

The Centers for Disease Control and Prevention (CDC), Division of Laboratory Systems (DLS), Office of Laboratory Systems and Response (OLSR), Quality and Safety Systems Branch (QSSB), hereby announces its intent to issue a sole source award, firm fixed-price purchase order to American National Standards Institute, Inc. (ANSI), 1180 Avenue of the Americas, 10th floor, New York, NY 10036 for the purchase of an ISO35001:2019 License Agreement.

The QSSB has a cooperative agreement with the Association of Public Health Laboratories (APHL) and collaboratively, have developed a Biorisk Management Pilot (BMP) program for clinical and public health laboratories. The BMP program offers clinical and public health laboratories the capability to improve internal processes; thereby reducing incidents, accidents, infections, and illnesses that may result from laboratory operations. The ISO35001:2019 Licensing Agreement is deemed necessary by the CDC because the licensing agreement defines a process to identify, assess, control, and monitor the risks associated with hazardous biological materials. The American National Standards Institute, Inc. (ANSI) is the only source that can provide the ISO35001:2019 Licensing Agreement.

This contract action for supplies or services for which the Government intends to solicit and negotiate with only one source under the authority of FAR 6.103-1(b) and 41 U.S.C. 3304(a)(1). The sole source procurement will be awarded as a simplified acquisition in accordance with FAR Part 12 – Acquisition of Commercial Products and Commercial Supplies. The NAICS code for this request is 541611 - Administrative Management and General Management Consulting Services.

THIS NOTICE OF INTENT IS NOT A REQUEST FOR COMPETITIVE QUOTATIONS; however, all responses received within 10 days of the issuance of this notice will be reviewed by the Government. A determination by the Government not to compete this proposed contract based upon responses to this notice is solely within the discretion of the Government. Interested parties who believe they possess the capabilities to satisfy this requirement should submit a capability statement demonstrating their abilities to meet this requirement. Any response must be emailed to the contract specialist Felipe Cardenas at tpp5@cdc.gov by March 9, 2026. No phone calls will be accepted.
