

Special Notice – Notice of Intent to Sole Source

SOLICITATION NUMBER: 75N98026Q00251

TITLE: Preparation of chemical compounds needed for a Janus kinase 2 (JAK2) enzyme project

RESPONSE DATE: May 4, 2026, at 4:00 pm EST.

1. PRIMARY POINT OF CONTACT:

Jaddua Johnston
jaddua.johnston@mail.nih.gov
Phone: 240-569-0006

I. INTRODUCTION:

THIS IS A PRE-SOLICITATION NON-COMPETITIVE (NOTICE OF INTENT) SYNOPSIS TO AWARD A CONTRACT WITHOUT PROVIDING FOR FULL OR OPEN COMPETITION (INCLUDING BRAND-NAME).

The compounds described below are needed for evaluation in brain cancer models in assay models at NCATS. They will allow us to determine the compound targets and provide insight into the specificity for brain cancer cells.

II. NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM (NAICS) CODE and SET ASIDE STATUS

NAICS code 325199 All Other Basic Organic Chemical Manufacturing @ 1250. This acquisition is NOT set aside for small businesses.

III. REGULATORY AUTHORITY

This acquisition will be conducted using **FAR Part 12 – Acquisition of Commercial Items** in conjunction with **FAR Part 13 – Simplified Acquisition Procedures**, as applicable. The resultant contract will include all appropriate provisions and clauses in effect through the current Federal Acquisition Circular (FAC).

IV. STATUTORY AUTHORITY

This acquisition is being conducted under the authority of:

FAR 6.302-1 – Only One Responsible Source and No Other Supplies or Services Will Satisfy Agency Requirements (41 U.S.C. 3304(a)(1))

V. DESCRIPTION OF REQUIREMENT:

A. PURPOSE AND OBJECTIVES:

JAK2 inhibitors are medications that block the activity of the Janus kinase 2 (JAK2) enzyme, which is involved in signaling pathways related to inflammation and immune response. These inhibitors are used to treat various conditions, including some cancers and inflammatory diseases

like rheumatoid arthritis and atopic dermatitis. We have discovered a compound that targets brain cancer cells and we require the synthesis of it an analog for evaluation in various brain-cancer cell targeted assays. These two compounds will be evaluated for their potential for treatment in brain cancer.

- (1) 4-amino-N,N-dicyclopropyl-6-ethyl-1-methyl-1,6-dihydroimidazo[4,5-d]pyrrolo[2,3-b]pyridine-7-carboxamide; and
- (2) N,N-dicyclopropyl-4-((1,5-dimethyl-1H-pyrazol-3-yl)amino)-6-ethyl-1-methyl-1,6-dihydroimidazo[4,5-d]pyrrolo[2,3-b]pyridine-7-carboxamide.

Period of Performance:

Two months after receipt of approved order.

SCOPE OF WORK

General Requirements:

Independently and not as an agent of the Government, the Contractor shall furnish all the necessary services, qualified personnel, material, equipment, and facilities, not otherwise provided by the Government as needed to perform the Statement of Work below:

Specific Requirements:

- Synthesis of specified two (2) compounds at a 95% purity (confirmed by NMR and LCMS)/
- Shall provide NCATS with 10g, 95% purity of 4-amino-N,N-dicyclopropyl-6-ethyl-1-methyl-1,6-dihydroimidazo[4,5-d]pyrrolo[2,3-b]pyridine-7-carboxamide)
- Shall provide NCATS with 2.5g, 95% purity of N,N-dicyclopropyl-4-((1,5-dimethyl-1H-pyrazol-3-yl)amino)-6-ethyl-1-methyl-1,6-dihydroimidazo[4,5-d]pyrrolo[2,3-b]pyridine-7-carboxamide)
- The purity will be assessed by both NMR and LCMS.

LEVEL OF EFFORT:

Contractor will carry out the synthetic steps that will result in the synthesis of both compounds in this SOW with the appropriate amounts of each as stated.

GOVERNMENT RESPONSIBILITIES

All of the synthetic work will be carried out by contractor in their facilities. Government will pay for completed work.

DELIVERY OR DELIVERABLES

Contractor will deliver both compounds in the appropriate amounts and purity. The work must be completed 2 months after receipt of the approved order. Contractor will provide NCATS biweekly reports of the progress being made (please send to raul.calvo@nih.gov).

REPORTING REQUIREMENTS

Contractor will provide NCATS biweekly reports of the progress being made (please send to raul.calvo@nih.gov).

OTHER CONSIDERATIONS

Travel:

N/A

Key Personnel:

Contractor will provide the personnel responsible for carrying out the synthesis. Raul Calvo (raul.calvo@nih.gov) and Juan Marugan (maruganj@mail.nih.gov) will track progress and provide guidance, as needed, to ensure the compounds are delivered in a timely manner.

Information System Security Plan:

N/A

Data Rights:

The government has sole possession of the compounds generated and any data. Any publications need to be approved by Juan Marugan (maruganj@mail.nih.gov).

Section 508—Electronic and Information Technology Standards:

N/A

Publications and Publicity:

The government has all the rights to any publication and any disclosure of any information generated in the synthesis of both compounds.

Confidentiality of Information:

All the information generated in the synthesis of both compounds is the sole property of the government and so strict confidentiality is expected from the Contractor

VI. CONTRACTING WITHOUT PROVIDING FOR FULL OR OPEN COMPETITION (INCLUDING BRAND-NAME) DETERMINATION

The determination by the Government to award a contract without providing for full and open competition is based upon the market research conducted. Specifically, **KareBay BioChem INC** is the only vendor in the marketplace that can provide the services required by NCATS. The equipment is proprietary to its manufacturer, **KareBay BioChem INC**, and this company is the sole provider of maintenance for this equipment.

In accordance with FAR part 10, extensive market research was conducted to reach

this determination. Additionally, contacts with knowledgeable individuals both in industry and Government, as well as reviews of available product literature, revealed no other sources. Finally, a review of the GSA Advantage, Dynamic Small Business Search, and previous government acquisitions returned no results that meet all of the requirements. Therefore, only **KareBay BioChem INC** is capable of meeting the needs of this requirement.

The intended source is:

KareBay BioChem INC
15 Bennett DR
Fredonia, New York
14063-1643, United States

VII. CLOSING STATEMENT

THIS SYNOPSIS IS NOT A REQUEST FOR COMPETITIVE PROPOSALS. However, interested parties may identify their interest and capability to respond to this notice.

A determination by the Government not to compete this proposed contract based upon responses to this notice is solely within the discretion of the Government. All responsible sources may submit a capability statement, proposal, or quotation which shall be considered by the agency. The information received will normally be considered solely for the purposes of determining whether to proceed on a non-competitive basis or to conduct a competitive procurement. This notice does not obligate the Government to award a contract or otherwise pay for the information provided in response.

Responses to this notice shall contain sufficient information to establish the interested parties' bona-fide capabilities for fulfilling the requirement and include: unit price, list price, shipping and handling costs, the delivery period after contract award, the prompt payment discount terms, the F.O.B. Point (Destination or Origin), the Dun & Bradstreet Number (DUNS), the Taxpayer Identification Number (TIN), and the certification of business size. All offerors must have an active registration in the System for Award Management (SAM) www.sam.gov.

All responses must be received by the closing date and time of this announcement and must reference the solicitation number, **75N98026Q00251**. Responses must be submitted electronically to Jaddua Johnston, Contract Specialist at Jaddua.Johnston@nih.gov.
