SUBJECT: Non-Competitive Procurement Justification Memo for Actions Under SAT

I. BACKGROUND

1. FAR 13.106-1(b)(1)(i) states for purchases not exceeding the simplified acquisition threshold, Contracting Officers may solicit from one source if the Contracting Officer determines that the circumstances of the contract action deem only one source reasonably available.
2. FAR 8.405-6 allows for limiting sources for orders or BPAs under Federal Supply Schedules under certain circumstances or for items peculiar to one manufacturer
3. As required by FAR 13.106-3(b)(3)(i), FAR 8.405-6(a)(1), or FAR 8.405-6(b)(2), this memorandum explains the absence of competition for this acquisition, as only one source will be solicited for this requirement (or for a portion of the requirement) and the requirement is not expected to exceed the simplified acquisition threshold.

II. DESCRIPTION OF ITEM OR SERVICE (Include manufacture/sole source name and address.)

This document provides the justification for the acquisition of eight (8) PCB Piezotronics Model 260B03 Triaxial Force Sensor and eight (8) PCB Piezotronics Model 078RB003BZ 4-Conductor Cable Assembly with a required

Manufacturer: PCB Piezotronics Inc.

III. BASIS FOR DETERMINATION FOR USE OF OTHER THAN FULL & OPEN COMPETITION

The determination to use other than full and open competition is based on the fact that only one responsible source, PCB Piezotronics, can supply the required items that will satisfy agency requirements, as authorized by FAR 6.302-1. Market research confirms that the manufacturer does not utilize resellers or distributors for these specific products, making them the sole source of supply. Furthermore, the Government has a significant investment in a mission-critical data acquisition and analysis ecosystem that is inextricably linked to the unique

☒ B. **SOLE SOURCE**, (select all that apply)

☐ 1. **Restrictive Rights.** The source has established proprietary rights, limited rights in data, patent rights, copyrights, or secret processes in the item or service required.

☐ 2. **Exclusive Licensing Agreements.** The item or service is only available from the Original Equipment Manufacturer (OEM), or there is only one authorized distributor or technical representative for the OEM.

☒ 3. **Other Reasons.**

The required items must be procured from the sole source, PCB Piezotronics, for reasons of complete system compatibility and data continuity. The Government's existing test infrastructure is standardized on the IEPE/ICP® signal conditioning protocol and is precision-calibrated to the unique features of the PCB Piezotronics Model 260B03 sensor, namely its specific voltage sensitivities (0.25 mV/lb for the Z-axis and 1.25 mV/lb for the X/Y axes) and physical form factor. These features are essential to the Government's requirements. The mating
