Option to Extend the Term of the Contract (Mar 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within One (1) Day; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least One (1) day before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 66 (months).

(End of clause)

52.219-28 Postaward Small Business Program Rerepresentation. (Deviation 2026-O0038) (Feb 2026)

POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (FEB 2026) (DEVIATION 2026-O0038)

(a) *Definitions.* As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/suppoort--table-size-standards>.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

"Approved purchasing system" means a Contractor's purchasing system that has been reviewed and approved in accordance with part 44 of the Federal Acquisition Regulation (FAR).

"Consent to subcontract" means the Contracting Officer's written consent for the Contractor to enter into a particular subcontract.

Subcontract means any contract, as defined in FAR subpart 2.1, entered into by a subcontractor to furnish supplies or services for performance of the prime contract or a subcontract. It includes, but is not limited to, purchase orders, and changes and modifications to purchase orders.

(b) When this clause is included in a fixed-price type contract, consent to subcontract is required only on unpriced contract actions (including unpriced modifications or unpriced delivery orders), and only if required in accordance with paragraph (c) or (d) of this clause.

(c) If the Contractor does not have an approved purchasing system, consent to subcontract is required for any subcontract that-

(1) Is of the cost-reimbursement, time-and-materials, or labor-hour type; or

(2) Is fixed-price and exceeds-

(i) For a contract awarded by the Department of Defense, the Coast Guard, or the National Aeronautics and Space Administration, the greater of the simplified acquisition threshold, as defined in FAR 2.101 on the date of subcontract award, or 5 percent of the total estimated cost of the contract; or

(ii) For a contract awarded by a civilian agency other than the Coast Guard and the National Aeronautics and Space Administration, either the simplified acquisition threshold, as defined in FAR 2.101 on the date of subcontract award, or 5 percent of the total estimated cost of the contract.

(d) If the Contractor has an approved purchasing system, the Contractor nevertheless shall obtain the Contracting Officer's written consent before placing the following subcontracts:

(e)

(1) The Contractor shall notify the Contracting Officer reasonably in advance of placing any subcontract or modification thereof for which consent is required under paragraph (b), (c), or (d) of this clause, including the following information:

(v) The subcontractor's current, complete, and accurate certified cost or pricing data and Certificate of Current Cost or Pricing Data, if required by other contract provisions.

(vi) The subcontractor's Disclosure Statement or Certificate relating to Cost Accounting Standards when such data are required by other provisions of this contract.

(vii) A negotiation memorandum reflecting-

(A) The principal elements of the subcontract price negotiations;

(B) The most significant considerations controlling establishment of initial or revised prices;

(C) The reason certified cost or pricing data were or were not required;

(D) The extent, if any, to which the Contractor did not rely on the subcontractor's certified cost or pricing data in determining the price objective and in negotiating the final price;

(E) The extent to which it was recognized in the negotiation that the subcontractor's certified cost or pricing data were not accurate, complete, or current; the action taken by the Contractor and the subcontractor; and the effect of any such defective data on the total price negotiated;

(F) The reasons for any significant difference between the Contractor's price objective and the price negotiated; and

(G) A complete explanation of the incentive fee or profit plan when incentives are used. The explanation shall identify each critical performance element, management decisions used to quantify each incentive element, reasons for the incentives, and a summary of all trade-off possibilities considered.

(2) The Contractor is not required to notify the Contracting Officer in advance of entering into any subcontract for which consent is not required under paragraph (b), (c), or (d) of this clause.

(f) Unless the consent or approval specifically provides otherwise, neither consent by the Contracting Officer to any subcontract nor approval of the Contractor's purchasing system shall constitute a determination-

(1) Of the acceptability of any subcontract terms or conditions;

(2) Of the allowability of any cost under this contract; or

(3) To relieve the Contractor of any responsibility for performing this contract.

(g) No subcontract or modification thereof placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis, and any fee payable under cost-reimbursement type subcontracts shall not exceed the fee limitations in FAR 15.404-4(c)(4)(i).

(h) The Contractor shall give the Contracting Officer immediate written notice of any action or suit filed and prompt notice of any claim made against the Contractor by any subcontractor or vendor that, in the opinion of the Contractor, may result in litigation related in any way to this contract, with respect to which the Contractor may be entitled to reimbursement from the Government.

The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision-

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

Nothing in the prohibition shall be construed to-

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to-

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (<https://www.sam.gov>) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that-

(1) It ☐ will, ☐ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that-

It ☐ does, ☐ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

A Past Performance example that does not differentiate between the overall contract effort and the subcontractor effort may not be evaluated.

The past performance of subcontractors who will be performing major or critical aspects of the solicitation will be considered as highly as a prime contractor's past performance.

Failure of offerors to provide the required information and level of specificity may result in the contract reference not being evaluated.

The offeror shall complete a "Past Performance Information Form" for each reference submitted. The form is an attachment to the solicitation.

In addition to the information requested above, offerors shall contact their past performance references and request that each reference complete the Past Performance Report Form attached to the solicitation and e-mail the completed survey form directly to Zackery I. Bowman at bowman.civ@us.navy.mil and Samantha Ballance at samantha.a.ballance.civ@us.navy.mil by the closing date of the solicitation. The ODCs, Materials, and Travel plug numbers are included in Performance Work Statement below.

Section M - Evaluation Factors for Award

SECTION M: EVALUATION CRITERIA

The Government intends to award a CPFF Task Order to the responsible offeror whose proposal represents the best value after the evaluation in accordance with the factors in the solicitation. The evaluation will consist of four factors: Factor I: Facilities Security Clearance, Factor II: Technical Approach, Factor III: Past Performance, and Factor IV: Cost/Price, and will be conducted in two phases. Phase I will evaluate Factor I (Facilities Security Clearance), and Phase II will evaluate the remaining factors. Offers receiving a rating of 'Unacceptable' for Factor I -Facilities Security Clearance are considered un-awardable and will not be further evaluated. Factor II - Technical Approach will consist of two subfactors: Subfactor I - Performance Approach, and Subfactor II - Staffing & Management Approach. The evaluation of proposals will consider the Non-Cost/Price Proposal to be significantly more important than the Cost/Price Proposal. Within the Non-Cost/Price Proposal, Factor II - Technical is more important than Factor III - Past Performance. Within the Technical factor, the two subfactors are weighted equally.

Offerors simply providing general statements or paraphrasing/parroting the PWS in whole or in any part may result in a rating of unacceptable. Offerors should be aware that a complete understanding as to technical, cost/price, and all terms and conditions of the proposed task order must exist between the offeror and the Government at the conclusion of exchanges, if held. Material changes to proposals submitted in any final proposal revisions, if made, may not be subject to further exchange, and may render the offer unacceptable to the Government. All offeror and team member/subcontractor information must be incorporated into one coherent proposal to be considered complete.

All proposals will be reviewed for timeliness. Timely proposals will also be reviewed for compliance to the solicitation. If the proposal is not compliant with the material terms of the solicitation, it may not be evaluated and the offeror will be notified that the proposal is non-responsive.

Non-Cost/Price Proposal Evaluation Criteria

-

Factor I: Facilities Security Clearance

Factor I will be evaluated during Phase I and the offeror will receive a rating of Acceptable/Unacceptable based on its submission of the verification of its **Secret** Facilities Clearance Level meeting the requirements as detailed in Section L. This will be evaluated during Phase I on an Acceptable/Unacceptable basis utilizing the "Acceptable/Unacceptable" rating Table below. Offerors receiving an 'Acceptable' rating in Phase I will move on to Phase II. Offerors receiving an 'Unacceptable' rating will be considered un-awardable and will not be further evaluated.

Factor II: Technical Approach: Factor II is comprised of the below subfactors:

-

Subfactor I - Performance Approach: The offeror's proposed performance approach will be evaluated on feasibility, comprehensiveness, and the degree to which the offeror demonstrates its understanding of, and capability to successfully accomplish, the performance approach requirements listed above in the technical subfactor I in Section L: Instructions, Conditions, and Notices to Offerors to the solicitation.

-

Subfactor II - Staffing & Management Approach: The offeror's overall staffing and management approach will be evaluated on its feasibility, comprehensiveness, and the degree to which the offeror demonstrates its understanding of, and capability to successfully accomplish the staffing and management approach requirements listed above in the technical subfactor II in Section L: Instructions, Conditions, and Notices to Offerors to the solicitation.

The purpose of the technical factor is to assess the offeror's proposed approach to satisfy the Government's requirements. The risk associated with the offeror's technical approach will also be assessed. Risk, as it pertains to source selection, is the potential for unsuccessful task order performance. Risk assesses the degree to which an offeror's proposed technical approach to the requirements of

the solicitation may cause disruption of schedule, increased costs, degradation of performance, the need for increased Government oversight, or the likelihood of unsuccessful task order performance.

The technical/risk rating includes consideration of risk in conjunction with the strengths, weaknesses, significant weaknesses, and deficiencies in determining technical ratings. Combined technical/risk evaluations will utilize the combined technical/risk ratings listed in the Technical Ratings Table (Table 2) and the risk descriptions in the Risk Descriptions Table below. The overall assigned technical factor and subfactor ratings will be from Table 2. Note that a separate and distinct rating for risk will not be assigned. The risk descriptions are provided in the Risk Descriptions Table below in order to define the risk terms that are utilized in the combined technical/risk rating table (Table 2) and to describe the level of risk assessed when establishing the combined technical risk/rating.

NOTE: A rating of "Marginal" for any Technical factor or subfactor means that the vendor's proposal is not awardable without a change or changes to the vendor's proposal. A proposal which includes a "Marginal" rating is not eligible for award if award is made on initial offers. Offerors that receive a "Marginal" rating are considered to be susceptible to correction if the Contracting Officer determines that an exchange is appropriate and said exchange is conducted and as such, a vendor that receives a rating of "Marginal" in the technical factor (or subfactor) is not awardable and will not be further evaluated unless discussions are conducted. Offerors receiving a rating of "Unacceptable" for any Technical factor or subfactor will not be considered for an award and will not be further evaluated.

-

Factor III - Past Performance

The past performance evaluation factor assesses the degree of confidence the Government has in an offeror's ability to meet the contract's requirements based on the quality of a demonstrated record of recent and relevant performance. There are three aspects to the past performance evaluation: recency, relevancy, and quality. These are combined to establish a single performance confidence assessment rating for each offeror.

Past Performance Recency: Recency is the first aspect of the past performance evaluation and is the time period during which past performance references are considered relevant. Recency is critical to establishing the relevancy of past performance information. For purposes of this solicitation, recent past performance is performance that has taken place within five (5) years as of the closing date of this solicitation. Performance outside of this stated period will not be considered for evaluation purposes.

-

Past Performance Relevancy: Regarding relevancy, each past performance reference under each offeror's Past Performance submission will be evaluated to determine its scope and magnitude relative to the instant requirement, and assigned a relevancy rating as detailed in table 4 below. The following definitions will apply to this evaluation:

- Scope: Experience in the areas defined in the PWS.
- Magnitude: The measure of the similarity of the dollar value of actually performed work that exists between the PWS and the offeror's referenced contracts during the stated five-year period established by the solicitation. In addition, performance data will only be assessed for those references demonstrating at least one (1) year of completed performance prior to the closing date of this solicitation.

The aggregate of each offeror's past performance references in terms of scope and magnitude will result in the assessed overall relevance of that offeror's past performance.

The relevancy rating assigned to each past performance reference will be considered in determining the weight to be given to that reference in the overall Past Performance Confidence Assessment. References determined to be "Not Relevant" will not be further considered. Similarly, the quality of performance under a past performance reference that has no relevance to the instant requirement will not be considered in the overall assessment of past performance

confidence. In determining the rating for the past performance factor, past performance of greater relevancy will have more influence on the past performance confidence assessment than past performance of lesser relevance.

-

Past Performance Quality: The third aspect of the past performance evaluation is to establish the overall quality of the offeror's past performance. The Government will review all past performance information collected and determine the quality of the offeror's performance, including general trends and usefulness of the information, and will incorporate this into the performance confidence assessment.

Past Performance Confidence Assessment: The overall assigned rating for past performance will be the Past Performance Confidence Assessment rating, defined in table 5 below. The assignment of this rating will be based on the overall quality of the recent and relevant past performance and will also consider the source of the information, the context of the data, and general trends in the offeror's performance. The quality of performance under a past performance reference that has no relevance to the instant requirement will not be considered in the overall assessment of past performance confidence. Evaluation will focus only on work already performed. Work yet-to-be performed and work prior the last five (5) years as of the closing date of this solicitation will not be considered.

If the offeror's aggregated past performance is determined to be not relevant as defined in the solicitation, then the quality of the offeror's past performance will not be evaluated through a confidence assessment and the past performance factor will be rated as "Neutral Confidence." If an offeror's aggregate past performance is determined to be relevant, then each past performance reference under the offeror's past performance submission that contributed to the determination of aggregate relevance (i.e., each reference that is rated at least somewhat relevant) will be evaluated to determine the quality of the offeror's performance under that reference. The quality of performance on contract references that are rated Not Relevant is not evaluated even when the overall past performance is found to be relevant.

In the case of offerors for which there is no information on past contract performance or where past contract performance information is not available, the offeror may not be evaluated favorably or unfavorably on the past performance factor. In this case, the offeror's past performance is unknown and assigned a performance confidence rating of "Neutral Confidence." Although an offeror that lacks recent, relevant past performance may not be rated favorably or unfavorably with regard to past performance, the Government may determine that a "Substantial Confidence" or "Satisfactory Confidence" past performance rating provides better value to the Government than a "Neutral Confidence" past performance rating.

In order to determine the quality of performance, the Government may utilize existing data sources, including the Past Performance Information Retrieval System (PPIRS), the Contractor Performance Assessment Reporting System (CPARS), the Federal Awardee Performance and Integrity Information System (FAPIIS), the Electronic Subcontract Reporting System (eSRS), or other databases; communication with points of contact in the offeror's customer's organization, which could include private sector requirements and contracts personnel, Administrative Contracting Officers, Defense Contract Management Agency (DCMA) personnel, Procuring Contracting Officers, Contracting Officer's Representatives, and other Government activity requirements personnel. The Government may verify past performance information. The Government may contact some or all of the references provided, as appropriate, and may collect information through questionnaires, telephone interviews, and existing data sources. The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources, including sources outside of the Government. This information will be used for the evaluation of past performance.

The past performance factor evaluation and past performance confidence assessment rating is separate and distinct from the contracting officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating the relative capability of the offeror and other competitors to successfully meet the requirements of the solicitation.

NOTE: A rating of "Limited Confidence" for the past performance factor means that the offeror's proposal is not awardable without a change or changes to the offeror's proposal. A proposal that includes a "Limited Confidence" rating is considered to be susceptible to

correction if the contracting officer determines that an exchange (pursuant to FAR 15.306) is appropriate and said exchange is conducted. A rating of "No Confidence" for the past performance factor means that the offeror's proposal is not awardable, is not susceptible to correction, and will not be further evaluated.

Cost/Price Proposal Evaluation Criteria

-

Factor IV - Cost/Price

Evaluation: Cost proposals and price proposals will be evaluated on the basis of cost realism and price reasonableness, respectively, in accordance with FAR 15.404-1. Cost realism pertains to the offeror's ability to project costs which are realistic and reasonable and which indicate that the offeror understands the nature and scope of work to be performed. Labor will be evaluated on the basis of 100% straight time. Uncompensated overtime and uncompensated overtime rates will not be used in the evaluation. The Governments' probable cost resulting from the cost realism analysis of each offeror's proposal will be used to determine best value.

Although cost is considered in a manner that makes it less important than the Non-Cost/Price factor, it has the potential to become more significant during the evaluation process. The degree of importance of the cost will increase with the degree of equality of the proposals in relation to the other factors on which selection is to be based. The importance of cost will also increase when a proposal's cost is so significantly high as to diminish the value to the Government that might be gained under the other aspects of the offer. If, at any stage of the evaluation, all offerors are determined to have submitted equal, or virtually equal, or generally equivalent, Non-Cost /Price proposals, cost could become the factor in determining which offeror receives the award. The contracting officer may evaluate any and all information submitted by the vendor to support the reasonableness of costs proposed. The method of evaluation used by the contracting officer is solely within the discretion of the contracting officer.

Options will be evaluated pursuant to solicitation provision FAR 52.217-5, Evaluation of Options. The Government will evaluate offers for award purposes by adding the total cost for all options to the total cost for the basic requirement. The Government may determine that an offer is unacceptable if the option costs are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

Written Notice

A written notice of award or acceptance of an offer e-mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding task order without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are exchanges after its receipt, unless a written notice of withdrawal is received before award.

TABLE 5: Factor III, Past Performance Confidence Assessment Ratings Table

Rating	Description
Substantial Confidence	Based on the offeror's recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror's recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available or the offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned. The offeror may not be evaluated favorably or unfavorably on the factor of past performance.
Limited Confidence	Based on the offeror's recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror's recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.

Definitions:

Risk, as it pertains to source selection, is the potential for unsuccessful contract performance. The consideration of risk assesses the degree to which an offeror's proposed approach to achieving the technical factor or subfactor may involve risk of disruption of schedule, increased cost or degradation of performance, the need for increased Government oversight, and the likelihood of unsuccessful contract performance.

Significant Strength is an aspect of an Offeror's proposal with appreciable merit or will exceed specified performance or capability requirements to the considerable advantage of the Government during contract performance.

Strength is an aspect of an offeror's proposal with merit or will exceed specified performance or capability requirements to the advantage of the Government during contract performance.

Significant Weakness in the proposal is a flaw that appreciably increases the risk of unsuccessful contract performance. See FAR 15.001.

Weakness means a flaw in the proposal that increases the risk of unsuccessful contract performance. See FAR 15.001.

Deficiency is a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level. See FAR 15.001.
