

**JUSTIFICATION AND APPROVAL FOR OTHER THAN
FULL AND OPEN COMPETITION
SOLE SOURCE JUSTIFICATION (RFO FAR 6.104-1)**

1. Identification of the agency and the contracting activity, and specific identification of the document as a “Justification for other than full and open competition”

This is a Sole Source Justification.

Requesting Activity
Department of Veterans Affairs
Office of Inspector General, Office of Investigations
810 Vermont Ave NW
Washington, DC 20420

Contracting Activity
Department of Veterans Affairs
Office of Inspector General, Office of Management and Administration
810 Vermont Ave NW
Washington, DC 20420

2. Nature of the action being approved

The Department of Veterans Affairs (VA) Office of Inspector General (OIG) has a requirement for BankScan software license maintenance renewal.

3. A description of the supplies or services required to meet the agency’s needs (including the estimated value)

VA OIG Office of Investigations has a requirement for BankScan software license maintenance renewal for professional grade expert analysis software to facilitate the conversion of bank and credit card statements into Microsoft Excel and other electronic formats.

This software is also used in conjunction with off-the-shelf optical character recognition (OCR) program, to save significant time avoiding manual data entry into programs like Excel.

The estimated cost for a twelve (12) month Base Period followed by four (4) Option Periods of twelve (12) months each is \$

4. An identification of the statutory authority permitting other than full and open competition

The statutory authority for this justification 41 U.S.C. § 3304(a)(1); RFO FAR 6.103-1(b), One responsible source.

5. A demonstration that the proposed contractor's unique qualifications or the nature of the acquisition requires using the authority cited

VA OIG Office of Investigations (VA OIG OI) has a requirement for License Maintenance Renewal for the BankScan branded software product. BankScan provides a unique capability for VA OIG OI that cannot be directly replicated by any other single product. The BankScan software is one capability among many in VA OIG OI's portfolio of investigative tools and capabilities. This action is initiated to renew that capability for the maximum length of time provided by the manufacturer.

VA OIG OI uses BankScan daily to perform essential financial and non-financial analysis in support of investigations. BankScan possesses a unique mix of features that are not available in any other product, including the ability to extract and convert bank statement and other information quickly and accurately, which enables efficient performance of complex analyses. Further, VA OIG OI acquired FileScan, an add-on module to BankScan, which extracts printed check information and other scanned data and converts it into Excel, creating substantial time savings. FileScan cannot be used without BankScan. VA OIG would suffer injuries without renewing BankScan. Given the current process and software infrastructure in use, failure to renew BankScan would create an immediate work stoppage. VA OIG personnel would have to acquire several alternative products, implement them, revise processes to fit the new software, and train personnel to use the new software and processes. These risks are avoidable and represent potential significant waste. Renewing the BankScan software tool in its portfolio of systems allows 51FA to maintain its critical capability of providing VA OIG Special Agents and the Department of Justice with needed financial and other data analyses on a timely basis in myriad impactful investigations.

6. A description of efforts made to ensure that offers are solicited from as many potential sources as possible, including whether a notice was or will be publicized as required by part 5 and, if not, which exception under part 5 applies

Market Research has not identified any authorized resellers of BankScan software, so no additional offers will be solicited.

This Justification will be posted to a Government Point of Entry.

7. A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable

While the price of these services is affected by the uniqueness of the product, they are in line with Market Research findings and the IGCE. The Contracting Officer has determined that the price is Fair and Reasonable.

8. The market research conducted (see part 10) and the results or a statement of the reason market research was not concluded

Market research included internet searches for resellers of the BankScan product but no authorized resellers were identified. Market research efforts also included web searches for comparable software to BankScan offering electronic document extraction and conversion. Vendors were contacted for product information but it was determined that no individual product or group of products could fully replace Bankscan's complete functionality.

9. Any Other facts supporting using other than full and open competition

VA OIG has acquired and implemented OmniScan OCR and the BankScan FileScan software modules in support of BankScan. These software instances would no longer work without BankScan, further injuring VA OIG if BankScan is not renewed.

10. A listing of the sources, if any, that expressed an interest in the acquisition in writing

- N/A

11. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required

- VA OIG will continue reviewing the marketplace in seeking out available products and services to facilitate the maximum degree of practical competition.

TECHNICAL AND REQUIREMENTS CERTIFICATION

I certify that the facts are representations under my cognizance, which are included in this justification, are complete and accurate, and meet the minimum needs and schedule requirements.
