

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Contracting Activity: 35 Contracting Squadron, Misawa AB, Japan

Project/Program Name: Lane Cleaner FSWB-FSS

Purchase Request/Identification Number:

Estimated Contract Cost (including Options): [REDACTED]

Section B: Description of the Supplies/Services Required

Lane Maintenance. The Bowling Center Manager ensures lanes, approaches, decks, and gutters will meet United States Bowling Congress specifications. The use of a Lane Cleaner is required to meet these specifications.

Section C: Justification for Soliciting from a Single Source or Brand Name

Maintaining the operational efficiency of the Walmsely Bowling Center requires continued reliance on Kegel-branded parts and services. Misawa AB currently maintains a significant inventory of Kegel parts and receives specialized Kegel training for its mechanics, ensuring effective maintenance. Furthermore, the proximity of a Kegel representative in Tokyo guarantees timely resolution of complex issues. Switching to another brand, such as Brunswick, would necessitate a substantial investment in new cleaners, conditioners, and parts, representing a significant and unnecessary expenditure, as well as requiring the costly and logistically complex process of sending mechanics to the United States for training, potentially complicated by language barriers. Therefore, Kegel is the only source that provides the necessary parts, training, and support to maintain the current Kegel equipment infrastructure at Misawa AB, avoiding costly and disruptive transitions.

Section D: Efforts to Obtain Competition

This notice will be posted on SAM.gov as the Government's intent to award a single-source contract to American Bowling Service, Inc. (ABS) for continued maintenance of the Walmsely Bowling Center at Misawa AB. Despite exploring potential competitive alternatives, using a different brand would not be in the best interest of the Government. Switching to another brand would necessitate a significant and wasteful investment in new cleaners, conditioners, and parts incompatible with the existing Kegel infrastructure. Therefore, a single-source award to ABS, a Kegel distributor, is warranted to maintain operational readiness and avoid wasteful spending.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Market research will be conducted prior to future purchases to determine whether single source still meets this need.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
