

DRAFT Request for Proposal Posting
Professional, Scientific, and Technical Services Program (ProTech)
Space-Based Environmental Monitoring (SBEM) Domain IDIQ
Topic: Draft SBEM IDIQ Solicitation
Date: 03/12/2026

Synopsis Disclaimer #1:

THIS IS A DRAFT REQUEST FOR PROPOSAL (RFP).

A FINAL RFP is not available at this time. This notice does not obligate the Government to award a contract, nor does it obligate the Government to pay and/or reimburse respondents and/or their associates for any cost incurred to submit the requested information and/or proposal. Any information considered “proprietary” should be marked as such and will not be shared outside the Government.

Interested vendors are responsible for visiting <https://www.sam.gov> periodically for any changes or updates to this notice, as well as any notice of a future solicitation. All prospective offerors must be actively registered in the System for Award Management (SAM) in order to be eligible for award (<https://www.sam.gov>) IAW FAR 4.203.

Responses to this notice will not be returned.

Purpose of Draft RFP Posting (3/12/2026):

The purpose of this Notice is to provide a DRAFT RFP in support of the National Oceanic and Atmospheric Administration’s (NOAA) Professional, Scientific, and Technical Services Program (ProTech) 2.0 Space-Based Environmental Monitoring (SBEM) Domain Indefinite Delivery/Indefinite Quantity (IDIQ) procurement. This Notice seeks to solicit responses from interested parties. This DRAFT RFP is for information and planning purposes and to allow industry the opportunity to verify reasonableness and feasibility of the requirement, as well as promote competition. The following draft solicitation documents are provided for Industry review and comment:

- DRAFT RFP No. 1305M426R0011 (i.e. Sections A – M)
- RFP Attachments J.1 – J.4

(NOTE: The Government reserves the right to update any section of the documents provided, or add additional documentation in the contemplated FINAL RFP.)

Draft RFP – Specific Areas for Industry Feedback:

The Government encourages Industry review and comment on **all areas** of the DRAFT RFP. Notwithstanding, the Government specifically seeks Industry feedback in the following areas:

- Attachment J.2 IDIQ Price Schedule –
 - NOAA requests feedback on the pricing structures for the Functional Categories in Attachment J.2 "IDIQ Price Schedule." NOAA is specifically interested in how these data types are typically priced within the commercial marketplace and welcomes any suggestions for optimizing the structures.

- Section L.8.2.1(f) Small Business Subcontracting Possibilities –
 - Do small business subcontracting possibilities in the direct performance of the requirements exist? What percentage of the required performance would you anticipate self-performing? And of the remaining work that needs to be subcontracted, estimate the percentage that could be provided by small businesses and by each socioeconomic concern.

Estimated Procurement Schedule:

A. **Draft RFP Questions and Answers:**

This Draft RFP Posting constitutes the start of a twelve (12) day Question-and-Answering (Q&A) Period. The Government requests that Industry review the attached DRAFT RFP documents, and provide written responses using the Q&A spreadsheet provided as Attachment J.4 – Questions & Answers Form. Please submit written questions and comments using this template **NLT 1:00PM EST on March 24, 2026** via email to the following Government points of contact:

Paul Batrony, Contracting Officer
paul.batrony@noaa.gov

Daniel Ok, Contract Specialist
daniel.ok@noaa.gov

If possible, please submit questions prior to that date to facilitate a Government response.

The Government anticipates updating this Notice with answers to Industry's questions.

B. **Industry Day:**

The Government anticipates hosting an Industry Day virtually on April 9, 2026 from 1:00-2:30PM EST. Please click on the link below to register for the event.
