

QUESTION & ANSWER LOG

	QUESTION	ANSWER
1	Server R6515 Dell PowerEdge is discontinued and is no longer available. Is another Dell PowerEdge compliant to Navy requirements?	Yes, as long as the server meets or exceeds the requirements set forth in the Description Of Requirement and the size is 2U.
2	Will the Government accept a Dell PERC H730P RAID controller as meeting the "or equal" standard for this requirement, or is the PERC H740P with 8GB cache a mandatory specification?	Yes, Dell PERC H730P RAID controller as meeting the "or equal" standard for this requirement. No, the PERC H740P with 8GB cache is not a mandatory specification.
3	This request doesn't specify an operating system. Did you have one in mind for these ten servers or did yall just want them to come without an OS on them?	No OS needed.
