

Centers for Disease Control and Prevention
Pre-Solicitation Information Memorandum

Project Title: B10 Modernization - CDC Project No. P20210098

Solicitation No.: 75D301-26-R-73398

Location: CDC Roybal Campus, Atlanta, Georgia

This memorandum is provided for informational and planning purposes only. The Government anticipates issuing a solicitation for design-build services to modernize the Building 10 central plant at the CDC Roybal Campus. The project is expected to replace aging chilled-water plant equipment and associated electrical and controls infrastructure and will require phased execution to maintain continuity of campus operations during performance.

This notice does not constitute a solicitation, request for proposals, or a commitment by the Government to issue a solicitation. The official solicitation, if issued, will contain the final scope of work, instructions, and submission requirements.

Anticipated Procurement Schedule

Milestone	Anticipated Date
Solicitation release	May 8, 2026
Site visit	May 20, 2026
Request for Information due	May 28, 2026
Proposal due date	June 15, 2026

All dates above are anticipated and subject to change. Site visit procedures, any request-for-information instructions, and proposal submission requirements will be provided in the solicitation.
