

Notice of Intent to Sole Source: Extended Warranty for Bruker Ultima 2P Plus microscope system

(75N98026Q00199)

The National Institutes of Health intends to award a Firm-Fixed-Price Purchase Order to Bruker Nano, Inc.

In accordance with FAR Part 6.302-1, Bruker Nano, Inc is the only known responsible source who can provide the products/services that meet our standards. No other source has been identified who can provide the requirements listed below.

The purpose of this acquisition is to provide the Neurovascular Research (NVR) Unit with hardware and software maintenance support for its Bruker 2 Photon Microscope System. This equipment is used to capture 2 photon imaging from in vivo preparations. The 2 photon acquisition system currently in use by the NVR Unit and is essential for work that is central to the mission of the lab. The microscope makes it possible for the lab to visualize the function of the neurovasculature of in vivo systems to better understand the role of specific cells within the neurovascular unit.

This microscope system is used for ongoing approved animal research studies that began prior to January 20, 2025. It is vital that this machine is properly maintained at the highest standards for accurate research data acquisition for studies that have been approved to use it. This maintenance is necessary to support ongoing research experiments, so that this work can continue, and investigators do not lose investment in these studies. The Bruker ultima 2P Plus permits studies that would not otherwise be possible. This purchase is directly related to animal health and welfare.

This notice is not a request for competitive quotes. Bruker Nano, Inc is the manufacturer. However, any available small businesses (e.g., 8(a), service-disabled veteran owned small business, HUBZone small business, small disadvantaged business, veteran-owned small business, and women-owned small business) as stated herein may submit a written capability statement that clearly supports and demonstrates their ability to perform the requirement. A determination by the Government to compete this proposed award based upon responses to this notice is solely within the discretion of the Government.

It is anticipated that an award will be issued approximately five (5) days after the date of this notice unless the Government determines that another vendor has the capability to meet this requirement.

Please email responses to david.shen@nih.gov no later than 7:00 a.m. EDT on April 22, 2026.
