

Performance Work Statement

Contractor Support Services for Resilient Command, Control, and Communications (RC3), Information Technology (IT) Transport & Networks, Naval Computer and Telecommunications Platforms (NCTP) Command, Control, Communications, Computers, Combat Systems, and Intelligence (C5I) Shore Command's Core Tactical Baseline Requirements Navy Information Forces, Suffolk, Virginia

SECTION 1: BACKGROUND AND GENERAL INFORMATION

- 1.1 **BACKGROUND:** Navy Information Forces (NAVIFOR) is the Information Warfare (IW) Type Commander (TYCOM) for Command, Control, Communications, Computers, Combat Systems, and Intelligence (C5I). NAVIFOR is responsible for the Manned, Trained, Equipped (MT&E) functions for Fleet requirements. NAVIFOR's mission is to provide commanders ashore and afloat with forward deployable, combat-ready Information Warfare forces capable of conducting prompt and sustained naval, joint, and combined operations in support of U.S. national interests. The C5I Programs and Requirements Directorate (N8) develops MT&E requirements and assesses current and future IW capability areas across the Assured Command and Control (AC2) Operations, Integrated Fires, and Battle Space Awareness mission areas.

In support of NAVIFOR N8's mission, and in keeping with the Chief of Naval Operations (CNO) and U.S. Fleet Forces' Command (USFFC) guidance, the N8 Assured C2 Branch, in collaboration with other Navy stakeholders, must ensure the Fleet possesses the C5I tools required to ensure Navy's mission success when presented with adversaries or challenges to communications, IT Transport & Networks, and C2 systems.

As such, Resilient Command, Control, and Communications (RC3), IT Transport & Networks, Naval Computer and Telecommunications Platforms (NCTP) C5I Shore Command's Core Tactical Baseline expertise is critical to NAVIFOR's leading role in shaping the development of RC3 capabilities for maritime operations and logistical planning within communications contested environments, provide support to Operational Continuity planning (COOP) for afloat and ashore platforms and to execute RRL Information Systems and Transport (IS&T) requirements and capability gap development.

- 1.2 **GENERAL:** This is a non-personal services contract to provide contractor personnel to assist NAVIFOR N8 in identifying Resilient Command, Control, and Communications (RC3), IT Transport & Networks, NCTP C5I Shore Command's Core Tactical Baseline, and RRL IS&T requirements and capability gaps. Functions include afloat and ashore radio frequency (RF), satellite communications (SATCOM), IT Transport & Networks (Navy and Coalition), RRL related capability gap determination, analyzing solution options, and developing requirements to effectively counter current and future threats. This service supports development of end-to-end integrated and whole capabilities for RC3, IT Transport & Networks, RRL, and C5I Core Tactical Baseline including Doctrine, Organization, Training, Materiel, Leadership and Education, Personnel, Facilities, and Policy (DOTMLPF-P) considerations, Concept of Operations (CONOPS) development, and prioritization processes.
- 1.3 **TYPE OF CONTRACT:** The Government intends to award a firm-fixed price Purchase Order with option periods.
- 1.4 **OVERVIEW OF TASKS:** This Performance Work Statement (PWS) describes technical and management support services to be provided to the NAVIFOR N8 Directorate. The scope of this PWS includes support services to develop and execute Navy RC3, IT Transport & Networks, NCTP C5I Shore Command's Core Tactical Baseline, RRL IS&T, and operational strategy documents to proactively manage the effects of Communications Contested Environments (CCE), maintain operational continuity, effectively execute Electromagnetic Maneuver Warfare EMW, and provide Assured C2.
- 1.5 **PERIOD OF PERFORMANCE:** The period of performance shall be for a base year of twelve (12) months and four (4) 12-month option periods. The Period of Performance reads as follows:

Base Year	12 Months
Option Year 1	12 Months
Option Year 2	12 Months
Option Year 3	12 Months
Option Year 4	12 Months
FAR 52.217-8	6 Months

1.6 LOCATION OF PERFORMANCE: Navy Information Forces, 115 Lakeview Parkway, Suffolk, VA 23435.

1.7 HOLIDAYS: The contractor is generally not required to provide services on these days.

New Year's Day	Labor Day
Martin Luther King Jr.'s Birthday	Columbus Day
President's Day	Veteran's Day
Memorial Day	Thanksgiving Day
Juneteenth National	Christmas Day
Independence Day	

1.8 WORK ENVIRONMENT AND HOURS OF OPERATION: Hours of Operation for contractor personnel are between the hours of 0600 and 1800 Monday thru Friday and shall provide support services IAW NAVIFOR's core hours policy with the exception of Federal holidays or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. The ability to provide support from an alternate location (includes working from an employee's residence or other non-Government facility) is dependent on the type of support required, the contractor employee's ability and trustworthiness, and the company's employment policy. Allowing work to be performed at an alternate location is not an option for all positions and personnel. The ultimate decision to allow work performed at an alternate work location shall be determined by the COR. If alternate work locations are allowed, the company shall have defined criteria addressing the minimum requirement to have continuous, secure internet connectivity. Each applicable contractor employee shall have an established signed telework agreement between the company and employee. For each contractor employee proposed to work at an alternate location, the contractor shall submit a written request and justification to the COR with a copy of the applicable employee's signed telework agreement which becomes part of the COR files. If the requirements for teleworking and/or alternate work locations are not outlined/specified in the employee agreement documentation, the contractor shall include a copy of those requirements with the signed employee agreement. Working at an alternative location shall not adversely affect the response time required in support of the task order. The Government reserves the right to discontinue the ability to work from an alternate location at any time without cause. The inability of a contractor to respond to the requirements of the task order due to telework conditions will be negatively reflected in the Contractor Performance Assessment Reporting System (CPARS). The contractor shall utilize the Government site or Client site (vice contractor site) overhead labor rate for personnel working from their residence unless their Accounting System requires a different billing structure.

All contractor personnel working in NAVIFOR Building 115 shall muster daily in accordance with NAVIFOR policies and procedures. Such daily mustering is for Anti-Terrorism/Force Protection/Active Shooter purposes only.

1.9 CONTRACTING OFFICER'S REPRESENTATIVE (COR)/TASK ORDER MANAGER (TOM):

The COR/TOM, here after referred to solely as the 'COR', will be identified by separate letter and in the resultant contract/task order. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is authorized to perform the following functions: assure that the Contractor performs the requirements of the contract: perform inspections necessary in connection with contract performance: maintain written and oral communications with the Contractor concerning various aspects of the contract: issue

written interpretations of requirements: monitor Contractor's performance and notify both the Contracting Officer and Contractor of any deficiencies; coordinate availability of Government furnished property/training sites, and provide or coordinate site entry of Contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the Contractor, states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

1.10 **CONTRACTOR LEAD:** The Contractor shall designate an employee to serve as the Contract Lead. This Contract Lead shall be the primary Contractor point of contact for the COR. The Contract Lead should be empowered to make decisions on behalf of the Contractor.

1.11 **IDENTIFICATION OF CONTRACTOR PERSONNEL:** All contract personnel attending meetings, answering Government telephones, and working in other situations where their contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public that they are Government officials. They must also ensure that all documents or reports produced by contractors are suitably marked as contractor products or that contractor participation is appropriately disclosed.

1.12 **ACRONYMS:** A listing of acronyms related to this effort is provided in Enclosure (1).

SECTION 2: SCOPE

2.1 **ESTIMATED LEVEL OF EFFORT:** This effort is estimated at two (2) contractor-provided personnel in various labor categories as summarized in the following table:

Labor Category	Support Expertise	Quantity	Hours
Senior and Staff Officer SME (Lead)	Service Command and Staff College or War College graduate desired; Major Navy Flag staff experience and master's degree level of writing required. Requirements, doctrine, experimentation, policy & implementation. Requirements letter generation. POM/IPCL support. IT Transport & Networks, NCTP C5I Shore Command's Core Tactical Baseline, and RRL IS&T support.	1	1920
C5I, Networks, Transport & RC3 SATCOM SME	EHF, SHF, Commercial, Shore, and SATCOM Transport to include Narrowband and Protected SATCOM, MUOS WCDMA, Integrated Waveform, and legacy. Wideband SATCOM. RF, HF Afloat and Ashore Networks Operations Requirements. RC3 Doctrine and TTP development. POM/IPCL Support. IT Transport & Networks, and NCTP C5I Shore Command's Core Tactical	1	1920

	Baseline support.		

All personnel in each labor category are considered **key personnel**.

The Contractors shall focus efforts on key tenets of a structured, process-focused, metrics-driven Navy capability-based enterprise approach to guide NAVIFOR through the strategic planning and execution of an integrated Resilient C2, CCE, and EMW strategy.

2.2 SENIOR REQUIREMENTS, AND STAFF OFFICER SME

The Requirements, Doctrine and Experimentation SME will perform the following tasks:

- 2.2.1 Support NAVIFOR N8 Requirements Directorate by providing necessary consulting, managerial, analytical, and organizational skills to assist in managing Navy IW communications requirements.
- 2.2.2 Research and produce Flag level staff correspondence and products to include, but not limited to: “ghost emails,” Power Point presentations, point papers, and white papers.
- 2.2.3 Retrieve data from a variety of sources and individuals to identify the scope and breadth of communications gaps, to analytically and creatively evaluate the data, and to craft collaborative and well researched solution proposals. Interact with NAVIFOR, FCC, USFF, OPNAV staff, Fleet and Type Commanders, Platform Agents, Warfare Centers of Excellence, Program Offices, and other relevant Navy organizations, services, and DOD agencies.
- 2.2.4 Manage and coordinate IW Domain input for the USFF Annual Fleet CONOPS data call and produce an IW Domain CONOPS tracker that is updated monthly to provide a status to senior personnel.
- 2.2.5 Validate NAVIFOR/USFF Navy-wide IW-related Operational Tasking (OPTASK) implementation and make recommendations on effective implementation.
- 2.2.6 Evaluate multinational capability requirements and participate in capability and TTP development for BFTN, Battlefield Information Collection and Exploitation System (BICES), and other coalition communications systems, as required.
- 2.2.7 Explore concepts, including technological, doctrinal, and organizational capabilities for the future.
- 2.2.8 Develop meaningful metrics gathering strategies and evaluate the evidence to provide recommendations, insights, findings and observations regarding the effectiveness of Doctrine.
- 2.2.9 Assist in identifying and tracking required Communications DOTMLPF-P actions.
- 2.2.10 Assist in executing Assured C2, CCE, and EMW DOTMLPF-P actions under NAVIFOR cognizance.
- 2.2.11 Assist with capability gaps identification and review related / draft briefs, white papers, and other documents for comment.
- 2.2.12 Support the annual Information Warfare AC2 Integrated Prioritized Capability List as related to the OPNAV Program Object Memorandum process.
- 2.2.13 Assist in advocating for the fleet’s SATCOM requirements with program sponsors and program offices. Develop analytics, briefs, and other persuasive or informational briefs for flag level review.
- 2.2.14 Develop data gathering and coordination plans for updating and representing Fleet data rate requirements to resource sponsors and acquisition.
- 2.2.15 Participate in staff planning meetings, briefings, and VTCs.
- 2.2.16 Based on guidance from the supported Fleets and related Navy organizations and commands, develop agendas, focus material, and session summaries for C5I capability gaps identification and analysis and validation events.
- 2.2.17 Organize material and technical support for work sessions, briefings, and other meetings that support C5I development and result in finished documents.
- 2.2.18 When requested, provide paper or oral briefings and white papers to update chain of command on document progress.
- 2.2.19 Review and provide CRM input to N8 assigned documents via Tasker System (ETMS2/CTS). When directed provide consolidation of staff’s CRM inputs and close out tasker.

- 2.2.20 Assist NAVIFOR Government lead in performing LNO functions when representing Navy in Joint or international forums.
- 2.2.21 Support NAVIFOR N81 at meetings, conferences, and workshops regarding current and future doctrine/requirements development and integration. This will require the Contractor to liaising with other directorates within NAVIFOR, USFF, PACFLT, FCC, and other service-specific or DOD organizations.
- 2.2.22 Provide subject matter expertise in formal writing, ghost emails, and documenting military communications requirements.
- 2.2.23 Participate in the development of NCTP C5I Shore Command's Core Tactical Baseline requirements and document in NAVIFOR instructions or readiness processes.
- 2.2.24 Provide SME support for equipment mapping of C3 Shore Command's Core Tactical Baseline requirements to Navy Mission Essential Tasks (NMETs) for all NCTPs.
- 2.2.25 Develop and support NCTP C5I Shore Command's Core Tactical Baseline enclosures by reviewing CCDR OPLANs, ICPs, COMMLANS, Thin-line, Global Force Management Plan (GFMP), and other related documents to determine baseline C5I equipment requirements needed to support extended theater-wide major combat operations for all AORs.
- 2.2.26 Assist NAVIFOR N8 government leads by providing necessary consulting, subject matter expertise, analytical, and organizational skills to assist in capturing and documenting fleet requirements and gaps for Navy afloat and ashore legacy and existing IT Transport & Networks systems that support Fleet, joint, and coalition operations.
- 2.2.27 When requested, coordinate with major staffs from Navy Headquarters, Fleet Commanders, Type Commanders (TYCOMS), Combatant Commanders (COCOMs), and System Commanders (SYCOMs) on communication requirements for maritime forces. Contractor must have a strong ability to collaborate effectively across organizational boundaries, and a broad technical knowledge base with a solid understanding of communication concepts, dependencies, and system interrelationships.
- 2.2.28 Provide subject matter expertise in writing and updating IT Transport & Networks requirements letters related to Consolidated Afloat Network Enterprise Services (CANES), Piers Enterprise Piers Connectivity Architecture (Piers EPCA), Automated Digital Network System (ADNS), Combined Enterprise Regional Information Exchange System - Military (CENTRIXS-M), Naval Messaging, Wireless and Mobility, Shore Tactical Assured Command and Control (STACC), and other letters, memo, or instructions related to IT Transport & Networks.
- 2.2.29 Verify fulfillment of and provide updates for Ready, Relevant Learning Information Systems and Transport (IS&T) requirements letter.
- 2.2.30 Conduct analysis and coordinate with Fleet stakeholders to support Naval Information Warfare Systems Command 5.0 & PEO MLB RRL Architecture Development.
- 2.2.31 Provide any updates needed for Ready Relevant Learning Application Information Technology (IT) hosting and transport Fleet Concept of Operations (CONOPS).
- 2.2.32 Support operationalizing the IS&T architecture in support of achieving Initial Operational Capability (IOC) and Full Operational Capability (FOC).
- 2.2.33 Support IS&T architecture initiatives and developments to deliver RRL modernized content at the point of need.
- 2.2.34 Support IPT working groups focused on tasks/deliverables associated with IOC and FOC.
- 2.2.35 Other duties as assigned.

2.3 ADVANCED EXTREMELY HIGH FREQUENCY (AEHF) AND PROTECTED SATCOM, WIDEBAND MILSATCOM/COMSATCOM, SHORE TELECOMMUNICATION STATION, POM/IPCL SUPPORT SUBJECT MATTER EXPERT (SME).

The AEHF and Protected SATCOM, Wideband MILSATCOM/COMSATCOM, Shore Telecommunication Station SME will perform the following tasks:

- 2.3.1 2.3.1 Support NAVIFOR N8 Requirements Directorate by providing necessary consulting, managerial, analytical and organizational skills to assist in identifying and analyzing Navy IW and communications related capability gaps.
- 2.3.2 Provide subject matter expertise in Navy SATCOM requirements including EHF and protected, wideband MILSATCOM and COMSATCOM, and related telecommunication station functions, gateway support, and planning/authorization processes. Additionally, the Contractor shall possess organizational/planning/communication skills to support all facets of capability gaps identification and analysis, and

- support to include review of concepts, communications requirements, OPLANs, acquisition documents, concept of operations, and other technical and non-technical documents.
- 2.3.3 Retrieve data from a variety of sources and individuals to identify the scope and breadth of communications gaps, to analytically and creatively evaluate the data, and to craft collaborative and well researched solution proposals.
 - 2.3.4 Interact with NAVIFOR, Fleet Cyber Command (FCC), USFF, Office of the Chief of Naval Operations (OPNAV) staff, Fleet and Type Commanders, Platform Agents, Warfare Centers of Excellence, Program Offices, and other relevant Navy organizations, services, and Department of Defense (DOD) agencies.
 - 2.3.5 Review Navy's Navy Multiband Terminal (NMT) and other SATCOM terminal and modem capability delivery strategies. Working with other services and stakeholders, identify fleet capability gaps and related analysis for SATCOM requirements.
 - 2.3.6 Identify gaps in SATCOM management processes and recommend improved methodologies to most effectively manage satellite and support system resources for surface, submarine, and other Navy consumers.
 - 2.3.7 Identify best practices for Numbered Fleets to assist in resilient communications. Recommendations should include strategies for Protected SATCOM communication planning, shore capability support, and contingency mission planning.
 - 2.3.8 Assist the NAVIFOR SATCOM Database (SDB) Manager with tracking, updating and maintaining SDB requirements.
 - 2.3.9 Assess Space operations and threats including satellite capability for imagery, detection, and intelligence, surveillance, and reconnaissance (ISR) transport.
 - 2.3.10 Codify recommendations for resilient fleet communications planning and operations in CONOPS, CONEMP, NTPs, Tactics, Techniques, and Procedures (TTPs), or other guiding documents as required by NAVIFOR.
 - 2.3.11 Evaluate SATCOM continuity of system fielding and fleet training and make specific recommendations for improvement if ineffective fielding or training strategies are identified.
 - 2.3.12 Assist in identifying required SATCOM Doctrine, Organization, Training, Materiel, Personnel, Leadership, Facilities, and Policy (DOTMLPF-P) actions.
 - 2.3.13 Assist in executing SATCOM DOTMLPF-P actions under NAVIFOR cognizance.
 - 2.3.14 Assist with the identification and analysis of SATCOM related capability gaps, requirements analysis and review related / draft briefs, white papers, and other documents for comment.
 - 2.3.15 Assist in advocating for the fleet's SATCOM requirements with program sponsors and program offices. Develop analytics, briefs, and other persuasive or informational briefs for flag level review.
 - 2.3.16 Support the annual Information Warfare Integrated Prioritized Capability List as related to the OPNAV Program Object Memorandum process.
 - 2.3.17 Participate in staff planning meetings, briefings, and Video Teleconferences (VTC).
 - 2.3.18 Based on guidance from the supported Fleets and related Navy organizations and commands, develop agendas, focus material, and session summaries for C5I capability gaps identification and analysis, and validation events.
 - 2.3.19 Organize material and technical support for work sessions, briefings, and other meetings that support C5I development and result in finished documents.
 - 2.3.20 When requested, provide papers or oral briefings and white papers to update the chain of command on document progress.
 - 2.3.21 Assist NAVIFOR Government lead in performing Liaison Officer (LNO) functions when representing Navy in Joint or international forums.
 - 2.3.22 Review and provide CRM input to N8 assigned documents via Tasker System (ETMS2/CTS). When directed provide consolidation of staff's CRM inputs and close out tasker.
 - 2.3.23 Support NAVIFOR N8 at meetings, conferences, and workshops regarding current and future doctrine/requirements development and integration. This will require liaising with other directorates within NAVIFOR, USFF, FCC, and other service-specific or DOD organizations.
 - 2.3.24 Provide subject matter expertise in formal writing, ghost emails, and documenting military communications requirements.
 - 2.3.25 Participate in the development of NCTP C5I Shore Command's Core Tactical Baseline requirements and document in NAVIFOR instructions or readiness processes.
 - 2.3.26 Provide SME support for equipment mapping of C5I Shore Command's Core Tactical Baseline requirements to Navy Mission Essential Tasks (NMETs) for all NCTPs.

- 2.3.27 Develop and support NCTP C5I Shore Command's Core Tactical Baseline enclosures by reviewing CCDR OPLANs, ICPs, COMMLANS, Thin-line, Global Force Management Plan (GFMP), and other related documents to determine baseline C5I equipment requirements needed to support extended theater-wide major combat operations for all AORs.
- 2.3.28 Assist NAVIFOR N8 government leads by providing necessary consulting, subject matter expertise, analytical, and organizational skills to assist in capturing and documenting fleet requirements and gaps for Navy afloat and ashore legacy and existing IT Transport & Networks systems that support Fleet, joint, and coalition operations.
- 2.3.29 When requested, coordinate with major staffs from Navy Headquarters, Fleet Commanders, Type Commanders (TYCOMS), Combatant Commanders (COCOMs), and System Commanders (SYCOMs) on communication requirements for maritime forces. Contractor must have a strong ability to collaborate effectively across organizational boundaries, and a broad technical knowledge base with a solid understanding of communication concepts, dependencies, and system interrelationships.
- 2.3.30 Provide subject matter expertise in writing and updating IT Transport & Networks requirements letters related to Consolidated Afloat Network Enterprise Services (CANES), Piers Enterprise Piers Connectivity Architecture (Piers EPCA), Automated Digital Network System (ADNS), Combined Enterprise Regional Information Exchange System - Military (CENTRIXS-M), Naval Messaging, Wireless and Mobility, Shore Tactical Assured Command and Control (STACC), and other letters, memo, or instructions related to IT Transport & Networks.
- 2.3.31 Support Arctic Communications Fleet CONOPS DOTMLPF-P actions and status updates.
- 2.3.32 Support Resilient Command, Control and Communication (RC3) Fleet Concept of Operations (CONOPS) DOTMLPF-P actions and status updates.
- 2.3.33 Develop and deliver RC3 Assured Mission Planning support concepts, doctrine, and fleet tactics, techniques, and procedures for deployed maritime forces.
- 2.3.34 Conduct analysis on DoD hybrid military and commercial SATCOM implementation; deliver updates to RC3 recommended capabilities.
- 2.3.35 Support the development of the Fleet Information Warfare Integrated Prioritized Capabilities List.
- 2.3.36 Update Fleet Bandwidth SATCOM requirements Letter.
- 2.3.37 Deliver Fleet High Frequency (HF) Communications products in support of Navy and DOD HF Requirements.
- 2.3.38 Provide analytical support and deliver reports for Fleet RC3 experimentation during periods of reduced and degraded communications.
- 2.3.39 Other duties as assigned.

SECTION 3: PERSONNEL REQUIREMENTS

3.1 SENIOR REQUIREMENTS, DOCTRINE AND EXPERIMENTATION SME

Area(s) of Expertise: Requirements development, Master's degree level of writing, relevant Navy Major Staff Experience, Doctrine, Organization, Training, Materiel, Leadership and Education, Personnel, Facilities, and Policy (DOTMLPF-P) analysis, Doctrine, Experimentation & Implementation, Coalition Communications. IT Transport & Networks, NCTP C5I Shore Command's Core Tactical Baseline, and RRL IS&T support.

Education: Master's Degree

Experience: A minimum of 8 years of experience working with requirements, doctrine or capability development; a minimum of 20 years of experience with tactical or strategic military operations; a minimum of 6 years of experience with Joint or Maritime operations and requirements; and a minimum of 6 years of experience with DOD DOTMLPF-P actions, or PPBE management.

Security Clearance: Top Secret (SCI)

Traits of Ideal Candidate:

1. Possess organization, planning, and communication skills to support all facets of capability gap analysis and support to include review and concepts, communications requirements, acquisition documents, concept of operations, and other technical and non-technical documents.

2. Have a good working knowledge of the interrelationships between Navy C5I/IW stakeholders, Combatant Commanders, Coalition and NATO maritime forces, Operational Fleet Commands, and be effective in communicating Navy requirements with these diverse interests.
3. Be an effective independent reasoner who can convey complex technical issues to both technical and non-technical audiences.
4. Possess a working knowledge of Naval and Joint C5I concepts, doctrine and processes.
5. High-level self-starter.

3.2 ADVANCED EXTREMELY HIGH FREQUENCY (AEHF) AND PROTECTED SATCOM, WIDEBAND MILSATCOM/COMSATCOM, SHORE TELECOMMUNICATION STATION SUBJECT MATTER EXPERT (SME)

Area(s) of Expertise: Advanced Extremely High Frequency (AEHF) and Protected SATCOM. IT Transport & Networks, and NCTP C5I Shore Command's Core Tactical Baseline support.

Education: Bachelor's Degree. Undergraduate degree must include a major in Science, Engineering, or Information Systems.

Experience: A minimum of 8 years of experience working with Protected systems (i.e. MILSTAR, AEHF). A minimum of 6 years of experience with tactical or strategic military operations; a minimum of 8 years of experience with military communications systems, to include practical experience with; a minimum of 8 years of experience with DOD DOTMLPF-P actions or Planning, Programming, Budgeting and Execution (PPBE) management; a minimum of 6 years of experience working with Navy Communications Programs and Navy or Joint operational stakeholders.

Security Clearance: Top Secret (SCI)

Traits of ideal candidate:

1. Possess expertise in satellite communications, key distribution, communications management, and the capabilities and limitations of Navy afloat and undersea C5I systems.
2. Possess a working knowledge of Naval and Joint C5I concepts and doctrine and processes
3. Have a good working knowledge of the interrelationships between Navy C5I/IW stakeholders, Combatant Commanders, Coalition and North Atlantic Treaty Organization (NATO) maritime forces, and Operational Fleet Commands and be effective in communicating Navy requirements with these diverse interests.
4. Effective independent thinker who can convey complex technical issues to both technical and non-technical audiences.
5. High-level self-starter.

SECTION4: TRAVEL

4.1 TRAVEL: The contractor shall be required to travel in the performance of the tasking detailed in this PWS. Travel costs for transportation, lodging, meals and incidental expenses are allowable if incurred by contractor personnel on official business. Travel related costs shall be reasonable. Costs for transportation may be based on mileage rates, actual costs incurred, or a combination thereof, provided the method used results in a reasonable charge. Costs incurred for lodging, meals and incidental expenses shall be considered reasonable and allowable only to the extent they do not exceed on a daily basis the maximum per diem rates in effect at the time of travel. See FAR 31.205-46 for more information on travel costs. Travel costs are further limited by funds specified in the contract.

The Contractor shall submit a request, via email, to the COR seeking approval to deviate from the trips listed in the table below before initiating any travel plans. Failure to gain prior approval may result in disallowance of invoiced travel claims. Contractor shall research the most current rules, regulations, policies, restrictions, etc., prior to travel.

Local travel within the Hampton Roads area is authorized, but will not be reimbursed. The following table is an estimate of the amount of travel required in the accomplishment of this effort. Each Contractor shall possess a

passport in anticipation of foreign travel. The Contractor may be required to embark onboard U.S or Coalition Naval vessels (ship/airplane/submarine/expeditionary unit) in port or underway. The Contractor shall generate and submit a trip report in accordance with Section 7.0 Deliverables.

# Est.Trips	# PAX each Trip	From	To	Duration each Trip (Days)	SME

SECTION 5: SECURITY REQUIREMENTS

5.1 **SECURITY:** The contractor shall be responsible for adhering to all DOD, Department of the Navy and Command instructions, guidance, orders, directives, and supplements relative to performing tasks set forth in this PWS. Access will be granted to Government facilities as required in support of the tasking. Contractor personnel performing work under this contract must meet all requirements for gaining access to US Government installations. The contractor shall conform to all DoD, DoN, and local (base/installation) security instructions (refer to **Contractor Unclassified Access to Federally Controlled Facilities, Sensitive Information, Information Technology (IT) Systems or Protected Health Information (July 2013)** provided below).

The scope of work requires access to NATO, SECRET and TOP SECRET (SCI) information for contractor personnel. Contractor personnel shall have the appropriate security clearance as of the first day of the period of performance. For the AEHF SME and RF, HF Network SME, TOP SECRET (SCI) clearance is required on day one. Interim SECRET/TOP SECRET (SCI) are acceptable, pending final adjudication.

For the AEHF SME and RF, HF Network SME, work performed shall include access to TS/SCI data, information and spaces. TS/SCI access is required by contractor personnel for access to correspondence, reports, and documentation for analysis, product, and presentation development informed by threat, intel, and Fleet plans. Participation in TS/SCI meetings is required both locally and at other command and Fleet sites.

The Government will provide access to TS/SCI spaces if required. The Government will provide, commercial and government developed software, as required. The Government will provide access to systems as required for developmental purposes. The Government will provide access to classified systems that are necessary for classified documentation development and testing.

All work is to be performed in accordance with DOD and Navy Operations Security (OPSEC) requirements and in accordance with the OPSEC attachment to the DD254.

The Government Contractor CAC card serves as the primary method of identification for the contractor employees, as well as providing the basis of Public Key Infrastructure (PKI) access to the Navy/Marine Corps Intranet (NMCI), and numerous Navy web sites, which may also require PKI access. The COR shall assist in providing the contractor the appropriate documentation for obtaining CAC cards. The Contractor shall be responsible for obtaining any Government issued identification cards from former employees or employees whose access has been terminated and to turn those items over to the Command Security Officer upon termination of employment or access.

5.1.2 INTELLIGENCE OVERSIGHT (IO): Contractors requiring TS/SCI shall complete Intelligence Oversight (IO) training within 30 days of assignment and annually for personnel engaged in intelligence functions and activities. Contractors shall familiarize themselves with intelligence oversight regulations and procedures in DoDM 5240.01 Procedures (1-10), report questionable intelligence activities to the NAVIFOR Inspector General, command's IO Officer (IOO), and cooperate with the Office of Inspector General and others requiring information on potential violations.

5.2 PRIVACY ACT COMPLIANCE: The Contractors may be in contact with data and information subject to the Privacy Act of 1974 (Title 5 of the U.S. Code Section 552a). The Contractors shall ensure that its employees assigned to this effort understand and adhere to the requirements of the Privacy Act and to Department of Defense and Department of the Navy regulations that implement the Privacy Act. Department of Navy policy and procedures implementing the Privacy Act are detailed in SECNAVINST 5211.5E (Department of the Navy Privacy Act (PA) Program). The Contractors shall identify and safeguard data, information and reports accordingly. In addition, the Contractors shall ensure that Contractors employees assigned to the contract are trained on properly identifying and handling data and information subject to the Privacy Act prior to commencing work.

5.3 GOVERNMENT FURNISHED INFORMATION: GFI will be provided to contractor employees as needed to complete the tasks set forth in this performance work statement. Access to classified information must be granted in accordance with the terms and conditions contained in DOD Manual 5220.22-M and DD Form 254 (Contract Security Classification Specification). The Contractor shall comply with all current information assurance awareness, information security policies, procedures, and statutes applicable to DOD information technology; including the July 3, 2007 DOD CIO Policy Memorandum on Encryption of Sensitive Unclassified Data at Rest on Mobile Computing Devices and Removable Storage.

SECTION 6: ADMINISTRATIVE REQUIREMENTS

6.2 PERSONNEL CHANGES: During the **first one hundred twenty days** of performance, the Contractors shall make no substitutions of key personnel unless the substitution is necessitated by changes to contractor workforce brought on by resignation or calamity. The Contractor shall notify the COR at least 15 days prior to any personnel changes, when possible, during the life of the contract.

6.3 DATA RIGHTS: It is the government's intent to retain unlimited rights to all software, documentation, and data first produced in performance of the task.

6.4 CONTRACTOR QUALITY ASSURANCE: The contractor shall develop and maintain a Quality Assurance Plan (QA Plan) in order to ensure only qualified personnel, as stipulated in Section 3, are assigned to fulfill the requirements stated in this PWS. The contractor shall detail in its quality assurance plan how it intends to maintain personnel qualifications and ensure contract employees have up-to-date training and knowledge in their respective areas of endeavor.

This QA Plan shall detail the methodology to be used by the contractor to monitor and grade the performance of its

personnel as they carry out the requirements of this PWS. The QA Plan shall address the contractor's courses of action to address under-performing employees.

6.5 GOVERNMENT QUALITY ASSURANCE SURVEILLANCE: The Government shall evaluate the contractor's performance under this contract in accordance with the Quality Assurance Surveillance Plan (QASP). This plan is primarily focused on what the Government must do in order to ensure that the contractor is performing in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable defect rate(s).

6.6 COMPLAINTS LODGED AGAINST CONTRACTOR PERSONNEL: In the event that a complaint is made regarding the conduct or ability of contractor personnel, the individual receiving the complaint will contact the COR. The COR will notify the Contractor Lead. The Contract PM Lead and COR will cooperate in investigating complaints made against contractor employees. If the results of the investigation prove the complaint(s) to be valid, the Contractor Lead shall have a maximum of three (3) working days to propose a corrective plan for resolving the matter and preventing future similar occurrences. This plan shall be submitted in writing to the Contracting Officer and COR. In the event that the Government deems the corrective plan insufficient for resolution of the problem, a written response to the Contractor Manager shall be provided within three (3) working days.

6.7 OFFICE SPACE: Government will provide office space, desk, chair, and common office supplies. In addition to office space, each contract employees shall be provided with access to government computers and telephones, but not cellular phones, for official use only. Under no circumstances will contractor- provided personal computers will be connected to the Navy/Marine Corps Intranet (NMCI). Contractor personnel shall comply with all DOD and Navy internet usage and cybersecurity policies.

6.8 STATEMENT OF NON-PERSONAL SERVICE: Contractor employees performing services under this contract will be controlled, directed, and supervised at all times by management personnel of the contractor. Contractor management shall ensure that employees properly comply with the performance work standards outlined in the PWS. Contractor employees shall perform their duties independent of, and without the supervision of, any Government official. The tasks, duties, and responsibilities set forth in this contract shall not be interpreted or implemented in any manner that results in any contractor employee creating or modifying Federal policy, obligating the appropriated funds of the United States Government, overseeing the work of Federal employees, providing direct personal services to any Federal employee, or otherwise violating the prohibitions set forth in Parts 7.5 and 37.1 of the Federal Acquisition Regulation (FAR) <http://farsite.hill.af.mil/vffar1.htm>. The Government shall control access to the facilities and shall perform the inspection and acceptance of completed work.

6.9 INVOICING: Invoices shall be submitted via the Wide Area Workflow system.

SECTION 7: DELIVERABLES

7.1 DELIVERABLES: The Contractors shall provide the deliverables listed per Section 2: Scope. Deliverables shall be prepared in Contractor's format where not otherwise specified by the Government. Deliverables shall be provided to the COR. All final deliverable submissions shall remain the property of the U.S. Government. All revisions will be due in the specified timeframe as identified by the Government. All methodologies and recommendations shall be reviewed and approved by the Government prior to submission/implementation.

- a. Contractors shall provide deliverables for Resilient Command, Control, and Communications (RC3), Information Technology (IT) Transport & Networks, Naval Computer and Telecommunications Platforms (NCTP) Command, Control, and Communications (C5I) Shore Command's Core Tactical Baseline, and Ready Relevant Learning IS&T Requirements as listed in Section 2: Scope.
- b. Contractors shall develop and provide NCTP C5I Shore Command's Core Tactical Baseline requirements instruction, enclosures and equipment mapping to NMETs by reviewing CCDD OPLANs, ICPs, COMMLANS, Thin-line, Global Force Management Plan (GFMP), and other related documents to determine baseline C5I equipment requirements needed to support extended theater-wide major combat operations for all AORs, to include specific tasks listed in Section 2: Scope.

- c. Contractors shall provide necessary consulting, subject matter expertise, analytical, and administrative support for the RRL IS&T architecture to include specific tasks listed in Section 2.2.
- d. Contractors shall assist NAVIFOR N8 government leads by providing necessary consulting, subject matter expertise, analytical, and administrative support to assist in capturing and documenting fleet requirements and gaps for Navy afloat and ashore legacy and existing IT Transport & Networks systems that support fleet, joint, and coalition operations, to include specific tasks listed in Section 2: Scope.
- e. Contractors shall assist NAVIFOR N8 government leads by providing necessary consulting, subject matter expertise, analytical, and administrative support for DOTMLPF-P actions, IPCL, POM, Requirements Letters, and Comment Resolution Matrix (CRM) input via document reviews, to include specific tasks listed in Section 2: Scope.

7.2 CONTRACTOR QUALITY ASSURANCE PLAN: Due within 30 days of period of performance start date and updated annually thereafter (refer to paragraph 6.4).

7.3 CONTRACTOR INCLEMENT WEATHER/DISASTER PLAN: Provide COR with copy of Contractor's rules/policies governing situations when personnel are affected by emergencies of a man-made (civil disturbance, local terrorist activity, war) or natural (hurricane, earthquake, hazardous weather) nature. Should contractor personnel be members of a union, those sections of Collective Bargaining Agreement (CBA) that specify reporting/schedule/muster details (as they relate to contractor personnel assigned duties in accordance with the pertinent PWS) shall be provided to the COR, as well as any subsequent modifications. Due within 30 days of period of performance start date.

7.4 MONTHLY STATUS REPORT: The Contractor shall provide NAVIFOR N8 a monthly project In Progress Review (IPR) no later than the 20th day of the month. The IPR shall be a formal review whereby the Contractors will discuss matters such as project requirements, current and planned project activities, contract personnel status, and problems encountered or anticipated that may project schedule. The report shall contain the following information at a minimum

- a. Task/project status (include originator/customer, personnel assigned to complete, goal/end- state, estimated completion date, percent complete)
- b. Personnel issues
- c. Upcoming Travel
- d. Anticipated activity for next reporting period

7.5 TRIP REPORT: The contractor shall require his/her employees to provide a trip report to the COR within 5 days of return from any periods of travel. The trip report shall be in a format prescribed by the contractor, but at a minimum, shall address the objectives of the travel and whether those objectives were or were not achieved. If not achieved, the circumstances preventing the accomplishment of the objective shall also be provided.

7.6 MONTHLY FINANCIAL REPORT: The Monthly Financial Report shall be submitted not later than 10 business days after end of the month reported on. The report shall contain the following information at a minimum:

- a. Current month travel expenses per trip and contract to date travel expense
- b. Invoices submitted but not paid

Deliverable Product Format: All reports and documentation will be developed using recent versions of Adobe Acrobat, Microsoft Office Professional Products to include Word, Excel, PowerPoint, etc. unless otherwise specified by the COR. Electronic submission shall be made via email, unless otherwise agreed upon with the COR. Oral status reports may also be requested periodically.

The COR will have the right to reject or require correction of any deficiencies found in the deliverables that are contrary to the information contained the Contractors' accepted proposal. In the event of a rejected deliverable, the Contractors shall be notified in writing by the TOM of the specific reasons for rejection. The Contractors shall have five (5) workdays to correct the rejected deliverable and return it per delivery instructions.

Contractor Unclassified Access to Federally Controlled Facilities, Sensitive Information, Information Technology (IT) Systems or Protected Health Information (July 2013)

Homeland Security Presidential Directive (HSPD)-12, requires government agencies to develop and implement Federal security standards for Federal employees and contractors. The Deputy Secretary of Defense Directive-Type Memorandum (DTM) 08-006 – “DoD Implementation of Homeland Security Presidential Directive – 12 (HSPD-12)” dated November 26, 2008 (or its subsequent DoD instruction) directs implementation of HSPD-12. This clause is in accordance with HSPD-12 and its implementing directives.

APPLICABILITY

This clause applies to contractor employees requiring physical access to any area of a federally controlled base,

facility or activity and/or requiring access to a DoN or DoD computer/network/system to perform certain unclassified sensitive duties. This clause also applies to contractor employees who access Privacy Act and Protected Health Information, provide support associated with fiduciary duties, or perform duties that have been identified by DON as National Security Position, as advised by the command security manager. It is the responsibility of the responsible security officer of the command/facility where the work is performed to ensure compliance.

Each contractor employee providing services at a Navy Command under this contract is required to obtain a Department of Defense Common Access Card (DoD CAC). Additionally, depending on the level of computer/network access, the contract employee will require a successful investigation as detailed below.

ACCESS TO FEDERAL FACILITIES

Per HSPD-12 and implementing guidance, all contractor employees working at a federally controlled base, facility or activity under this clause will require a DoD CAC. When access to a base, facility or activity is required contractor employees shall in-process with the Navy Command's Security Manager upon arrival to the Navy Command and shall out-process prior to their departure at the completion of the individual's performance under the contract.

ACCESS TO DOD IT SYSTEMS

In accordance with SECNAV M-5510.30, contractor employees who require access to DoN or DoD networks are categorized as IT-I, IT-II, or IT-III. The IT-II level, defined in detail in SECNAV M- 5510.30, includes positions which require access to information protected under the Privacy Act, to include Protected Health Information (PHI). All contractor employees under this contract who require access to Privacy Act protected information are therefore categorized no lower than IT-II. IT Levels are determined by the requiring activity's Command Information Assurance Manager. Contractor employees requiring privileged or IT-I level access, (when specified by the terms of the contract) require a Single Scope Background Investigation (SSBI) which is a higher level investigation than the National Agency Check with Law and Credit (NACLC) described below. Due to the privileged system access, a SSBI suitable for High Risk public trusts positions is required. Individuals who have access to system control, monitoring, or administration functions (e.g. system administrator, database administrator) require training and certification to Information Assurance Technical Level 1, and must be trained and certified on the Operating System or Computing Environment they are required to maintain.

Access to sensitive IT systems is contingent upon a favorably adjudicated background investigation. When access to IT systems is required for performance of the contractor employee's duties, such employees shall in-process with the Navy Command's Security Manager and Information Assurance Manager upon arrival to the Navy command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The decision to authorize access to a government IT system/network is inherently governmental. The contractor supervisor is not authorized to sign the SAAR-N; therefore, the government employee with knowledge of the system/network access required or the COR shall sign the SAAR-N as the "supervisor".

The SAAR-N shall be forwarded to the Navy Command's Security Manager at least 30 days prior to the individual's start date. Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date.

When required to maintain access to required IT systems or networks, the contractor shall ensure that all employees requiring access complete annual Information Assurance (IA) training, and maintain a current requisite background investigation. The Contractor's Security Representative shall contact the Command Security Manager for guidance when reinvestigations are required.

INTERIM ACCESS

The Navy Command's Security Manager may authorize issuance of a DoD CAC and interim access to a DoN or DoD unclassified computer/network upon a favorable review of the investigative questionnaire and advance favorable fingerprint results. When the results of the investigation are received and a favorable determination is not made, the contractor employee working on the contract under interim access will be denied access to the computer network and this denial will not relieve the contractor of his/her responsibility to perform.

DENIAL OR TERMINATION OF ACCESS

The potential consequences of any requirement under this clause including denial or termination of physical or system access in no way relieves the contractor from the requirement to execute performance under the contract within the timeframes specified in the contract. Contractors shall plan ahead in processing their employees and subcontractor employees. The contractor shall insert this clause in all subcontracts when the subcontractor is permitted to have unclassified access to a federally controlled facility, federally-controlled information system/network and/or to government information, meaning information not authorized for public release.

CONTRACTOR'S SECURITY REPRESENTATIVE

The contractor shall designate an employee to serve as the Contractor's Security Representative. Within three work days after contract award, the contractor shall provide to the requiring activity's Security Manager and the Contracting Officer, in writing, the name, title, address and phone number for the Contractor's Security Representative. The Contractor's Security Representative shall be the primary point of contact on any security matter. The Contractor's Security Representative shall not be replaced or removed without prior notice to the Contracting Officer and Command Security Manager.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO NATIONAL SECURITY POSITIONS OR PERFORMING SENSITIVE DUTIES

Navy security policy requires that all positions be given a sensitivity value based on level of risk factors to ensure appropriate protective measures are applied. Navy recognizes contractor employees under this contract as Non-Critical Sensitive [ADP/IT-II] when the contract scope of work require physical access to a federally controlled base, facility or activity and/or requiring access to a DoD computer/network, to perform unclassified sensitive duties. This designation is also applied to contractor employees who access Privacy Act and Protected Health Information (PHI), provide support associated with fiduciary duties, or perform duties that have been identified by DON as National Security Positions. At a minimum, each contractor employee must be a US citizen and have a favorably completed NACLC to obtain a favorable determination for assignment to a non-critical sensitive or IT-II position. The NACLC consists of a standard NAC and a FBI fingerprint check plus law enforcement checks and credit check.

Each contractor employee filling a non-critical sensitive or IT-II position is required to complete:

- SF-86 Questionnaire for National Security Positions (or equivalent OPM investigative product)
- Two FD-258 Applicant Fingerprint Cards (or an electronic fingerprint submission)
- Original Signed Release Statements

Failure to provide the required documentation at least 30 days prior to the individual's start date shall result in delaying the individual's start date. Background investigations shall be reinitiated as required to ensure investigations remain current (not older than 10 years) throughout the contract performance period. The Contractor's Security Representative shall contact the Command Security Manager for guidance when reinvestigations are required.

Regardless of their duties or IT access requirements ALL contractor employees shall in-process with the Navy Command's Security Manager upon arrival to the Navy command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Employees requiring IT access shall also check-in and check-out with the Navy Command's Information Assurance Manager. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The SAAR-N shall be forwarded to the Navy Command's Security Manager at least 30 days prior to the individual's start date. Failure to provide the required documentation at least 30 days prior to the individual's start date shall result in delaying the individual's start date.

The contractor shall ensure that each contract employee requiring access to IT systems or networks complete annual Information Assurance (IA) training, and maintain a current requisite background investigation. Contractor employees shall accurately complete the required investigative forms prior to submission to the Navy Command Security Manager. The Navy Command's Security Manager will review the submitted documentation for completeness prior to submitting it to the Office of Personnel Management (OPM). Suitability/security issues identified by the Navy may render the contractor employee ineligible for the assignment. An unfavorable

determination made by the Navy is final (subject to SF-86 appeal procedures) and such a determination does not relieve the contractor from meeting any contractual obligation under the contract. The Navy Command's Security Manager will forward the required forms to OPM for processing. Once the investigation is complete, the results will be forwarded by OPM to the DON Central Adjudication Facility (CAF) for a determination.

If the contractor employee already possesses a current favorably adjudicated investigation, the contractor shall submit a Visit Authorization Request (VAR) via the Joint Personnel Adjudication System (JPAS) or a hard copy VAR directly from the contractor's Security Representative. Although the contractor will take JPAS "Owning" role over the contractor employee, the Navy Command will take JPAS "Servicing" role over the contractor employee during the hiring process and for the duration of assignment under that contract. The contractor shall include the IT Position Category per SECNAV M-5510.30 for each employee designated on a VAR. The VAR requires annual renewal for the duration of the employee's performance under the contract.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO OR PERFORMING NON-SENSITIVE DUTIES

Contractor employee whose work is unclassified and non-sensitive (e.g., performing certain duties such as lawn maintenance, vendor services, etc ...) and who require physical access to publicly accessible areas to perform those duties shall meet the following minimum requirements:

- Must be either a US citizen or a US permanent resident with a minimum of 3 years legal residency in the United States (as required by The Deputy Secretary of Defense DTM 08-006 or its subsequent DoD instruction) and
- Must have a favorably completed National Agency Check with Written Inquiries (NACI) including a FBI fingerprint check prior to installation access.

To be considered for a favorable trustworthiness determination, the Contractor's Security Representative must submit for all employees each of the following:

- SF-85 Questionnaire for Non-Sensitive Positions
- Two FD-258 Applicant Fingerprint Cards (or an electronic fingerprint submission)
- Original Signed Release Statements

The contractor shall ensure each individual employee has a current favorably completed National Agency Check with Written Inquiries (NACI) or ensure successful FBI fingerprint results have been gained and investigation has been processed with OPM.

Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date.

* Consult with your Command Security Manager and Information Assurance Manager for local policy when IT-III (non-sensitive) access is required for non-US citizens outside the United States.

(end text)

Enterprise Contractor Manpower Reporting Application (ECMRA)

The contractor shall report contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract via a secure data collection site. Contracted services excluded from reporting are based on Product Service Codes (PSCs). The excluded PSCs are:

- (1) W, Lease/Rental of Equipment;
- (2) X, Lease/Rental of Facilities;
- (3) Y, Construction of Structures and Facilities;
- (4) D, Automatic Data Processing and Telecommunications, IT and Telecom- Telecommunications Transmission (D304) and Internet (D322) ONLY;
- (5) S, Utilities ONLY;
- (6) V, Freight and Shipping ONLY.

The contractor is required to completely fill in all required data fields using the following web address <https://doncmra.nmci.navy.mil>.

Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk, linked at <https://doncmra.nmci.navy.mil>.

NAVSUP FLC NORFOLK may utilize contractor support through the AbilityOne Program, as needed, to perform contract closeout functions for this acquisition. Information, including business sensitive/confidential or proprietary data, that the offeror provides to the Government or information already in the possession of the Government may be viewed and utilized by the AbilityOne Program support contractor personnel during the course of its contract performance. The information that may be made available to the support contractor may include, for example, pricing and technical proposals, historical contract, pricing and performance information, Commercial Asset Visibility (CAV) reporting information and similar data/information.

By submission of a proposal in response to this solicitation, the offeror and its subcontractors consent to a release of their business sensitive/confidential or proprietary data to the Government's AbilityOne Program support contractor personnel in order to perform close out services. Prior to the release of any such information to the support contractor, the support contractor will have in place with the Government a Non-Disclosure/Non-Use Agreement in accordance with the terms of the AbilityOne Program support contract.

Offerors' may execute their own Non-Disclosure Agreement with the AbilityOne Program (AbilityOne contact information available from the contracting point of contact). The support contractor must provide copies of the executed agreements to the Contracting Officer and the Contracting Officer's Representative (COR) for the support contract; and the offeror/contractor for this acquisition must provide copies of the executed Agreement to the Contracting Officer for this acquisition. If the offeror/contractor seeks such a Non-Disclosure Agreement with the AbilityOne Program support contractor, the Agreement must be executed no later than the date of final delivery under the resulting NAVSUP FLC NORFOLK contract.
