Title of Project: Rehabilitate Waterlines for Fire Suppression Flow

General:

The purpose of the anticipated solicitation and resulting contract supports Bartlett Cove, a geographic location of Gustavus/Glacier Bay National Park, Alaska, requiring rehabilitation of a waterline distribution system to bring the network up to fire-flow volume and pressure needs, to sufficiently supply local fire suppression systems for service responses. Components involved include upsizing existing water supply/distribution lines, installing new lines to from the existing distribution main, and reinstalling relevant service and fire lines, fire hydrants, gate valves, and other miscellaneous system appurtenances. Full-scope rehabilitation performance results will be inspected by a Government Representative for final acceptance.

The estimated performance period is 6/1/2026 – 5/1/2027. The project is currently not fully funded, but highly anticipated to be made available for award. Davis Bacon Wage Determination AK20260001 applies.

Intention is to solicit quotes on an open market basis, set-aside for only small business entities active in www.SAM.gov, having the capability to perform the service in the fairly remote and challenging location.

The solicitation will be issued electronically on www.SAM.gov. Request for Proposal documents will be available for download in Microsoft Word, HTML, Microsoft Excel, and Adobe PDF.

Vendors can search for opportunities and award history on www.SAM.gov. without registering. However, prospective offerors desiring to conduct business with the Federal Government are required to have an active registration in the Systems for Awards Management (SAM) at www.sam.gov. A CAGE code is also required in SAM. Anticipation is to award a single firm fixed price contract.

This pre-solicitation announcement is not a solicitation document, but is a Notice of the upcoming solicitation.

Specific instructions on submitting your proposal will be contained in the solicitation to be posted soon.
