

**DEPARTMENT OF THE AIR FORCE
99TH CONTRACTING SQUADRON (ACC)
NELLIS AIR FORCE BASE NEVADA**

6 April 2026

MEMORANDUM FOR RECORD

FROM: 99 CONS/PKB

SUBJECT: Sole Source Justification – Advantor Systems for Intrusion Detection Systems (IDS) and Automated Entry Control Systems (AECS) – F3G5GA6084A001

References: (a) RFO FAR Part 8 (b) GSAM/R Subpart 538.7104-3

1. Purpose. This memorandum provides the sole source justification for the procurement of equipment, maintenance, repairs, upgrades, and associated services for IDS and AECS from Advantor Systems in accordance with GSAM/R 538.7104-3.
2. Background. The 99th Security Force Squadron's (SFS) Base Defense Operations Center (BDOC) currently utilizes the Advantor Advantage Suite Network for Intrusion Detection Systems (IDS) and Automated Entry Control Systems (AECS). These systems are fully integrated into the installation's physical security infrastructure and are critical for mission assurance, force protection, and controlled access operations.
3. Sole Source Justification. Advantor Systems is the sole source provider for its proprietary line of IDS and ECS equipment and services. Advantor does not authorize third-party vendors or subcontractors to distribute, install, maintain, or repair its systems. Consequently, all equipment must be procured directly from Advantor Systems. Furthermore, only Advantor-certified technicians are qualified to install, configure, and service the Advantor System and components. Currently, no other agencies or vendors are certified by Advantor Systems to perform the required scope of work at Nellis Air Force Base.
4. Impact if Not Sole Sourced. Attempting to procure these systems or services from another source would result in system incompatibility with existing Advantor infrastructure, voiding existing system warranties and support agreements, and increased risk to installation security. Replacing the Nellis IDS would incur significant additional costs to the government.
5. The point of contact for this requirement is Erin Lilly, who can be reached at (702)652-9090 or erin.lilly.1@us.af.mil
