

U.S. Forest Service's Disaster Recovery Outreach Event Industry Days Preliminary Notice

Date Set: March 24-26, 2026

DESCRIPTION

The US Forest Service is opening contracting opportunities through Congressional disaster supplemental funding from the American Relief Act (2025). This virtual Industry Days event will connect federal contractors with disaster recovery projects spanning multiple national forests and grasslands.

BACKGROUND

The Forest Service stewards an impressive portfolio of landscapes across 193 million acres of National Forests and Grasslands in the public trust for multiple, sustained uses such as timber, water, wildlife, and recreation. The Agency's top priority is to maintain and improve the health, diversity, and productivity of the Nation's forests and grasslands to meet the needs of current and future generations.

The Forest Service has been entrusted by Congress in the American Relief Act with the responsibility to restore infrastructure and natural resources devastated by the unprecedented impacts of Hurricane Helene and other recent disasters, causing billions of dollars in damage.

The Forest Service program of work is aligned to the requirements of American Relief Act (2025) which includes: expenses related to fires, hurricanes, and other disasters that occurred in calendar years 2022, 2023, and 2024; forest health protection efforts to address spruce budworm in Maine and New Hampshire; and establishment and maintenance of shaded fuel breaks in the Pacific Regions that will help reduce fire risk and protect communities.

The disaster supplemental funding is allocated to all nine of the Forest Service Regions, two Research and Development Stations (the Southern Research Station and Northern Research Station), and the International Institute of Tropical Forestry in Puerto Rico. Over 88% of the funding will go to calendar year 2024 events, primarily in association with Hurricanes Helene and Milton (80% of the overall total), with the rest divided almost equally between other disaster events from calendar years 2022 and 2023.

SCOPE OF WORK & CONTRACTING OPPORTUNITIES

CAPITAL IMPROVEMENT & MAINTENANCE

Repair and reconstruction of critical infrastructure:

- Bridge engineering, construction, and replacement
- Road reconstruction and rehabilitation (forest and access roads)

- Administrative and recreation facility restoration
- Trail system reconstruction
- Dam repair and safety upgrades
- Emergency access route establishment

Mission-critical work:

These projects restore public access, support emergency response capabilities, and revitalize recreation economies in rural communities.

NATIONAL FOREST SYSTEM RESTORATION

Large-scale ecosystem recovery and risk mitigation:

- Hazardous tree removal and disposal (significant volumes)
- Invasive species and noxious weed eradication
- Vegetation reestablishment (rangelands, riparian areas, forested landscapes)
- Range infrastructure rebuilding
- Stream and watershed restoration
- Cultural resources protection and stabilization
- Timber salvage sales operations

Mission-critical work:

Salvage timber operations and forest products recovery support rural forest economies

STATE, PRIVATE & TRIBAL FORESTRY

Cooperative landscape-scale recovery

- Forest health protection programs
- Cooperative forestry initiatives
- Fire protection systems
- Spruce budworm management (Maine and New Hampshire)
- Private landowner technical and financial assistance

Mission-critical work:

Partners work alongside state agencies and tribal nations to restore federal and non-federal forest lands.

RESEARCH & ASSESSMENT

Scientific foundation for long-term recovery:

- Forest Inventory and Analysis plot reestablishment
- Reestablishment of destroyed research projects
- Economic impact analysis
- Disturbance-based management assessments

NAICS OPPORTUNITIES FOR DISASTER RECOVERY PROJECTS

The following NAICS codes represent contracting opportunities (not exhaustive):

Construction & Infrastructure

- 2211
- 2213
- 2362
- 2371
- 2373
- 2379
- 2381
- 2382
- 2383
- 2389
- 3323
- 3339

Forestry & Natural Resources

- 1114
- 1131
- 1133
- 1153
- 5617
- 5629

Professional & Technical Services

- 5413
- 5414
- 5416
- 5417

Equipment & Supplies

- 4232
- 4233
- 4234
- 4238
- 5321
- 5324
- 8113

Additional opportunities may exist under related [NAICS codes](https://www.naics.com/) Link: <https://www.naics.com/>. Review solicitations carefully for specific requirements.

NEXT STEPS FOR CONTRACTORS

1. **REGISTER NOW:** Complete the Market Research Form
 Revised Link: <https://forms.office.com/g/7ADRshFj6t>

2. **VERIFY SAM.GOV REGISTRATION:** Ensure your registration is current with accurate NAICS codes
3. **REVIEW CAPABILITIES:** Assess your firm's past performance and technical capacity
4. **MONITOR FORECASTS:** Check the USDA OSDBU Website:
<https://www.usda.gov/about-usda/general-information/staff-offices/departamental-administration/office-small-and-disadvantaged-business-utilization-osdbu> and [SAM.GOV](https://www.sam.gov) regularly

VIRTUAL INFORMATION SESSION DETAILS

Virtual Event Format: Full details including session times, registration links, and specific topic tracks will be distributed to registered participants.

No Obligation: Attendance is **not required** to submit proposals on future Forest Service solicitations.

Small Business Opportunities: The Forest Service is committed to maximizing small business participation. Set-aside and partnership opportunities will be discussed.

Attendance at this event is not required to submit responses to synopsis or solicitation of Forest Service Projects.
