SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): This amendment is issued to provide answer to a bidder's question.

1. The following bidder's question is provided as well as the answer:

Question: Work Item 0630

We would like to request clarification regarding Specification 0630, as we noted a potential discrepancy between the material specified and the intended application area.

Under Section 7.12, the specification prescribes the use of Amercoat 240 Red Oxide Primer (identified as Government Furnished Material under Section 4.1), followed by the application of the Polymeric Epoxy Deck - PRC EPOXY system (Sections 7.12.1 - 7.12.7) on the machinery foundations located in the Main Machinery Room.

Since the Polymeric Epoxy Deck system is typically intended for deck walking surfaces, we kindly request confirmation that the U.S. Navy intends for this system to be applied on the machinery foundations within the Main Machinery Room. Based on our technical assessment, it may be more appropriate to apply only the Amercoat 240 Red Oxide Primer on these foundations.

Furthermore, should the requirement remain the application of the Polymeric Epoxy Deck system on the machinery foundations, we would appreciate confirmation on whether the supply of this material is expected to be provided by the contractor, as only the Amercoat 240 Red Oxide Primer is listed as Government Furnished Material.

Answer:

The specification is correct as written. As identified in the specification, the work item includes surface prep of the containment/machinery foundations followed by Amercoat 240 Red Oxide Primer (GFM) followed by Polymeric Epoxy PRC system (CFM).

2. All other terms and conditions remain unchanged.
