**UPDATE PATIENT WIFI
VA NORTHERN INDIANA HEALTH CARE
FORT WAYNE CAMPUS
PROJECT NUMBER - 610A4-25-226
QUESTION AND ANSWER (RFI)
CORRECTION AND CLARIFICATION**

Disclaimer: If questions have been submitted and not responded to, it was because they were not clear to us. Please resubmit your question prior to the RFI End Date (Feb 19, 2026)

Question #7:

For installation of access points and wiring inside the building, is the contractor responsible for providing a HEPA tent, or will the VA supply one for use?

Answer #7:

No barrier is required for component replacement through the exterior walls of buildings 1, 2, and 8. However, dust control is necessary when drilling through exterior walls. A HEPA vacuum will be used at those locations. Work in Building 8 shall be performed after normal business hours (5:00 PM – 2:00 AM) to minimize patient disruption.

Question #8:

Is it required that Cat 6A cabling be plenum-rated?

Answer #8

The SOW specifies CAT6A cabling. Ensure all communications and signal wiring comply with manufacturer recommendations and applicable codes. Refer to Scope, Section A, Paragraph 1(b)(i) for detail.

Question #9:

Will existing cable pathways be available for contractor use, or should installation of conduit and J-hooks be included in the scope of work?

Answer #9:

Yes, existing cable pathways will be available. J-hooks may be used if needed.

Question #10:

Is racking available for contractor use in Buildings 1 and 2?

Answer #10:

Yes. Racking is available in Buildings 1 and 2. The contractor must install new racking in Building 8 as specified in the SOW.

Question #11:

Will Uninterrupted Power Source (UPS) power be provided for the firewalls, servers, switches, and consoles, or is the contractor expected to supply these units?

Answer #11:

No. The awardee is not expected to supply the UPS.

Question #12:

Upon completion of installation, is there an expectation for the contractor to continue managing the network for the VA, or will management be transitioned to VA personnel?

Answer #12:

No. Network management will transition to VA personnel under an existing service contract

Question #13:

Is a localized site survey possible prior to bid submission to assess existing conditions and infrastructure?

Answer #13:

Yes. Refer to the solicitation #36C25026B0012_1 front page site visit details

Question #14:

Are facility diagrams, floor plans, as-built drawings, or documentation available for Buildings 1, 2, and 8 that show existing Wi-Fi system infrastructure, cable pathways, power availability, and proposed equipment installation locations?

Answer #14:

Yes, please review the attachments posted on SAM.gov, especially the one indicated as drawings

Question #15:

What is the current condition of the existing cable pathways (conduit, cable trays, etc.)? Can existing pathways be utilized, or will new pathways need to be installed?

Answer #15:

Yes. Refer to documents posted on SAM.gov under the solicitation attachments. Existing cable pathways will be utilized. J-hooks may be used if necessary.

Question # 16

Is the owner set on the R650 APs or can we recommend a different solution?

Answer #16

The SOW says “or equivalent” as such, the contractor can recommend an equivalent. Contractor needs to understand that a Federal Information Technology Acquisition Reform Act (FITARA) has been completed for the above-mentioned items. If the contractor recommends another solution, those products will have to go through the FITARA process and could potentially be denied. The contractor needs to be aware of this when bidding the project.

Question # 17

Is the owner set on the ICX 7150 switches or can we recommend a different solution?

Answer #17

The SOW says “or equivalent” as such, the contractor can recommend an equivalent. Contractor needs to understand that a Federal Information Technology Acquisition Reform Act (FITARA) has been completed for the above-mentioned items. If the contractor recommends another solution, those products will have to go through the FITARA process and could potentially be denied. The contractor needs to be aware of this when bidding on the project.

Question #18:

What is the preferred make and model for the following equipment items not specified in the solicitation:

1. Wi-Fi repeater (Building 2)
2. Firewall (Building 1, First Floor)
3. Wi-Fi routers (three total: Buildings 1, 2, and 8)
4. Directional antenna (Building 1, Third Floor)
5. Omnidirectional antenna (Building 8)
6. Consoles (two units, Building 1, First Floor)

Answer #18: (CONCUR)

- | | |
|---|---|
| 1. Wi-Fi repeater: | Ruckus T350 (9U1-T350-US20) |
| 2. Firewall: | FortiGate 60F (FG-60F) |
| 3. Wi-Fi routers: | Ruckus switches for antenna connectivity |
| 4. Directional antenna: | Ruckus T350 (9U1-T350-US40) |
| 5. Omnidirectional antenna: | Ruckus T350 (9U1-T350-US20) |
| 6. Consoles: | Legacy controllers removed; Ruckus |
| Unleashed controller will manage APs | |

Question #19:

What capabilities are required of the firewall, including the necessary bandwidth capacity?

Answer #19:

FortiGate 60F (FG-60F) w/ Unified Threat Protection License (FC-10-0060F-950-02-DD)

Question #20:

Please specify the role and required technical specifications of the requested server. Further details regarding its intended application would be appreciated.

Answer #20:

The server will function as a Syslog server for network logging.

Question #21:

Is it required that all equipment provided be compliant with the Trade Agreements Act (TAA)?

Answer #21:

TAA requires that all products, equipment, and services be provided under Department of Veteran Affairs contracts. TAA also applies to most federal contracts over a specific dollar threshold. Given the magnitude of this project, it is a consideration.

Question #22:

Please clarify the intended function of the two consoles scheduled for replacement. Additionally, kindly provide specifications or examples of the preferred consoles. Legacy wireless controllers to be removed.

Answer 22:

Legacy wireless controllers will be removed. Ruckus Unleashed controller will manage Aps

Question #23:

The equipment list specifies transceivers (1000BASE-SX SFP optic) – how many transceivers are required, and in which building(s) will they be located?

Answer #23:

Please refer to the statement of work and drawings.

Question #24

Is the owner set on the R650 APs or can we recommend a different solution?

Answer #24:

The SOW says “or equivalent” as such, the contractor can recommend an equivalent. Contractor needs to understand that a Federal Information Technology Acquisition Reform Act (FITARA) has been completed for the above-mentioned items. Alternate solutions may be proposed but must be approved through the submittal process and may require FITARA review.

Question #25

Is the owner set on the ICX 7150 switches or can we recommend a different solution?

Answer #25:

The SOW says “or equivalent” as such, the contractor can recommend an equivalent. Contractor needs to understand that a Federal Information Technology Acquisition Reform Act (FITARA) has been completed for the above-mentioned items. Alternate solutions may be proposed but must be approved through the submittal process and may require FITARA review.

Question #26

I see that the VA has a list of equipment for this project. We have done a few other Wifi projects for the VA and they provided the equipment. Will this be the case since the items are already brand specific? Will the VA provide the list of equipment listed on page 6?

Answer #26

No. The contractor shall supply all materials as stated in the SOW. Refer to Scope of Work Section I for detail.

Question #27

Is the site visit on February 12th mandatory?

Answer #27

No, the site visit is not mandatory by law, attending will help you gain firsthand insight into the project's logistics and conditions, which will support a more accurate and competitive bid.
