price (FFP) task orders without discussion as authorized by FAR 52.215-4. The contract will consist of a one-year base period and four one-year option periods, to be exercised at the discretion of the Government.

1.2 The Government will utilize the Best Value Tradeoff source selection process. This process allows for a tradeoff between non-cost factors and cost/price, and allows the Government to accept other than the lowest priced proposal or other than the highest technically rated proposal to achieve a best value contract award. The basis for award of a contract as a result of this solicitation will be an integrated assessment by the Contracting Officer of the results of the evaluation based on the evaluation factors and their importance as indicated below.

The integrated assessment will include consideration of the strengths and weaknesses of the proposals. The Government reserves such right of flexibility in conducting the evaluation as is necessary to assure placement of a contract is in the Government's best interest. Accordingly, the Government may award to other than the lowest priced Offeror, or other than the Offeror with the highest evaluation rating.

1.3 **In order to be eligible for award, the offeror must receive an acceptable technical rating or higher.** The contracts resulting from this solicitation will be awarded to that responsible Offerors whose offer, conforming to the solicitation, in the Government's estimation, provides the greatest overall benefit in response to the requirement. The Government intends to evaluate proposals and award based on initial proposals. Offerors that take exception to the Government's technical requirements, propose any additional term or condition, or omit any required information without prior resolution with the Contracting Officer might be eliminated from consideration. However, the Government reserves the right to conduct exchanges /discussion with any or all or a limited number of offerors, if necessary, and to permit such offerors to revise their proposals, if discussions are conducted, a competitive range will be established in accordance with FAR 15.306. Contractors are hereby instructed that, regardless of any language that may be used in this solicitation, the contract evaluation and award will be conducted pursuant to FAR Subpart 15.3.

1.4 Offerors are advised that the Government reserves the right to reject any proposal that does not comply with proposal preparation /submission instructions contained in section L.

2.0 Evaluation Factors and Grading Criteria.

The Government will evaluate proposals based on the following three Factors and Sub-factors.

2.1 Factor I - Technical

Sub-factor (1) - Technical Approach

Sub-factor (2) - Management Approach/Staffing Plan

2.3 Factor II - Past Performance Confidence

2.4 Factor III - Price

3.0 Relative Weights:

3.1 Factor I (Technical), Factor II (Past Performance Confidence), and Factor III (Price) are listed in descending order of importance. The non-cost factors [Factor I (Technical), Factor II (Past Performance Confidence), when combined are significantly more important than Factor III (Price). However, Price may become more determinative in the event competing technical ratings are closely grouped and offer comparable value to the Government.

3.2 There are two sub-factors under Factor I (Technical): Sub-factor (1) Technical Approach and Sub-factor (2) Management Approach/Staffing Plan. These two sub-factors are in descending order of importance and will be used to establish an overall rating for Factor I. An "Unacceptable" in any sub-factor will result in an overall Factor I rating of "Unacceptable," rendering the entire proposal ineligible for award.

3.3 Award will be made to that Offeror whose proposal contains the combination of those criteria offering the best overall value to the Government. In making this comparison the Government is more concerned with obtaining superior Technical (Factor I) and Past Performance Confidence (Factor II), than obtaining the lowest Price (Factor III).

4.0 Factor I Technical Grading Criterion: The Technical Capability Evaluation criterion includes two (2) sub-factors, listed in descending order of importance. The Government will assess the Offeror's Technical proposal with respect to its compliance with the solicitation requirements and the risk associated with the Offeror's approach through the assessment of the strengths, weaknesses, and deficiencies.

4.1 Sub-factor (1) Technical Approach Evaluation Criteria:

4.1.1 The Government will evaluate the Offeror's proposal to determine the Offeror's understanding of, approach to, and ability to meet the solicitation requirements. The Government will evaluate the extent to which the Offeror's technical approach demonstrates the Offeror's ability to accomplish the specified work in a technically competent, timely, cost effective manner with a minimum of risk to the Government. The narrative will be evaluated for a complete analysis of the performance requirements and explanation of the processes, best practices and other methods the Offeror proposes to use to meet each requirement stated in the PWS.

4.2 Sub-factor (2) Management Approach/Staffing Plan Evaluation Criteria:

4.2.1 The Government will evaluate the Offeror's Management Approach and Staffing Plan to determine the completeness and effectiveness of the Offeror's proposed methodology for managing, staffing, and administering nationwide motorcycle training operation.

5.0 Adjectival Ratings for the Technical Volume Proposal

The following table M-1 of Ratings shall be used for the Technical/Risk Rating for each Sub-factor and for Factor (I). The overall Factor I (Technical Capability) rating will be determined by evaluating the ratings for each of the sub-factors. The overall rating will be used for tradeoff analysis. Inherent in the Factor (I) rating definition is a component for risk, reflecting the projected risk of the proposed approach to successfully perform the

contract. No Technical Proposal may be given more than a marginal rating unless the proposal clearly shows that the offer meets requirement as defined by the PWS and all RFP attachments.

Table M-1	Combined Technical/Risk Rating
Rating	Description
Outstanding	Proposal demonstrates an exceptional approach and understanding of the requirements and contains multiple strengths and/or at least one significant strength, and risk of unsuccessful performance is low
Good	Proposal indicates a thorough approach and understanding of the requirements and contains at least one strength or significant strength, and risk of unsuccessful performance is low to moderate.
Acceptable	Proposal meets requirements and indicates an adequate approach and understanding of the requirements, and risk of unsuccessful performance is no worse than moderate.
Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements, and/or risk of unsuccessful performance is high.
Unacceptable	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is unawardable, and/or risk of performance is unacceptably high.

5.1 Unacceptable Rating. Any proposal receiving a score of "unacceptable" in a factor or any sub-factor will render the entire proposal ineligible for award.

6.0 Factor II - Past Performance Confidence Grading Criteria

6.1 The Government will assign one relevancy rating for each past performance effort submitted and one rating for overall confidence.

6.2 The assessment of offeror's past performance will be used by the Government as a means to evaluate the relative capability of the offeror and other competitors to successfully meet the requirements of the PWS and as a measure of performance risk for contract award, taking relevancy and how recent into consideration. Contractor Performance Assessment Reports (CPARS) will also be accessed to locate recent and relevant information.

6.3 The assessment of the Offeror's past performance will be used by the Government as a means to evaluate the relative capability of the Offeror and other competitors to successfully meet the requirements of the PWS and as a measure of performance risk for contract award. The government's assessment of performance risk is not intended to be the product of a mechanical or mathematical analysis of an offeror's performance on list of contracts, but rather the product of subjective judgment of the government after it considers all available relevant and recent information.

6.4 The rating tables identified below as "Past Performance Relevancy Rating" Table and "Past Performance Confidence Assessment" Table will be utilized for the assignment of ratings for relevancy and confidence assessment.

6.5 Relevancy. Each past performance data sheet will be evaluated to determine whether the work performed by the Offeror is relevant to the instant requirement. Relevant past performance is performance under contracts accomplished within the past five (5) years that is of the same or similar scope, complexity, and magnitude to that which is described in the solicitation.

The Government will assign one relevancy rating for each past performance effort submitted using the four levels of relevancy as shown in "Past Performance Relevancy Rating" Table below. Past performance of greater relevancy will typically be a stronger predictor of future success and have more influence on the past performance confidence assessment than past performance of lesser relevance. Past performance reference that has no relevance to the instant requirement will not be evaluated favorably or unfavorably and will not be considered in the overall assessment of Past Performance Confidence. However, the number of more relevant contracts an offeror has, the higher the confidence may be.

Table M-2	Past Performance Relevancy Rating
Rating	Definition
Very Relevant	Present/past performance effort involved is essentially the same scope and magnitude of the effort and complexities this solicitation requires.
Relevant	Present/past performance effort involved is similar in scope and magnitude of the effort and complexities this solicitation requires.
Somewhat Relevant	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved has little or none of the scope and magnitude of effort and complexities this solicitation requires.

6.6 Each past performance reference under each offeror's Past Performance submission that is found to have at least some relevance to the instant requirement will be evaluated to determine the quality of the offeror's performance under that reference. The Government will focus its inquiry of the Offerors record of performance as it relates to timeliness, quality, cost control, and customer satisfaction.

6.7 Quality of the relevant past performance will form the basis for the Performance Confidence Assessment. The quality of performance that that has no relevance to the instant requirement will not be considered in the overall assessment of Performance Confidence. An offeror that is determined to have no relevant Past Performance will be rated as Unknown Confidence (Neutral).

6.8 The Government will assign one Past Performance Confidence rating to each Offeror using the five levels of confidence as shown in "Past Performance Confidence Assessment" Table below. This rating will become the Offeror's overall rating for Past Performance.

Table M-3	Performance Confidence Assessment
Rating	Definition
Substantial Confidence	Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation reasonable expectation that the offeror will successfully perform the required effort.
Limited Confidence	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

7.0 Factor III - Price

7.1 Although price is less significant to other award factors, it should not be ignored. The degree of its importance will increase with the degree of equality of proposals in relation to these other award factors or when it is so significantly high it diminishes the value of the technical superiority to the government.

7.2 The price reasonableness evaluation will result in a determination of a fair and reasonable price to the Government. In order to determine the price reasonableness of the proposal, the Government will evaluate the offeror's proposed total estimated price for all periods of performance.

7.3 A finding of " No Confidence" in Past Performance or "Unacceptable" in Technical Capability (to include any of its respective sub factors), shall result in the entire proposal being determined unacceptable; and therefore ineligible for award. Therefore, offers receiving "Unacceptable" in Technical and/or "No Confidence" in Past Performance shall NOT be evaluated for Factor III Price.

7.4 The total evaluated price will be used for purposes of determining the best value. The Government will calculate the total evaluated price for each offeror by adding the price of the base period and all option periods. As part of the Price Factor evaluation, the Government will also evaluate the Option to Extend Services under FAR 52.217-8. Evaluation of the options WILL NOT obligate the Government to exercise the options.

8.0 General Definitions Used in Technical and Past Performance Evaluations

B e s t V a l u e	Means the expected outcome of an acquisition that, in the Government's estimation, provides the greatest overall benefit in response to the requirement. See FAR 2.101
D e f i c i e n c y	A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.
R e c e n c y	As it pertains to past performance information, is a measure of the elapsed time since the past performance reference occurred. Recency is generally expressed as a time period during which past performance references are considered relevant.
R e l e v a n c y	As it pertains to past performance information, is a measure of the extent of similarity between the service/support effort, complexity, dollar value, contract type, and subcontract/ teaming or other comparable attributes of past performance examples and the solicitation requirements; and a measure of the likelihood the past performance is an indicator of future performance.
R i s k	As it pertains to source selection, is the potential for unsuccessful contract performance. The consideration of risk assesses the degree to which an offeror's proposed approach to achieving the technical factor or subfactor may involve risk of disruption of schedule, increased cost or degradation of performance, the need for increased government oversight, and the likelihood of unsuccessful contract performance..
S i g n i f i c a n t W e a k n e s s	In the proposal is a flaw that appreciably increases the risk of unsuccessful contract performance.

Significant Strength	An aspect of an Offeror's proposal with appreciable merit or will exceed specified performance or capability requirements to the considerable advantage of the Government during contract performance.
Strength	Is an aspect of an offeror's proposal that has merit or exceeds specific performance or capability requirements in a way that will be advantageous to the Government during contract performance.
Subjective Tradeoff	Is a source selection process used when it may be in the best interest of the Government to consider award to other than the lowest priced offeror or other than the highest technically rated offeror but it is not possible to place a quantifiable value on proposed performance or capabilities above threshold (minimum) requirements.
Weakness	A flaw in the proposal that increases the risk of unsuccessful contract performance.
