(2) If the catalog pricing provided with this proposal is not consistent with all relevant sales data, a detailed description of differences or inconsistencies between or among the relevant sales data, the proposed price, and the catalog price (including any related discounts, refunds, rebates, offsets, or other adjustments);

(C) For items priced based on market pricing, a description of the nature of the commercial market, the methodology used to establish a market price, and all relevant sales data. The description shall be adequate to permit DoD to verify the accuracy of the description;

(D) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item; or

(E) For items provided by nontraditional defense contractors, a statement that the entity is not currently performing and has not performed, for at least the 1-year period preceding the solicitation of sources by DoD for the procurement or transaction, any contract or subcontract

for DoD that is subject to full coverage under the cost accounting standards prescribed pursuant to 41 U.S.C. 1502 and the regulations implementing such section.

(2) The Offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and to determine the reasonableness of price.

(c) *Requirements for certified cost or pricing data.* This acquisition is accomplished under the authority of section 890 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115-232), as amended by section 825 of the NDAA for FY 2020 (Pub. L. 116-92), section 818 of the NDAA for FY 2023 (Pub. L. 117-263), and section 841 of the NDAA for FY 2024 (Pub. L. 118-31). The intent of this pilot program is to test the efficacy of basing price reasonableness determinations primarily on actual costs of performance for prior purchases of the same or similar products for the Department of Defense. If the Offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(1) In lieu of providing complete cost or pricing data, as defined in FAR 2.101, the Offeror shall submit a subset of cost or pricing data and supporting attachments as follows:        *[Contracting Officer shall list the specific cost or pricing data deemed necessary to establish price reasonableness for this acquisition, and describe the required submission format for each type of data. At a minimum, the Contracting Officer shall identify the specific prior DoD purchases of the same or similar products for which the Offeror is required to submit the actual cost of performance. The Offeror is not required to submit cost or pricing data that is not listed within this provision. If the Contracting Officer finds that additional cost or pricing data are needed in order to determine that the price is fair and reasonable, the Contracting Officer shall issue an amendment to the solicitation, revising this paragraph as needed to require the submission of the additional data.]*

(2)(i) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the Offeror shall submit a Certificate of Current Cost or Pricing Data, using the following language:

Certificate of Current Cost or Pricing Data for Acquisitions Accomplished under the Authority of Section 890 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019, as amended by Section 825 of the NDAA for FY 2020, Section 818 of the NDAA for 2023, and Section 841 of the NDAA for FY 2024

This is to certify that, to the best of my knowledge and belief, the cost or pricing data required by the provision at 252.215-7010, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data (DEVIATION 2024-O0007) of the Request for Proposal for this action, and submitted either actually or by specific identification in writing, to the Contracting Officer or to the Contracting Officer's Representative in support of       \* are accurate, complete, and current as of       \*\*. This certification includes the cost or pricing data supporting any advance agreements and forward pricing rate agreements between the Offeror and the Government that are part of the proposal.

(ii) The certificate does not constitute a representation as to the accuracy of the Offeror's judgment on the estimate of future costs or projections. It applies to the data upon which the judgment or estimate was based. This distinction between fact and judgment should be clearly understood. With respect to the certified cost or pricing data required by paragraphs (c)(1) or (e) of this provision (as revised by solicitation amendment, if applicable), if the Offeror had information reasonably available at the time of agreement showing that the negotiated price was not based on accurate, complete, and current data, the Offeror's responsibility is not limited by any lack of personal knowledge of the information on the part of its negotiators.

(iii) The Contracting Officer and Offeror are encouraged to reach a prior agreement on criteria for establishing closing or cutoff dates when appropriate in order to minimize delays associated with proposal updates. Closing or cutoff dates applicable to the certified cost or pricing data required by paragraphs (c)(1) or (e) of this provision should be included as part of the data submitted with the proposal and, before agreement on price, data should be updated by the contractor to the latest closing or cutoff dates for which the data are available. Use of cutoff dates coinciding with reports is acceptable, as certain data may not be reasonably available before normal periodic closing dates (e.g., actual indirect costs). Data within the Offeror's or a subcontractor's organization on matters significant to contractor management and to the Government will be treated as reasonably available, if that data was required to be submitted by paragraph (c)(1) or (e) of this provision. What is significant depends upon the circumstances of each acquisition.

(iv) Possession of a Certificate of Current Cost or Pricing Data is not a substitute for examining and analyzing the Offeror's proposal.

(v) If certified cost or pricing data are requested by the Government and submitted by the Offeror, but an exception is later found to apply, the data shall not be considered certified cost or pricing data and shall not be certified in accordance with this subsection.

(3) The Offeror is responsible for determining whether a subcontractor qualifies for an exception from the requirement for submission of certified cost or pricing data on the basis of adequate price competition, i.e., two or more responsible offerors, competing independently, submit priced offers that satisfy the Government's expressed requirement in accordance with FAR 15.403-1(c)(1).

(d) *Requirements for data other than certified cost or pricing data.*

(1) Data other than certified cost or pricing data submitted in accordance with this provision shall include all data necessary to permit a determination that the proposed price is fair and reasonable, to include the requirements in DFARS 215.402(a)(i) and 215.404-1(b).

(2) In cases in which uncertified cost data is required, the information shall be provided in the form in which it is regularly maintained by the Offeror or prospective subcontractor in its business operations.

(3) The Offeror shall provide information described as follows: \_\_\_\_\_ [Insert description of the data and the format that are required, including access to records necessary to permit an adequate evaluation of the proposed price in accordance with FAR 15.403-3].

(4) Within 10 days of a written request from the Contracting Officer for additional information to support proposal analysis, the Offeror shall provide either the requested information, or a written explanation for the inability to fully comply.

(5) *Subcontract price evaluation.*

(i) The Offeror shall obtain from subcontractors the minimum information necessary to support a determination of price reasonableness, as described in FAR part 15 and DFARS part 215.

(ii) No cost information may be required from a prospective subcontractor in any case in which there are sufficient non-Government sales of the same item to establish reasonableness of price.

(iii) If the Offeror relies on relevant sales data for similar items to determine the price is reasonable, the Offeror shall obtain only that technical information necessary—

(A) To support the conclusion that items are technically similar; and

(B) To explain any technical differences that account for variances between the proposed prices and the sales data presented, but excluding paragraph (c), in all subcontracts exceeding the simplified acquisition threshold defined in FAR part 2.

(e) *Subcontracts.*

(1) For subcontracts above the threshold for submission of certified cost or pricing data in FAR 15.403-4 to which the authority of the Section 890 pilot has been flowed down, in lieu of the requirements in paragraphs (a) and (b) of the clause at 52.215-12, Subcontractor Certified Cost or Pricing Data, of this solicitation, the Offeror shall require the subcontractor to submit a subset of cost or pricing data (actually or by specific identification in writing) as follows:

|           |
|-----------|
| (i) _____ |
| _____     |
| _____     |

[Contracting Officer shall add paragraphs as necessary to identify each first-tier subcontract to which the authority of the Section 890 pilot has been flowed down, and the specific certified cost or pricing data required for each subcontract. Contracting Officer shall list the specific cost or pricing data deemed necessary to determine that the price is fair and reasonable for each subcontract, and describe the required submission format for each type of data. The type and extent of data required may differ based on the dollar value of the subcontract proposal, or other appropriate considerations. At a minimum, the Contracting Officer shall identify the specific prior subcontracts awarded in support of the DoD purchases of the same or similar products for which the subcontractor is required to submit the actual cost of performance. The Contracting Officer shall specify whether the authority of the Section 890 pilot is further flowed down to any lower-tier subcontract pertaining to each first-tier subcontract. Where the pilot authority is flowed down to lower-tier subcontracts, the Contracting Officer shall describe the specific certified cost or pricing data that is to be provided by each affected lower-tier subcontractor. The subcontractor and lower tier subcontractors to which the pilot authority is flowed down are not required to submit certified cost or pricing data that is not listed within this provision. If the Contracting Officer finds that additional certified cost or pricing data are needed in order to determine that the price is fair and reasonable, the Contracting Officer shall issue an amendment to the solicitation, revising this paragraph as needed to require the submission of the additional data.]

(ii) In the event a subcontractor denies the Offeror access to the data described in paragraph (e)(1)(i) of this provision, the data may be provided directly to the Contracting Officer.

(iii) If a subcontractor is unable to provide the extent of historical actual cost experience required by paragraph (e)(1)(i), then the Offeror shall require the subcontractor to provide certified cost or pricing data in accordance with paragraph (e)(2) of this clause.

(iv) The Offeror shall require the subcontractor to certify in substantially the form prescribed in paragraph (c)(2) of this provision that, to the best of its knowledge and belief, the data submitted under paragraph (e)(1)(i) of this provision were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract.

(2) For subcontracts above the threshold for submission of certified cost or pricing data in FAR 15.403-4 to which the authority of the Section 890 pilot has not been flowed down, the Offeror shall require the subcontractor to provide certified cost or pricing data in accordance with the clause at 52.215-12, Subcontractor Certified Cost or Pricing Data, of this solicitation and shall require the subcontractor to certify in substantially the form prescribed in FAR 15.406-2 that, to the best of its knowledge and belief, the data submitted under paragraph (a) of the clause at 52.215-12 were accurate, complete, and current as of the date of agreement on the negotiated price of the subcontract.

#### **L-212-W001 TECHNICAL PROPOSAL – SPECIFIC REQUIREMENTS – COMMERCIAL ITEMS (Oct 2018)** **(NAVSEA) (OCT 2018)**

(a) The technical proposal shall include responses to clearly demonstrate that all the requirements included in the specifications will be met. It may include brochures, specification sheets or other descriptive literature detailing the features of the items proposed. "Descriptive literature" means information (e.g., cuts, illustrations, drawings, and brochures) that is submitted as part of an offer. Descriptive literature is required to establish, for the purpose of evaluation and award, details of the product offered that are specified elsewhere in the solicitation and pertain to significant elements such as (1) design; (2) materials; (3) components; (4) performance characteristics; and (5) methods of manufacture, assembly, construction, or operation. The term includes only information required to determine the technical acceptability of the offered product. It does not include other information such as that used in determining the responsibility of a prospective Contractor or for operating or maintaining equipment.

(b) The offeror shall discuss clearly and completely how each requirement will be met and reference where the information supporting the statement can be found in the technical information/descriptive literature provided. A mere statement that the offeror understands the requirement and intends to comply IS NOT SUFFICIENT. The offeror must explicitly state how it intends to comply with each of the requirements and demonstrate a comprehensive understanding of the requirements.

(c) If the specification includes identification of a specific make and model on a "brand name or equal" basis, and the offeror states that it will provide the make and model specified, it need not address the salient characteristics included in the Description /Specification/Work Statement. The offeror need only include the following statement - "Requested Brand Name will be supplied."

#### **L-212-W002 PRICE PROPOSAL – SPECIFIC REQUIREMENTS – COMMERCIAL ITEMS (Oct 2018)** **(NAVSEA) (OCT 2018)**

The contracting officer must establish price reasonableness in accordance with FAR 13.106-3, 14.408-2, or Subpart 15.4, as applicable. To assist in determining whether the proposed prices are "fair and reasonable", the offeror shall submit the following information:

(a) The offeror shall submit the following pricing information on the three most recent sales of the items being procured or same or similar commercial items under comparable terms and conditions by commercial customers. If no pricing information is available on recent purchase prices paid by commercial customers, the offeror shall submit pricing information on recent purchase prices paid by the Government. Where the pricing information furnished is on similar items, the offeror shall indicate the differences. Pricing information furnished should be as current as possible, and should be on quantities similar to this solicitation. The offeror shall furnish copies of invoices to support the pricing information provided.

## Section M - Evaluation Factors for Award

### SECTION M - EVALUATION FACTORS FOR AWARD

In order to permit efficient competition and evaluation, the Navy may utilize the following methodology. Quotes will initially be assessed for price and ranked in order (lowest priced to highest priced). The Navy will then evaluate the technical factors of the lowest priced quote. In the event that this quote is deemed Unacceptable, the next lowest priced quote will be evaluated as many times as necessary, until the Government identifies a technically acceptable quote. The Navy will make award to the lowest priced technically acceptable quote. Accordingly, under this methodology, the technical factors of some quotes may not be evaluated by the Navy. The Government reserves the right to evaluate additional higher priced quoters to support a fair and reasonableness determination or for other considerations. If exchanges are deemed necessary by the Contracting Officer, a maximum of five (5) lowest priced quotes will be evaluated (both non-price and price) for the purpose of establishing a competitive range.\*

\*Subject to the Small Business Administration (SBA) Certificate of Competency (COC) process, if applicable.

#### M-215-H004 BASIS OF AWARD (NAVSEA) (DEC 2018)

All units of all items will be awarded to one offeror. Offers, therefore, must be on the basis of furnishing all units of all items to the specification(s) detailed in this solicitation. The government anticipates award of a firm fixed priced contract from this solicitation. The resulting contract will be awarded to the low priced offeror who is deemed responsible in accordance with the Federal Acquisition Regulation (FAR) Part 9, as supplemented, whose proposal conforms to the solicitation's requirements (to include all stated terms, conditions, representations, certifications, and all other information required by evaluation factors of this request for proposal) and based on the evaluation factors is considered technically acceptable. Technical acceptability is determined by the offeror demonstrating the material/service being provided meets the solicitation requirements. The low offer will be analyzed to determine if the offeror's proposed price is fair and reasonable utilizing price analysis techniques in accordance with the guidelines in FAR Subpart 13.106-3.
