

SOURCES SOUGHT INFORMATION
Attachment 2

1. **Direct Digital Controllers Technical Info.** (2 pages Maximum): Provide a list of commercially available direct digital controllers, manufactured by your organization, for which Honeywell Enterprise Building Integrator (EBI) R700.2 has been utilized to create, modify, and download control programming, database, graphics, and controller configuration files. Include the following information for each controller:
 - a. Model Number, Catalog Number, Code Number, or equivalent model designation
 - b. Product Description
 - c. Controller Application (please specify): 'Network Automation Engine' or 'Network Control Module' or 'Building Level Controller' or 'Zone Controller' or 'Field Equipment Controller' or 'Other' (Tridium Niagara N4 Server Level Controller)
 - d. Communications Protocol: 'BACnet' and/or 'Modbus TPC/IP'
 - e. Manufacturer's technical data sheets.

2. **Experience** (3 pages Maximum): Identify one (1) to three (3) installed systems where Honeywell EBI R700.2 has been used to successfully configure non-Honeywell digital controllers presented under item 1 above, which serve Heating, Ventilating, and Air-Conditioning (HVAC) systems. For each project, provide:
 - a. Customer Point of Contact including name, phone number, and email
 - b. Narrative Description of the product/services provided by your organization
 - c. If available, Project information including title, project location (city/state), procurement contract number, and contract value.
