

PERFORMANCE WORK STATEMENT
Energy Dominance Execution Support for the Department of the Assistant Secretary of the
Navy (Energy)

PART 1
GENERAL INFORMATION

1. **General.** This non-personal services contract provides specialized technical and analytical support to the Deputy Assistant Secretaries within the Office of the Assistant Secretary (ASN) for Energy, Installations, and Environment (EI&E), with primary emphasis on the Office of the Deputy Assistant Secretary of the Navy for Energy (ODASN(E)). The Government does not supervise or control contract service providers; they report solely to the Contractor, who remains accountable to the Government.

The Energy Dominance Execution Support contract delivers direct mission execution support to ODASN(E). It enables the Department of the Navy (DON) to meet statutory responsibilities for installation energy and water resilience, which directly sustain warfighter lethality, deterrence, and mission assurance. Support covers supervising, implementing, tracking, and reporting on congressionally mandated energy and water programs under Title 10 of the United States Code (U.S.C.) and related Executive Orders, as detailed in Section 5 of this Performance Work Statement (PWS). Activities include energy savings reinvestment, infrastructure hardening, mission assurance measures, and reporting to Congress and the Office of the Secretary of War (OSW).

The Contractor provides strategies, technical analysis, and policy support to achieve DON objectives for energy, water, and environmental security. This work includes developing frameworks, policies, and technical solutions that ensure mission-critical operations continue under contested conditions.

1.1. Description of Services/Introduction.

The Contractor shall provide all labor, supervision, transportation, vehicles, supplies, equipment, materials, and services required to perform work under this contract, except those identified as Government-furnished in Section 3. Services shall be provided to ODASN(E), located at the Pentagon in Washington, D.C. The Contractor shall perform to the standards defined in this contract. The Government estimates that up to eight (8) full-time equivalents (FTEs) of support may be required.

1.2. Description of optional labor Contract Line Item Numbers (CLIN)

In addition to baseline support, the contract will include optional labor CLINs to provide contingency capacity for unplanned statutory, Congressional, or Secretariat-driven requirements. These CLINs are considered labor category Installation and Facilities SME and will ensure ASN EI&E can rapidly respond to Executive Orders, ad hoc time sensitive reports, high priority taskings, and other unanticipated mission demands. Optional CLIN support shall only be exercised when validated requirements exceed the baseline resourcing profile.

Optional labor CLIN capacity is considered Installation and Facilities SME and may include, but is not limited to, the following mission areas:

- **Environment & Mission Readiness (E&MR):** Environmental protection, restoration, natural resource conservation, and occupational health, ensuring installation readiness is not compromised.
- **Installations & Facilities (I&F):** Modernization and optimization of critical infrastructure to ensure functionality, resilience, and alignment with Navy/Marine Corps mission requirements.
- **Safety:** Protecting military and civilian personnel through comprehensive safety programs covering operational, industrial, traffic, and public safety.
- **Chief of Naval Operations (N4I) – Installations:** Support for utilities and energy management to ensure infrastructure resilience and sustain operational readiness.

1.3. Background.

Mission Imperative: The DON ensures that shore-based energy, water, and environmental systems directly enable naval lethality, deterrence, and mission assurance. The Assistant Secretary of the Navy for Energy, Installations, and Environment (ASN EI&E) drives resilience, compliance, and innovation in these domains to strengthen warfighter readiness.

Operational Tempo: The Office of the Deputy Assistant Secretary of the Navy for Energy (ODASN(E)) operates at a high tempo, delivering statutory, Congressional, and Secretariat-level products that exceed the capacity of government staff. In the past year, ODASN(E) produced the Annual Energy Performance and Resilience Readiness Plan (AEPRR), five Reports to Congress, ten Congressional Requests for Information (RFIs), more than twenty industry engagements, and over 255 Secretariat taskers. The office also conducted five annual Black Start Exercises (BSE), advanced geothermal energy research, and responded to more than forty Secretary of the Navy (SECNAV) and ASN EI&E RFIs. Together, these statutory, operational, and technical demands require expertise that spans energy, water, and the modernization and resilience of critical shore infrastructure.

Contractor Value: Contractors expand ODASN(E)'s bandwidth and ensure leadership meets statutory and operational demands with speed and precision. They provide additional support capacity for Secretariat engagements such as slide development, talking points, Q&A preparation, and policy analysis. Without this specialized support, ODASN(E) would face delays, reduced responsiveness to Congress, the Fleet, and industry, and greater risks to mission accomplishment. Contractor expertise ensures that ASN EI&E priorities advance with strategic coherence, sustaining naval superiority and supporting the warfighter.

1.4. Objectives. The objective of this contract is to:

The objectives of this contract are to provide specialized technical and analytical support to the Deputy Assistant Secretaries within the Office of the Assistant Secretary of the Navy for Energy, Installations, and Environment (ASN EI&E), with primary emphasis on the Office of the Deputy Assistant Secretary of the Navy for Energy (ODASN(E)). The Contractor will support statutory,

Congressional, and Secretariat deliverables while advancing the resilience and modernization of shore energy, water, environmental, and infrastructure systems to ensure mission assurance and warfighter readiness. In addition, the Contractor will be prepared to provide optional labor CLIN, Installations and Facilities SME support capacity described above to address high-priority or unanticipated requirements such as Black Start Exercises (BSE), Secretariat taskers, policy analysis, and ad hoc reporting needs.

1.4 Scope. The Contractor shall be responsible for:

The Contractor shall provide specialized technical, policy, analytical, and communication support to the Office of the Deputy Assistant Secretary of the Navy for Energy (ODASN(E)) and across the Office of the Assistant Secretary of the Navy (ASN) for Energy, Installations, and Environment (EI&E). This support enables the DON to meet statutory and executive requirements while advancing the priorities of the Secretary of War (SECWAR) and the Secretary of the Navy (SECNAV) for lethality, deterrence, and warfighter readiness.

At a high level, contractor support includes:

- Assisting in the development and execution of energy, water, and environmental resilience strategies.
- Supporting statutory and regulatory reporting requirements, policy development, and Secretariat taskers.
- Providing technical and financial expertise for programs that enhance mission assurance, reduce risk, and increase the resilience of Navy and Marine Corps installations.
- Facilitating strategic communications, training and education initiatives, and senior leadership engagements.

The scope of work encompasses responsibilities under Title 10 U.S.C. §§ 2911–2928 (energy resilience authorities), §§ 2815 and 2866 (water resilience and conservation), as well as related Executive Orders, regulations, and SECNAV/SECWAR directives. Detailed labor mix, tasks, deliverables, and programmatic areas of focus are provided in Part 5 of this Performance Work Statement (PWS).

1.5. Period of Performance. The base period of performance is expected to be twelve (12) months. To ensure continuity of services and mission support, the contract shall include four (4) twelve-month option periods of performance, as well as a six (6) month performance extension provision in accordance with FAR 52.217-8, *Option to Extend Services*.

1.6. Hours of Operation.

1.6.1. Normal Duty Hours. The Contractor is responsible for providing performance/service, between the hours of *0800-1700 in their Command's time zone, Monday through Friday, excluding* Federal holidays or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. For other than firm fixed price contracts, the Contractor will not be reimbursed when the Government facility is closed for the above reasons. The Contractor must at all times maintain an adequate

workforce for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce are essential.

1.6.2. Federal Government Holidays.

- | | | |
|----|-----------------------------------|--------------------------|
| a. | New Years Day | 1st day of January |
| | Martin Luther King Jr.'s Birthday | 3rd Monday of January |
| | Presidents Day | 3rd Monday of February |
| | Memorial Day | Last Monday of May |
| | Juneteenth | 19 th of June |
| | Independence Day | 4th day of July |
| | Labor Day | 1st Monday of September |
| | Columbus Day | 2nd Monday of October |
| | Veterans Day | 11th day of November |
| | Thanksgiving Day | 4th Thursday of November |
| | Christmas Day | 25th day of December |
- b. When one of the above designated legal holidays falls on a Sunday, the following Monday will be observed as a legal holiday. When a legal holiday falls on a Saturday, the proceeding Friday is observed as a legal holiday. This list of holidays relates to Government duty days and is not intended to supplement or otherwise alter the provisions of any Wage Determination regarding applicable paid holidays.
- c. It is understood and agreed between the Government and the Contractor that observance of such days by Government personnel shall not be a reason for an additional period of performance, or entitlement of compensation, except as set forth within the contract. In the event the Contractor's personnel work during the holiday, the Contractor may reimburse them; however, no form of holiday or other premium compensation will be reimbursed either as a direct or indirect cost, other than their normal compensation for the time worked, unless stipulated otherwise. This provision does not preclude reimbursement for authorized overtime work if applicable.
- d. When the Department of Defense grants an excused absence to its employees, the Contractor agrees to continue to provide sufficient personnel to perform critical tasks already in operation or scheduled and shall be guided by the instructions issued by the Contracting Officer (KO) or the Contracting Officer's Representative (COR). Changes in employee work schedules shall comply with the terms and conditions of the contract, to include payment provisions.
- e. If Government personnel are furloughed, the Contractor shall contact the KO or the COR to receive directions. It is the Government's decision as to whether the contract price/cost will be affected as a result of Government shutdown and/or furloughed Government employees. In the event of a Government shutdown or furloughed Government

employee(s) impacts contract price/cost, a negotiated settlement will be reached as deemed appropriate by the KO.

1.6.3. Inclement Weather Operations. In cases of severe weather, the KO may authorize exceptions. When exceptions are granted, the Contractor shall make up all missed services within twenty-four (24) hours after the severe weather has terminated, unless the KO authorizes additional time. Rescheduling to provide make-up services shall not be a basis for a claim by the Contractor for additional compensation.

1.7. Place of Performance. The work to be performed under this contract will be performed at:

- (1) ODAN(E) work will be accomplished primarily via remote work or at the Office of the DASN (EI&E), Room 5E571, The Pentagon, Washington, D.C., when seating is available (Pentagon seating is not guaranteed).
- (2) Any work outside ODASN(E) will be accomplished primarily via remote work or in the appropriate office in the Pentagon, Washington, D.C., when seating is available (Pentagon seating is not guaranteed).

1.8. Type of Contract. The Government anticipates the award of a Firm-Fixed-Price (FFP) contract as a result of future solicitations.

1.9. Quality Control. Quality Control is the responsibility of the Contractor. The Contractor is responsible for the delivery of quality services to the Government in accordance with (IAW) the terms and conditions contained in Federal Acquisition Regulation (FAR) Subpart 52.212-4 entitled, "Contract Terms and Conditions - Commercial Items"

1.9.1. The Contractor shall develop, implement and maintain an effective Quality Control System which includes a written Quality Control Plan (QCP). The QCP shall implement a standardized procedure/methodology for monitoring and documenting contract performance to ensure all contract requirements are met. The Contractors' QCP must contain a systematic approach to monitor operations to ensure acceptable services are provided to the Government. The QCP, as a minimum, shall address continuous process improvement; procedures for scheduling, conducting and documentation of inspection; discrepancy identification and correction; corrective action procedures to include procedures for addressing Government discovered non-conformances; procedures for root cause analysis to identify the root cause and root cause corrective action to prevent re-occurrence of discrepancies; procedures for trend analysis; procedures for collecting and addressing customer feedback/complaints. The Contractor shall provide to the Government their quality control documentation within ten (10) calendar days after contract award, one electronic copy of a comprehensive written QCP shall be submitted to the KO and COR, electronic copies shall be in Adobe PDF or MS Office; changes to the QCP after award shall be submitted to the KO and COR in an electronic copy within five (5) calendar days prior to the proposed changes thereafter. After acceptance of the quality control plan the Contractor shall receive the Contracting Officer's acceptance in writing of any proposed change to their QC System in regard to this contract.

1.9.2. Corrective Actions. At any time it is determined by the KO that the quality control system, personnel, instructions, controls, tests, or records are not providing results which conform to contract requirements, action shall be taken by the Contractor to correct the deficiency. If a Contract Deficiency Report (CDR) is issued the Contractor shall develop a Corrective Action Plan (CAP) which identifies the root cause, Corrective Action (CA) for the root cause, CA for the specific non-conformance and CA to the root cause to prevent recurrence and a corrective action including the timeline for completion.

1.10. Quality Assurance. The Government will evaluate the Contractor's performance under this contract in accordance with (IAW) the Quality Assurance Surveillance Plan (QASP). This plan is a Government only document primarily focused on what the Government must do to assure that the Contractor has performed IAW the requirements of the contract. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable deficiency rate(s) as illustrated within the PWS and Performance Requirements Summary (PRS). All performance ratings will be used (Exceptional, Very Good, Satisfactory, Marginal, or Unsatisfactory), as defined in FAR subpart 42.15, *Contractor Performance Information*. The Government reserves the right to conduct compliance surveillance of any contractual requirement of this acquisition.

1.10.1. Contracting Officer's Representative (COR). The COR Tracking (CORT) Tool [Wide Area Workflow (WAWF) e-Business <https://wawf.eb.mil/>] for nomination, tracking, documentation, and management of CORs will be used. The COR will be identified by separate letter. The COR monitors all technical aspects of the task order and assists in contract administration. The COR is authorized to perform the following functions: assure that the Contractor performs the technical requirements of the contract; perform inspections necessary in connection with contract performance; maintain written and oral communications with the Contractor concerning technical aspects of the contract; issue written interpretations of technical requirements, including Government drawings, designs, and specifications; monitor Contractor's performance and notify both the KO and Contractor of any deficiencies; coordinate availability of Government equipment furnished; and provide site entry of Contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the Contractor, states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

1.10.2. Post Award Conference/Periodic Progress Meetings. The Contractor agrees to attend any post award conference convened by the contracting activity or contract administration office IAW FAR Subpart 42.5, Post Award Orientation. The KO, COR, and other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings, the KO will apprise the Contractor of how the Government views the Contractor's performance, and the Contractor will apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be considered included in the overall contract price.

1.11. Antiterrorism (AT) and Operations Security (OPSEC) Security

1.11.1. AT Level I Training. All Contractor employees, including subcontractor employees, requiring access to Navy installations, facilities, or controlled access areas shall complete Antiterrorism (AT) Level I awareness training within five (5) calendar days after contract start date or effective date of incorporation of the requirement into the contract, whichever applies. The Contractor shall submit Certificates of completion for each affected contract employee and Subcontractor employee to the COR (or to the KO, if a COR is not assigned) within five (5) calendar days after completion of training by all employees and Subcontractor personnel on a recurring annual basis. AT Level I awareness training is available at the following site: <https://atlevel1.dtic.mil/at>. If access to a computer is not available, the unit's Level II Anti-terrorism Officer (ATO) will conduct AT Level I training for the Contractor and employees within five (5) calendar days after contract start and maintain a copy of the attendance roster for one year. Any Contractor hired after contract start will be required to receive AT Level I training within five (5) calendar days by the ATO. It will also be acceptable for the new hire to take the training online and present the training certificate to the ATO within three (3) calendar days. AT Level I training is an annual requirement with a 12 month period starting on the date of initial training and re-certification NLT the last day of the 12 month period. If the requiring activity does not have an ATO, the first ATO in the chain of command will conduct this training.

1.11.2. Access and General Protection/Security: Policy and Procedures. Contractor and all associated subcontractor-Contractors employees shall comply with applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by Government representative). The Contractor shall also provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements as directed by DoW, DON and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in Contractor security matters or processes.

1.11.3. iWATCH Training. The Contractor and all associate subcontractors shall brief all employees on the local iWATCH program, training standards provided by the requiring activity ATO. This locally developed training will be used to inform employees of the types of behavior to watch for and instruct employees to report suspicious activity to the COR. This training shall be completed within five (5) calendar days of the contract award and within five (5) calendar days of new employees' commencing performance with the results reported to the COR no later than five (5) calendar days from employment start.

1.11.4. Pentagon access. The Contractor shall obtain the necessary security clearances and access permissions required for personnel to enter and perform work within the Pentagon. Access to secure areas shall comply with all DoW regulations and procedures, including but not limited to, adherence to the Pentagon Force Protection Agency (PFPA) protocols. Detailed security clearance requirements and specific areas of operation will be provided upon contract award, and all contractor personnel must complete the required background checks and obtain the requisite badges or identification cards prior to commencing work. The Contractor is responsible for ensuring that all their employees are aware of and comply with all security

policies and any updates thereto. Failure to comply with these security requirements may result in immediate removal from the Pentagon and potential termination of the contract. The Contractor shall coordinate closely with the designated government security officer to ensure all access requirements are met and maintained throughout the duration of the contract.

1.11.5. Contractor Unclassified Access to Federally Controlled Facilities, Sensitive Information, Information Technology (IT) Systems or Protected Health Information. Homeland Security Presidential Directive (HSPD)-12 requires Government agencies to develop and implement Federal security standards for Federal employees and Contractors. The Deputy Secretary of Defense Directive-Type Memorandum (DTM) 08-006 – “DoD Implementation of Homeland Security Presidential Directive – 12 (HSPD-12)” dated November 26, 2008 (or its subsequent DoW instruction) directs implementation of HSPD-12. This clause is in accordance with HSPD-12 and its implementing directives.

APPLICABILITY

This clause applies to Contractor employees requiring physical access to any area of a federally controlled base, facility or activity and/or requiring access to a DON or DoW computer/network/system to perform certain unclassified sensitive duties. This clause also applies to Contractor employees who access Privacy Act and Protected Health Information, provide support associated with fiduciary duties, or perform duties that have been identified as National Security Position, as advised by the command security manager. It is the responsibility of the security officer responsible for the command/facility where the work is performed to ensure compliance.

Each Contractor employee providing services at a Navy Command under this contract is required to obtain a Department of Defense Common Access Card (DoW CAC). Additionally, depending on the level of computer/network access, the contract employee will require a successful investigation as detailed below.

ACCESS TO DOW IT SYSTEMS

In accordance with SECNAV M-5510.30, Contractor employees who require access to DON or DoW networks are categorized as IT-I, IT-II, or IT-III. The IT-II level, defined in detail in SECNAV M-5510.30, includes positions which require access to information protected under the Privacy Act, to include Protected Health Information (PHI). All Contractor employees under this contract who require access to Privacy Act protected information are therefore categorized no lower than IT-II. IT Levels are determined by the requiring activity's Command Information Assurance Manager.

Contractor employees requiring privileged or IT-I level access (when specified by the terms of the contract) require a Single Scope Background Investigation (SSBI) or T5 or T5R equivalent investigation, which is a higher level investigation than the National Agency Check with Law and Credit (NACLC)/T3/T3R described below. Due to the privileged system access, an investigation suitable for High Risk national security positions is required. Individuals who have access to system control, monitoring, or administration functions (e.g. system administrator, database administrator) require training and certification to Information Assurance Technical

Level 1 and must be trained and certified in the Operating System or Computing Environment they are required to maintain.

Secret Clearance is required. Access to sensitive IT systems is contingent upon a favorably adjudicated background investigation. When access to IT systems is required for performance of the Contractor employee's duties, such employees shall in-process with the Navy Command's Security Manager and Information Assurance Manager upon arrival at the Navy command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The decision to authorize access to a Government IT system/network is inherently governmental. The Contractor supervisor is not authorized to sign the SAAR-N; therefore, the Government employee with knowledge of the system/network access required or the COR shall sign the SAAR-N as the "supervisor".

The Contractor shall ensure that all personnel obtain the necessary security clearances and authorizations for access to the Navy Secure Internet Protocol Router (SIPR) network. This includes obtaining a SIPR token for each authorized user. The Contractor must comply with all DON and DoW regulations governing SIPR network access, including the completion of requisite SAAR-N form, training, background checks, and adherence to strict security protocols. The Contractor's personnel must coordinate with the designated government security officer to initiate the SIPR token issuance process, which involves completing all required forms, undergoing identity verification, and receiving the appropriate security briefings. Maintaining operational security and protecting classified information are paramount; therefore, all SIPR tokens must be handled in accordance with Navy and DoW policies, including immediate reporting of any loss, theft, or compromise of tokens. Contractor personnel must ensure continuous compliance with all access requirements to prevent unauthorized access and to maintain the integrity and security of the SIPR network throughout the performance of the contract.

The SAAR-N shall be forwarded to the Command's Security Manager at least 30 days prior to the individual's start date. Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date.

When required to maintain access to required IT systems or networks, the Contractor shall ensure that all employees requiring access complete annual Information Assurance (IA) training and maintain a current requisite background investigation. The Contractor's Security Representative shall contact the Command Security Manager for guidance when reinvestigations are required.

INTERIM ACCESS

The Command's Security Manager may authorize issuance of a DoW CAC and interim access to a DON or DoW unclassified computer/network upon a favorable review of the investigative questionnaire and advance favorable fingerprint results. When the results of the investigation are received and a favorable determination is not made, the Contractor employee working on the

contract under interim access will be denied access to the computer network and this denial will not relieve the Contractor of his/her responsibility to perform.

DENIAL OR TERMINATION OF ACCESS

The potential consequences of any requirement under this clause including denial or termination of physical or system access in no way relieves the Contractor from the requirement to execute performance under the contract within the timeframes specified in the contract. Contractors shall plan ahead in processing their employees and subcontractor employees. The Contractor shall insert this clause in all subcontracts when the subcontractor is permitted to have unclassified access to a federally controlled facility, federally controlled information system/network and/or to Government information, meaning information not authorized for public release.

CONTRACTOR'S SECURITY REPRESENTATIVE

The Contractor shall designate an employee to serve as the Contractor's Security Representative. Within three (3) workdays after contract award, the Contractor shall provide to the requiring activity's Security Manager and the Contracting Officer, in writing, the name, title, address and phone number for the Contractor's Security Representative. The Contractor's Security Representative shall be the primary point of contact on any security matter. The Contractor's Security Representative shall not be replaced or removed without prior notice to the Contracting Officer (KO) and Command Security Manager (COR).

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO NATIONAL SECURITY POSITIONS OR PERFORMING SENSITIVE DUTIES

Navy security policy requires that all positions be given a sensitivity value based on level of risk factors to ensure appropriate protective measures are applied. Contractor employees under this contract are recognized as Non-Critical Sensitive [ADP/IT-II] positions when the contract scope of work requires physical access to a federally controlled base, facility or activity and/or requiring access to a DoW computer/network, to perform unclassified sensitive duties. This designation is also applied to Contractor employees who access Privacy Act and Protected Health Information (PHI), provide support associated with fiduciary duties, or perform duties that have been identified as National Security Positions. At a minimum, each Contractor employee must be a US citizen and have a favorably completed NACLC or T3 or T3R equivalent investigation to obtain a favorable determination for assignment to a non-critical sensitive or IT-II position. The investigation consists of a standard NAC and an FBI fingerprint check plus law enforcement checks and credit check. Each Contractor employee filling a non-critical sensitive or IT-II position is required to complete:

- SF-86 Questionnaire for National Security Positions (or equivalent OPM investigative product)
- Two FD-258 Applicant Fingerprint Cards (or an electronic fingerprint submission)
- Original Signed Release Statements

Failure to provide the required documentation at least 30 days prior to the individual's start date shall result in delaying the individual's start date. Background investigations shall be reinitiated

as required to ensure investigations remain current (not older than 10 years) throughout the contract performance period. The Contractor's Security Representative shall contact the Command Security Manager for guidance when reinvestigations are required.

Regardless of their duties or IT access requirements ALL Contractor employees shall in-process with the Command's Security Manager upon arrival at the command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Employees requiring IT access shall also check-in and check-out with the Navy Command's Information Assurance Manager. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The SAAR-N shall be forwarded to the Navy Command's Security Manager at least 30 days prior to the individual's start date. Failure to provide the required documentation at least 30 days prior to the individual's start date shall result in delaying the individual's start date.

The Contractor shall ensure that each contract employee requiring access to IT systems or networks complete annual Information Assurance (IA) training and maintain a current requisite background investigation. Contractor employees shall accurately complete the required investigative forms prior to submission to the Command Security Manager. The Command's Security Manager will review the submitted documentation for completeness prior to submitting it to the Office of Personnel Management (OPM); potential suitability or security issues identified may render the Contractor employee ineligible for the assignment. An unfavorable determination is final (subject to SF-86 appeal procedures) and such determination does not relieve the Contractor from meeting any contractual obligation under the contract. The Command's Security Manager will forward the required forms to OPM for processing. Once the investigation is complete, the results will be forwarded by OPM to the DoW Central Adjudication Facility (CAF) for a determination.

If the Contractor employee already possesses a current favorably adjudicated investigation, the Contractor shall submit a Visit Authorization Request (VAR) via the Defense Information System for Security (DISS) or a hard copy VAR directly from the Contractor's Security Representative. Although the Contractor will take DISS "Owning" role over the Contractor employee, the Navy Command will take DISS "Servicing" role over the Contractor employee during the hiring process and for the duration of assignment under that contract. The Contractor shall include the IT Position Category per SECNAV M-5510.30 for each employee designated on a VAR. The VAR requires annual renewal for the duration of the employee's performance under the contract.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO OR PERFORMING NON-SENSITIVE DUTIES

Contractor employees whose work is unclassified and non-sensitive (e.g., performing certain duties such as lawn maintenance, vendor services, etc) and who require physical access to publicly accessible areas to perform those duties shall meet the following minimum requirements:

- Must be either a US citizen or a US permanent resident with a minimum of 3 years legal residency in the United States (as required by The Deputy Secretary of Defense DTM 08-006 or its subsequent DoW instruction) and
- Must have a favorably completed National Agency Check with Written Inquiries (NACI) or T1 investigation equivalent including an FBI fingerprint check prior to installation access.

To be considered for a favorable trustworthiness determination, the Contractor's Security Representative must submit for all employees each of the following:

- SF-85 Questionnaire for Non-Sensitive Positions
- Two FD-258 Applicant Fingerprint Cards (or an electronic fingerprint submission)
- Original Signed Release Statements

The Contractor shall ensure each individual employee has a current favorably completed National Agency Check with Written Inquiries (NACI) or T1 equivalent investigation or ensure successful FBI fingerprint results have been gained and investigation has been processed with OPM.

Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date.

* Consult with your Command Security Manager and Information Assurance Manager for local policy when IT-III (non-sensitive) access is required for non-US citizens outside the United States.

1.12. Security.

1.12.1. Security Requirements. Access to classified material is at the Secret level. Contractor must be eligible to obtain DoW Common Access Card and an office building pass. The contractor shall not discuss or release information concerning operations or recommendations developed during the course of this contract to the general public, newspapers, or other media, public officials, community leaders, etc. without prior approval of the Navy Public Affairs Office via the Project Manager. Products developed under this contract will remain the property of the Government and will be retained by the Government at the conclusion of the contract.

1.12.2. Physical Security. The Contractor shall be responsible for safeguarding all Government equipment, information and property provided for Contractor use IAW OPNAVINST 5530.14E CH-2, Navy Physical Security and Law Enforcement Program. Contractor shall maintain a physical security checklist/log which will be forwarded to the COR on a quarterly basis. At the close of each work period, Government facilities, equipment and materials shall be secured.

1.12.3. Key Control. The Contractor shall establish and implement methods of making sure all keys/key cards issued to the Contractor by the Government are not lost or misplaced and are not used by unauthorized persons. NOTE: All references to keys include key cards. No keys issued

to the Contractor by the Government shall be duplicated. The Contractor shall develop and implement a key control program and procedures compliant with OPNAVINST 5530.14E CH-2 to ensure that keys are controlled and safeguarded. The plan shall be incorporated within the Contractor's Quality Control Plan. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The Contractor shall immediately report any occurrences of lost or duplicate keys/key cards to the KO, COR and Security Manager.

- a. In the event keys, other than master keys, are lost or duplicated, the Contractor shall, upon direction of the KO, re-key or replace the affected lock or locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from the monthly payment due the Contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the monthly payment due the Contractor. Any Government property stolen or damaged in association with keys being duplicated, misplaced, or lost by the Contractor personnel shall be reimbursed to the Government accordingly.
- b. The Contractor shall prohibit the use of Government issued keys/key cards by any person other than the Contractor's employees. The Contractor shall prohibit the opening of locked areas by Contractor employees to permit the entrance of persons other than Contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the KO.

1.12.4. Lock Combinations. The Contractor shall establish and implement methods of ensuring that all lock combinations are not revealed to unauthorized persons. The Contractor shall ensure that lock combinations are changed when personnel having access to the combinations no longer have a need to know such combinations. These procedures shall be included in the Contractor's Quality Control Plan. *(If applicable)*

1.12.5. Security of Classified Items, Systems and Information. The Contractor shall process SAAR (System Authorization Access Request) for access to the Secret Internet Protocol Router Network (SIPRNet). The contractor may need to access, view, possess, or use Secret classified information under this contract. The Contractor shall immediately contact the COR and ASN(EI&E) Security officer in the event of mishandling, loss, or any other issue that violates Secret handling instructions.

1.12.6. Personally Identifiable Information (PII). Work under this contract requires access to personally identifiable information (PII) and information protected by the Privacy Act of 1974. At a minimum, the Contractor shall meet eligibility requirements for a position of trust. The Contractor shall comply with all applicable DoW security regulations and procedures during the performance of this contract. Contractor personnel shall not disclose and must safeguard procurement sensitive information, computer systems and data, privacy act data, sensitive but unclassified (SBU) information, and all Government personnel work products that are obtained or generated in the performance of this contract.

1.12.7. Facility Access Determination (FAD). The DON has determined that all DON Information systems are sensitive regardless of whether the information is classified or unclassified. All personnel accessing DON Computer systems shall undergo investigation for a position of trust to verify their trustworthiness. The Government will include Facility Access Determination (FAD) program requirements in the contract specifications when determinations for facility access only will be required on the Contractor employees.

1.12.8. Defense Information System for Security (DISS). All Contractors, working within DON Spaces must be entered into the Defense Information System for Security (DISS) and then be owned by their contracting company Facility Security Officer (FSO). The receiving command Security Manager will then service those individuals in DISS for tracking and monitoring of their investigation status. If no previous investigation exists, the contractor personnel shall complete the requirement for a NACLC. NACLCs for positions of trust will be processed through the FRCSE Security Manager.

1.12.9. All work is expected to be unclassified or unclassified sensitive data including Personally Identifiable Information (PII). The Contractor shall meet all requirements of the Privacy Act; DoW 5239 & 8570 instructions. No requirement exists for the handling of classified data.

1.13. Safety. The Contractor shall establish and maintain a safety plan, which shall be submitted to the COR no later than (NLT) five (5) calendar days after contract award.

1.13.1. To provide safety control for protection of the life and health of employees and other persons; for prevention of damage to property, materials, supplies, and equipment; and for avoidance of work interruptions in the performance of this contract, the Contractor shall comply with 29 CFR 1910, Occupational Safety and Health Standards. The Contractor shall comply with the above and all other applicable DoW, Navy, Federal, State and Local safety and health requirements.

1.13.2. Environment and OSHA. The Contractor shall comply with all local, State, and Federal environmental and occupational safety laws, rules, and regulations. Any apparent conflict between compliance with such local, State, and Federal environmental and occupational safety laws, rules, regulations, and compliance with the requirements of the contract shall be immediately brought to the attention of the KO or authorized representative for final resolution. The Contractor shall notify the KO or authorized representative in writing in addition to any verbal notification of such conflict. The Contractor shall be liable for all fines, penalties, and costs which result from violations of, or failure to comply with, all such local State, or Federal laws, rules, and regulations. All unsafe acts or conditions fostered by the Contractor or Contractor personnel may be grounds for the KO or authorized representative to halt any and all Contractor performance with a commensurate deduction of monies due to the Contractor until such unsafe conditions are corrected. The Contractor shall take due caution not to endanger personnel during performance of this contract. Upon discovery of a serious hazard such as, but not limited to, fire, or large fuel spill, the Contractor shall notify the KO or designated representative and COR.

1.13.3. Reporting Mishaps. The Contractor shall train personnel to recognize fire and safety hazards and encourage personnel in the performance of their duties to report fire and safety hazards and unsafe conditions to their supervisor. The Contractor shall take corrective action to remedy reported deficiencies IAW the terms of this contract. The COR shall be notified of deficiencies beyond the terms of this contract. The Contractor shall adhere to reporting of mishaps IAW OPNAVINST 5102.1D MCO P5102.1B, Navy & Marine Corps Mishap and Safety Investigation, Reporting, And Record Keeping Manual. In addition, the Contractor shall report injury or occupational illness to on-duty Contractors and Contractor accidents involving Navy property and personnel.

1.13.4. Emergency Services.

- a. The Contractor shall have competent personnel trained and capable of dealing with minor personnel injuries. The Contractor of their employees shall immediately notify their supervisor of any accident requiring emergency medical treatment. The Contractor shall, in turn, notify the KO or COR within 30 minutes of the incident.
- b. Emergency medical treatment and services for Contractor personnel is the responsibility of the Contractor.

1.13.5. Personnel Safety. The Contractor shall immediately correct all safety deficiencies upon notification of the deficiencies by the KO, designated representative or COR, and shall notify the KO of the corrective action to be taken.

1.14. Personnel. For purposes of this paragraph, the term “personnel” or “employee(s)” refers to any person performing work related to this contract, including but not limited to, the Contractor’s employees, agents, representatives, or subcontractor. The Contractor shall staff this effort with trained, competent and capable employee(s) for the discipline they are assigned to. Contractor personnel shall present a clean, neat and professional appearance. The Contractor shall ensure that employees meet all applicable federal, state, local, and installation certification, licensing, medical requirements, and qualifications to perform all assigned tasks and functions as defined in this contract prior to commencement of work. The Contractor shall not permit any personnel to work under this contract if such person is identified by a Government authorized representative to the Contractor as a potential threat to the health, safety, security, general well-being, or operational mission of the Navy. All Contractors’ personnel shall comply with installation security and access procedures and the Contractor’s final Safety Plan.

1.14.1. Motor Vehicle Operators. Contractor’s personnel, whose tasks involve operation of any vehicles, shall possess a valid U.S. state driver’s license, certificates and permits, applicable for the type and class of vehicle being operated.

1.14.2. Authorization to Work. Contractor’s personnel shall either be a United States Citizen or authorized to work in the United States or possess a valid U.S. Immigration T-151 or I-94, Alien Registration Card. If Contractor person is not a US Citizen, they must submit a foreign national visit request through the State Department and their embassy. This process can take up to 60 days.

1.14.3. Speaking, Reading, and Understanding English. Contractor shall hire and staff personnel who can communicate with Government representatives and, where reading, understanding, and discussing environmental, health, and safety warnings are an integral part of an employee's duties, Contractor's employee shall be able to understand, read, write, and speak the English language fluently. English shall be the only language used with regard to this contract for written correspondence, discussions and other business transactions.

1.14.4. Identification of Contractor Employees.

- a. The Contractor (to include subcontractors) shall provide each employee with an Identification (ID) Badge, which includes at a minimum, the Company Name, Employee Name and a color photo of the employee. ID Badges for Key Personnel shall also indicate their job title. ID Badges shall be worn at all times during which the employee is performing work under this contract. Each Contractor (to include subcontractors) employee shall wear the ID Badge in a conspicuous place on the front of exterior clothing and above the waist except when safety or health reasons prohibit. The Contractor (to include subcontractors) shall be responsible for collection of ID Badges upon completion of the contract or termination of employee. A listing of issued identification cards shall be furnished to the KO prior to the contract performance date and updated as needed to reflect Contractor and subcontractor personnel changes.
- b. All Contractor personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public that they are Government officials.
- c. Contractor personnel shall ensure that all documents or reports produced by the Contractor are suitably marked as Contractor products or that Contractor participation is appropriately disclosed.

1.14.5. Conflict of Interest.

- a. Organizational Conflict of Interest. Contractor and subcontractor personnel performing work under this contract may receive, have access to, or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.), or perform evaluation services which may create a current or subsequent Organizational Conflict of Interests (OCI) as defined in FAR Subpart 9.5, Organizational and Consultant Conflicts of Interest. The Contractor shall notify the KO immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the KO to avoid or mitigate any such OCI. The Contractor's mitigation plan will be determined to be acceptable solely at the discretion of the KO, and in the event the KO unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the KO may affect other remedies as he or she deems necessary,

including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

- b. Employment of Government Personnel. The Contractor shall not knowingly employ any person who is a U.S. Government employee if employing that person would create a conflict of interest. Additionally, the Contractor shall not knowingly employ any person who is an employee of the Government, either military or civilian, unless such person seeks and receives written approval according to DoW 5500.7-R, Joint Ethics Regulations (JER) by the individual's commander or director. A copy of the authorization will be provided to the COR. In addition, the Contractor is prohibited from employing Government Quality Assurance Representatives (QAR) whom the Contractor knows or should have known are responsible for monitoring any contracts/subcontracts awarded to the service provider.

1.14.6. Contractor Code of Business Ethics and Conduct. IAW FAR Subpart 3.1004(a) FAR Clause 52.203-13, Contractor Code of Business Ethics and Conduct, the Contractor shall comply with established regulations to include application of FAR Clause to applicable subcontracts.

1.14.7. Conduct of Employees. Contractor personnel's conduct shall not reflect discredit upon the Government. The Contractor shall ensure that personnel present a professional appearance. The Contractor's employees shall observe and comply with all local policies and procedures concerning fire, safety, environmental protection, sanitation, security, and possession of firearms or other lethal or illegal weapons or substance. The Contractor is responsible for ensuring that any Contractor employees providing services under this contract conduct themselves and perform services in a professional, safe, and responsible manner. The Contractor shall remove from the job site any employee for reasons of misconduct or security. In accordance with Department of War (DOW) Directive 5500.7-R, "Joint Ethics Regulation", Contractor employees must avoid being improperly influenced in the execution of their duties under the contract. Particular attention should be paid to acceptance of gifts/gratuities, and on non-disclosure of sensitive or classified information. The Contractor shall ensure employee conduct complies with 41 U.S. C 423 relative to release of acquisition related information or actions or discussions which may prejudice future competitions. The Contractor shall ensure no contractor employees conduct political related activities or events on United States of America (USA) Facilities.

1.14.8. Special Qualifications.

1.14.8.1 The following are contractor qualifications:

Education: Personnel supporting this requirement will possess a four-year college degree. Advanced academic credentials or equivalent experience in fields relevant to energy, water security, environmental policy, strategic communications, or program management are recommended.

a. Experience: Contractor personnel shall demonstrate expertise commensurate with the specialized technical, policy, analytical, and communication support required under this contract.

Personnel must be capable of performing the tasks and deliverables outlined in Part 5 of this PWS, including the following experience:

- Energy, Water, and Installation Resilience
 - Experience assessing and implementing strategies to enhance energy and water security and resilience at Navy and Marine Corps installations.
 - Familiarity with Installation Energy and Water Plans (IEWPs), Installation Master Plans (IMPs), and Military Installation Resilience Components (MIRCs).
 - Understanding of relevant statutory authorities under Title 10 U.S.C. and related Executive Orders.
- Operational Energy (OE) and Mission Assurance
 - Knowledge of Navy and Marine Corps operational energy supply chains, logistics, and integration with Fleet and aviation requirements.
 - Awareness of risks to OE and shore energy systems, including cyber threats to control systems and logistics networks.
- Policy, Program, and Regulatory Frameworks
 - Demonstrated experience supporting statutory programs and compliance requirements under 10 U.S.C. §§ 2911–2928, 2815, 2866, and related NDAA provisions.
 - Ability to advise on policy development, strategic planning, and program management to meet DON energy, water, and environmental readiness goals.
- Strategic Communications and Leadership Support
 - Experience preparing senior leaders for engagements with Congress, industry, and other federal stakeholders.
 - Capability to support Secretariat-level communication requirements, including development of executive presentations, briefing materials, and information memoranda.
- Data Analytics and Reporting
 - Proficiency in data collection, management, and analysis to support decision-making, statutory reporting, and performance measurement.
 - Experience developing and synthesizing data products for the Annual Energy Performance, Resilience, and Readiness Report (AEPRR) and other Congressional and Secretariat-level reporting requirements.
- Program and Financial Management
 - Experience managing Navy and Marine Corps energy and water programs, including ERCIP, ESPCs, UESCs, and PPAs.
 - Familiarity with budgeting, cost-savings reinvestment, and financial analysis in support of resilience and compliance programs (not limited to FRCS).
- Collaboration and Stakeholder Engagement
 - Demonstrated ability to coordinate with federal agencies, industry, state/local governments, and community partners.
 - Experience facilitating workshops, industry days, and stakeholder engagement events to advance DON resilience and mission assurance objectives.

1.14.9. Key Personnel: The following personnel are considered key personnel by the Government:

a. Project Manager (PM).

- 1) The Contractor shall provide a PM who shall be responsible for the performance of the work. The name of this person and an alternate who shall act for the Contractor when the manager is absent shall be designated in writing to the KO within (5) calendar days after contract award; thereafter any changes shall be provided five (5) business days prior to expected change and no less than 24-hours after unplanned changes. The PM or alternate shall have full authority to act for the Contractor on all contract matters relating to daily operation of this contract.

1.14.10. Supervision of Contractor Employees. The Government will not exercise any supervision or control over Contractor or Subcontractor employees while performing work under the contract. Such employees shall be accountable solely to the Contractor, not the Government. The Contractor, in turn, shall be accountable to the Government for Contractor or Subcontractor employees.

1.15. Contractor Travel.

- a. Performance under this contract may require travel by Contractor personnel. If travel is required, the Contractor is responsible for making all the necessary arrangements for Contractor personnel. Travel shall only be performed with prior written approval from the Contracting Officer (CO) or the Contracting Officer's representative (COR). When authorized, travel costs will be reimbursed on a cost-reimbursement basis, subject to a Not-To-Exceed (NTE) ceiling established in the purchase order. Reimbursement will be in accordance with the Federal Travel Regulation (FTR) (FAR 31.205-46) or the Joint Travel Regulations (JTR), as applicable. Local travel is determined to be travel within a 50-mile radius of the local office. Please submit travel receipts along with an invoice through the Wide Area Workflow (WAWF). Travel shall be reimbursed only at actual cost, without fee or profit.
- b. The Contractor will be authorized travel expenses consistent with the substantive provisions of the Joint Travel Regulation (JTR) and the limitation of funds specified in this contract. All travel requires Government approval/authorization and notification to the COR. Travel will be capped at \$17,000 for the base period of performance, \$17,510.00 for the Option I period of performance, \$18,035.30 for the Option II period of performance, \$18,576.36 for the Option III period of performance, \$19,133.65 for the Option IV period of performance, and \$9,853.83 for the FAR 52.217-8 period of performance extension. The government reserves the right to disallow unapproved or inadequately documented expenses.

1.16. Data Rights. The Government has unlimited rights to all documents/material produced under this contract. All documents and materials, to include the source codes of any software produced under this contract, shall be Government-owned and are the property of the Government with all rights and privileges of ownership/copyright belonging exclusively to the

Government. These documents and materials may not be used or sold by the Contractor without written permission from the KO. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

PART 2

DEFINITIONS, ACRONYMS & ABBREVIATIONS

2. Definitions and Acronyms.

2.1. Definitions.

2.1.1. Cannibalize. Remove parts from Government property for use or for installation on other Government property.

2.1.2. Contract Administrator. The official Government representative delegated authority by the Contracting Officer to administer a contract. This individual is normally a member of the appropriate Contracting/Procurement career field and advises on all technical contractual matters.

2.1.3. Contractor. A supplier or vendor awarded a contract to provide specific supplies or services to the Government. The term used in this contract refers to the prime.

2.1.4. Contractor Acquired Property. Property acquired, fabricated, or otherwise provided by the contractor for performing a contract and to which the Government has title.

2.1.5. Contracting Officer (KO). A person with authority to enter into, administer, and/or terminate contracts, and make related determinations and findings on behalf of the Government. Note: The only individual who can legally bind the Government.

2.1.6. Contracting Officer's Representative (COR). An employee of the U.S. Government appointed by the KO to administer the contract. Such appointment shall be in writing and shall state the scope of authority and limitations. This individual has authority to provide technical direction to the Contractor as long as that direction is within the scope of the contract, does not constitute a change, and has no funding implications. This individual does NOT have the authority to change the terms and conditions of the contract.

2.1.7. Controlled Area. A controlled space extending upward and outward from a specified point. This area is typically designated by a commander or director, wherein sensitive information or operations occur and requires limitations of access.

2.1.8. Defective Service. A service output that does not meet the standard of performance associated with the Performance Work Statement (PWS).

2.1.9. Deliverable. Anything that can be physically delivered but may include non-manufactured things such as meeting minutes or reports.

2.1.10. Equipment. A tangible item that is functionally complete for its intended purpose, durable, nonexpendable, and needed for the performance of a contract. Equipment is not intended for sale and does not ordinarily lose its identity or become a component part of another

article when put into use. Equipment does not include material, real property, special test equipment or special tooling.

2.1.11. Government Equipment Furnished. Government property that is incidental to the place of performance, when the contract requires contractor personnel to be located on a Government site or installation, and when the property used by the contractor within the location remains accountable to the Government. Items considered to be incidental to the place of performance include, for example, office space, desks, chairs, telephones, computers, and fax machines.

2.1.12. Government-Furnished Property (GFP) or Government Property (GP). Property in the possession of, or directly acquired by, the Government and subsequently made available to the Contractor for performance of a contract. Government-furnished property includes, but is not limited to, spares and property furnished for repair, maintenance, overhaul, or modification. Government-furnished property also includes contractor-acquired property if the contractor-acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract.

2.1.13. Government Property. All property owned or leased by the Government. Government property includes both Government-furnished property and contractor-acquired property. Government property includes material, equipment, special tooling, special test equipment, and real property. Government property does not include intellectual property and software.

2.1.14. Key Personnel. Contractor personnel that are evaluated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the PWS. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the persons that are listed in the proposal. The prime contractor is responsible for the performance of all subcontractors.

2.1.15. Loss of Government Property. Unintended, unforeseen or accidental loss, damage, or destruction of Government property that reduces the Government's expected economic benefits of the property. Loss of Government property does not include occurrences such as purposeful destructive testing, obsolescence, normal wear and tear, or manufacturing defects. Loss of Government property includes, but is not limited to:

- a. Items that cannot be found after a reasonable search;
- b. Theft;
- c. Damage resulting in unexpected harm to property requiring repair to restore the item to usable condition; or
- d. Destruction resulting from incidents that render the item useless for its intended purpose or beyond economical repair.

2.1.16. Material. Property that may be consumed or expended during the performance of a contract, component parts of a higher assembly, or items that lose their individual identity through incorporation into an end-item. Material does not include equipment, special tooling, or special test equipment or real property.

2.1.17. Non-Personal Services. The personnel rendering the services are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees. Non personal service contracts are authorized by the Government in accordance with FAR 37.012, under general contracting authority, and do not require specific statutory authorization.

2.1.18. Physical Security. Actions that prevent the loss or damage of Government property.

2.1.19. Property. All tangible property, both real and personal.

2.1.20. Property Administrator (PA) or Plant Clearance Officer (PLCO). An authorized representative of the Contracting Officer appointed in accordance with agency procedures, responsible for administering the contract requirements and obligations relating to Government property in the possession of the Contractor.

2.1.21. Property Records. Records created and maintained by the contractor in support of its stewardship responsibilities for the management of Government property.

2.1.22. Provide. To furnish, as in Government-furnished property, or to acquire, as in contractor-acquired property.

2.1.23. Quality Assurance. The Government procedures to verify that services being performed by the Contractor are acceptable IAW established standards and requirements of this contract.

2.1.24. Quality Assurance Specialist. An official Government representative concerned with matters pertaining to the contract administration process and quality assurance/quality control. Acts as technical advisor to the Contracting Officer in these areas.

2.1.25. Quality Assurance Surveillance Plan (QASP). An organized written document specifying the surveillance methodology to be used for surveillance of Contractor performance.

2.1.26. Quality Control. All necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

2.1.27. Real Property. See Federal Management Regulation 102-71.20 (41 CFR 102-71.20).

2.1.28. Sensitive Property means property potentially dangerous to the public safety or security if stolen, lost, or misplaced, or that shall be subject to exceptional physical security, protection, control, and accountability. Examples include weapons, ammunition, explosives, controlled substances, radioactive materials, hazardous materials or waste, or precious metals.

2.1.29. Subcontractor. One that enters into a contract with a prime Contractor. The Government does not have privity of contract with the subcontractor.

2.1.30. Unit Acquisition Cost means—

- a. For Government-furnished property, the dollar value assigned by the Government and identified in the contract; and
- b. For contractor-acquired property, the cost derived from the contractor's records that reflect consistently applied generally accepted accounting principles.

2.1.31. Wide Area Workflow (WAWF). A secure web based system for electronic invoicing, receipt, and acceptance. WAWF allows Government vendors to submit and track invoices and receipt/acceptance documents over the web and allows Government personnel to process those invoices in a real-time, paperless environment.

2.1.32. Workday. The number of hours per day the Contractor provides services IAW the contract.

2.1.33. Work Week. Monday through Friday, except for Federal holidays unless specified otherwise.

2.2. Acronyms.

AEPRR	Annual Energy Performance and Resiliency Report
ACOR	Alternate Contracting Officer's Representative
AQL	Acceptable Quality Level

PART 3

GOVERNMENT FURNISHED PROPERTY, EQUIPMENT, AND SERVICES

3. Government Furnished Items and Services.

3.1. Services. The Government will provide the following services: The Navy will provide necessary online training requirements for network access.

3.2. Facilities. The Government will provide the following facilities for the Contractor's use for support of this contract: When available, a cubicle located at the Pentagon. Any alterations to facilities shall be approved in advance, in writing, and property shall be returned to its original condition prior to completion of this contract. The Contractor shall be responsible for any damages or loss of use due to their negligence.

3.3. Utilities. The Government will provide the following utilities: internet and network access to data systems needed.

3.4. Equipment. The Government will provide the following equipment: a government issued laptop and access to scanner and printer in the office location. Any alterations to property shall be approved in advance, in writing, and property shall be returned to its original condition, if applicable, prior to completion of this contract. The Contractor shall be responsible for any damages or loss of use due to their negligence at the cost determined by the DON.

3.5. Record Keeping.

- a. The Contractor shall establish and maintain the records of Government property in accordance with FAR 52.245-1, Government Property, and the Guidebook for Contract Property Administration. They are:

- (1) Name, part #, NSN
- (2) Quantity received, issued, on hand
- (3) Unit acquisition cost
- (4) Unique Item Identifier
- (5) Unit of Measure
- (6) Accountable contract #
- (7) Location
- (8) Disposition
- (9) Posting reference or date of transaction
- (10) Date placed in service

- b. The Contractor shall tag, label, or mark Government Furnished Property as subject to serially managed items IAW DFARs 252.245-7000. *(If applicable)*

3.6. Property Control Plan. The Contractor shall provide a Property Control Plan, IAW FAR Subpart 45.5, to administer Government Property with their Contractor Quality Control Plan.

3.7. Property Administrator (PA) or Plant Clearance Officer (PLCO). The KO shall appoint a PA or PLCO IAW FAR 45.101 and DFARS 201.670. If no PA or PLCO is appointed, the KO retains the rights of this position.

PART 4
CONTRACTOR FURNISHED ITEMS AND SERVICES

4. Contractor Furnished Items and Responsibilities.

4.1. Contractor Furnished Items. Everything included in this paragraph and its subparagraphs is basic to the contract and should be included in the contract price.

4.1.1. The Contractor shall provide all labor, supervision, transportation, vehicles, supplies, equipment, materials, facilities and services required to perform work under this contract that are not listed under Part 3 of this PWS.

4.2. Facility Clearance. Secret level clearance is required. Contractor must be eligible to obtain DoW Common Access Card and an office building pass as required in Section 1.11.5.

PART 5

SPECIFIC TASKS

5. General. The Contractor shall provide all skilled personnel, equipment, supplies, tools, materials, supervision, and other items necessary to perform this prescribed project as defined in this PWS to meet the performance requirements, except for those items specified as Government furnished property and services.

5.1: In order to ensure effective execution of ODASN(E) responsibilities, the contractor shall provide personnel with the skills and expertise required to support the following tasks:

5.1.1 Provide technical and programmatic support to assist the Department in meeting its obligations under 10 U.S.C. §§ 2911 (DoD Energy Policy), 2912 (Energy Cost Savings Reinvestment), 2913 (Shared Energy Savings), 2916 (Fuel Cost Savings), 2917 (Geothermal Development), 2920 (Energy resilience and energy security measures on military installations), 2815a (Stormwater and Water Resilience Projects), 2866 (Water Conservation), and 2922a (Long-Term Energy Contracts). Support activities include identifying and validating cost savings, assisting in structuring reinvestment opportunities, and coordinating cross-functional efforts to enable the Department to achieve its legal and mission objectives.

5.1.2 Provide technical and administrative support in maintaining enterprise-wide audit trails, project tracking tools, and reinvestment dashboards in support of § 2912 and § 2916 requirements. Support activities include compiling financial data, preparing draft reconciliations with DON financial systems, and assisting in the development of statutory reporting outputs for government review and approval.

5.1.3 Support administrative management, project tracking, briefing for the DON's Energy Resilience and Conservation Investment Program (ERCIP), including the Energy Resilience Readiness Exercises (ERREs or "Black Start Exercises" for electrical and Water Resilience Readiness Exercises (WRRE) "Water Resilience Exercises" for Water) tracking, after action report analysis, deficiency trend identification, and mitigation tracking.

5.1.4 Provide programmatic support for ODASN(E) programs to include, but not be limited to, Installation Energy and Water Plans (IEWP), ERCIP, ESPC, UESC, UP, Geothermal, and nuclear oversight products. This support includes assisting in the planning and documentation of energy cost savings and fuel savings for infrastructure projects as authorized under § 2912 and § 2916. Activities may include coordinating with contracting officers, engineering support staff, and installation energy managers to facilitate alignment with statutory requirements and support timely execution.

5.1.5 Provide execution-focused support that links energy reinvestment to national security and mission assurance outcomes, including operational energy resilience, infrastructure hardening, and critical system upgrades consistent with § 2911. Contractor activities will assist government personnel in efforts to reduce single points of failure across Navy and Marine Corps installations.

5.1.6 Assist in structuring and supporting the execution of ESPCs (42 USC § 8287), UESCs, and other mechanisms authorized under §§ 2913 and 2922a. Tasks may include technical analysis, preparation of interconnection documentation, project performance monitoring, and support for quarterly briefings and reporting required under 42 USC § 8258, all in alignment with DON resilience objectives.

5.1. Provide technical and programmatic support for geothermal energy exploration and development in accordance with § 2917. Support activities may include lifecycle energy performance analysis and assisting government personnel in analyzing potential reallocation of fuel savings under § 2916 to approved reinvestment initiatives

5.1.8 Provide technical and administrative support in preparing reporting materials for Congress (e.g., draft Reports to Congress) and the Office of the Secretary of Defense (OSD), including data on cost savings recovered, reinvestment project status, and performance tracking across applicable statutory programs. Work may include preparation of classified data inputs and supporting government personnel in engagements with oversight stakeholders. Final approval and submission of reports remain the responsibility of government officials.

5.1.9 Provide analytical and technical support to ODASN(E) in the preparation of draft policy inputs, internal Secretariat taskers, guidance, and legislative support materials related to DON installation resilience strategies, including energy and water, control system cybersecurity, contingency planning, environmental, physical security, IEWPs, and network and data resilience. Support activities may include synthesizing Navy and Marine Corps data into electronic DON dashboards to inform leadership decision-making.

5.1.10 Provide high-level programmatic and administrative support to ODASN(E) functions, including assistance to the Shore Energy Policy Board, preparation of supporting materials for the Energy Support Budget, and programmatic support for Title 10 U.S.C. § 2912 activities related to resilience, efficiency, mission assurance, energy conservation, training and education, and energy security (I-Master and Energy REACTS). Support activities also include assisting with the SECNAV Energy Dominance Awards Program (e.g., tracking, coordination, and draft materials), as well as providing support for Title 10 workshops and Navy/Marine Corps training initiatives.

5.1.11 Provide general technical support and analysis, including financial data collection and comparative assessments, in the fields of FRCS cybersecurity, energy resilience, water resilience, facilities and utility infrastructure, energy efficiency, Naval operations, deep energy retrofits, microgrids, long-duration battery storage, and third-party financing mechanisms. Support includes preparation of strategic plans, briefs, spreadsheets, point papers, responses to office taskers, proposal input support, and attendance at meetings as required. Track emerging technological solutions in the Research & Development (R&D) space to ensure policy is informed. Provide support in advocating DON priorities in the energy and water portfolio and secure alignment with other funding sources (i.e. Strategic Environmental Research and Development Program (SERDP), Environmental Security Technology Certification Program (ESTCP), National Defense Center for Energy and Environment (NDCEE), etc.)

5.1.12 Assist in the preparation of leadership for public engagements, congressional testimony, and other public events to include OSW. This includes preparation and administrative support for events such as the ASN Weekly Action Report (WAR) Bi-weekly ASN meetings, Energy Exchange planning and management and Civil Engineer Corps Officer School (CECOS) speaking events.

5.1.13 Provide analytical support to federal personnel in the development of project proposals and/or execution in support of utility and energy security initiatives. This support may include business case evaluation, assessment of project alternatives, analysis of pilot programs, and preparation of market research or technical background on potential industry capabilities. All evaluations and final determinations of offeror capabilities or selections shall be made by government personnel.

5.1.14 Provide logistical, technical, and administrative support to DON-led partnerships with other federal agencies, industry, utility companies, and state and local governments aimed at increasing community and installation resilience. Support includes preparing materials, coordinating and facilitating workshops, assisting with industry day events, and providing technical and administrative support for approximately 20 industry engagements annually. Final responsibility for partnership direction, decisions, and commitments rests with DON.

5.1.15 Collect, analyze, and synthesize information in support of government decision briefs, policy options, and procurement-related analyses for Navy utilities and energy security programs. Support activities include use of analytical tools, databases, front-end metrics platforms, development of Requests for Information (RFI) inputs, and preparation of draft analysis and reporting for the Annual Energy Performance and Resiliency Report (AEPRR).

5.1.16

Provide high-level programmatic and administrative support to U.S. Navy Senior and Executive Leadership, including assistance in addressing project execution challenges, developing and coordinating communications (including strategic communications), preparing materials for meetings, and supporting special projects related to water and energy.

1. In support of the DON portfolio, program, and project managers, assist with tracking, reporting, and monitoring of projects to facilitate timely program execution and risk management. This includes reaching out to other organizations to research answers, set up meetings, and proactively support the ODASN(E) in completion of the mission.
2. Provide analytical and administrative support for development of Program Objective Memorandum (POM) issue analysis, including coordination of ASN priorities. Assist in aligning taskers and POM requests for Navy and Marine Corps requirements, and support preparation of briefing materials for testimony. Provide programmatic support to DON's water and environmental readiness posture through implementation support of current policies and directives. Activities include coordinating with ASN, OPNAV, NAVFAC, CNIC, MCICOM, and installation leadership to ensure mission readiness requirements are met in compliance, acquisition, range readiness, and resource management.

3. Provide support to Shore Energy strategic communications, including coordination with OSW on delegation of authority, leveraging Intergovernmental Support Agreements, Title 10 authority interactions with states, development of memorandums of understanding/agreements (MOU/MOA), and other energy-related initiatives.
4. The contractor will review and extract key data from Navy and Marine Corps Installation Energy Plans, Utility Handbooks, and disparate business systems, normalize and integrate datasets, conduct gap analyses, and develop standardized data matrices and analytics to assess resilience and mission readiness.

5.2. Deliverables: The contractor shall provide the following in print and/or electronic format in the software and versions compatible with ODASN(E):

5.2.1 Under scope (1), the contractor will provide:

5.2.1.1 Execution support for statutory energy savings reinvestment programs (10 U.S.C. § 2912) for economic analysis and modelling and project justification.

5.2.1.2 Coordination and tracking of installations' Energy Resilience Readiness Exercises (ERREs Black Start/WRRE), exercise compliance (10 U.S.C. § 2920(c)(3))

5.2.1.3 Research and Development of statutory annual and ad hoc reporting to Congress and OSW including AEPRR, and congressional RFIs.

5.2.1.4. Provide programmatic support through research and analysis to assist government oversight of ERCIP, ESPC, UESC, IEWP, and Water programs. This includes research and analysis deliverables to support program management and supervision of ERCIP project execution, deficiency trend identification, and tracking. This support includes analysis of microgrid projects.

5.2.1.5 Provide specialized energy and water technical and financial expertise and deliverables that are not readily available within the DON, including draft policy inputs, Secretariat tasker preparation, support for an enterprise data repository, consolidated installation resilience metrics dashboard, an exportable spreadsheet, and an executive-level briefing package summarizing findings, mission risks, and recommended actions for senior leadership other technical deliverables.

5.2.1.6 Contractor support energy and water program oversight tracking deliverables ensures cost-effective and timely compliance with congressionally mandated reporting timelines and internal Secretariat taskers.

5.2.1.7 Briefs, agendas, draft policy, and meeting notes/minutes, task responses, industry engagements, and other as requested. This includes DON event support, Workshop/industry day agendas & readouts, project tracking reports, POM submission analysis, strategic communication papers, and Award program documentation as requested.

5.2.1.8 Monthly Contract Progress Report – Report shall identify specific tasks executed during the preceding month’s efforts. The report shall include all accomplishments, deliverables, travel including Trip Reports, within the month.

5.2.2 Inspection Requirements. The Contractor shall provide quality services and/or products IAW this contract.

5.2.2.1. When the Contractor’s performance is unsatisfactory, a CDR shall be issued. If a CDR must be issued, the Contractor shall reply in writing with the CAP, giving the reason for the unsatisfactory condition, and what corrective action has been taken; and procedures to prevent recurrence. A CAP update can be requested by the COR to determine progress towards a CDR.

Delivery Number	Deliverable (5.2)	Description	Linked Task(s) (5.1)	Frequency/Due dates	Submit to/ # of copies
1	5.2.1.1 Execution support for statutory energy savings reinvestment programs (10 U.S.C. § 2912)	Economic analyses, modeling outputs, and project justifications.	5.1.1, 5.1.4	No later than (NLT) 2 days before meeting or as requested	COR and Action Officer (AO) - One copy via email
2	5.2.1.2 Coordination and tracking of Energy Resilience Readiness Exercises (ERREs)	Exercise tracking reports, compliance documentation, and after-action analysis.	5.1.3	No later than (NLT) 2 days before meeting or as requested	COR and Action Officer (AO) - One copy via email
3	5.2.1.3 Research & development of statutory reporting	AEPRR, Congressional RFIs, Reports to Congress/OSD.	5.1.8	As requested (AEPRR Annually)	COR and Action Officer (AO) - One copy via email
4	5.2.1.4 Programmatic oversight deliverables	ERCIP, ESPC, UESC, IEWP, Water programs analysis and tracking.	5.1.3, 5.1.4, 5.1.6, 5.1.9, 5.1.11	As requested	COR and Action Officer (AO) - One copy via email
5	5.2.1.5 Specialized technical & financial expertise deliverables	Draft policies, Secretariat taskers, technical/financial analyses.	5.1.9, 5.1.10, 5.1.11, 5.1.16	As requested	COR and Action Officer (AO) - One copy via email
6	5.2.1.6 Oversight deliverables for statutory & Secretariat compliance	Compliance checklists, reporting templates, program summaries.	5.1.8, 5.1.9, 5.1.15	As requested	COR and Action Officer (AO) - One copy via email
7	5.2.1.7 Communications & engagement deliverables	Briefs, agendas, meeting minutes, industry engagements, POM analysis, comms papers, award docs.	5.1.12, 5.1.13, 5.1.14, 5.1.15, 5.1.16	As requested	COR and Action Officer (AO) - One copy via email
8	5.2.1.8 Monthly Contract Progress Report	Monthly summary of tasks, accomplishments, deliverables, and travel.	All 5.1 tasks	Monthly	COR and Action Officer (AO) - One copy via email
9	5.2.2.1 Corrective Action Plan (CAP)	Required response to a Contract Discrepancy Report (CDR), including root cause, corrective measures, and prevention steps.	Contract-wide requirement (applies to all 5.1 tasks where deficiencies occur)	As needed following a CAR or as requested	COR and Action Officer (AO) - One copy via email

5.3 Description of Optional Labor CLIN Tasks (Installation and Facilities SME)

5.3.1 Environment & Mission Readiness (E&MR) Tasks

1. Planning and Compliance:
 - a. Develop and implement environmental management plans.
 - b. Ensure compliance with environmental laws and regulations.
2. Conservation and Restoration:
 - a. Conduct conservation initiatives to protect natural resources.
 - b. Implement restoration projects to rehabilitate affected areas.
3. Marine Resources Management: Monitor and manage marine resources to ensure their availability and sustainability.
4. Environmental Acquisition: Ensure environmental considerations are integrated into acquisition processes.

5.3.2 Installation and Facilities (I&F) Tasks

1. Critical Infrastructure and Facility-Related Control Systems:
 - a. Monitor and evaluate the integrity and performance of control systems.
 - b. Develop a proactive maintenance and upgrade schedule for control systems.
2. Real Property Accountability and Audit:
 - a. Conduct comprehensive audits of real property.
 - b. Ensure accurate and updated records are maintained regularly.
3. Integrated Risk Management:
 - a. Identify and assess risks associated with infrastructure.
 - b. Develop and implement risk mitigation strategies.
4. Military Construction (MILCON):
 - a. Plan and oversee new construction projects.
 - b. Ensure projects comply with regulatory standards and are completed on schedule.
5. Facilities Sustainment, Restoration, and Modernization (FSRM):
 - a. Manage restoration and modernization projects to maintain the operational readiness of facilities.
 - b. Develop a sustainment plan for existing facilities.
6. Family and Unaccompanied Housing:
 - a. Oversee the management and maintenance of privatized and government-owned housing.
 - b. Ensure housing meets safety and habitability standards.
7. Real Estate Management:
 - a. Manage real estate acquisitions and disposals.
 - b. Ensure compliance with legal and regulatory requirements.
8. Community Engagement
 - a. Establish and maintain communication channels with community stakeholders.
 - b. Address community concerns and foster positive relations.
9. Strategic Basing and Posture: Develop and implement strategic plans for the basing and posture of installations.

5.3.3 Safety Tasks

1. Operational Safety
 - a. Implement safety protocols for aviation, surface, and explosives operations.
 - b. Monitor and address blast overpressure impacts.
2. Occupational Safety
 - a. Conduct regular industrial hygiene assessments.
 - b. Promote environmental health and workplace safety practices.
3. Installation & Industrial Safety
 - a. Perform safety inspections of installations and industrial zones.
 - b. Develop and implement safety training programs.
4. Traffic and Public Safety
 - a. Implement traffic safety programs for 2 & 4-wheel vehicles.
 - b. Promote recreational and off-duty safety awareness.
5. Functional Community Management
 - a. Manage fire and emergency services.
 - b. Ensure rapid response capability and ongoing training.

5.4 Description of Optional labor CLIN Deliverables

5.4.1 Environment & Mission Readiness (E&MR) Deliverables

1. Environmental Management Plans: Detailed plans outlining compliance strategies and actions.
2. Quarterly Conservation Reports: Updates on conservation activities and impact assessments.
3. Annual Range Modernization Report: Overview of modernization efforts and their impact on readiness.
4. Offshore Energy Impact Assessment: Reports on the compatibility of offshore energy projects with naval missions.
5. Marine Resources Reports: Documentation of marine resource management practices and outcomes.
6. Consultation Records: Logs and summaries of interagency and tribal consultations.

5.4.2 Installation and Facilities (I&F) Deliverables

1. Monthly Progress Reports: Detailed status updates on ongoing projects and programs.
2. Annual Audit Reports: Comprehensive audit findings and recommendations for real property.
3. Risk Mitigation Plan: Documented strategies and actions for risk management.
4. Project Completion Reports: Detailed reports on completed MILCON and FSRM projects, including compliance and performance assessments.
5. Housing Quality Reports: Periodic evaluations of housing conditions and maintenance actions taken.

5.4.3 Safety Deliverables

1. Safety Performance Reports: Monthly updates on safety incidents and corrective actions.
2. Industrial Hygiene Assessments: Periodic reports on assessments and mitigation measures.

3. Safety Training Records: Documentation of safety training sessions and participant rosters.
4. Traffic Safety Reports: Analysis of traffic incidents and effectiveness of safety programs.
5. Emergency Services Readiness Reports: Assessment of fire and emergency services preparedness and response times.

Task Area (5.3)	Task Description	Linked Deliverable (5.4)
5.3.1 Environment & Mission Readiness (E&MR)	Develop/implement environmental management plans, ensure compliance, conservation/restoration, marine resources, environmental acquisition.	5.4.1 Environmental Management Plans, Quarterly Conservation Reports, Annual Range Modernization Report, Offshore Energy Impact Assessment, Marine Resources Reports, Consultation Records.
5.3.2 Installations & Facilities (I&F)	Control system monitoring, real property audits, integrated risk mgmt, MILCON oversight, FSRM sustainment, housing management, real estate mgmt, community engagement, strategic basing/posture.	5.4.2 Monthly Progress Reports, Annual Audit Reports, Risk Mitigation Plan, Project Completion Reports, Housing Quality Reports.
5.3.3 Safety	Operational, occupational, installation/industrial, traffic/public, and functional community mgmt (fire/emergency services).	5.4.3 Safety Performance Reports, Industrial Hygiene Assessments, Safety Training Records, Traffic Safety Reports, Emergency Services Readiness Reports.

PART 6

APPLICABLE PUBLICATIONS AND FORMS

6. Applicable Publications (Current Editions)

6.1. The Contractor (to include Subcontractors) must abide by all applicable regulations, publications, manuals, and local policies and procedures.

- a. 29 CFR 1910, Occupational Health and Safety
- b. 41 CFR 102, Federal Management Regulation (FMR)
- c. DoD 5500.7-R Joint Ethics Regulations (JER)
- d. DoD 5200.08-R, Physical Security Program
- e. 32 CFR 147.24, The National Agency
- f. OPNAVINST 5530.14E CH-2, Navy Physical Security and Law Enforcement Program
- g. OPNAVINST 5102.1D MCO P5102.1B, Navy & Marine Corps Mishap and Safety Investigation, Reporting, And Record Keeping Manual

6.2. Forms. Mandatory records and report forms are listed below.

- a. DD254 – Department of Defense Contract Security Classification Specification, available at <http://www.dtic.mil/dtic/pdf/formsNguides/dd0254.pdf>

- b. FRCSE 5500/17 – Visit And Access Request, available at
