

This Sources Sought notice is for informational and planning purposes only. It does not constitute a solicitation and is not to be considered as a commitment by the Government. All firms responding to this sources sought notice are advised that their response to this notice is not a request that will be considered for contract award. The information from this market research is for planning purposes only and will assist the Government in planning its acquisition strategy.

The intent of this notice is to determine the availability of turbine oil that will meet the following criteria:

- Group 1
- ISO Grade 68
- ASTM D3427 (Air Release, minutes @ 50°C): ≤4.0 minutes.
- ASTM D130 (Copper Corrosion, 3 hours @ 100°C): 1B.
- ASTM D4052 (Density @ 15.6°C, kg/m³): 860.
- ASTM D1401 (Demulsibility, time to separate 40/37/3 mL @ 54°C, minutes): ≤20 minutes.
- ASTM D92 (Flash Point, Cleveland Open Cup, °C): ≥223°C.
- ASTM D892 (Foaming Characteristics, Sequence I/II/III, mL foam/tendency): 0/0/0.
- ASTM D445 (Kinematic Viscosity, cSt @ 40°C): 65.1 (within ISO VG 68 range of 64.6–71.4).
- ASTM D445 (Kinematic Viscosity, cSt @ 100°C): 8.7.
- ASTM D97 (Pour Point, °C): ≤-15°C.
- ASTM D665 (Rust Prevention, Procedure A and B): Pass (including saltwater).
- ASTM D943 (Oxidation Stability, TOST, hours to 2.0 mg KOH/g): ≥4,500 hours.
- ASTM D2270 (Viscosity Index): ≥95.
- ASTM D3427 (Air Release): ≤5.0 minutes.
- ASTM D130 (Copper Corrosion): 1A.
- ASTM D4052 (Density): 0.87 g/cm³.
- ASTM D1401 (Demulsibility): ≤20 minutes.
- ASTM D92 (Flash Point): ≥240°C.
- ASTM D892 (Foaming Characteristics): 0/0/0.
- ASTM D445 (Kinematic Viscosity): 68.0 cSt @ 40°C.
- ASTM D445 (Kinematic Viscosity): 8.95 cSt @ 100°C.
- ASTM D97 (Pour Point): ≤-24°C.
- ASTM D665 (Rust Prevention): Pass (Procedure A), but limited data on saltwater (Procedure B).
- ASTM D943 (Oxidation Stability): ≥7,000 hours.
- ASTM D2270 (Viscosity Index): ≥105.

Potential offerors having product capabilities necessary to meet the needs of the described requirement are invited to provide a capabilities statement via e-mail. The capability statements must include the following:

- 1) Company name and Point of Contact information
- 2) DUNS number
- 3) Small Business Size/Certification (to include 8(a), HUBZone, SDVOSB, etc.)
- 4) Proposed product Manufacturer name, part number and technical literature

Responses are due no later than 12:00 PM Mountain Time, on March 27, 2026, and shall be submitted to Brendan Koop at bkoop@ios.doi.gov. All responses will be used to determine the appropriate acquisition strategy for a potential future acquisition. Response is strictly voluntary; no reimbursement will be made for any costs associated with providing information in response to this sources sought or any follow-up information requests.
