Description/Specifications/Statement of Work

0001

This solicitation is intended to result in an award of a requirements type Indefinite Delivery contract as defined in FAR 16.503 for a total ordering period of 5 years. It includes both initial testing (Contractor Performed and USG Lab testing with Contractor Support) and production of systems.

This solicitation is for a tradeoff source selection. Please see Instructions, Conditions, & Notices to Offerors and Evaluation Factors for Award for the requirements for proposals and how the USG will evaluate those proposals. There are technical, past performance, and price requirements for the proposal. This is treated as a commercial acquisition. All clauses/provisions in the contract are important and the contractor shall ensure that it has reviewed and understands each one.

CLIN 0001-0003 are preproduction CLINs and will be inspected and accepted by the C-17 Program Office. Shipping is FOB Destination.

CLINs X004-X006 are production CLINs and will be inspected and accepted by awardee's DCMA office. Shipping is FOB Origin.

See CLIN 0002 and CLIN X007 and associated ELINs for data requirements and are established as Not Separately Priced (NSP) and shall not have a price proposed. All data will be inspected and accepted by the C-17 Program Office and shall be delivered FOB Destination.

Requirements

The Databus Recording System (DBRS) shall provide the ability to record all pertinent system/subsystem parameters, components, and flight profile data from all installed 1553/429 buses and fuel quantity computers on the C-17. The ability to capture/package clean and complete C-17 flight information, system parameters and component data is necessary for the enterprise to forecast root-cause analysis.

Packaging and Marking

Inspection and Acceptance

DFARS Clauses Incorporated by Full Text

252.232-7006 Wide Area WorkFlow Payment Instructions. (Jan 2023)

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) Definitions. As used in this clause-

"Department of Defense Activity Address Code (DoDAAC)" is a six position code that uniquely identifies a unit, activity, or organization.

"Document type" means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

"Local processing office (LPO)" is the office responsible for payment certification when payment certification is done external to the entitlement system.

"Payment request" and "receiving report" are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall-

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://wawf.eb.mil/>

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items-

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

(Contracting Officer: Insert either "Invoice 2in1" or the applicable invoice and receiving report document type(s) for fixed price line items for services.)

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial financing, submit a commercial financing request.

(2)) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF "combo" document type to create some combinations of invoice and receiving report in one step.]

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	_____
Issue By DoDAAC	_____
Admin DoDAAC	_____
Inspect By DoDAAC	_____
Ship To Code	_____
Ship From Code	_____
Mark For Code	_____
Service Approver (DoDAAC)	_____
Service Acceptor (DoDAAC)	_____
Accept at Other DoDAAC	_____
LPO DoDAAC	_____
DCAA Auditor DoDAAC	_____
Other DoDAAC(s)	_____

(*Contracting Officer: Insert applicable DoDAAC information. If multiple ship to/acceptance locations apply, insert "See Schedule" or "Not applicable.")

(**Contracting Officer: If the contract provides for progress payments or performance-based payments, insert the DoDAAC for the contract administration office assigned the functions under FAR 42.302(a)(13).)

(4) Payment request. The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) Receiving report. The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) WAWF point of contact.

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

(Contracting Officer: Insert applicable information or "Not applicable.")

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

(End of clause)

FAR Clauses Incorporated by Full Text

52.216-18 Ordering. **(Aug 2020)**

Ordering (Aug 2020)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from ____ through ____ [insert dates].

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) A delivery order or task order is considered "issued" when-

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;

(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

(3) If sent electronically, the Government either-

(i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or

(ii) Distributes the delivery order or task order via email to the Contractor's email address.

(d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the contract.

(End of clause)

52.216-19 Order Limitations. **(Oct 1995)**

Order Limitations (Oct 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than ___1LO of ASIF- CLIN 0001___, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor-

(1) Any order for a single item in excess of ___163EA___;

(2) Any order for a combination of items in excess of ___268EA___; or

(3) A series of orders from the same ordering office within ___15___ days that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (*i.e.*, includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within ___15___ days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22 Indefinite Quantity. (Deviation)

(Feb 2026)

Indefinite Quantity (Feb 2026) (Deviation)

(a) This is an indefinite-quantity contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in the Order Limitations clause or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the ordering period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order, which may include order options to be exercised after the ordering period of this contract but before the end of the period of performance of the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order, including options exercised, to the same extent as if the order were completed during the contract's ordering period; provided, that the Contractor shall not be required to make any deliveries under this contract after final production order.

(End of clause)

52.217-9 Option to Extend the Term of the Contract.

(Mar 2000)

Option to Extend the Term of the Contract (Mar 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 1 year from award/option period start; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

(End of clause)

52.219-14 Limitations on Subcontracting. (Deviation)

(Feb 2026)

Limitations on Subcontracting (Feb 2026) (Deviation)

(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) *Definition. Similarly situated entity*, as used in this clause, means a first-tier subcontractor, including an independent contractor, that-

(1) Has the same small business program status as that which qualified the prime contractor for the award (*e.g.*, for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and

(2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) *Applicability*. This clause applies only to-

(1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(3) Contracts that have been awarded on a sole-source basis in accordance with sections 19.105, 19.106, 19.107, and 19.108;

(4) Orders expected to exceed the simplified acquisition threshold and that are set aside for small business concerns under multiple-award contracts, as described in 8.4 and 16.5;

(5) Orders, regardless of dollar value, that are set aside in accordance with sections 19.105, 19.106, 19.107, and 19.108 under multiple-award contracts, as described in 8.4 and 16.5; and

(6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.

(d) *Independent contractors*. An independent contractor shall be considered a subcontractor.

(e) By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for-

(1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract;

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;

(3) General construction, it will not pay more than 85 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded; or

(4) Construction by special trade contractors, it will not pay more than 75 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 75 percent subcontract amount that cannot be exceeded.

(f) The Contractor shall comply with the limitations on subcontracting as follows:

(1) For contracts, in accordance with paragraphs (c)(1), (2), (3) and (6) of this clause-

[P] By the end of the base term of the contract and then by the end of each subsequent option period; or

By the end of the performance period for each order issued under the contract.

(2) For orders, in accordance with paragraphs (c)(4) and (5) of this clause, by the end of the performance period for the order.

(g) A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (e) of this clause will be performed by the aggregate of the joint venture participants.

(1) In a joint venture comprised of a small business protege and its mentor approved by the Small Business Administration, the small business protege shall perform at least 40 percent of the work performed by the joint venture. Work performed by the small business protege in the joint venture must be more than administrative functions.

(2) In an 8(a) joint venture, the 8(a) participant(s) shall perform at least 40 percent of the work performed by the joint venture. Work performed by the 8(a) participants in the joint venture must be more than administrative functions.

52.209-7 Information Regarding Responsibility Matters. (Deviation) (Feb 2026)

Information Regarding Responsibility Matters (Feb 2026) (Deviation)

(a) Definitions. As used in this provision-

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than \$10,000,000 means-

(1) The total value of all current, active contracts and grants, including all priced options; and

(2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror [] has [] does not have current active Federal contracts and grants with total value greater than \$10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in-

(A) The payment of a monetary fine or penalty of \$5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management, which can be accessed via <https://www.sam.gov> (see 52.204-7).

(End of provision)

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation.

(Jun 2020)

Tax on Certain Foreign Procurements-Notice and Representation (Jun 2020)

(a) Definitions. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror shall select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

(End of provision)

DFARS Clauses Incorporated by Full Text

252.204-7017 Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services-Representation.

(May 2021)

PROHIBITION ON THE ACQUISITION OF COVERED DEFENSE TELECOMMUNICATIONS EQUIPMENT OR SERVICES-REPRESENTATION (MAY 2021)

The Offeror is not required to complete the representation in this provision if the Offeror has represented in the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does not provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument."

(a) Definitions. "Covered defense telecommunications equipment or services," "covered mission," "critical technology," and "substantial or essential component," as used in this provision, have the meanings given in the 252.204-7018 clause, Prohibition on the Acquisition of Covered Defense Telecommunications Equipment or Services, of this solicitation.

(b) Prohibition. Section 1656 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits agencies from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities that are excluded when providing any equipment, system, or service to carry out covered missions that uses covered defense telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless a waiver is granted.

(d) Representation. If in its annual representations and certifications in SAM the Offeror has represented in paragraph (c) of the provision at 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation, that it "does" provide covered defense telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument, then the Offeror shall complete the following additional representation:

The Offeror represents that it [] will [] will not provide covered defense telecommunications equipment or services as a part of its offered products or services to DoD in the performance of any award resulting from this solicitation.

(e) Disclosures. If the Offeror has represented in paragraph (d) of this provision that it "will provide covered defense telecommunications equipment or services," the Offeror shall provide the following information as part of the offer:

(1) A description of all covered defense telecommunications equipment and services offered (include brand or manufacturer; product, such as model number, original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable).

(2) An explanation of the proposed use of covered defense telecommunications equipment and services and any factors relevant to determining if such use would be permissible under the prohibition referenced in paragraph (b) of this provision.

(3) For services, the entity providing the covered defense telecommunications services (include entity name, unique entity identifier, and Commercial and Government Entity (CAGE) code, if known).

(4) For equipment, the entity that produced or provided the covered defense telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known).

(End of provision)

252.225-7000 Buy American--Balance of Payments Program Certificate.

(Feb 2024)

BUY AMERICAN-BALANCE OF PAYMENTS PROGRAM CERTIFICATE-BASIC (FEB 2024)

(a) Definitions. "Commercially available off-the-shelf (COTS) item," "component," "critical component," "critical item," "domestic end product," "foreign end product," "qualifying country," "qualifying country end product," and "United States," as used in this provision, have the meanings given in the 252.225-7001, Buy American and Balance of Payments Program-Basic clause of this solicitation.

(b) Evaluation. The Government-

(1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) Will evaluate offers of qualifying country end products without regard to the restrictions of the Buy American statute or the Balance of Payments Program.

(c) Certifications and identification of country of origin.

(1) For all line items subject to the Buy American and Balance of Payments Program-Basic clause of this solicitation, the Offeror certifies that-

(i) Each end product, except those listed in paragraphs (c)(2) or (3) of this provision, is a domestic end product and that each domestic end product listed in paragraph (c) (4) of this provision contains a critical component or a critical item; and

(ii) For end products other than COTS items, components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country. For those end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except for those that are COTS items. If the percentage of the domestic content is unknown, select "no".

(2) The Offeror certifies that the following end products are qualifying country end products:

Line Item Number	Country of Origin
------------------	-------------------

_____	_____
_____	_____
_____	_____

(3) The following end products are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except for those that are COTS items. If the percentage of the domestic content is unknown, select "no".

Line Item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (yes/no)
------------------	------------------------------	---------------------------------------

_____	_____	_____
_____	_____	_____
_____	_____	_____

(4) The Offeror shall separately list the line item numbers of domestic end products that contain a critical component or a critical item (see Federal Acquisition Regulation 25.105).

Domestic end products containing a critical component or a critical item:

Line Item Number _____

[List as necessary]

(End of provision)

Instructions, Conditions, & Notices to Offerors or Quoters

I. Proposal Format

A. General: The following instructions cover the preparation and submittal of the offeror's proposal for this solicitation. Offerors must follow the instructions contained herein. Offerors are cautioned that any noncompliance with the terms and conditions of the RFP may cause their proposal to be determined not eligible for award. If a joint venture arrangement exists for this acquisition, the offeror shall provide a copy of the joint venture agreement that is signed and dated by all joint venture members as part of the proposal submission. Offerors shall submit only one proposal for the Databus Recording System as the Government will review only one proposal per offeror. Proposals received are subject to the requirements specified in FAR 52.212-1, unless otherwise tailored in the Addendum to the solicitation. Proposals must be received by AFLCMC/WLMK Attention: Robert E. Rollins no later than the date and time specified in Block 8 on the face page of the RFP.

B. Communications: Exchanges of source selection information between Government and offerors will be controlled by the Contracting Officer. Email may be used to transmit such information only if the email can be sent encrypted, and must include "Source Selection Information - See FAR 2.101 and 3.104" in the subject line of the email. In order to facilitate the sending and receiving of encrypted emails, offerors must use MS Outlook email configured to support encryption or a different email product that is S/MIME compatible and configured to support encryption. If you intend to submit your source selection information via encrypted email, you will need to contact the Buyer/Contracting Officer indicated on the face page of the solicitation prior to that first submittal in order to exchange certificates used for encryption. To ensure the process is working correctly, send a test encrypted message first (without including any source selection information). Otherwise, source selection information will be transmitted Procurement Integrated Enterprise Environment (PIEE) at <https://piee.eb.mil> (see RFP Attachments 03 and 04 for instructions on utilizing PIEE). When submitting source selection information electronically, file suppression utilities, to include but not limited to zip files, will not be accepted. If an offeror's computer system cannot support encryption technology, the offeror shall send the PCO correspondence at the time that it submits its proposal stating that it accepts the risk of sending and receiving unencrypted electronic mail if it chooses to utilize unencrypted email as a channel of communication.

When submitting source selection documentation, offerors shall contact the Contracting Officer, Robert E. Rollins robert.rollins.2@us.af.mil and/or Contracting Specialist Jasmine Jordan jasmine.jordan.4@us.af.mil via email to advise of information submittal and obtain acknowledgement of receipt.

II. Volume Organization

A. General: Proposals shall be submitted to the Government in 4 separate volumes as set forth below:

PAGE VOLUME	LIMITS	DESCRIPTION
I	N/A*	Completed RFP and Cross Reference Matrix
II	30	Written Technical Proposal
III	N/A*	Past Performance
IV	N/A	Cost/Price Proposal

* Other limitations for the Technical and Past Performance Volume is reflected below.

All proposal information shall be submitted in electronic form via PIEE (see RFP Attachments 3 and 4 for instructions on utilizing PIEE) or encrypted email. Media must be virus scanned by the offeror prior to submitting to the Government.

In addition to the page limitations set forth above and below, proposal volumes shall comply with the following format:

1. Each volume shall be marked with the RFP number and the offeror's name and address, and the number of the Volume, i.e. I, II, III, etc.). Proposals shall be in the English language and all monies shall be proposed in United States dollars.
2. Print shall be no smaller than a font size of 12. Paper size shall be 8 1/2" X 11," excluding any charts, graphs, drawings, diagrams, and/or supporting illustrations, commercial manuals, commercial documentation, spreadsheets, etc. Each volume within the proposal shall be separately tabbed and identified. Margins shall be no smaller than 1 inch and each page within a volume shall be numbered consecutively. Elaborate formats, bindings, color presentations are not desired or required. In order to verify the font size and margins utilized, the offeror shall provide an electronic copy of the technical proposal in Word format.
3. The page limitation for Volume II, Written Technical Proposal, is 30 pages. The page limitations include any executive summaries, company introductions, cover letters, charts, graphs, drawings, diagrams, supporting illustrations, spreadsheets, etc., but excludes any cover page(s), table of contents, list of acronyms (if utilized), commercial manuals, commercial documentation, or attachments as specifically identified in this provision. Offerors are cautioned that any pages that exceed the page limitations shall not be read but shall be removed and retained in the contract file without being considered in the evaluation.
4. Page limitations may be placed on responses to Evaluation Notices (ENs), if issued. The specified page limits for EN responses will be identified in the letters forwarding the ENs to offerors or on the EN form itself.
5. Each page containing proprietary information should be so marked.

6. Each page should contain the following legend at the bottom of each sheet:

B. Volume I, Completed RFP

1. General: Volume I, Completed RFP shall consist of the completed and signed RFP, to include any amendments issued, with a cover letter delineating any exceptions taken to the RFP terms and conditions with accompanying rationale. The Government reserves the right to independently identify exceptions taken to the terms and conditions of the RFP outside of those identified in the offeror's cover letter. However, offerors are cautioned that any noncompliance with the terms and conditions of the RFP may cause their proposal to be determined not eligible for award. Offerors shall ensure that all clauses and provisions that require "fill-in" information are appropriately completed. Offerors shall not include prices in the submitted RFP. Proposed prices shall be submitted in Volume IV, RFP Attachment 1. See volume IV below for further instructions on submitting proposed prices.

2. Cross Reference Matrix: The offeror shall fill out the cross reference matrix at RFP Attachment 2 indicating where in its proposal the information can be found as it relates to the RFP. The cross reference matrix will be utilized as a tool to show critical interrelationships and dependencies among the technical requirements documents (Performance Based Work Statement (PWS) and System Requirement Document (SRD), the Contract Line Item Number (CLIN), the Contract Data Requirements List (CDRL), Section L (Proposal Requirements), and Section M (Evaluation Basis for Award)). The cross reference matrix will help an offeror ensure it has responded to all the evaluation criteria and proposal submittal requirements identified in the solicitation. If the matrix conflicts with any other requirement, direction, or provision of this solicitation, the other reference shall take precedence over the matrix. Additionally, Section M references in the matrix are for informational purposes only, and the Government shall be obligated to evaluate proposals solely in conformance with Section M of the solicitation.

3. Supplier Performance Risk System: If available, offerors shall have a current assessment in the Supplier Performance Risk System (SPRS) as required by DFARS 252.204-7019 and DFARS 252.204-7020. An assessment date is considered current within the last three years of this solicitation issuance. The Government will consider the offeror's risk assessment for item, price, and supplier risk, as applicable. Offerors are able to access their risk assessments by following the access instructions in the SPRS users guide available at <https://www.sprs.csd.disa.mil/reference.htm>.

C. Volume II, Written Technical Proposal

1. General: The written technical proposal shall be clear, concise, and include all the information required by this provision in sufficient detail for effective evaluation. The proposal shall not simply rephrase or restate the Government's requirements, but rather shall provide convincing rationale to address how the offeror intends to meet these requirements. Offerors shall assume the Government has no prior knowledge of their capabilities, work processes, facilities, and experience and will base its evaluation on the information presented in the offeror's technical proposal.

2. Format and Specific Content: The following information shall be provided in the written technical proposal and will be evaluated to assess the proposed technical approach and associated technical risk in accordance with "Evaluation Basis" for Award. The written technical proposal shall address each of the following subfactors in sufficient detail to describe the offeror's proposed approach to performing the requirements set forth in the System Requirements Documents and Performance Work Statement. If existing commercial products will be used, describe the modifications to meet contractual requirements. For each subfactor, the offeror shall identify risks, if any, associated with the proposed approach and actions the offeror will take to mitigate the identified risks. If no risks/mitigations are identified in the offeror's proposal, it indicates the offeror does not consider there to be any risk associated with their proposed approach. The Government reserves the right to independently identify risks with the proposed approach outside of those risks identified by the offerors themselves.

In order to assist with streamlining the evaluation, offerors shall address only one subfactor per section in the technical proposal, avoid including subfactor discussions in multiple sections, and use the same headings/subfactor numbers paragraph numbers/etc. as used in this paragraph.

Subfactor One: Technical Solution

Provide written description on how the commercial solutions will be modified to meet or exceed the USAF requirements in SRD and PWS. See RFP Attachment 09 SRD Key Items paragraphs that must be responded to.

Subfactor Two: Schedule

Provide an integrated master schedule (IMS) from contract award to delivery of test units to include modifications, internal tests, and data delivery. Provide any information which would reduce the USAF testing burden such as previous airworthiness or other testing activities performed by Government Organizations. Provide an IMS from production order to production delivery.

D. Volume III, Past Performance

1. General: The offeror shall submit Present and Past Performance Information for itself and any joint venture member, in accordance with the format contained in the "FACTS Sheet" (See RFP Attachment 5) and the following paragraphs. The evaluation of the offeror's/joint venture member's present/past performance WILL NOT include the present/past performance of any subcontractor(s), vendor(s) or supplier(s) even though they may perform major or critical aspects of this requirement.

2. Past Performance Format: The requested present and past performance information shall be provided in a separate volume labeled "**Volume III - Past Performance**". **A summary page shall be provided for this acquisition, describing the proposed role of the offeror, and any joint venture member.** Each offeror/joint venture member shall complete a separate FACTS Sheet for two (2) active or completed contracts (with at least one year of performance history) in the past ten (10) years from the issuance date of the RFP, that the offeror/joint venture member considers relevant in demonstrating its ability to perform the proposed effort. If the total number of such contracts

exceeds two (2), each offeror/joint venture member shall address its two (2) most recent and relevant contracts. The Government reserves the right to independently identify recent and relevant efforts outside of those submitted by the offerors themselves.

The offeror's/joint venture member's present and past performance information may include data on efforts performed by other predecessor companies, affiliates, other divisions or corporate management if such was provided for evaluation **AND** if the offeror's past performance volume demonstrates the company, affiliate, or division will provide the offeror with resources for the instant proposed effort, such as workforce, management, facilities, or other capabilities demonstrating direct and meaningful involvement in the performance of the instant proposed effort. The FACTS Sheet shall clearly indicate the division or corporate organization that performed or is presently performing the contract.

Contracts listed may include those with the Federal Government, state and local governments or their agencies, and commercial customers. Offerors/joint venture members shall furnish all available CPARS for the efforts submitted for evaluation, as applicable.

3. Ordering Type Contracts Submission: If the contract you are submitting is an ordering type contractual vehicle (for example, including but not limited to an Indefinite Delivery "D" type contract per FAR 16.5), only after issuance of a delivery/task order does performance occur. Given this, an individual order (or series of orders) under the basic ordering contract shall be submitted, in lieu of just the basic ordering contract itself. All information provided to the Government, for an ordering type contractual vehicle, shall be at the order level (i.e. a delivery/task order). Offerors are hereby cautioned that the Government will not evaluate basic ordering contracts without associated orders identified.

When determining what order (or series of orders) to submit for evaluation, please reference Section M, Volume III, Section 4 and 5 for details on how the Government will evaluate each submitted effort for recency, relevancy, and quality. In order to achieve optimal scope and magnitude of effort and complexities, as described in Section M, Volume III, paragraph 4. Note, the offeror should consider submitting a series of orders, if possible, to provide the longest length and the highest dollar value orders that are relevant to this instant acquisition. However, a series of orders should only be submitted if the series of orders is for continuous technical scope demonstrating relevancy to the instant acquisition. Not all ordering type contractual vehicles will have series of orders that meet this criteria. In this instance, only the single order demonstrating relevant technical scope should be submitted for evaluation.

When submitting an individual order (or series of orders) under an ordering type contractual vehicle, it is important that the offeror's past performance information be accurate, complete, and in the correct format. If the information is not submitted in the correct format, the Government will not be able to evaluate the effort for recency, relevancy, and quality. There are specific places for submission of this information in the FACTS Sheet RFP Attachment 5. Please ensure the information submitted, in the FACTS Sheet RFP Attachment 5, is for each order (or series of orders), in lieu of just the basic ordering contract itself. This includes but is not limited to information such as the dollar value, period of performance, quantity produced, and type and complexity of data deliverables, for each order or series of orders. See paragraph 3.1 below for further information on how to submit series of orders.

3.1 Series of Orders: When submitting a series of orders for evaluation, the offeror should list the orders under the basic ordering type contractual vehicle that demonstrate relevancy, as defined in the Relevancy Definitions in Section M volume III, paragraph 4. Per the Note in Section M volume III, paragraph 4, relevancy consists of not only scope and magnitude (i.e. dollar value and period of performance) and the complexities (body of work), but also the programmatic and logistical considerations. The programmatic/logistical considerations include dollar value, length of effort, quantity produced, and type and complexity of data deliverables. If an offeror submits a series of orders for evaluation, the total dollar value of each order (in the series of orders), the period of performance dates of each order (in the series of orders), the total quantity produced on each order (in the series of orders) and the type and complexity of data deliverables for each order (in the series of orders) shall be submitted. The total dollar value of each order (in the series of orders) shall be added up to calculate the Total Dollar Value to be used in the evaluation, for the submitted effort. The total period of performance of each order (in the series of orders) shall be added up to calculate the Total Period of Performance to be used in the evaluation, for the submitted effort. The total quantity produced on each order (in the series of orders) shall be added up to calculate the Total Quantity Produced to be used in the evaluation, for the submitted effort. The type and complexity of data deliverables provided on each order (in the series of orders) shall be evaluated as a whole for the series of orders.

Caution: All orders within the series of orders, being submitted, should be for the same continuous technical scope demonstrating relevancy to the instant acquisition. The Government reserves the right to request additional information from the offeror or Points of Contacts provided to verify that the series of orders is for the same continuous technical scope.

4. Key Personnel: The evaluation of the offeror's/joint venture member's present/past performance WILL NOT include the present/past performance of any key personnel, even though they may perform major or critical aspects of this requirement.

5. Teaming Member Consent Form: In addition to the information provided in the FACTS Sheet (RFP Attachment 5) for each entity as required above, the offeror must submit a consent letter executed by each of its proposed teaming member(s) authorizing release of adverse past performance information to the prime offeror to allow the prime offeror an opportunity to respond. A sample Teaming Partner Consent Form is attached to this RFP (see RFP Attachment 08). The consent form shall be completed by the team member(s) identified in your proposal. The completed consent forms shall be submitted as part of your Past Performance Volume III.

6. Small Business Compliance in Past Performance Efforts: On the two (2) contracts submitted in Volume III, Past Performance, include relevant information in the FACTS Sheet concerning the offeror's/joint venture member's compliance with FAR 52.219-8, Utilization of Small Business Concerns if this clause is or was contained in the contract. When subcontracting possibilities existed on the contracts submitted by the offeror/joint venture member, address whether or not the offeror/joint venture member awarded subcontracts to small business concerns** to the fullest extent consistent with efficient contract performance. If none of the submitted contracts included this clause, whenever subcontracting possibilities existed in the performance of these contracts, address whether or not it was the offeror/joint venture member policy to utilize small business concerns** to the fullest extent consistent with efficient contract performance.

*Small business offerors shall not simply identify themselves as a small business, as that does not address how the offeror utilized small business concerns** in the performance of the submitted effort.

**Small business concerns includes small business categories of veteran-owned small business concerns, service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged business concerns, and women-owned small business concerns.

7. FACTS Sheet: The offeror/joint venture member, if applicable, shall focus its FACTS Sheet responses so that they clearly correlate present and past performance with the requirements of this RFP. The FACTS Sheet responses must clearly describe the relevance of the effort to the work proposed. The answering space on the FACTS Sheet may be expanded so that the filled-in FACTS Sheet for each relevant contract covers no more than both sides of three (3) 8 1/2 x 11 inch pages and 2 additional page to explanation of unfavorable and/or marginal performance (i.e., no more than eight (8) pages). (See paragraph 2, Relevancy Table and O. of the FACTS Sheet.) Provide the most current information for the Points of Contact (POCs) identified on the FACTS Sheets. At least two of the following (in descending order of availability) should be identified as current POCs on the FACTS Sheets:

- (a) Procuring Contracting Officer/Contract Negotiator or equivalent
- (b) Program/Project Manager, or equivalent
- (c) Administrative Contracting Officer/Contract Administrator or equivalent
- (d) Other (As specified in your FACTS Sheet)

If problems were encountered during the performance of the identified contracts, provide evidence of the ability to isolate the root causes of problems and include in the FACTS Sheet a description of programs or actions taken to resolve those causes. Problems not addressed in the FACTS Sheet, but found by the Government during the evaluation of the information in this volume, will be assumed to still exist. Note: In the case of Contractor Performance Assessment Report System (CPARS), if your input has already been provided and the rationale/circumstances have not changed, DO NOT repeat them here.

8. Past Performance Questionnaire: For each of the two (2) submitted contracts found to have some relevance to the instant acquisition, the Past Performance Team will contact the points of contact identified in the FACTS Sheet(s). A telephone interview will be conducted utilizing the Present/Past Performance Questionnaire (see RFP Attachment 6). The Government reserves the right to change, alter, and/or supplement the questionnaire without further notice to the offeror(s).

9. Client Authorization Letter: In the event that commercial contracts are presented as present/past performance sources of information, a client authorization letter shall be issued to those commercial POCs requesting/authorizing them to complete a Present/Past Performance Questionnaire. A sample client authorization letter is attached to this RFP (see RFP Attachment 7). The offeror is required to send the client authorization letter(s) with the Present/Past Performance Questionnaire(s) to each POC on commercial contracts. A separate copy of client authorization letter(s) for each commercial contract shall be included in the offeror's Present/Past Performance submission for the Government's use in case additional questionnaires need to be sent by the Government after the RFP due date.

10. Follow-up Discussions: The Government may conduct follow-up discussions with any of the people identified in the FACTS Sheets or in the offeror's Present/Past Performance Volume. Pursuant to FAR 15.305(a)(2)(ii), the Government may obtain other information by sending out additional questionnaires and/or through other sources, other than those listed within the FACTS Sheets.

11. RFP Attachment Legend: RFP Attachments 5 and 6 FACTS Sheet and Present/Past Performance Questionnaire must include the following legend at the top and bottom of the page:

E. Volume IV, Price Proposal

1. General

- a. The offeror shall submit cost and pricing information in Volume IV. The offeror shall complete the RFP Attachment 01 Price Spreadsheet in addition to Schedule B in the RFP. If discrepancies between RFP Attachment 01 and Schedule B arise, the prices in the RFP Attachment 01 will take precedence.
- b. Proposed unit/CLIN prices **shall** be rounded to the nearest whole dollar. If any proposed unit/CLIN price does not meet the required rounding, the Government will round that unit/CLIN price to the nearest whole dollar. The Government adjusted unit/CLIN price will become the offeror's **proposed** amount.
- c. Data beyond that required by this instruction shall not be submitted. All data relating to the proposed price, including all required supporting documentation, must be included in the section of the proposal designated as the Price volume. Under no circumstances shall this data and documentation be included elsewhere in the proposal.
- d. Compliance with these requirements is mandatory and failure to comply may result in rejection of the proposal.
- e. In accordance with FAR 15.403-1(b) and 15.403-3(a), data other than certified cost or pricing data may be required to support a determination of price reasonableness. Data shall be provided in accordance with FAR 15.403-5. If, after receipt of proposals, the CO determines that there is insufficient data available to determine price reasonableness and none of the exceptions in FAR 15.403-1 apply, the offeror shall be required to submit additional cost or pricing data.
- f. In accordance with DFARS 215.371-3, cost and pricing data may be required in the event only one offer is received. If no exception in FAR 15.403-1(b) applies, the cost and pricing data shall be certified.

DFARS Clauses Incorporated by Full Text

252.215-7008 Only One Offer. (Dec 2022)

ONLY ONE OFFER (DEC 2022)

(a) Cost or pricing data requirements. After initial submission of offers, if the Contracting Officer notifies the Offeror that only one offer was received, the Offeror agrees to-

(1) Submit any additional cost or pricing data that is required in order to determine whether the price is fair and reasonable (10 U.S.C. 3705) or to comply with the statutory requirement for certified cost or pricing data (10 U.S.C. 3702 and FAR 15.403-3); and

(2) Except as provided in paragraph (b) of this provision, if the acquisition exceeds the certified cost or pricing data threshold and an exception to the requirement for certified cost or pricing data at FAR 15.403-1(b)(2) through (5) does not apply, certify all cost or pricing data in accordance with paragraph (c) of DFARS provision 252.215-7010, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data, of this solicitation.

(b) Canadian Commercial Corporation. If the Offeror is the Canadian Commercial Corporation, certified cost or pricing data are not required. If the Contracting Officer notifies the Canadian Commercial Corporation that additional data other than certified cost or pricing data are required in accordance with DFARS 225.870-4(c), the Canadian Commercial Corporation shall obtain and provide the following:

(1) Profit rate or fee (as applicable).

(2) Analysis provided by Public Works and Government Services Canada to the Canadian Commercial Corporation to determine a fair and reasonable price (comparable to the analysis required at FAR 15.404-1).

(3) Data other than certified cost or pricing data necessary to permit a determination by the U.S. Contracting Officer that the proposed price is fair and reasonable ____ [U.S. Contracting Officer to provide description of the data required in accordance with FAR 15.403-3(a)(1) with the notification].

(4) As specified in FAR 15.403-3(a)(4), an offeror who does not comply with a requirement to submit data that the U.S. Contracting Officer has deemed necessary to determine price reasonableness or cost realism is ineligible for award unless the head of the contracting activity determines that it is in the best interest of the Government to make the award to that offeror.

(c) Subcontracts. Unless the Offeror is the Canadian Commercial Corporation, the Offeror shall insert the substance of this provision, including this paragraph (c), in all subcontracts exceeding the simplified acquisition threshold defined in FAR part 2.

(End of provision)

Evaluation Factors for Award

I. Basis for Contract Award

A. Source Selection Methodology: This acquisition will utilize the Tradeoff source selection procedures in accordance with FAR 15.101-1 and 15.3 as supplemented by the DoD Source Selection Procedures referenced in DFARS 215.300 and the DAFFARS Mandatory Procedures 5315.3 to make an integrated assessment for a best value award decision. The Government intends to award one contract as a result of this solicitation. The Government intends to establish a Reserve contractor pool for use after award. In using the best value approach, the Government seeks to award to the offeror who gives the Air Force the greatest confidence that it will best meet or exceed our requirements affordably in a way that will be advantageous to the Government. This may result in an award to a higher rated, higher priced offeror where the decision is consistent with the evaluation factors and the Source Selection Authority (SSA) reasonably determines that the technical superiority and/or superior past and present performance of the higher priced offeror outweighs the cost difference. To arrive at a best value decision, the SSA will integrate the source selection team's evaluations of the factors and subfactors described in this provision. While the Government will strive for maximum objectivity, the tradeoff process, by its nature, is subjective; therefore, professional judgment is implicit throughout the selection process. Offerors are reminded that the Government will only evaluate one proposal from each offeror. Award will be made to the responsible offeror whose proposal conforms to all required terms and conditions, includes all required representations and certifications, meets all requirements set forth in the RFP and also provides the best value to the Government based on the results of the evaluation as described in paragraph II below. A Reserve contractor pool will be established for future use if awarded contractor fails to perform. Terms and conditions consistent with customary commercial practices are specified in the solicitation/contract, with otherwise tailored terms and conditions specified in the Addendum to the solicitation/contract.

B. Factors, Factors, Subfactors and Relative Importance

1. Factors and Subfactors: A detailed and complete analysis of each offeror's proposal will be performed. The Government's evaluation will be based on the following factors and subfactors:

Factor I: Technical (which includes both Technical and Technical Risk Ratings)

Subfactor One: Technical Solution

Subfactor Two: Schedule

Factor II: Past Performance

Factor III. Price

2. Relative Importance: When combined, all non-cost/price evaluation factors are considered significantly more important than cost/price. Among the evaluation factors considered in the tradeoff decision, technical, which includes the technical rating and technical risk rating, is the most important followed by past performance, and then cost/price. However, Factor III, Cost/Price, is an important consideration in the best value award decision.

II. Proposal Evaluation: The evaluation process will be accomplished as follows (Organized by volume):

A. General

1. Discussions: The Government intends to award this contract after discussions, which will be held in accordance with FAR 15.306. The Government will consider all offerors that submit timely initial proposal submittals to be within the initial competitive range for purposes of opening discussions promptly after the RFP closes. As a streamlining technique, discussions will be considered formally opened one week after the RFP closes.

If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer, with the concurrence of the SSA, may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Throughout the course of proposal evaluations and discussions, the Government reserves the right to establish multiple competitive ranges in accordance with FAR 15.306(c)(3) and FAR 15.306(d)(5).

2. Reserve Pool:

All offerors that meet minimum technical requirements but not presented with an awarded contract will be included in a Reserve pool of contractors. The Government reserves the right to "reach back" to the Reserve pool to conduct a best value analysis if the previous awardee's database recorder fails to pass the inspection and integration CLIN.

All offerors are requested to maintain their technical proposal for 18 months after award decision is made.

If the Reserve Pool is needed, a new Final Proposal Request will be made to all offerors in the reserve pool to request updated pricing. If an offeror is unable to maintain their technical proposal, they will be allowed to withdraw at that time without penalty or negative implications. The Government will conduct a best value analysis with updated pricing to make a new award decision. A proposal's inclusion within the Reserve pool will be identified in the award notification letter.

B. Volume I, Completed RFP

1. Completed RFP: Volume I, Completed RFP shall be evaluated to ensure the RFP and any amendments issued are signed, and all "fill-in" clauses and provisions are completed as required. The cover letter shall be evaluated to determine the number, types, and accompanying rationale of exceptions taken to the RFP terms and conditions. Offerors are reminded that the Government may independently identify exceptions taken to the RFP terms and conditions not listed in this cover letter. The Government reserves the right to determine any exceptions taken to the RFP terms and conditions as being non-compliant with the stated RFP requirements and thus render the proposal not eligible for award.

2. Cross Reference Matrix: The cross-reference matrix will be utilized as a tool to show critical interrelationships and dependencies among the technical requirements documents (Performance Based Work Statement (PWS) and System Requirement Document (SRD)), the Contract Data Requirements List (CDRL), Instructions to Offerors and Evaluation Basis for Award. The cross-reference matrix will help offerors ensure they have responded to all the evaluation criteria and proposal submittal requirements identified in the solicitation. If the matrix conflicts with any other requirement, direction, or provision of this solicitation, the other reference shall take precedence over this matrix. Section M references in the matrix are for informational purposes only, and the Government shall be obligated to evaluate proposals solely in conformance with the provisions of Section M of the solicitation.

C. Volume II, Technical Factor

1. General: Each offeror's written technical proposal shall be evaluated, based on the subfactors below, to determine if the offeror provides a sound, compliant approach that meets the requirements of the SOW, SRD, and demonstrates a thorough knowledge and understanding of those requirements and their associated risks. The technical proposal addresses each of the following subfactors in sufficient detail. If existing commercial products will be used, the proposal identifies the modifications required to meet contractual requirements. For each subfactor, the offeror identifies risks, if any, associated with the proposed approach and actions the offeror will take to mitigate the identified risks. If no risks/mitigations are identified in the offeror's proposal, it indicates the offeror does not consider there to be any risk associated with their proposed approach. Offerors are reminded that the Government may independently identify risks with the proposed approach beyond those identified by the offerors themselves.

Subfactor One: This subfactor is met when the offeror demonstrates an acceptable approach to meet, or exceed in a way beneficial to the Government, the SRD paragraphs identified in RFP Attachment 09.

Subfactor Two: The subfactor is met when the offeror's response demonstrates an acceptable approach to delivering test units within the required timeline and a production delivery schedule, and all the information clearly demonstrates a level of knowledge and understanding of the requirement that meets, or exceeds the requirements in a way beneficial to the Government.

2. Technical Rating: For Subfactor 1 and 2, the technical rating evaluates the quality of the offeror's technical solution for meeting the Government's requirement. Subfactor 1 and 2 will each receive one of the color ratings described in the DoD Source Selection Procedures excerpted below, which focuses on the strengths and deficiencies of the offeror's proposal. The color rating depicts how well the offeror's proposal meets the Technical subfactor requirements. Subfactor ratings shall not be rolled up into an overall color rating for the technical factor.

In arriving at a best value decision, the Government reserves the right to give positive consideration for performance in excess of threshold requirements, up to the objective requirements. No further positive considerations will be given for performance in excess of the objective requirements.

Technical Ratings:

Color Rating:	Description:
Blue	Proposal demonstrates an exceptional approach and understanding of the requirements, contains multiple strengths and/or at least one significant strength.
Purple	Proposal demonstrates a thorough approach and understanding of the requirements and contains at least one strength or significant strength.

Green	Proposal demonstrates an adequate approach and understanding of the requirements.
Yellow	Proposal has not demonstrated an adequate approach and understanding of the requirements.
Red	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is un-awardable.

3. Technical Risk Rating: Technical risk, which is manifested by the identification of weaknesses, assesses the degree to which an offeror's proposed approach for the requirements of the solicitation may cause disruption of schedule, degradation of performance, the need for increased Government oversight, and/or the likelihood of unsuccessful contract performance. The evaluation shall address the Source Selection Team's identification of any weaknesses and/or significant weaknesses, as well as the offeror's identified risks and proposed mitigation (if applicable) and document why that is or is not manageable. Each technical subfactor will receive one of the Technical Risk ratings described in the DoD Source Selection Procedures, excerpted below.

Technical Risk Ratings:

Adjectival Rating:	Description:
Low	Proposal may contain weakness/weaknesses which have low potential to cause disruption of schedule, increased cost, or degradation of performance. Normal contractor emphasis and normal Government monitoring will likely be able to overcome any difficulties.
Moderate	Proposal contains a significant weakness or combination of weaknesses which may have a moderate potential to cause disruption of schedule, increased cost, or degradation of performance. Special contractor emphasis and close Government monitoring will likely be able to overcome any difficulties.
High	Proposal contains a significant weakness or combination of weaknesses which is likely to have high potential to cause significant disruption of schedule, increased cost, or degradation of performance. Special contractor emphasis and close Government monitoring will unlikely be able to overcome any difficulties.
Unacceptable	Proposal contains a deficiency or a combination of significant weaknesses that causes an unacceptable level of risk of unsuccessful performance.

Note: The Government shall utilize the definitions as provided in the DoD Source Selection Procedures, section 5 for "strength", "significant strength", "weakness", "significant weakness", "uncertainty", and "deficiency". The Government is not bound by the offeror's opinion on the applicability of these terms to their proposal. Further, offerors are hereby notified that those aspects of the proposed approach warranting an identification of a "strength", a "significant strength", a "Purple" or "Good" technical rating, or a "Blue" or "Outstanding" technical rating will be formally incorporated into the contract.

D. Volume III, Past Performance Factor

1. General: The past performance assessment will assess the offeror's/joint venture members' ability to successfully accomplish the proposed effort based on the offeror's demonstrated present and past work record. The Government will evaluate the offeror's/joint venture members' demonstrated record of contract compliance in supplying products and services that meet users' needs, including cost and schedule. There are three aspects to the past performance evaluation: recency, relevancy (including context of data), and quality (including general trends in contractor performance and source of information). All three aspects must be considered for each of the contracts or requirements evaluated. For purposes of this evaluation, recency is defined as active or completed efforts performed within the past three (3) years (with at least one year of performance history) from the issuance date of this solicitation. The Government will take into account past performance information regarding predecessor companies (if used), affiliates, other divisions, or corporate management if such was provided for evaluation **AND** if the offeror's past performance volume demonstrates the company, affiliate, or division will provide the offeror with resources for the instant proposed effort, such as workforce, management, facilities, or other capabilities demonstrating direct and meaningful involvement in the performance of the proposed instant effort.

2. Past Performance Assessment: In assessing present and past performance, the Government will employ several approaches, including, but not limited to:

a) Supplier Performance Risk System: Pursuant to DFARS PGI 204-76(b), (c)(3) and (e), the Government will assess the offeror's profile in SPRS for supplier risk, including, but not limited to, quality and delivery, to consider the risk of unsuccessful performance and supply chain risk. IAW DFARS 252.204-7024, offerors may access their own risk assessments and the SPRS User Guide at <https://www.sprs.csd.disa.mil/reference.htm>. Additionally, SPRS evaluation criteria are available at https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf.

b) Other Sources of Information: Pursuant to FAR 15.305(a)(2)(ii), the Past Performance Team evaluation is not limited to review of the information provided in the offeror's Present/Past Performance volume. Present/Past performance information may be obtained from the Government's Federal Awardee Performance and Integrity Information System (FAPIS), Supplier Performance Risk System (SPRS), and the Contractor Performance Assessment Reporting System (CPARS). The Government reserves the right to use performance information from other sources such as Defense Contract Management Agency (DCMA), Fee Determining Officials, or commercial sources. Data from previous source selections may be used if the data is recent and relevant.

c) Adverse Past Performance: Offerors shall be given an opportunity to address adverse past performance information if the offeror/joint venture member has not had a previous opportunity to respond to the information. The availability of CPARS reports constitutes an offeror/joint venture member has having had a previous opportunity to respond to the information. Recent contracts will be examined to ensure that corrective measures have been implemented. The past performance evaluation assessment will consider issues including but not limited to the number and severity of the problems, the appropriateness and/or effectiveness of any corrective actions taken (not just planned or promised), and the overall work record. Prompt corrective action in isolated instances may not outweigh overall negative trends.

3. Ordering Type Contracts Submission: In an ordering type contractual vehicle, performance is demonstrated at the order level (i.e. a delivery/task order). Therefore, in accordance with Section L, if the contract you are submitting is an ordering type contractual vehicle (for example, including but not limited to an Indefinite Delivery "D" type contract per FAR 16.5), the offeror shall have submitted an individual delivery/task order (or series of orders) for evaluation, in lieu of just the basic ordering contract itself. Offerors are reminded that the Government shall not evaluate efforts for ordering type contracts without the identification of an order or series of orders. The Government shall use the information submitted for each order (or series of orders) to evaluate the effort's recency, relevancy, and quality.

3.1 Series of Orders: If a series of orders was submitted for evaluation, rather than a single order under a basic ordering contract, the offeror shall have provided the total dollar value, total period of performance, total quantity produced, and type and complexity of data deliverables for each order in the series.

- The Government shall add up all total dollar values in the series of orders to arrive at a Total Dollar Value for the series of orders, to be used in the evaluation.
- The Government shall add up the period of performance of each order to calculate the Total Period of Performance for the series of orders, to be used in the evaluation.
- The Government shall add up the total quantity for each order to calculate the Total Quantity Produced for the series of orders, to be used in the evaluation.
- The Government shall look at the type and complexity of data deliverables across the series of orders, to arrive at an Overall Type and Complexity of Data Deliverables for the series of orders.

The total dollar value, total period of performance, and total quantity repaired or produced, for the series of orders, will be used to evaluate the submitted effort's scope and magnitude of effort and complexities, as described in Section M, Paragraph II.D.4 Note. As explained in Section M, Paragraph II.D.4, the scope and magnitude and complexities will be evaluated to arrive at a Relevancy Rating for the effort. The more orders submitted demonstrating the same or similar work as the instant effort, the higher greater the potential for a higher relevancy rating.

Caution: All orders, within the series of orders being submitted, should contain the same continuous technical scope. These orders, within the series of orders should demonstrate relevance to the instant acquisition. The Government reserves the right to request additional information from the offeror of Points of Contact provided, in order to verify that the series of orders is for the same continuous technical scope.

4. Relevancy Definitions: The Government will perform an independent determination of relevancy of the data provided and/or obtained. A relevancy determination will be made for each of the recent two (2) submitted contracts. **The Government is not bound by the offeror's opinion of relevancy.** The following relevancy criteria apply and will be assigned to each effort identified in an offeror's Volume III of its proposal:

A d j e c t i v e R a t i n g :	Description:	Scope and Magnitude of Effort:	Complexities:
V e r y			

R e l e v a n t	Present/past performance effort involved essentially the same scope and magnitude of effort and complexities this solicitation requires.	Present/past performance efforts involved modification of a commercial product that included all of the DoD data deliverable categories (Cyber Security, Systems Engineering, Parts Provisioning) with a period of performance of greater than four (4) years.	Past Performance effort involved all of the following: manufacturing of a databus recorder and/or other commercial solutions into a DoD aircraft as a prime/subcontractor that included direct or indirect support for test.
R e l e v a n t	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.	Present/past performance efforts involved modification of a commercial product that included two of the three DoD data deliverable categories (Cyber Security, Systems Engineering, Parts Provisioning) with a period of performance between three (3) and four (4) years.	Past Performance effort involved all of the following: manufacturing of a databus recorder and/or other commercial solutions into a commercial aircraft as a prime/subcontractor that included direct or indirect support for test.
S o m e w h a t R e l e v a n t	Present/past performance effort involved some of the scope and magnitude of effort and complexities this solicitation requires.	Present/past performance efforts involved modification of a commercial product that included one of the three data deliverable categories (Cyber Security, Systems Engineering, Parts Provisioning) with a period of performance between two (2) and three (3) years.	Past Performance effort involved all of the following: manufacturing of an integration of commercial systems into a fleet aircraft as a prime/subcontractor that included direct or indirect support for test.
N o t R e l e v a n t	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.	Present/past performance efforts involved with modification of a commercial product that included none of the deliverable categories (Cyber Security, Systems Engineering, Parts Provisioning) and work performance was less than two (2) year in duration.	Past Performance effort lacks involvement in all of the following: manufacturing of a databus recorder into a DoD, commercial, and small fleet aircraft as a prime/subcontractor that included direct or indirect support for test.

Note: Scope and magnitude of effort and complexities in the above definitions not only includes the technical complexities identified for each effort, but also the programmatic and logistical considerations including but not limited to quantity produced, length of effort, dollar values, type and complexity of data deliverables, etc. When assigning a relevancy rating to a contract effort, the Government will consider the scope and magnitude of effort and the complexities as individual considerations in the overall relevancy rating assigned. If all of these aspects are not reflected in the submitted contract effort, the overall relevancy rating assigned to that contract will be affected. For example, if the submitted contract meets essentially the same Scope and Magnitude, but involves only some of the Complexities, a lesser relevancy rating will be assigned.

5. Quality of Performance: As described in the DoD Source Selection Procedures and FAR 15.304(c)(2), the past performance evaluation shall evaluate quality of performance. The Government will assess the past performance quality of recent efforts that demonstrate some level of relevancy, as discussed above. The Government reserves the right to utilize any and all available means to obtain quality of performance information including, but not limited to, CPARS, DCMA records, questionnaire responses, interviews, etc. In terms of available CPARS, the Government reserves the right to conduct follow-up interviews with CPARS reviewing officials as well as any current effort points of contact regarding trends in the performance. Further, the Government will make an independent determination on quality of performance; the Government will not be bound by any ratings identified in questionnaires, interviews or CPARS, but will take into account the ratings provided as well as the narratives and gathered information to make an independent determination. The Government's quality assessment will not result in a separate quality rating; instead, the quality assessment will result in an overarching narrative assessment discussing identified ratings (CPARS, questionnaires, etc.), narratives, and the Government team's independent assessment. The Government is not bound by the offeror's opinion on quality of performance.

6. Past Performance Evaluation Ratings: The Government will evaluate the submitted efforts, as well as any efforts independently identified by the Government, for three aspects: recency, relevancy and quality of performance. These aspects will be evaluated in a sequential manner, as follows:

Each effort will be evaluated for recency, as defined above. For those efforts determined recent, they will be evaluated for relevancy. Should an effort be determined not recent, no further evaluation of that effort will take place.

For those efforts determined to have some level of relevancy (i.e., at least a Somewhat Relevant assigned), they will be evaluated for quality of performance. Should an effort be determined not relevant, no further evaluation of that effort will take place.

Quality of performance will be evaluated via questionnaire responses from customer points of contact, telephone interviews conducted with customer points of contact, review of available CPARS, etc., as discussed above. Should the Government be unable to obtain quality of performance information for any effort (i.e., no questionnaires returned, customer points of contact unresponsive, no CPARS available, etc.), that effort will not be considered as a part of the confidence assessment rating.

In order to be considered within the confidence assessment, discussed below, each effort shall demonstrate recency, relevancy, and quality of performance. Should any of these three aspects be missing or unable to be determined or evaluated for any effort, that effort will not be included within the confidence assessment. As a result of the recency, relevancy and quality assessments of the contracts evaluated, as described above, one of the performance confidence assessment ratings as described in the DoD Source Selection Procedures will be assigned to the Past Performance factor. It is imperative to note that the assignment of a performance confidence assessment rating is not solely determined on the relevancy ratings. Instead, all three elements of the past performance evaluation (i.e., recency, relevancy and quality of performance) are all considered in the performance confidence assessment rating assignment. The areas that make up the effort relevancy ratings (both scope and magnitude of effort and complexities) are considered in the assignment of the performance confidence assessment rating assignment. Offerors are hereby cautioned that just having recent and Very Relevant, Relevant, and/or Somewhat Relevant efforts does not guarantee a "Satisfactory" or higher performance confidence assessment rating; the quality of performance information will also be taken into consideration in the assignment of any performance confidence assessment rating. The performance confidence assessment ratings are excerpted below.

Adjectival Rating

Substantial Confidence

has a high expectation that the offeror will successfully perform the required effort.

Definition

Based on the offeror's recent/relevant performance record; the Government

Satisfactory Confidence

has a reasonable expectation that the offeror will successfully perform the required effort.

Based on the offeror's recent/relevant performance record; the Government

Neutral Confidence

performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorably or unfavorably on the factor of past performance.

No recent/relevant performance record is available or the offeror's

Limited Confidence

Government has a low expectation that the offeror will successfully perform the required effort.

Based on the offeror's recent/relevant performance record; the

No Confidence

Government has no expectation that the offeror will be able to successfully perform the required effort.

Based on the offeror's recent/relevant performance record; the

Note: In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305(a)(2)(iv)). Therefore, the offeror shall be determined to have unknown past performance and will be assigned a performance confidence rating of "Neutral". A strong record of relevant past performance may be considered more advantageous to the Government than a "Neutral Confidence" rating.

E. Price Proposal Factor

1.Price Factor. The offeror's proposed prices will be evaluated for reasonableness and balance in accordance with paragraphs A and B below. A Total Evaluated Price (TEP) will be calculated in accordance with paragraph C.

A. Reasonableness: The existence of adequate price competition is expected to support a determination of reasonableness. Price analysis techniques may be used to further validate price reasonableness. If adequate price competition is not obtained or if price reasonableness cannot be determined using price analysis of Government obtained information, additional information in accordance with FAR 15.4 may be required to support the proposed price.

B. Balance: Offerors are cautioned against submitting an offer that contains unbalanced pricing. Unbalanced pricing exists when, despite an acceptable TEP, the price of one or more contract line items (including the Basic and Option periods) is significantly overstated or understated as indicated by the application of price analysis techniques. An overstated or understated CLIN price may be due to (a) illogical progression of rates, factors or unit prices between program years, (b) unit prices that do not take into account quantity variations, or (c) the "front-loading" of CLINs; either of these situations would reflect an inaccurate "true" cost for that CLIN. Front-loading occurs when a larger than normal amount of costs is concentrated in an early contract period. The Government will consider any "front-loaded" CLIN as unbalanced, since acceptance of the proposal would result in advance payment. The Government will analyze offers to determine whether there are unbalanced, separately priced line items or sub-line items. Prices submitted will be compared and evaluated to ensure that a logical progression exists as related to price and quantity changes within each offeror's response to the pricing structure, RFP Spreadsheet Attachment. Offers that are determined to be unbalanced may be rejected if the lack of balance poses an unacceptable risk to the Government.

C. TEP: The sum of the evaluated prices for each Firm Fixed Price (FFP) CLIN will represent the TEP. The evaluated CLIN prices will be calculated as follows:

i. For CLINs 0001, 1003, 1004, 1005, 2003, 2004, 2005, 3003, 3004, 3005, 4003, 4004, and 4005, an evaluated price will be calculated by multiplying the proposed unit price times the respective quantity.

ii. For Price Proposals that include quantity ranges, the government will multiply the proposed range unit price(s) by the quantity included in each range to obtain an evaluated price or that CLIN and/or SubCLIN.

iii. CLIN 0002 and 0006 (Data) is Not Separately Priced (NSP) and therefore will not be part of the TEP calculation.

iv. All dollar amounts provided shall be rounded to the nearest whole dollar.

The TEP will be used for evaluation purposes only. Offerors are advised that evaluation of option periods shall not obligate the Government to exercise such options periods.

Pictured below is an example of the Price Spreadsheet. The example is provided for demonstration purposes only and is not inclusive of all contract periods. The Government estimated dollars, hours, rates, quantities, and/or prices contained within are arbitrary numbers. The example is in no way reflective of the actual/total requirements as defined in the RFP. It is provided only as a means of identifying how the various types of calculations will be performed.

<u>CLIN</u>	<u>Qty</u>	<u>Unit Price</u>	<u>Total Price</u>
0001	10	\$100	\$1,000
1001	10	\$100	\$1,000
2001	10	\$100	\$1,000
3001	10	\$100	\$1,000
4001	10	\$100	\$1,000
		Total Evaluated Price	\$5,000

An example of a Quantity Range calculation is as follows:

Quantity Range Example					
<u>CLIN</u>	<u>FROM</u>	<u>TO</u>	<u>Qty Per Range</u>	<u>Unit Price</u>	<u>Total Price</u>
X00X	1	10	10	\$100	\$1,000
	11	30	20	\$90	\$1,800
	31	60	<u>30</u>	\$85	\$2,550
			60		
				Total Evaluated Price for CLIN X00X	\$5,350

52.212-2 Evaluation-Commercial Products and Commercial Services. (Deviation)

(Feb 2026)

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Factor I: Technical/Risk

Subfactor One: Technical Solutions Subject to Tradeoffs

Subfactor Two: Schedule

Factor II: Past Performance

Factor III: Price

(b) *Options (if applicable)*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) *Notice of award*. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)
