

REQUEST FOR INFORMATION (RFI)

INTRODUCTION

The Naval Supply Systems Command (NAVSUP) Fleet Logistics Center Norfolk (FLCN) is issuing this RFI as a means of conducting market research to identify parties having an interest in and the resources to support the requirement for a non-personal services contract to provide the Information Technology (IT) support in the Information Technology Services Division (ITSD) at the United States Naval Academy (USNA) and surrounding Annapolis Area Complex (AAC). The personnel will be working in the Client Services Department of ITSD with occasional work conducted for other departments within ITSD

Based on the responses to this RFI/Market Research, this requirement may be set-aside only for Small Business Administration (hereinafter, "SBA") certified Hub-Zone small business or, sole sourced in accordance with 19.105-3 Sole source awards.

Telephone inquiries will not be accepted or acknowledged, and no feedback or evaluations will be provided to companies regarding their submissions.

DISCLAIMER

"THIS RFI IS FOR INFORMATIONAL PURPOSES ONLY. THIS IS NOT A "REQUEST FOR PROPOSAL (RFP)" TO BE SUBMITTED. IT DOES NOT CONSTITUTE A SOLICITATION AND SHALL NOT BE CONSTRUED AS A COMMITMENT BY THE GOVERNMENT. RESPONSES IN ANY FORM ARE NOT OFFERS AND THE GOVERNMENT IS UNDER NO OBLIGATION TO AWARD A CONTRACT AS A RESULT OF THIS ANNOUNCEMENT. NO FUNDS ARE AVAILABLE TO PAY FOR PREPARATION OF RESPONSES TO THIS ANNOUNCEMENT. ANY INFORMATION SUBMITTED BY RESPONDENTS TO THIS TECHNICAL DESCRIPTION IS STRICTLY VOLUNTARY. RESPONSES WILL NOT BE RETURNED TO THE RESPONDER. NOT RESPONDING TO THIS NOTICE DOES NOT PRECLUDE PARTICIPATION IN ANY FUTURE REQUEST FOR QUOTE (RFQ) OR INVITATION FOR BID (IFB) OR RFP, IF ANY ISSUED. IF A SOLICITATION IS RELEASED, IT WILL BE SYNOPSISIZED ON THE GOVERNMENT-WIDE POINT OF ENTRY (GPE). IT IS THE RESPONSIBILITY OF POTENTIAL OFFERORS TO MONITOR THE GPE FOR ADDITIONAL INFORMMATION PERTAINING TO THIS REQUIREMENT."

PROGRAM BACKGROUND

The USNA ITSD provides voice, video and data communications service and support for selected organizations located throughout the Annapolis Area Complex (hereinafter, "AAC"). These offerings are a critical component of USNA ITSD's centrally managed and fully integrated responsibilities encompassing all AAC information technology. The USNA ITSD supports approximately 7,000 clients located throughout the 650-acre AAC and an additional 400 clients at the Naval Academy Preparatory School (hereinafter, "NAPS") located in Newport, Rhode Island. IT on-site support requirements for NAPS are covered under a separate contract.

The ITSD Client Services Department is responsible to provide IT support to all clients. Tier 1 support consists of receiving requests for service, providing telephone assistance in resolving reported problems, and tracking requests in a ticket management system from receipt of call to completion of service. Tier 2 support is invoked when telephone consultation proves inadequate to resolve the user's issues and consists of the resolution of a trouble ticket requiring a visit by information technology specialists to the client's work site or vice versa. Both Tier 1 and Tier 2 support also utilize remote assistance by connecting to client workstations in order to facilitate delivering services to customers within the AAC.

IT support is accomplished by a blended team that consists of both government Full Time Employees (hereinafter, "FTEs") and contract personnel. Team members identify and deliver situation-specific information technology support services satisfying discipline-specific client needs (e.g. learning space operation and maintenance, technology-curriculum integration and coordination, faculty/staff education, rudimentary systems administration, etc.).

Meanwhile, additional centralized team members are integrated into a fully functional Information Technology Service Center (hereinafter, "ITSC") and maintenance facility located in USNA's Ward Hall. These centralized facilities coordinate critical common service and support activities (e.g. routine client information technology account administration, introductory client familiarization, general client walk-in assistance, building access for Ward Hall, software inventory and issuance, security and virus prevention updates, information technology asset management, information technology equipment troubleshooting and repair, etc.) to achieve benefits from scale economies at the enterprise level. The centralized facilities also provide an alternative entry point for resolution of client needs. Successful service outcomes require close cooperation and coordination between both provider groups which is facilitated through periodic discussion forums and routinely tracked using Government-provided Web Help Desk (WHD) software and regularly scheduled summary reports. Use of the ticketing system WHD is subject to change during the life of the contract.

The Academic Technical Support Center (hereinafter, "ATSC") is centrally located near academic buildings and primarily supports the academic faculty and staff.

Hopper Hall support will support Computer Science, Cyber Science, and other departments within the Math and Sciences Division. Their computer systems are primarily Linux within classrooms and lab.

Contractor support is required from 1 April 2026 through 31 March 2027 for a minimum of seven (7) contracted personnel.

REQUIRED CAPABILITIES

The Contractor shall provide services in support of the areas specified in Program Background (above). Specific tasks are outlined in the draft Performance Work Statement (PWS) attached to this announcement (Attachment 1).

If your organization has the potential capacity to perform these contract services, please provide the following information: 1) Organization name, address, email address, web site address, telephone number, and size and type of ownership for the organization; and 2) Tailored capability statements addressing the particulars of this effort, with appropriate documentation supporting claims of organizational and staff capability. If significant subcontracting or teaming is anticipated in order to deliver technical capability, organizations should address the administrative and management structure of such arrangements.

[Note: In accordance with FAR 10.001(b), the Government is requesting potential sources to submit only the minimum information necessary.]

The Government will evaluate the capability submissions to ascertain potential market capacity to: 1) provide services consistent, in scope and scale, with those described in this notice and otherwise anticipated; 2) secure and apply the full range of corporate financial, human capital, and technical resources required to successfully perform similar requirements; 3) implement a successful project management plan that includes: compliance with tight program schedules; cost containment; meeting and tracking performance; hiring and retention of key personnel and risk mitigation; and 4) provide services under a performance based service acquisition contract.

SPECIAL REQUIREMENTS:

All contractor employees must obtain a favorable determination of eligibility to occupy a National Security position with access to IT-Level II information only based on a Tier 3 investigation by the Office of Personnel Management (OPM). All contractors must obtain a CAC. Employment will be contingent on the favorable adjudication of the Tier 3 investigation by the DODCAF. Additional reports may be requested during the course of employment as well.

Currently approximately nine (9) months is the standard service time for completion of a Tier 3 investigation by OPM. Contractor employees shall have a current Tier 3 Investigation with OPM, or Tier 3 investigation submitted and favorable FBI fingerprint results, and be in possession of a CAC prior to starting work at USNA.

ELIGIBILITY

The applicable NAICS code for this requirement is 541519 - Other Computer Related Services with a Small Business Size Standard of \$34.M. The Product Service Code is D307, It and Telecom - It Strategy and Architecture. Only SBA Certified Hub-Zone Small Businesses are encouraged to respond; however, each respondent must clearly identify their business size in their capabilities statement.

ADDITIONAL INFORMATION AND SUBMISSION DETAILS (CAPABILITIES STATEMENT)

A draft Performance Work Statement of (PWS) which entails Personnel Qualifications and Description are attached for review (Attachment 1).

Interested parties are requested to submit a capabilities statement of no more than fifteen (15) pages in length in Times New Roman font of not less than 10 pitch. The deadline for response to this request is no later than 4 pm, EST 16 March 2026.

This documentation must address at a minimum the following items:

- 1.) What type of work has your company performed in the past in support of the same or similar requirement?
- 2.) Can or has your company managed a task of this nature? If so, please provide details.
- 3.) Can or has your company managed a team of subcontractors before? If so, provide details.
- 4.) What specific technical skills does your company possess which ensure capability to perform the tasks?
- 5.) Please note that under a Small-Business Set-Aside, in accordance with FAR 52.219-14, the small business prime must perform at least 50% of the work themselves in terms of the cost of performance. Provide an explanation of your company's ability to perform at least 50% of the tasking described in this PWS for the base period as well as the option periods.
- 6.) Provide a statement including current small/large business status and company profile to include number of employees, annual revenue history, office locations, DUNs number, etc.
- 7.) Respondents to this notice also must indicate whether they qualify as a SBA certified HUBZone.
- 8.) Include in your response your ability to meet the requirements in the Facility and Safeguarding requirements.

The estimated period of performance consists one six month base and two three month options periods with performance commencing on 1 April 2026. Specifics regarding the number of option periods will be provided in the solicitation.

The contract type is anticipated to be Firm Fixed Price.

The proposed contract is anticipated to include tasking that would be accomplished by labor categories that are subject to the Service Contract Act or a collective bargaining agreement.

Your response to this RFI, including any capabilities statement, shall be electronically submitted via email in either Microsoft Word or Portable Document Format (PDF) to Mr. Dobison at gilbert.k.dobison.civ@us.navy.mil , Dr. Antonio Smith at antonio.o.smith2.civ@us.navy.mil , and Mrs. King at caitlin.d.king2.civ@us.navy.mil .

All data received in response to this RFI that is marked or designated as corporate or proprietary will be fully protected from any release outside the Government.

No phone calls will be accepted.
