

ACQUISITION DIRECTORATE

**DEPARTMENT OF WAR
WASHINGTON HEADQUARTERS SERVICES
1155 DEFENSE PENTAGON
WASHINGTON, DC 20301-1155**

Control No. [REDACTED]

February 25, 2026

**JUSTIFICATION FOR LIMITED SOURCE JUSTIFICATION (LSJ)
UNDER FEDERAL ACQUISITION REGULATION SUBPART 8.4**

1. **AGENCY AND CONTRACTING ACTIVITY:** The Department of Defense (DoW), Washington Headquarters Services, Acquisition Directorate (WHS/AD), Enterprise Research & Engineer Directorate (ERED), Technical Analysis Branch (TAB) on behalf of the Office of the Under Secretary of Defense for [REDACTED]
2. **DESCRIPTION OF ACTION:** OUSW [REDACTED] has a continuing need for Professional and Technical Support, provided under contract HQ003420F0361, which was awarded to JMARK Services. The current task order is under an extension that's ending on February 28, 2026. The Government is in the process of issuing a Call Order for [REDACTED] against the [REDACTED] Enterprise BPA by February 28, 2026. A one-month extension (30 days), with a one-month (30 days) option period is needed for the source selection to be completed. With this action, WHS/AD intends to extend JMARK's current hybrid Firm-Fixed Price (FFP)/Time & Material (T&M) (for travel) task order for the support services for a price of [REDACTED] using Fiscal Year 2026 Operation and Maintenance Funds. WHS/AD intends to award the follow-on contract by March 31, 2026.
3. **DESCRIPTION OF SUPPLIES / SERVICES:** To accomplish the OUSW(I&S)'s objectives, the [REDACTED] requires customer focused technical, professional, administrative, management, policy, and operational support capabilities that enable the day-to-day operations of the OUSW(I&S)'s mission. The Contractor shall perform to the standards in this contract.

Performance Period	Period of Performance	Amount
Two Month Extension	March 1, 2026, to April 30, 2026	[REDACTED]

4. **CIRCUMSTANCES JUSTIFYING LIMITED SOURCES:** This action is under the procedures of

Federal Acquisition Regulation (FAR) 8.405-6(a)(1)(i)(C), in the interest of economy and efficiency, the new work is a logical follow-on to an original Federal Supply Schedule order provided that the original order was placed under the Federal Supply Schedule ordering procedures. The original order or BPA must not have been previously issued under sole source or limited sources procedures."

The support and services lost by failing to extend these services would result in delays that would derail or halt progress on ongoing efforts in [REDACTED] involving critical intelligence by the [REDACTED] and intelligence sharing with allied partners through the [REDACTED] Support Services.

In addition, alternatives to extending JMARK's current task order are not realistic as they would result in substantial duplication of cost to the Government. The substantial duplication of cost is approximately [REDACTED] and is not expected to be recovered through competition.

Controlled by: WHS/AD
CUI Category(ies): SP-PROCURE
Limited Dissemination Control: EEDCON

The estimated cost of this bridge includes approximately [REDACTED] additional labor hours or more for approximately [REDACTED] contractor personnel that another vendor would need in order to provide a support services to [REDACTED] for the small amount of time the bridge is needed. The Government would incur significant onboarding, training, and knowledge transfer costs in order to reach the current incumbent's level of expertise. We estimate the following cost breakdown for duplication of effort:

- **Onboarding and Training:** [REDACTED] based on a week of onboarding costs which consists of in-doc with security, updating credentials on Common Access Card (CAC), Pentagon Access, and network accounts being processed.
- **Knowledge Transfer:** [REDACTED] based on estimated [REDACTED] hours required for current staff to document work and transfer knowledge.
- **Opportunity Cost of Delays** [REDACTED], assuming a [REDACTED] lapse in service to compete the award, based on financial risk due to delayed ability to address national regulatory issues arising from key U.S. regulatory bodies, executive branch agencies. The ability to provide research and advice to develop and advance strategy that addresses the evolving international regulatory environment.

Awarding services to a contractor other than JMARK would involve multiple transitions between potential vendors (incumbent vendor, temporary vendor, and new long-term vendor) which involves the Government paying multiple vendors for the transition of different contracts for an estimated at [REDACTED] for continuous support. These multiple transitions involve additional resources and unnecessary costs for the Government, and can cause unacceptable risks, delays and in services.

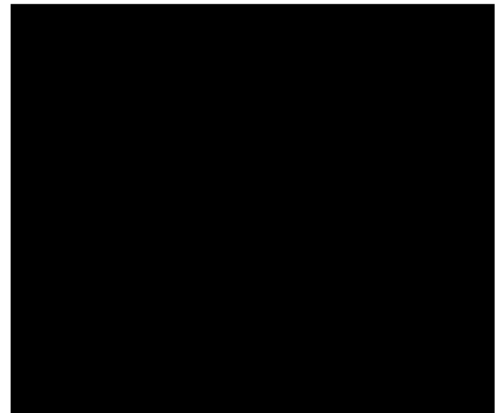

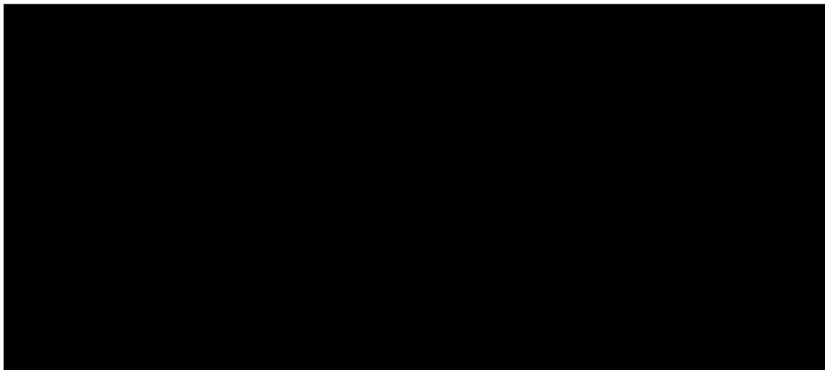

Additionally, if a new contractor were to come into the environment, it would cause a [REDACTED] gap in support due to the amount of time that it would take to bring on new personnel, conduct the appropriate security indoctrination procedures, issue new accounts, and grant accesses to respective applications. This process can take [REDACTED] and would not account for any ramp up or training time that would be needed, that would add another [REDACTED] resulting in a total [REDACTED] transition. This sort of gap or work stoppage in support is unacceptable. In order to maintain continuity of services, an extension of services is the most logical and cost-effective solution to the Government as a break in support would be detrimental. Continued specialized support of contract personnel is necessary to continued [REDACTED] ability to meet requirements across the DoD. The potential for losing this expert contract support for any protracted period while awaiting the award of the [REDACTED] Call Order poses a serious and significant risk to [REDACTED] affecting its mission. In order to accomplish the work within the allotted schedule, the follow-on effort must seamlessly follow the initial effort to maintain continuity of services. Therefore, an extension to JMARK is needed to continue services while the Government works to complete its evaluations and conduct an appropriate review and approval for an anticipated [REDACTED] award date.

5. **BEST VALUE DETERMINATION:** The Contracting Officer (CO) determines that the anticipated prices will be fair and reasonable by using the techniques identified at FAR 15.404-1 "Proposal Analysis Techniques," specifically FAR 15.404-1(b)(2)(ii) and FAR 15.404-1(b)(2)(v) to ensure award will be at fair and reasonable prices. In addition, the Government will compare proposed prices set forth by JMARK Services to historical prices paid by the Government under the current task order contract, [REDACTED] as well as compare proposed prices within the Independent Government Cost Estimate (IGCE) prepared for the period of performance extension.
6. **MARKET RESEARCH:**
Due to the urgent need to extend services to avoid a lapse in contractor support, the Government posted a "Notice of Intent" on SAM.GOV to notify industry of its intent to extend services on February 20, 2026. The NOI posted did not receive any responses.
7. **OTHER SUPPORTING FACTS:** Due to the irreparable damage that may result to [REDACTED] mission should services be interrupted; a sole source contract will be negotiated with JMARK Services.

8. **ACTION TO REMOVE OR OVERCOME ANY BARRIERS THAT LEAD TO THE RESTRICTED CONSIDERATION BEFORE ANY SUBSEQUENT ACQUISITION FOR THE SUPPLIES OR SERVICES IS MADE:** The Government is currently working to conclude technical evaluations and make award for this competitive [REDACTED] call order against the competitive 8(a) small business [REDACTED] enterprise multiple award BPA that was developed under the General Services Administration (GSA) Multiple Award Schedule (MAS) 8(a) Pool.
9. If this acquisition is for new work as a logical follow-on to on original Federal Supply Schedule (FSS), was the original order was placed under the FSS ordering procedures?
- ☒ Yes. A copy of the previous justification is attached. The actions to remove any barriers to competition cited on the previous justification ☒ were ☐ were not completed.
- ☐ No. The original acquisition was conducted on a competitive basis.
- ☐ Not Applicable. This is a new requirement.

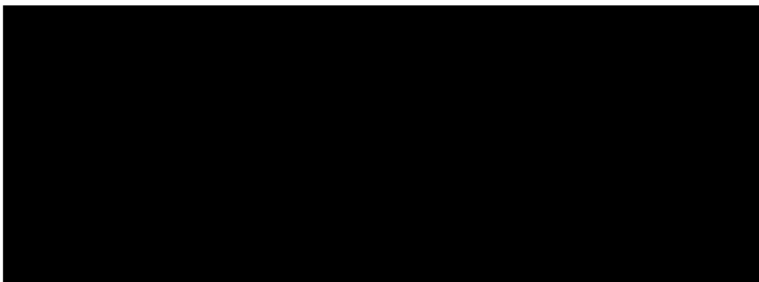

CERTIFICATION

I, hereby, certify that the supporting data under my cognizance included in this justification are accurate and complete to the best of my knowledge and belief.

APPROVAL

This justification is, approved.
