Your responses to this notice are appreciated.

THIS NOTICE IS NOT A REQUEST FOR COMPETITIVE QUOTES/PROPOSALS; however, any firm that believes it can meet the requirements may provide answers, responses and give written notification prior to the response due date and time. Supporting evidence and responses must be furnished in enough detail to demonstrate the ability to perform the requirements.

DRAFT STATEMENT OF WORK

1. Background:

MEDVAMC would like to procure a cardiac mapping ablation system for the Pulmonary Embolism Team in the Cardiology Cath Lab. This generator cardiac mapping ablation system and consumables must be FDA-approved and designed to treat cardiac arrhythmias, particularly atrial fibrillation (AFib). The department needs a machine that delivers both Pulsed Field Ablation (PFA) and Radiofrequency (RF) energy, offering faster procedures for safer, more precise, and efficient mapping and ablation.

2. Project Scope:

MEDVAMC is requesting a potential 3-year IDIQ contract for the service and disposables that are utilized with cardiac mapping ablation system. The initial purchase will include the ablation system itself with the consumables and initial standard service agreement, and the following option years will provide the standard service packages along with the ongoing consumables for the machine. The standard service agreements will be in accordance with the OEMs service package and scheduling service dates will be coordinated with the COR appointed to the resulting contract.

Delivery Location:

Warehouse Receiving
Michael E. DeBakey VA Medical Center
2002 Holcombe Boulevard
Houston, TX 77030

3. Requirements:

A. Ablation System minimum requirements:

The ablation machine offered, at a minimum, must have:

- Dual-Energy platform capable of both radiofrequency ablation and pulse-field ablation.
- High density mapping and delivery of dual therapies without disruption of the procedure.
- Minimum of a 1-year standard OEM service agreement, 3 years preferred.

B. Warranty and Support:

The warranty must cover all components of the requirement in accordance with standard manufacturer's warranty. The vendor support will include assistance with device malfunctions.
