

REQUEST FOR INFORMATION

United States Marine Corps (USMC) Anthropometry Survey

Commander, Marine Corps Systems Command (MARCORSYSCOM) is seeking information regarding industry interest and capabilities for conducting an Anthropometry Survey.

Interested firms should address their capabilities and expertise in the following areas:

- Developing a comprehensive anthropometry data collection plan, to include incorporation of existing data.
- Conducting onsite data collection sessions at Marine Corps Base (MCB) Quantico VA
- Provide anthropometry data collection training for Government personnel
- Utilized 3dMD dynamic whole body and static head scanners at Government Facilities
- Conducting anthropometry measurements
- Provide a combined finalized anthropometric database utilizing existing Marine Corps Anthropometry Survey data.
- Develop 3D models representing the Marine Corps population for use in model based systems engineering
- Provide expertise on commercial scanner performance, development of equipment tariffs, and manipulation of anthropometric data
- Conduct contractor refresher anthropometry training when required and maintain certification as Associate Investigators on a USMC IRB protocol
- Conduct workstation ergonomic and human factor evaluations
- Develop presentation or information papers regarding the USMC anthropometric data
- Marine Corps body armor, helmets, packs, and individual weapons and the fitting of equipment on Marines of all sizes. Ability to develop fit criteria and a conduct of fit methodology for individual Marine equipment. Develop tariffs for individual equipment based on equipment fit criteria and analysis of anthropometry database
- Development of 3d digital human models for use in design of equipment
- Evaluation of scanners for use in anthropometry surveys
- Expertise in workstation ergonomics across the Marine Corps anthropometric spectrum
- Contractor personnel ability to meet USMC Human Subjects Research qualifications with Collaborative Institutional Training Initiative (CITI) qualifications

Requests interested parties submit capabilities and experience, a brief portfolio of previous relevant work to demonstrate relevant capabilities, confirmation of small business status, and North American Industry Classification System (NAICS) code. Responses should include availability of services under existing contract vehicles such as Federal Supply Schedule, Navy Seaport-e, or other Government Wide Acquisition Contracts.

Response to this RFI is requested no later than 23 March 2026 at 10:00 to Ms. Corinne Beadle at corinne.beadle.civ@usmc.mil. Submitted information will not be returned. All data received in response to this announcement marked, or designated, as corporate, or proprietary information

will be protected from release outside the Government according to the Freedom of Information Act and Privacy Act provisions.

This request for information (RFI) is for planning purposes only. This is not a request for proposal, invitation for bid (IFB), request for quotation (RFQ), or an announcement of solicitation. No solicitation document exists. This RFI is for market research and planning purposes only and is not to be construed as a commitment by the Government to procure these services, nor does the Marine Corps intend to award on the basis of this RFI or otherwise pay for information requested. No entitlement to payment of direct or indirect costs or charges by the Government will arise as a result of submission of responses to this RFI and Government use of such information.
