The items in this acquisition have been deemed to fall into CMMC Level 2- Self-Assessment. CMMC Level 2 requires implementation of the 110 security requirements set forth in NIST SP 800-171 Rev. 2 to protect CUI in contractor information systems. Level 2 assessments are conducted every three years. CMMC Level 2 self-assessment scores are entered by the OSA into SPRS.

OPTION FOR INCREASED QUANTITY-SEPARATELY PRICED LINE ITEM (MAR 1989)

The Government may require the delivery of the numbered line item, identified in the Schedule as an option item, in the quantity and at the price stated in the Schedule. The Contracting Officer may exercise the option by written notice to the Contractor within 365 days from Contract Award [insert in the clause the period of time in which the Contracting Officer has to exercise the option]. Delivery of added items shall continue at the same rate that like items are called for under the contract, unless the parties otherwise agree.

(End of clause)

52.219-14 Limitations on Subcontracting. (Deviation) (Feb 2026)

LIMITATIONS ON SUBCONTRACTING (FEB 2026) (DEVIATION)

(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) *Definition. Similarly situated entity*, as used in this clause, means a first-tier subcontractor, including an independent contractor, that-

(1) Has the same small business program status as that which qualified the prime contractor for the award (*e.g.*, for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and

(2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) *Applicability.* This clause applies only to-

(1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(3) Contracts that have been awarded on a sole-source basis in accordance with sections 19.105, 19.106, 19.107, and 19.108;

(4) Orders expected to exceed the simplified acquisition threshold and that are set aside for small business concerns under multiple-award contracts, as described in 8.4 and 16.5;

(5) Orders, regardless of dollar value, that are set aside in accordance with sections 19.105, 19.106, 19.107, and 19.108 under multiple-award contracts, as described in 8.4 and 16.5; and

(6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.

(d) *Independent contractors.* An independent contractor shall be considered a subcontractor.

(e) By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for-

(1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract;

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;

(3) General construction, it will not pay more than 85 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded; or

(4) Construction by special trade contractors, it will not pay more than 75 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 75 percent subcontract amount that cannot be exceeded.

(f) The Contractor shall comply with the limitations on subcontracting as follows:

(1) For contracts, in accordance with paragraphs (c)(1), (2), (3) and (6) of this clause-

[Contracting Officer check as appropriate.]

☐ By the end of the base term of the contract and then by the end of each subsequent option period; or

☐ By the end of the performance period for each order issued under the contract.

(2) For orders, in accordance with paragraphs (c)(4) and (5) of this clause, by the end of the performance period for the order.

(g) A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (e) of this clause will be performed by the aggregate of the joint venture participants.

(1) In a joint venture comprised of a small business protégé and its mentor approved by the Small Business Administration, the small business protégé shall perform at least 40 percent of the work performed by the joint venture. Work performed by the small business protégé in the joint venture must be more than administrative functions.

(2) In an 8(a) joint venture, the 8(a) participant(s) shall perform at least 40 percent of the work performed by the joint venture. Work performed by the 8(a) participants in the joint venture must be more than administrative functions.

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(a) *Definitions.* As used in this clause-

Inverted domestic corporation means a foreign incorporated entity that meets the definition of an inverted domestic corporation under 6 U.S.C. 395 (b), applied in accordance with the rules and definitions of 6 U.S.C. 395(c).

(Feb 2026)

CERTIFICATION REGARDING RESPONSIBILITY MATTERS (FEB 2026) (DEVIATION)

(a)

(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and

(D) Have ☐, have not ☐, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied. Federal taxes are considered delinquent if both of the following criteria apply:

(1) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if a pending administrative or judicial challenge remains. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(2) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) The Offeror has ☐ has not ☐, within a 3-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the Government will consider the certification in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

52.209-13 Violation of Arms Control Treaties or Agreements-Certification. (Deviation)

(Feb 2026)

VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS-CERTIFICATION (FEB 2026) (DEVIATION)

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined in Federal Acquisition Regulation 2.101.

(b) *Certification.* [Offeror shall check either (1) or (2).]

☐ (1) The Offeror certifies that-

(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; or

☐ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If such activity might have occurred, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

- (i) An inability to certify compliance.
- (ii) An inability to conclude compliance.
- (iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless-

- (1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or
- (2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has
 - (i) Waived application under 22 U.S.C. 2593e(d) or (e); or
 - (ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C. 2593e(b).

(e) *Remedies.* The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

(Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions.* As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

United States person as defined in 26 U.S.C. 7701(a)(30) means

- (1) A citizen or resident of the United States;
- (2) A domestic partnership;
- (3) A domestic corporation;

 - (ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror shall select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

INSTRUCTIONS

PART A. GENERAL INSTRUCTIONS

1.0 GENERAL

Offerors are required to submit sufficient information concerning all evaluation factors to enable Government personnel to fully assess the capabilities of the Offeror to perform all requirements. The proposal must be sufficient in detail and scope to enable evaluation and provide the evaluators a clear understanding of the Offeror's approach, expertise, and capability as required by the solicitation. Proposals must demonstrate that the Offeror has a thorough understanding of all requirements and associated risks and is able, willing, and competent to devote the resources necessary to meet all requirements. The Offeror shall not alter or rearrange the solicitation. The burden of proof for all substantiation within the proposal rests with the Offeror. Offerors are advised that the Government may incorporate any part of the Offeror's proposal deemed beneficial to the Government, into the final contract, without discussions.

Price information, (e.g., dollar values and/or hourly rates) shall appear only in Volume 3 (Price). In presenting material in the proposal, the Offeror is advised that quality of information is more important than quantity. Clarity, brevity, and logical organization should be emphasized during proposal preparation. It is the responsibility of the Offeror to present enough information to allow the Government to evaluate its proposal without discussions. Unsubstantiated statements that the prospective Offeror understands, can or will comply with the specifications, or paraphrasing the requirements or parts thereof are considered inadequate and may render a rating of unacceptable.

The Offeror shall include any data necessary to illustrate the adequacy of the various assumptions, approaches, and solutions to problems. There is no need to repeat information in more than one volume. The detailed information must be included in the most logical place and summarized and referenced in other areas if an overlap exists. Do not provide elaborate brochures or other presentation material beyond that sufficient to present a complete and effective proposal.

Throughout these instructions, "Offeror" is defined as the prime contractor with its CAGE code identified in Block 15A on Standard Form (SF) 33, Solicitation, Offer, and Award. A "Joint Venture" (JV) is a partnership or teaming arrangement that is formed for the purpose of responding to this solicitation when the prime contractor consists of more than one legal entity. "JV Team Members" are the entities that make up a Joint Venture. The term "entity" is used to mean any or all of the following: prime contractor, JV, JV team members, any subcontractor, and corporate parent, division, subsidiary, or affiliate (e.g., any contractor with a different CAGE Code/DUNS than the Offeror).

The following entities are defined as principal entities and only principal entities will be used in the past performance evaluations: (a) the prime contractor; (b) JV Team Members; and (c) other entities that are proposed to perform at least 10.00% of the proposed total price for the contract. Offerors are advised that in order to demonstrate work commitment, each principal entity must be identified in Volume 3 Price and associated with a commensurate dollar value.

Due to items in the drawing package being export-controlled, all requests for the data must be in writing and must contain a certified copy of a valid DD Form 2345, Military Critical Technical Data Agreement. To obtain certification, contact Defense Logistics Information Service (DLIS) in Battle Creek, MI at (800) 352-3572 or visit the Internet at <http://www.dlis.dla.mil/jcp>. The certified DD Form 2345 and your written request shall be sent to Kyle Welge via email. The contact information is as follows:

This section shall contain sufficient substantiating detail to demonstrate and support the Offeror's ability to meet the requirements. The Offeror shall provide all information and data required to conduct a thorough and complete technical evaluation. The requirements of the SOW shall be discussed as required below and as determined to be appropriate by the Offeror:

A. Drawing Package / SOW:

1. The Offeror shall provide a detailed narrative discussion that demonstrates an understanding of the production requirements outlined in the SOW and Section B of this Request for Proposal. 2. The Offeror shall provide a detailed narrative discussion that demonstrates an understanding of the production requirements outlined in the SOW and drawings. The Offeror shall demonstrate the capability and capacity to manufacture and deliver Support Equipment end items identified in Section B or has identified a sub-vendor with the capability and experience. 3. The Offeror must provide acknowledgment that the AS9100D must be maintained through the duration of any resultant contract.

2.0 VOLUME II - PAST PERFORMANCE

Note: This volume shall not contain any reference to price aspects of the offer.

The following is a list of Section L Attachments that the Offeror shall use to provide information for this volume:

Attachment L-1 Past Performance Questionnaire (PPQ) Attachment L-2 Past Performance Contract Data (PP-1)

For this volume, the Offeror shall identify all relevant contracts (where for the purpose of these instructions the term contract also refers to delivery order or task order), or those portions of a relevant contract, whose performance is within five years of the proposal due date for the principal entities. The relevant contracts provided for each principal entity shall be relative to its proposed role and responsibilities. Commercial contracts may be included. Offerors shall also identify relevant contracts within the past five years of the proposal due date that had any show-cause notices, cure notices, or termination for default.

In Annex A (Final Versions of Previous Statement of Work (SOW)/Performance Work Statement (PWS)/Other Supporting Documentation for Past Performance and Corporate Experience), the Offeror shall provide electronic copies of the complete final versions of the SOW/PWS or other supporting solicitation/contract documentation from each contract or delivery/task order. Annex A should only be provided in electronic format and should not be provided in paper copy. For contract references that contain delivery/task orders, additionally provide the work description for each specific delivery/task order. For contract references where the Offeror performed as a subcontractor, the Offeror shall also provide a complete electronic copy of the SOW/PWS or other documentation of the agreement between the prime and subcontractor that clearly defines the portions of the work effort of the Prime's SOW/PWS that the Offeror performed as a subcontractor.

Contract Performance Assessment Reporting System (CPARS) and Questionnaires will be the primary customer feedback data used to evaluate the Offeror's past performance. The Past Performance Information Reporting System (PPIRS) will be the primary method used to retrieve the CPARS for this source selection. For all contracts identified that do not have a CPARS, the Offeror shall forward a copy of Attachment L-1 Past Performance Questionnaire to that contract's Procuring Contracting Office (PCO), Administrative Contracting Officer (ACO), and Program Manager (PM); or commercial contractor equivalents. Please forward all questionnaires within two weeks from this solicitation's release date to allow adequate time for the recipient to respond. Note that the Offeror should not reference this solicitation's number when distributing the past performance questionnaires to customers. The Offeror should include instructions for the customers to send completed questionnaires within two weeks of its receipt via email to the PCO/Contract Specialist, identified in 4.0 (Proposal Submission). The Offeror shall ensure that all points of contact are current and include an email address and phone number. The Offeror shall not conduct follow-up actions with regard to this questionnaire, other than to confirm receipt by the recipient. The Government may contact customers identified by the Offeror to obtain follow-up Past Performance Information as needed. Offerors are reminded that the Government reserves the right to use information to evaluate past performance obtained from sources other than those identified by the Offeror. The Government may send additional questionnaires and/or obtain information from sources identified by the Government evaluation team such as Federal Awardee Performance and Integrity Information System (FAPIIS) records within Sam.gov, Electronic Subcontract Reporting System (eSRS), or other databases; and may be obtained from other sources available to the Government, such as the Defense Contract Management Agency; and interviews with Program Managers, Contracting Officers, Fee Determining Officials. Additionally, the Contractor Performance Assessment Reports (CPARs) will be utilized to evaluate Past Performance. The Government does not assume the duty to search for data to cure the problems it finds in the information provided by the Offeror. The burden of providing thorough and complete past performance information remains with the Offeror.

2.1 Authorization Letter(s)

The Offeror should submit a signed "Release of Adverse Past Performance Authorization Letter(s)" with written consent from each principal entity (including JV team members), authorizing the release of adverse past performance information to the Prime. The signed letter(s) should be included in a separate tab within Volume 2 (Past Performance). This authorization letter allows the Government to coordinate past performance issue(s) with the Prime Offeror. For any principal entity (including JV team members) that does not provide an authorization letter with such written consent, the Offeror shall provide point of contact information for each principal entity. This contact information shall include a name, address, phone number, and email address (including JV team members), with whom the Government may coordinate any issues and obtain responses as needed. Offerors are advised that if it does not submit the Release of Adverse Past Performance Authorization Letters with written consent, then the Government will address any past performance issues directly with the principal entity (including JV team members), and the Offeror will forfeit the opportunity to participate in any related discussions.

2.2 Relevant Contract Data

For each contract identified for past performance the Offeror shall complete Attachment L-2 Table PP-1 (Past Performance Contract Data), according to the instructions within the attachment and submit it within this section and as a separate electronic file. Please note that this form is a summary of the principal entities' relevant contract data. All detailed information and comparative analysis of the past performance contract references to this solicitation's requirements shall be provided in Volume 2 (Past Performance), of the Offeror's proposal. The contract references shall be used in completing Volume 2 (Past Performance) and all contract references shall be numbered the same throughout all of the Offeror's proposal volumes (i.e., the contracts identified as P1, S1, T1, C1 etc.)

If a contract has D.O.s/T.O.s, provide a separate contract reference and separate PP-1 tab for each D.O/T.O. The Offeror may use one reference number/PP-1 tab for multiple D.O.s/T.O.s if they are the same work effort and performed under the same CPAR; however, identify the dollar amount and period of performance for each. Do not provide a contract reference to the basic contract. In general, recent performance will be considered a better indicator of future performance. If the Offeror is proposing as a JV, the Offeror should provide the relevant contracts for the JV as a whole, and for each team member of the JV. The Offeror shall use the "Brief Work Description and/or Program Responsibility for this past contract" block on the attached Past Performance Contract Data form (Section L Attachment L-2) to identify in specific detail why or how the effort on the referenced contract is relevant or similar to the effort required by this solicitation.

* Quality of Product and Processes: The Offeror should describe past compliance with contract requirements, accuracy of reports, appropriateness of personnel, technical excellence. The Offeror shall provide a brief description of performance in delivering quality products in each of the following areas: 1) meeting technical requirements, i.e., the quality of technical performance, e.g., performing analysis, design, testing, etc., 2) meeting schedule requirements, i.e., schedule performance, e.g., on time or late delivery, modification of original schedules and reasons for any changes, etc.

* Timeliness of Performance: The Offeror should detail how it met interim milestones, provided reliable delivery, was responsive to technical direction, and completed work on time.

Offerors shall explain what aspects of the contracts are deemed relevant to the proposed contract. Relevant is defined as those production or development contracts involving the items listed in Section B of a similar scope, magnitude, and complexity to the effort required by this solicitation. At a minimum, identify key or critical tasks of the solicitation and indicate the relevancy of the "past performance" contract to these tasks, including detailing experience in welding and fabrication with aluminum alloys. Also, identify where contract performance took place and provide rationale why it is relevant to the solicitation if the location is different from where the related effort is proposed to take place.

The Government may use the information provided by the Offerors in their past performance proposal to contact the references as part of the evaluation of their past performance. The references may be asked to assess the Offeror's performance utilizing the attached Past Performance Questionnaire for information including, but not limited to, the questions as provided on the form.

3.0 VOLUME III - PRICE

3.1 Volume Content a. This Volume shall contain the information requested below and shall include a copy of the pricing matrix (Attachment 2) with unit prices entered for all priced Contract Line Items (CLINs).

This volume shall also contain the following:

i. Signed SF33 for basic solicitation and each amendment ii. Signed Representations, Certifications and Acknowledgements or System for Award Management (SAM) reference b. All price and price supporting information shall be contained in the pricing matrix (Attachment 2) and the price proposal. No price or pricing information shall be included in any other technical volume including cover letters. Offerors are responsible for submitting sufficient information to enable the Government to fully evaluate their price proposal.

3.2 Ground Rules and Assumptions

a. As this is a competitive acquisition with adequate price competition anticipated, any price documentation requested shall not be certified cost or pricing data in accordance with FAR 15.406-2. However, in the event that adequate price competition does not exist after receipt of proposals, the Government reserves the right to request additional cost or pricing data as necessary from both the Offeror and subcontractors and may conduct negotiations with the Offeror, pursuant to FAR Part 15.403-4, in order to ensure a reasonable price. Further, the Offeror may be required to provide a Certificate of Current Cost or Pricing Data prior to award, pursuant to FAR 15.406-2. Offeror shall acknowledge the requirement to provide additional cost or pricing information and certify the data prior to award if/when requested by the Government.

b. The Offeror shall provide sufficient information to support its price as well as an explanation of all ground rules and assumptions that affect the proposed prices. Any apparent imbalances in the pricing, high or low proposed prices as compared to historical data, or any other anomalies should be

fully explained. Topics to be addressed include, but are not limited to, investments, programmatic variables (e.g., inflation/escalation, location, make/buy decisions, prime/subcontractor relationships, and business base concerns), etc. The Offeror must show how they comply to 52.219-14 in Section I. Adequate substantiation is necessary for the Government to evaluate the price and scope of the Offeror's price for reasonableness and to ensure all solicitation requirements are included in the price proposal. Proper presentation and adequate supporting documentation will ensure the price proposal is efficiently evaluated and all assumptions are understood. The burden of proof for price credibility rests with the Offeror.

Section M - Evaluation Factors for Award

EVALUATION FACTORS

1.0 GENERAL

The Government expects to select one Offeror on the basis of its proposal whose proposal is lowest price and technically acceptable, in full compliance to all requirements set forth in the solicitation. Award will be made on the basis of the lowest evaluated price of proposals meeting the acceptability standards for Technical, Past Performance and complies with all terms and conditions of the Solicitation.

2.0 EVALUATION PROCESS

The Government intends to evaluate each proposal and award a contract without discussions to the responsible Offeror whose offer, conforming to the solicitation, has the lowest evaluated price that is rated Acceptable in both Technical and Past Performance. Therefore, Offerors are cautioned that their initial offer should contain the Offeror's best terms from a technical, past performance, and price standpoint. Clarifications, limited exchanges short of discussions, may occur. However, the Government reserves the right to conduct discussions and request proposal revisions if it is determined to be in the best interest of the Government. When a competitive range is established, the Government may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. The Government may use information other than that provided by the Offeror in its evaluation (past performance information, results of questionnaires, site surveys, etc.).

All proposals will be evaluated for compliance with the terms, conditions, and requirements set forth in the solicitation. Failure to address each of the areas identified in Section L Part B Specific Information in the proposal may impact the resulting evaluation ratings.

3.0 EVALUATION FACTORS FOR AWARD

Proposals shall be evaluated using the factors listed below.

I. Technical

A. Drawing Package / SOW

II. Past Performance

A. Recency

B. Relevancy

C. Past Performance Information (Quality of Products / Processes and Timeliness of Performance)

III. Price

All of the elements under the evaluation factors must be addressed and will be evaluated as part of the factor.

Proposals will be evaluated using the factors of Technical and Past Performance to establish the requirements of acceptability. The elements listed under the Technical and Past Performance factors are not separately weighted or separately rated. However, all of the elements must be addressed under the factors of Technical and Past Performance and will be evaluated as part of the factors. For the Technical factor a rating of Acceptable or Unacceptable will be assigned. The proposal must demonstrate to the Government's satisfaction that the Offeror will provide a quality supply or service that will ensure the successful accomplishment of the solicitation requirements and overall program objectives. If deemed appropriate by the Government, proposal information provided for one factor may be used to assess other factors. In addition, the Offeror's technical proposal will be reviewed to determine if it is consistent with the price proposal and reflects a clear understanding of the scope of work necessary to meet the solicitation requirements.

A rating of "Unacceptable" in the Technical and/or Past Performance factor will result in the entire proposal being found unacceptable and may be eliminated from the competition.

For the Past Performance factor, a past performance rating of acceptable or unacceptable will be assigned. The past performance rating will address the probability that the Offeror will successfully accomplish the contract requirements based on the Offeror's relevant past performance. In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)). Therefore, the Offeror shall be determined to have unknown (or "neutral") past performance. In the context of acceptability/unacceptability, "unknown/neutral" shall be considered "acceptable." Under Past Performance, the Government will evaluate how well an Offeror has performed similar work before. When proposals are received from contractor entities (e.g. teams, joint ventures) specifically formed to propose on a particular acquisition, the past performance evaluation will consider each individual team member. The Government may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the Offeror's best terms from a price and non-price standpoint. However, if considered necessary by the Procuring Contracting Officer and approved by the Source Selection Authority, discussions will be conducted with only those Offeror's determined to have a reasonable chance for award.

The Government may determine that an offer is rejected if the prices proposed are materially unbalanced between the line items or ranges. An offer is materially unbalanced when it is based on costs significantly understated for some items and overstated in relation to the costs for other items.

PART B. SPECIFIC INFORMATION

1.0 TECHNICAL The Government will evaluate the Offeror's proposal to determine the Offeror's understanding of, approach to, and ability of meeting the solicitation requirements. The Government will assess the Offeror's Technical proposal with respect to its compliance with the solicitation requirements.

The evaluation will include a determination of an Offeror's capability to meet the minimum standards or requirements for the proposed approach and the substantiating details provided to support claims to meet the requirements of the solicitation. A Technical Rating of Acceptable or Unacceptable will be assigned. The Technical Rating is an assessment of compliance with the solicitation requirements. For this solicitation, there is no benefit to the Government of exceeding a requirement or by providing merit that enhances performance or operations. Therefore, no strengths or significant strengths will be assigned and only the Technical Rating definitions of Acceptable and Unacceptable will be used to relate the results of the evaluation.

Failure to address part or parts of the technical factor caused by a lack of information may be assessed as unacceptable.

Offerors are advised that during the evaluation process, a Technical Rating of "Unacceptable" is considered unawardable and may result in the entire proposal being found unacceptable and eliminated from the competition

The evaluation will also include an assessment of the following:

A. Drawing Package / SOW: The evaluation of the Offeror's Drawing Package/ SOW element will be based on the information presented in the Offeror's written proposal. This element will be evaluated on how well it describes in detail the following:

1. The Offeror provided a detailed narrative that demonstrated an understanding of the production requirements outlined in the SOW and drawings for production Support Equipment identified in Section B.
2. The Offeror provided a detailed narrative that demonstrated an understanding of the production requirements outlined in the SOW and drawings. The Offeror provided a detailed narrative that demonstrated it has the capability and capacity to manufacture and deliver Support Equipment end items identified in Section B or has identified a sub-vendor with the capability and experience.
3. The Offeror provided a detailed narrative that demonstrated an understanding of the manufacturing process for Support Equipment identified in Section B as defined in the SOW.
4. The Offeror provided a detailed narrative discussion that demonstrated an understanding of the test requirements outlined in the SOW and drawings. The Offeror demonstrated the capability to perform testing required or has identified a sub-vendor with the capability and experience.
5. The Offeror provided a detailed narrative discussion that demonstrated their ability to meet or exceed the delivery schedule identified in the SOW and Section B
6. The Offeror provided a narrative discussion detailing their Quality Management System and provided proof of a valid and current AS9100D certificate. The certification must be held through the duration of the resultant contract. The Offeror must provide acknowledgment that the AS9100D must be maintained through the duration of any resultant contract.

2.0 PAST PERFORMANCE

The evaluation will include an assessment of the following elements as detailed under Past Performance:- Recency- Relevancy- Past Performance Information (Quality of Products / Processes and Timeliness of Performance)The elements under Past Performance are not separately weighted or separately rated. However, all of the elements must be addressed under the factor of Past Performance and will be evaluated as part of the factor. **The Past Performance will be rated on an acceptable / unacceptable basis.**

There are three aspects to the past performance evaluation.

First, the Government will review the recency of the contract data submitted.

Second, the Government will evaluate the Offeror's and (if applicable) its principal subcontractors' and critical team members' past performance to determine if a recent effort is relevant or not to this instant effort. Relevant is defined as those production or development contracts of a similar scope, magnitude, and complexity to the effort required by this solicitation. At a minimum, the Offeror' identified key or critical tasks of the solicitation and indicated the relevancy of the "past performance" contract to these tasks.

Thirdly, the Government will evaluate the Offeror's demonstrated past performance in delivering quality products and services and in meeting technical, price, and schedule requirements on products and services deemed relevant to the solicitation requirements. Problems not addressed by the Offeror will be considered to still exist. The degree to which the Offeror can demonstrate that it has successfully resolved past performance problems will be evaluated.

In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)). Therefore, the Offeror shall be determined to have unknown (or "neutral") past performance. In the context of acceptability/unacceptability, "unknown/neutral" shall be considered "acceptable."

3.0 PRICE

Each Offeror's price proposal shall be evaluated to determine if it is complete, consistent, and reflects a clear understanding of the solicitation requirements. Any understatement or overstatement of prices or inconsistencies between the Technical and Price proposals may reflect a lack of understanding of the work and could impact the evaluation. Therefore, any inconsistency between the proposed performance and price should be explained in the proposal. For example, if the intended use of new and innovative production techniques is the basis for an abnormally low estimate, the nature and risk of these techniques and their impact on price should be explained.

Each proposal shall contain Fixed Price CLINs. Each Offeror's price proposal will be evaluated to determine whether it is complete, reasonable, and consistent with the Offeror's technical approach, reflects a clear understanding of the solicitation requirements, and contains balanced unit pricing. In its evaluation, the Government may use commercial published data, same or similar DoD contracts, Government estimates, industry standards, field pricing reports, or other information as deemed appropriate by the Government. All CLINs will be included in the total evaluated price. For evaluation purposes, the evaluation of price shall be the sum of the CLINs as stated in Section B.

PART C. RATING STANDARDSThe definitions below reflect the Government assessment of solicitation compliance and the expected results on the Offeror's proposed approach.

1.0 PROPOSAL RATING DEFINITIONS

For the Technical and Past Performance factors, a Rating of Acceptable or Unacceptable will be assigned. Offerors are advised that during the evaluation process, a factor with an "Unacceptable" Rating may result in the entire proposal being found unacceptable and eliminated from the competition.

Technical Evaluation Ratings	
Rating	Description
Acceptable	Proposal meets the requirements of the solicitation.
Unacceptable	Proposal does not meet the requirements of the solicitation

Past Performance Evaluation Ratings	
Rating	Description
Acceptable	Based on the Offeror's performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort, or the Offeror's performance record is unknown (or "neutral").
Unacceptable	Based on the Offeror's performance record, the Government has no reasonable expectation that the Offeror will be able to successfully perform the required effort.

2.0 OTHER DEFINITIONS

Completeness: The adequacy of the price proposal, in relation to the SOW, considering whether all costs are included or accounted for. All SOW requirements must be included.

Recency: As it pertains to past performance information, is a measure of the time that has elapsed since the past performance reference occurred. Recency is generally expressed as a time period during which past performance references are considered relevant. Past performance or corporate experience references that are older than 5 years from the due date of the proposal is not considered recent and therefore is not considered relevant. As it pertains to recent past performance, the more recent past performance references are considered better indicators of future performance.

Relevant: Present/past performance production or development contracts involving support equipment of a similar scope, magnitude, and complexity to the effort required by this solicitation.
