

Sources Sought Notice for Defense Logistics Agency, Defense Supply Center Richmond Environmental Restoration Program for the US Army Corps of Engineers, Baltimore District

THIS IS A SOURCES SOUGHT NOTICE ONLY AND IS FOR INFORMATION/MARKET RESEARCH PURPOSES ONLY. THIS IS NOT A REQUEST FOR PROPOSALS, QUOTATIONS OR BIDS. NO AWARD WILL BE MADE FROM THIS SOURCES SOUGHT.

Notice Number: W912DR26RA044

THE GOVERNMENT WILL NOT REIMBURSE RESPONDENTS FOR ANY COSTS INCURRED FOR THEIR PARTICIPATION IN THIS SOURCES SOUGHT. ALL RESPONSES WILL BE USED TO DETERMINE THE APPROPRIATE ACQUISITION STRATEGY FOR THE POSSIBLE FUTURE ACQUISITION.

The U.S. Army Corps of Engineers, Baltimore District (hereinafter the Baltimore District), seeks to determine the interest, availability, and capability of potential sources to satisfy an upcoming requirement. The Baltimore District requests capability statements from certified 8(a) small business concerns. Responses to this sources sought announcement will be used by the Government to determine capability of potential sources to satisfy an upcoming requirement. The Government will not pay for any material provided in response to this market survey nor return the data provided. This notice is for information purposes only and is not a request to be placed on a solicitation mailing list nor is it a Request for Proposal (RFP) or an announcement of a solicitation.

By way of this Sources Sought Notice, USACE, Baltimore District is conducting market research to determine if responsible sources exist for this effort. This Sources Sought Notice is one facet of the Government's overall market research strategy. No acquisition strategy will be determined based solely on the information received from this Sources Sought Notice. 8(a) Certified Small businesses are highly encouraged to participate in this Sources Sought.

REQUIREMENT DESCRIPTION

Project: The proposed 1 year with 3 additional option years contract is to provide environmental services to the Defense Logistics Agency (DLA) Defense Supply Center Richmond (DSCR) Environmental Restoration Program. DSCR is also known as DLA Weapons Support and is the headquarters for DLA Aviation and home to a variety of other DLA, Department of War, and other federal organizations. The installation is eight miles south of the City of Richmond in Chesterfield County, Virginia. The United States Environmental Protection Agency (EPA) placed DSCR on the National Priorities List in 1987. Since 1990, DLA has implemented an environmental restoration program at DSCR under a Federal Facility Agreement with the United States Environmental Protection Agency (EPA) Region 3 and the Virginia Department of Environmental Quality (DEQ).

Past industrial operations at the installation have resulted in the use, storage, management, inadvertent release, and/or disposal of hazardous materials, such as chlorinated solvents, petroleum products, and wastewater treatment sludge. In addition, past storage operations at the installation have led to the accidental release of these and other hazardous materials, such as PAHs, pesticides, petroleum hydrocarbons, PCBs, and metals.

Since 2000, DSCR has been integrating RIs and Focused Feasibility Studies for source and groundwater OUs. RI/FFSs have been conducted as part of a comprehensive, installation wide completion strategy recognizing the interdependence of soil and groundwater impacts. This strategy involves:

- Eliminating or reducing continuing sources of impacts through removal or treatment
- Controlling migration in the environment using natural and engineered controls
- Using institutional or engineered controls to limit the exposure of impacts that could pose an unacceptable human health or ecological risk

CAPABILITIES

This section details the range of capabilities that will be evaluated. Please note that a firm is not required to demonstrate all capabilities detailed below to submit a response to this notice. The purpose of this notice is not only to aid in determining the acquisition strategy, but also to understand the full range of industry capabilities for this work. Firms who can demonstrate a reasonable amount of the capabilities below are encouraged to submit a response.

The work anticipated will include the following:

This Performance Work Statement (PWS) includes broad-spectrum environmental services. These services include, but are not limited to:

- Annual/Bi-annual Ground Water Sampling and Evaluation
- Vapor Intrusion Monitoring
- Land Use Controls Evaluation and Implementation
- Five-Year Review
- Interacting with regulators
- Coordination of bi-annual Restoration Advisory Boards and Community Relations Assistance
- In-situ Bioremediation such as enhanced reductive de-chlorination (ERD)
- Operable Unit Site Optimization
- Monitoring well optimization, installation, and abandonment

Certified 8(a) Businesses are encouraged to respond to this notice.

Responses may be in any format, but should include the following:

1. Basic Information:

- Company name
- Address
- Point of contact
- Phone number
- Email address
- Commercial and Government Entity (CAGE) code
- Unique Entity ID (UEI)

2. Indicate if your company is currently registered with the Systems for Award Management (SAM) database. If not, indicate if your company has been registered or if it plans to register. Please see <https://sam.gov/portal/SAM/> for additional registration information.

Note: Per FAR 52.204-7, “The Offeror shall have an active Federal Government contracts registration in the System for Award Management (SAM) when submitting an offer or quotation in response to this solicitation and at the time of award.” SAM registration is not required to respond to this sources sought notice, though it is strongly encouraged.

3. In consideration of **NAICS code 562910** with a small business size standard of \$25,000,000.00, “Exception” for Environmental Remediation Service under NAICS code 562910, size standard of 1,000 employees. Indicate which of the following small business categories your business is classified under, if applicable:

- Service-Disabled Veteran-Owned Small Business
- Woman-Owned Small Business
- HUBZone Small Business
- 8(a) Certified Small Business

4. (Yes/No) Indicate if your company is currently prohibited from doing business with the Federal Government. If yes, please explain.

5. Capabilities:

- a) Provide a general description of the services your company provides as it relates to the Capabilities section provided in this notice.
- b) Include information and details of a minimum of two (2) but no more than three (3) examples of projects similar to requirements described above that have been completed within the past three (3) years. Example projects should include a narrative or a description of the services performed; project references (including owner with phone number and email address); and size of project and/or capacities.
 - i. If the contractor is a small business joint venture, mentor/protégé, or is utilizing an affiliate, at least two (2) projects submitted MUST be experience representing the small business/protégé prime contractor.
 - ii. Please note that under a Small-Business Set-Aside, in accordance with Revolutionary FAR Overhaul (RFO) 52.219-14, the small business prime must perform at least 50% of the effort themselves in terms of the cost of performance. Moreover, capabilities statements should demonstrate your company’s ability to perform at least 50% of the effort with regards to the example projects included in the capabilities statement.

- c) Provide a description of the range of geographic locations that can be supported by your company.

Page Limit and Format

Total submittal shall be no longer than seven (7) 8.5 x 11-inch pages, in Times New Roman font no less than 10 point and submitted as a searchable Portable Document Format (PDF) file.
