The minimum BPA call amount will be for 10 pallets. There is no maximum guarantee of what actual services will be required.

The Master BPA will be for a period of three (3) years and the maximum cumulative value of BPA Calls under this agreement will not exceed \$350,000. (1) Quoters are responsible for submitting quotes and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.

(2) Any quote, modification, or revision received after the time specified for receipt of quotes is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late quote would not unduly delay the acquisition. However, a late modification of an otherwise successful quote that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(3) If an emergency or unanticipated event interrupts normal Government processes so that quotes cannot be received at the Government office designated for receipt of quotes by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of quotes will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

The Government may reject any or all quotes if such action is in the public interest, accept other than the lowest quote, and waive informalities and minor irregularities in quotes received. The Government intends to award to the responsible quoter whose quote conforming to the RFQ will be the most advantageous to the Government, **price and non-price factors considered**. Generally, the lowest priced quote that meets the requirements of this RFQ will be selected for award, unless a higher priced quote has non-price qualities that are more beneficial for the Government.
