

PERFORMANCE WORK STATEMENT (PWS)

M5 RACER Heavy Platform Maintenance Support
26 FEB 2026

Part 1 General Information

1. General: This is a non-personal service(s) contract under which the personnel rendering the service(s) are not subject, either by the contract's terms or by the manner of its administration, to the supervision and control usually prevailing in relationships between the Government and its employees.

1.1 Description of Services/Introduction: This is a non-personal service(s) contract to provide maintenance support for four (4) M5 Robotic Autonomy in Complex Environments for Resiliency (RACER) Heavy Platforms.

1.2 Background: The 36th Engineer Brigade has received four (4) RACER Heavy Platforms (RHP) with full autonomy sensors and compute capability, permanently transferred from the DARPA RACER program. These platforms are unique and not part of an established Army program of record, thus lacking institutional sustainment support. This contract is required to provide the necessary maintenance and support to ensure the RHPs are operational for use in training events, experimentation, and to support the 1st Cavalry Division's Transformation in Contact (TiC) 2.0 efforts, culminating in a validating National Training Center (NTC) rotation (27-05).

1.3 Scope: The Contractor shall provide non-personal service(s). The Contractor shall provide maintenance, sustainment, and training support for four RHPs. This includes, but is not limited to: on-site Field Service Representative (FSR) support during training events; preventive and corrective maintenance; management of a budget for replacement parts, sensors, and consumables; subcontracted support [REDACTED], [REDACTED]; remote and on-site autonomy software support, including updates and patches; and management of network and data subscriptions for the platforms.

1.4 Objectives: The objective is to provide a comprehensive maintenance and sustainment package that ensures the 4x RHPs are fully mission-capable, safe, and reliable for use by the 36th Engineer Brigade. This support will reduce the risk of system failure during major training events and allow Soldiers to operate, maintain, and troubleshoot the platform effectively.

1.5 General Information:

1.5.1 Quality Control Plan (QCP): The Contractor shall develop and maintain a QCP to ensure services are performed in accordance with (IAW) this PWS. The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of

defective services. The Contractor's QCP is the means by which it assures that the work provided complies with the requirements of the contract.

The Contractor's Proposed QCP shall be submitted to the Contracting Officer (KO) through the Contracting Officer's Representative (COR) for review within ten (10) days after date of contract award (A001).

The Government will review and either notify the Contractor in writing of acceptance of the plan or return their comments to the Contractor within five (5) days. If the Government has provided comments, the Contractor shall then have five days to submit a Final QCP. After receipt of the Final QCP, the Contractor may receive the Contracting Officer's acceptance in writing. Any proposed changes to the accepted QCP are required to be resubmitted for acceptance by the Contracting Officer no later than five days prior to the anticipated change and before implementation by the Contractor. The timeline noted above will apply for review and acceptance for proposed changes. At a minimum, the QCP must include and answer the following to be acceptable:

- (a) A chart showing the organizational structure and lines of authority, the names, qualifications, duties, responsibilities, and classification of each member of the Contractor's Quality Control Team;

- (b) How the Contractor will monitor work to ensure performance complies with all deliverables (etc. timelines, deadlines, and goals);

- (c) How the Contractor will monitor work to ensure performance complies with all specifications and requirements of the contract, including the contract's clauses;

- (d) How the Contractor will monitor and ensure staff qualifications remain current and valid including Department of Defense (DoD) Contractor Personnel Office (DOCPER) processes/approvals throughout contract performance;

- (e) How the Contractor will ensure all keys issued will remain controlled items (Paragraph 1.7 Key Control);

- (f) How the Contractor will inventory and track maintenance of all Government Provided Equipment / Materials;

- (g) How the Contractor will identify, investigate, and correct any non-conforming performance and prevent similar deficiencies in the future; and

- (h) How the Contractor will file and save all Quality Control related documents for the life of the contract plus 5 years.

1.5.1.1 Reserved

1.5.1.2 The Contractor shall inform the COR of issues or potential issues that might affect the performance within 8 hours of identifying those issues. Verbal reports shall be followed up by written reports within three days. (A002).

1.5.2 Quality Assurance: The Government will evaluate the Contractor's performance under this contract in accordance with the Quality Assurance Surveillance Plan (QASP). This plan is primarily focused on what the Government must do to ensure that the Contractor has performed in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the acceptable quality levels (performance thresholds).

1.5.3 Recognized Holidays: The following provides information on recognized holidays for the purpose of the PWS. If submittal of any documentation (e.g. deliverables, submittals, etc.) deadlines fall on a holiday, the closest work day prior to the holiday will apply as the deadline for submittal.

1.5.3.1 U.S. Holidays: Work shall not be performed on U.S. federally recognized holidays occurring during the normal workweek unless otherwise directed by the Contracting Officer. When a U.S. holiday occurs on a Saturday or a Sunday, the holiday is observed on the preceding Friday or following Monday, respectively.

New Year's Day January 1st
Presidents Day 3rd Monday in February
Juneteenth June 19th
Labor Day 1st Monday in September
Veteran's Day November 11th
Christmas Day December 25th

M. L. King Memorial Day 3rd Monday in Jan
Memorial Day last Monday in May
Independence Day July 4th
Columbus Day 2nd Monday in October
Thanksgiving Day 4th Thursday in November

1.5.3.2 Host Nation Holidays: (*As applicable to OCONUS requirements*) Work shall not be performed on local Host Nation holidays occurring during the normal workweek unless otherwise directed by the Contracting Officer.

1.5.4 Operating Hours: The Government facility office hours, facility operating hours, and the Contractor support hour requirements often coincide, however, they may differ. Please refer to the following.

1.5.4.1 Government Facility Office Hours: The Government facility office hours are 0800 to 1700, Monday through Friday except U.S. Holidays identified in paragraph 1.5.3.1 above or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings.

1.5.4.2 Government Facility Operating Hours: The Government facility operating hours occur between the hours of 0630 to 1800, Monday through Friday. The Government facility is open for operations during the recognized U.S. Holidays identified in paragraph 1.6.3.1 above. The Government facility may close due to local or national emergencies, administrative closings, or similar Government directed facility closings and will be communicated by the Contracting Officer to the Contractor.

1.5.4.3 Contractor Support Hours: The Contractor shall provide support between the hours of 0800 to 1700, Monday through Friday when the facility is open, not during local or national emergencies, administrative closings, or similar Government directed facility closings. The Contractor shall maintain an adequate workforce at all times, for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce is essential.

1.5.4.3.1 Contractor Work Plan: The Contractor shall prepare and maintain a Work Plan. The plan, as a minimum, shall identify regularly scheduled work (to include location, work to be completed, timeline, etc.) If the need for overtime is anticipated, the Contractor must receive approval from the Contracting Officer at a minimum seven (7) calendar days prior to execution. The Contractor's proposed Work Plan shall be submitted to the Contracting Officer via the COR for review within ten days after date of contract award ({Insert Deliverable #}). The Government will review and either accept or return their comments to the Contractor within five days. The Contractor shall then have three days to submit a Final Work Plan. Any proposed change to the accepted Final Work Plan is required to be resubmitted via the COR for review and acceptance by the Contracting Officer at a minimum thirty (30) days prior to implementation. The timeline noted above shall apply for review and acceptance for proposed changes.

1.5.5 Training Holidays: USAREUR has historically granted military personnel training holidays as compensation for time that they spent in field training. These are typically combined with regular holiday leave schedules (for example, Christmas half days or day on day off schedules). Training holidays may affect access to military operated facilities. If scheduled work or access to facilities is required, coordination with occupants will be necessary or the work in affected facilities shall be rescheduled after the training holiday. However, announced training holidays or exodus of military personnel may provide the Contractor with an opportunity for unrestricted access to facilities and areas. The Contractor shall take full advantage of such opportunities by planning maintenance or actions that are better accomplished when such areas are vacant.

1.5.6 Place of Performance: The work to be performed under this contract will be performed at the 36th Engineer Brigade headquarters at Fort Hood, TX, and at other temporary duty (TDY) locations as required by training events, to include the National Training Center at Fort Irwin, CA.

1.6 Security Requirements: The following information is provided on security related matters.

1.6.1 Security Program: Contractor personnel performing work under this contract must have an active or pending SECRET clearance at time of the proposal submission, and must maintain the level of security required for the life of the contract. The security requirements are IAW with the DoD Contract Security Classification Specification (DD Form 254), which is

currently accessible at the following link:

<http://www.dtic.mil/whs/directives/forms/eforms/dd0254.pdf>

1.6.2 Personnel Security Clearance Requirements: Contractor personnel performing work under this contract must have an active or pending personnel security clearance at the SECRET level in the Defense Information System for Security (DISS) at time of the proposal submission, and must maintain the level of security required for the life of the contract. The security requirements are IAW the DoD Contract Security Classification Specification DD Form 254. The Contractor shall ensure that Contractor employees and subcontractor employees performing services under this contract comply with FAR 52.204-2 Security Requirements when the employee has access to information classified "Confidential," "Secret," or "Top Secret." The Contractor shall ensure the employee complies with the DoD Security Agreement (DD Form 441), and the NISPOM rule at 32 Code of Federal Regulation (CFR) Part 117, effective 24 Feb 2021. The NISPOM is the National Industrial Security Program Operating Manual to which contractors must implement and comply.

1.6.3 Installation Access: Access to U.S. installations, buildings and controlled areas is limited to personnel who meet security criteria and are authorized. Failure to submit required information/data and obtain required documentation or clearances will be grounds for denying access to U.S. installations, buildings and controlled areas. The Contractor shall ensure that any subcontractors used in performance of this contract complies with these requirements and that all employees, of both the Contractor and any subcontractor utilized by the Contractor, are made aware of and comply with these requirements.

The Contractor shall be aware of and comply with the requirements associated with Installation Access Control. The Government is not liable for any costs associated with performance delays due solely to a firm's failure to comply with Installation Access Control System (IACS) processing requirements.

The Contractor shall return installation passes to the issuing IACS office when the contract is completed or when a Contractor employee no longer requires access.

1.6.3.1 Installation Pass Log: The Contractor shall provide the Contracting Officer, via the COR, an Initial Installation Pass Log within three calendar days after contract award (A003). The log must at a minimum contain the following information: employee first and last name, company, Driver's License/State ID #, vehicle information (make, model, license plate #), CAC number, issue date and expiration date, and pass status. The log shall be updated as employees are added or removed. The Updated Installation Pass Log shall be current and available at any time upon request by the Government and submitted to the COR within five (5) days after any changes to the log. (A003).

1.6.3.2 Individual Termination or Expiration of Employment: The Contractor shall collect the installation access passes the same day employment of an individual has expired or has been terminated and shall return them to the issuing office within three days. (A004).

1.6.3.3 Contract Termination or Cancellation: Upon termination or cancellation of this contract, the Contractor shall collect all outstanding installation access passes and return them to the issuing office within five days. (A004).

1.6.3.4 Common Access Cards (CAC) and CAC Log: The Contractor shall provide the following information: Last, First and Middle Names, government issued personal identifier (e.g. Social Security Number, Federal Identification Number, or Tax Identification Number), date of birth, primary email address (this email address will be used to contact the individual) and any other necessary information required to obtain a CAC or installation access card, to the COR within five days after award (A005). The Contractor shall ensure safeguarding of Personally Identifiable Information (PII) and comply with requirements under 1.22.5.

The Contractor shall provide a CAC log within the first 30 calendar days after contract award and within five days after changes have been made (A006) (unless circumstances require otherwise and as directed by the Contracting Officer). The COR will provide format and content for the log during the post award meeting. Note - CACs are Government property and must be accounted for.

1.6.4 Background Checks: Contractors are subject to background checks as needed to establish or maintain SECRET level clearance.

1.6.4.1 U.S. Citizen: Contractors that work with or teach youth under the age of 18 years are subject to U.S background checks. The Requiring Activity Manager will determine the extent of background checks required. The Contractor employee may begin performance of the contract after receiving a favorable local background check. The Contractor agrees to replace the employee should results of the background check, if required, be unfavorable as determined by the Requiring Activity Manager. The Contractor's replacement of the employee with the unfavorable background check shall be within a timeframe provided by the Requiring Activity Manager. The Contractor shall also replace employees whose background check, during their tenure of employment, renders them with an unfavorable local or stateside background check, as determined by the Requiring Activity Manager. The Contractor shall forward a copy to the Contracting Officer via the COR and the Requiring Activity Manager of each favorable background check within three days of receipt by the Contractor, identifying such with the appropriate contract number (A007). The Contractor shall forward a copy to the Contracting Officer via the COR and the Requiring Activity Manager of each unfavorable background check within three days of receipt by the Contractor, identifying such with the appropriate contract number (A007). When the Government awards a non-personal services contract directly to an individual, the failure of the individual to provide a favorable background check would be grounds for termination.

1.6.4.2 Local Nationals and Third Country Nationals: Local national and third country national Contractors that work with or teach youths under the age of 18 years are subject to background checks as determined by the Requiring Activity Manager. As a minimum prior to beginning performance, Contractors employing local national and third country nationals shall furnish the Contracting Officer via the COR and the Requiring Activity Manager current documents required for working on a US installation, no later than five days after contract

award (A008). Forwarding correspondence from the Contractors shall identify the associated contract number. Local nationals and third country nationals agree to the same employee termination provisions as stated for U.S. Citizens (see paragraph 1.6.4.1 above, in particular, same requirements to replace the employee (and within timeframe noted) when results of background check are unfavorable.

1.6.5 Physical Security: The Contractor shall safeguard all Government equipment, information, and property provided for Contractor use. At the close of each work period, Government facilities, equipment, and materials shall be secured IAW the Army Physical Security Program (AR 190-13).

1.6.6 Operations Security (OPSEC) Requirements: Contractor personnel shall adhere to facility security policies and restrictions. The Contractor shall immediately report suspicious activities to security personnel. Government issued access badges shall not be worn outside designated facilities where visible to the general public.

1.7 Key Control: The Contractor shall establish and implement methods of making sure all keys issued to the Contractor by the Government are not lost or misplaced and are not used by unauthorized persons. NOTE: All references to keys include key cards. No keys issued to the Contractor by the Government shall be duplicated. The Contractor shall develop procedures covering key control that shall be included in the Contractor's Security Plan (A009) and the Quality Control Plan. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The Contractor shall immediately report any incidents of lost or duplicate keys to the Contracting Officer. In the event keys, other than master keys, are lost or duplicated, the Contractor shall, upon direction of the Contracting Officer, re-key or replace the affected lock or locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from payment due to the Contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the payment due to the Contractor. The Contractor shall prohibit the use of Government issued keys by any persons other than the Contractor's employees. The Contractor shall prohibit the opening of locked areas by Contractor employees to permit entrance of persons other than Contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the Contracting Officer. The Contractor shall establish and implement methods of ensuring that all lock combinations are not revealed to unauthorized persons. The Contractor shall ensure that lock combinations are changed when personnel having access to the combinations no longer have a need to know such combinations. These procedures shall be included in the Quality Control Plan.

1.8 Post Award Conference/Periodic Progress Meetings: The Contractor shall attend any post award conference convened by the contracting activity or contract administration office in accordance with FAR Subpart 42.5. The Contracting Officer, COR, and other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the Contracting Officer will apprise the Contractor of how the Government views the Contractor's performance and the Contractor shall apprise the

Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the Government.

1.8.1 The Contractor shall attend, participate in, and furnish input to scheduled and unscheduled meetings, conferences, and briefings that relate to the functions and services herein as required by the Government to provide effective communication and impart necessary information. The Contract Manager or designated representative shall attend meetings as requested by the Government. Meeting attendees shall at times include Contractor managerial, supervisory, and other personnel knowledgeable of the subject matter. Meetings may start or end outside of regular duty hours.

1.9 Contracting Officer's Representative (COR): Refer to Part 2 of this PWS for the definition of a COR. As determined by the Contracting Officer, a COR will be appointed and identified by letter of designation, a copy of which will be provided to the Contractor by the Contracting Officer. The designation letter states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates, or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is not authorized to obligate the Government. If the work is not written in the contract, the COR is not authorized to request new work. The COR is authorized to perform the following functions: assure that the Contractor performs the technical requirements of the contract, perform inspections necessary in connection with contract performance, maintain written and oral communications with the Contractor concerning technical aspects of the contract, issue written interpretations of technical requirements, including Government drawings, designs, specifications, monitor Contractor's performance and notifies both the Contracting Officer and Contractor of any deficiencies, coordinate availability of Government property, and coordinate site entry of Contractor personnel.

1.10 Key Personnel: The following personnel are considered key personnel by the Government: Contract Manager/Alternate Contract Manager and Quality Control Manager. The Contractor shall provide a Program/Contract Manager who shall be responsible for the performance of the work. The name of this person and an Alternate Program/Contract Manager, who shall act for the Contractor when the Program/Contract Manager is absent, along with a Curriculum Vitae (CV) for each of these individuals, shall be provided in writing to the Contracting Officer no later than five (5) days after contract award (A010). Acceptance of the CV by the Contracting Officer is required before these individuals are permitted to perform any task on this contract. The Contract Manager and Alternate Contract Manager shall have full authority to act for the Contractor on all contract matters relating to daily operation of this contract. The Contract Manager or Alternate Contract Manager shall be available between 0800 – 1700 Monday through Friday. Qualifications for all key personnel are listed below:

a. Contract Manager and Alternate Contract Manager: The contract manager must have at least three years of experience managing U.S. Department of War contracts or projects of similar size and complexity and demonstrate experience in managing technical

personnel, project scheduling, and customer relations. Must have SECRET level clearance or higher.

b. Quality Control Manager: The Quality Control Manager must demonstrate a minimum of five years' experience, within the past ten, working as a Quality Control Manager, three of which must be for Department of War contracts. Must have SECRET level clearance or higher.

1.11 Identification of Contractor Employees: All Contractor personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious to third parties must identify themselves, to include proper marking of signature blocks in correspondence, to avoid creating an impression in the minds of members of the public that they are Government officials. The Contractor shall ensure that all documents or reports, produced by Contractors are suitably marked as Contractor products or that Contractor participation is appropriately disclosed.

1.12.1 Contractor workspace (staging site, on-site office, desk or work area, etc.) shall contain a sign signifying the space is occupied by Contractor employee(s) to ensure that Government employees and the public know that they are not Government employees. The proposed sign shall be submitted to the Contracting Officer via the COR for review and acceptance ten calendar days after contract award (A011). Workspace sign location shall be coordinated with the COR. Contractor employees shall identify themselves by name and company affiliation when answering the telephone, presenting briefings, conducting or attending meetings, and seminars. All Contractor correspondence (written, facsimile, and email display) shall include their company name. Requirements for Contractor vehicles is addressed under Part 4 paragraph 4.4.

1.12.2 Contractor Identification Badges: Contractor personnel shall be easily identifiable through the display of badges IAW Contractor Identification (AE Reg. 27-715). The Contractor (to include subcontractors) shall provide each of their employees an easily readable identification badge. The badge must include the employee's name, the contractor's company name, the functional area of assignment, and a recent color photograph of the employee. Companies with U.S. Government contracts will require their employees to wear these badges visibly when performing work at Government workplaces unless this would be impractical because of mission or safety considerations. The Contractor shall collect all ID Badges upon completion of the contract or termination of employee. A listing of issued ID cards shall be furnished to the Contracting Officer prior to the contract performance date and updated as needed to reflect Contractor personnel changes. (A012).

1.13 Contractor Travel: The Contractor may be required to travel to Fort Hood, TX and Fort Irwin, CA during the performance of this contract to attend meetings, conferences, and training. The Contractor may be required to travel to off-site training locations and to ship training aids to these locations in support of this PWS. The Contractor may be authorized travel expenses at rates no higher than the substantive provisions of the Joint Travel Regulation (JTR), IAW FAR Part 31.205-46, and the limitation of funds specified in this contract. All travel requires COR approval and authorization five working days prior to

scheduled travel. The travel request must have the following information at a minimum: names of personnel traveling, dates of travel, location of travel and reason for travel, and POC at point of travel. Trip reports shall be completed by the Contractor and are due to the COR NLT five (5) working days after travel. Trip reports shall include organizations visited, dates, traveler(s)'s names, destination, purpose/scope, persons contacted, discussion background, concerns/issues, conclusion, and recommendations if necessary.

1.14 Other Direct Costs (ODCs): Reserved

1.15 Data Rights: The Government has unlimited rights to all documents and materials produced under this contract. All documents and materials, to include the source codes of software, produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership and copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.16 Non-Disclosure Requirements: Performance under this contract may require the Contractor to access data and information proprietary to a Government agency, another Government Contractor, or of such nature that its dissemination or use other than as specified in this work statement would be adverse to the interests of the Government or others. The Contractor and Contractor personnel, shall not divulge or release data or information developed, or obtained under performance of this PWS, except to authorized Government personnel or upon written approval of the Contracting Officer. The Contractor shall not use, disclose, or reproduce proprietary data, which bears a restrictive legend, other than as specified in this PWS. All documentation showing individual names or other personal information shall be controlled and protected under the provisions of the Privacy Act of 1974, Public Law 93-579, 5 United States Code (U.S.C.) Section 552a.

1.17 Protection of Government and Contract Information: Per Public Use Notice of Limitations stated by Defense imagery Management operations Center and contained at www.dimoc.mil/resources/limitations/, the Contractor shall not cite any information (e.g., contract information, pictures, locations, etc.) obtained through this contract on any hard copy or digital marketing tools to include its company website.

1.18 Non-Disclosure Statements: The Contractor shall provide signed non-disclosure agreements to the Government no later than ten days (A013) prior to commencement of work under the contract. Disclosure of information by Contractor personnel may result in removal of Contractor personnel from performance under this contract.

1.19 Organizational Conflict of Interest (OCI): Contractor and subcontractor personnel performing work under this contract may receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent OCI as defined in FAR Subpart 9.5. The

Contractor shall notify the Contracting Officer immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the Contracting Officer to avoid or mitigate any such OCI (A014). The Contractor's OCI Mitigation Plan will be determined to be acceptable solely at the discretion of the Contracting Officer. In the event the Contracting Officer unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the Contracting Officer may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

1.20 Phase In /Phase Out Period: To minimize decreases in productivity and to prevent possible negative impacts on additional services, the Contractor shall have personnel on board, during the sixty (60) day phase in/ phase out periods. During the phase in period, the Contractor shall become familiar with performance requirements in order to commence full performance of services on the contract start date.

1.21 Safety: The following provides information pertaining to Safety and Accident Prevention: The Contractor shall conform to the Post Safety Program in accordance with AR 385-10. The contractor shall publish a Safety Standard Operations Procedure (SOP) for safety and provide a copy to the COR no later than thirty days after award of the contract. The Contractor shall attend meetings and provide training to employees.

The requirements under FAR 52.236-13 and specifically of the EM 385-1-1 include, but are not limited to the following:

(a) Before initiation of work at the job site, an Accident Prevention Plan, written by the Contractor for the specific work and hazards of the contract and implementing in detail the pertinent requirements of EM 385-1-1; will be reviewed for acceptance by designated Government personnel (A015). Specific requirements for development of the Accident Prevention Plan are found in 01.A and Appendix A of EM 385-1-1. EM 385-1-1 is available online at www.usace.army.mil.

(b) Before beginning each activity involving a type of work presenting hazards not experienced in previous project operations or where a new work crew or subcontractor is to perform work, activity hazard analysis (AHA) shall be prepared by the Contractor performing the work activity (See paragraph 01.a.09 of EM 385-1-1);

(c) The Contractor shall require subcontractors to submit their plan of operations showing methods they propose to use in accomplishing major phases of work;

(d) The Contractor shall discuss the plans in conferences convened by the Contracting Officer prior to starting work on each major phase of operation. Plans shall include all pertinent information such as layout of haul roads, access roads, storage areas, electrical distribution lines, methods of providing minimum exposure to overhead loads, and methods of access to work areas. The plan for accomplishing the initial work phase shall be submitted within fifteen (15) calendar days after award of the contract. Plans for subsequent major phases of work

shall be submitted no later than fifteen (15) calendar days prior to initiation of work on each major phase; and

(e) In all areas where construction, demolition, alteration, building, or similar related activities take place, the Contractor shall have the following minimum personal protective clothing and equipment requirements in place for any person working on or visiting the site:

- (i) Short sleeve shirt;
- (ii) Long trousers;
- (iii) Steel-toed safety boots; and
- (iv) Hard hat.

1.21.1.1 Reserved.

1.21.1.2 The Contractor shall complete and provide safety notifications required as needed by the requiring activity and will provide documented proof to the Contracting Officer via the COR, no later than three days (A016) that such notifications were made.

1.22 Environmental Compliance: The following provides information on Environmental Compliance.

1.22.1 Environmental Compliance Plan and Program: The Contractor shall ensure that all of its operations and activities conform to Fort Hood's environmental policy requirements. The Contractor shall ensure that all contract personnel have received appropriate levels of training in the handling, use, storage, and disposal of hazardous material.

If contract requires the use of hazardous materials/substances, the Contractor shall, prior to mobilization, inform the Contracting Officer (KO)/Contracting Officer Representative (COR) of the types and amount of hazardous materials needed to be brought onto the Garrison in order to fulfill their contractual requirements. Contractor shall also provide the Safety Data Sheets, storage requirements and proposed storage locations for the hazardous material. The KO/COR shall provide a copy of this information to the Garrison Fire Department and the Environmental Division.

Prior to contract completion, the Contractor shall remove all hazardous materials and dispose of all hazardous waste (HW) generated in accordance with Fort Hood environmental standards. A copy of the HW disposal documents must be forwarded to the HW program manager at the Department of Public Works (DPW) Environmental Division.

The Contractor shall clean up at its own expense any contamination, including soil and ground water contamination caused by hazardous materials/substances brought onto the garrison, or by his activities.

“Current Environmental Policy guidelines are available at the Garrison website:
<https://home.army.mil/hood/units-tenants/Garrison/DPW/ENV>

1.23 Required Training: The following provides information on training requirements.

1.23.1 Anti-Terrorism (AT) Level I Training: All Contractor employees, including subcontractor employees, who are employed under the contract, shall complete AT Level I Training within ten days (A017) after contract start date or effective date of incorporation of this requirement into the contract, whichever applies, or ten days after employment of new personnel. AT Level I awareness training is available at <https://jkodirect.jten.mil>. Contractor personnel shall complete refresher training (A018) every twelve (12) months.

If training cannot be conducted on the website, the Contractor shall coordinate with the COR who will contact the local AT Officer at their assigned location for classroom training. Contractor personnel completing training in the classroom will receive a certificate or the training attendance roster signed by the AT Officer. Verification of the training shall be provided to the COR within three working days after completion of the training (A019).

1.23.2 OPSEC Training: All Contractor employees, including subcontractors, shall complete Level I OPSEC training within ten days of employment under this contract. Verification of the training shall be provided to the COR within three days after completion of the training (A020). OPSEC Level I training is available at <http://www.cdse.edu/catalog/elearning/GS130.html>. Contractor personnel must complete refresher training every twelve months. Verification of the training shall be provided to the COR within three days after completion of the training (A021).

If training cannot be conducted on the website, the Contractor shall coordinate with the COR, who will contact the local OPSEC Officer at their assigned location for classroom training. Contractor personnel completing training in the classroom will receive a certificate or the training attendance roster signed by the OPSEC Officer. Verification of the training shall be provided to the COR within three days after completion of the training (A022).

1.23.3 iWATCH Training: The Contractor and all associated subcontractors shall brief all employees on the local iWATCH program (training standards provided by the requiring activity ATO). This locally developed training will be used to inform employees of the types of behavior to watch for and instruct employees to report suspicious activity to the COR. This training shall be completed within ten days after the contract is awarded and within ten days after new employees commence contract performance, with the results reported to the COR within three after the contract is awarded and within three days after new employees commence contract performance. Verification of the training shall be provided to the COR within three days after completion of the training (A023). Training slides can be found on the Army OneSource website:
<http://www.myarmyonesource.com/familyprogramsandservices/iwatchprogram/default.aspx>

1.23.4 Information Assurance (IA) Training

1.23.4.1 All Contractor employees, including subcontractors, requiring access to Government information systems shall complete the DoD IA Cyber Awareness Training within ten days after contract start date or effective date of incorporation of this requirement into the contract, whichever applies, or ten days after employment of new personnel. Verification of the training shall be provided to the COR within three days after completion of the training (A024).

1.23.4.2 All Contractor employees, including subcontractors, working information technology (IT)/IA functions shall comply with DoD and Army training requirements per Information Assurance Training Certification and Workforce Management DoD Directive (DoDD) 8570.01, Information Assurance Workforce Improvement Program DoD 8570.01-M, and Information Assurance AR 25-2 within thirty (30) calendar days of employment. Training is available at <https://ia.signal.army.mil/DoDIAA/default.asp>.

1.23.4.3 All Contractor employees, including subcontractors, performing services under this contract with access to a Government information system must be registered in the Army Training Certification Tracking System (ATCTS), the web address requires CAC to access. Verification of registration shall be provided to the COR within three days after registration (A025). Contractor personnel must complete refresher training every twelve (12) months. Verification of the training shall be provided to the COR within three days after completion of the training (A026).

1.23.5 Personally Identifiable Information (PII): Reserved

1.24 Authorization to Perform Services in Germany: Reserved

1.25 Notice to Proceed: The notice to proceed will be provided as indicated below.

☐ *The effective date of contract will constitute the date of notice to proceed*

☐ *A notice to proceed letter will be issued*

☐ *The date of the letter transmitting the contract will constitute the date of the notice to proceed*

1.26 Electromagnetic Compatibility Directive: Reserved

1.27 Government Property and Services: Refer to Part 3 of this PWS for Government property (GP) for this contract. For all issued GP for this contract, the Contractor shall submit a Property Management Plan to the Contracting Officer and the Property Administrator via the COR within ten after date of contract award (A027). The plan shall address the requirements as listed in Part 3 of this PWS.

1.28 Conventional Forces Europe (CFE) Treaty Verification Inspection: Reserved

PART 2 DEFINITIONS & ACRONYMS

2. Definitions and Acronyms

2.1 Definitions: Although not inclusive of every term used within this PWS, the following provides a list of definitions used throughout this PWS and commonly used in the acquisition field.

Contracting Officer – means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings on behalf of the Government. Note: The only individual who can legally bind the Government.

Contracting Officer's Representative (COR) – As defined in DFARS 202.101, means an individual designated and authorized in writing by the Contracting Officer to perform specific technical or administrative functions. DoD Instruction (DoDI) 5000.72, Part II Definitions states the following when defining a COR: “Defined in subpart 202.101 of Reference (f). Any individual delegated responsibilities pursuant to subpart 1.602-2 of Reference (e), regardless of local terminology, must be certified in accordance with this instruction. For example, local terminology can be COR, Contracting Officer’s technical representative, technical point of contact, technical representative, alternate COR, administrative COR, assistant COR, line item manager, task order manager, quality assurance personnel, quality assurance evaluator, or COR management.” In addition, Army Regulation 70-13, Chapter 2, paragraph 2-2g, states, in part, the following when providing other surveillance support personnel to assist the COR when needed, “...These other surveillance support personnel may serve as on-site representatives of the COR in performance of actual contract surveillance if they meet all COR requirements and have been appointed by the Contracting Officer as alternate CORs.”

Contractor – means a supplier or vendor awarded a contract to provide specific supplies or service to the Government. The term used in this contract refers to the prime.

Contractor-acquired Property - means property acquired, fabricated, or otherwise provided by the Contractor for performing a contract and to which the Government has title.

Day – means, unless otherwise specified, a calendar day.

Defective Service – means a service output that does not meet the standard of performance associated with the Performance Work Statement.

Deliverable – means anything that can be physically delivered, but may include non-manufactured things such as meeting minutes or reports.

Government-furnished Property – As reflected in FAR 52.245-1, Government-furnished Property “means property in the possession of, or directly acquired by, the Government and subsequently furnished to the Contractor for performance of a contract. Government-furnished property includes, but is not limited to, spares and property furnished for repair, maintenance,

overhaul, or modification. Government-furnished property also includes contractor-acquired property if the contractor-acquired property is a deliverable under a cost contract when accepted by the Government for continued use under the contract

Government Property - means all property owned or leased by the Government. Government property includes both Government-furnished and Contractor-acquired property. Government property includes material, equipment, special tooling, special test equipment, and real property. Government property does not include intellectual property and software.

Property Administrator - means an authorized representative of the Contracting Officer appointed in accordance with agency procedures, responsible for administering the contract requirements and obligations relating to Government property in the possession of a Contractor.

High Level Objective (HLO) – means a key overarching result-based objective for a project necessary to achieve the project’s vision. HLOs are similar to Level 2 in a Work Breakdown Structure. Each HLO may contain several statements to flesh out the areas necessary to meet the objective.

Physical Security – means that part of security concerned with physical measures designed to safeguard personnel; to prevent unauthorized access to equipment, installations, material, and documents; and to safeguard against espionage, sabotage, damage, and theft.

Quality Assurance – (or Government contract quality assurance) means the various functions, including, inspection, performed by the Government to determine whether a Contractor has fulfilled the contract obligations pertaining to quality and quantity.

Quality Assurance Surveillance Plan (QASP) – means the key Government-developed surveillance process document, and is applied to Performance-Based Service Contracting (PBSC). The QASP is used for managing Contractor performance assessment by ensuring that systematic quality assurance methods validate that Contractor quality control efforts are timely, effective, and are delivering the results specified in the contract or task order. The QASP directly corresponds to the performance objectives and standards (i.e., quality, quantity, timeliness) specified in the Performance Work Statement (PWS). It provides specific details on how the Government will survey, observe, test, sample, evaluate, and document Contractor performance results to determine if the Contractor has met the required standards for each objective in the PWS. The QASP, with very few if any exceptions, is an internal to Government document.

Quality Control – means all necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

Statement – means the specific results-based activities required to satisfy HLOs. A statement contains a result, the context of the statement, and the required action(s). Statements focus on “what” is to be accomplished; however they are not prescriptive in describing “how” the outcome is to be achieved. Each HLO may have several statements to flesh out the areas

necessary to meet the objective. Statements are similar to Level 3 in a Work Breakdown Structure.

Subcontractor – means one that enters into a contract with a prime Contractor. The Government does not have privity of contract with the subcontractor.

Work Day - The number of hours per day the Contractor provides services in accordance with the contract.

Work Week - Monday through Friday, unless otherwise specified.

2.2 Acronyms: Although not inclusive of every term used within this PWS, or that may be included in an acquisition, the following provides a list of acronyms commonly used in the acquisition field.

ACOR	Alternate Contracting Officer's Representative
AE	Army in Europe
AFARS	Army Federal Acquisition Regulation Supplement
AHA	Activity Hazard Analysis
AOR	Area of Responsibility
AR	Army Regulation
AT	Anti-terrorism
ATCTS	Army Training Certification Tracking System
CAC	Common Access Card
CCE	Contracting Center of Excellence
CFE	Conventional Forces Europe
CFR	Code of Federal Regulations
CONUS	Continental United States (excludes Alaska and Hawaii)
COR	Contracting Officer's Representative
COTS	Commercial-Off-the-Shelf
DA	Department of the Army
DARPA	Defense Advanced Research Projects Agency
DD250	Department of Defense Form 250 (Receiving Report)
DD254	Department of Defense Contract Security Requirement List
DFARS	Defense Federal Acquisition Regulation Supplement
DMDC	Defense Manpower Data Center
DoD	Department of Defense
FAR	Federal Acquisition Regulation
FRG	Federal Republic of Germany
GFP	Government Furnished Property
HLO	High Level Objective
HIPAA	Health Insurance Portability and Accountability Act of 1996
IA	Information Awareness
IAC	Installation Access Control
IACO	Installation Access Control Office
ID	Identification

IGCE	Independent Government Cost Estimate
IT	Information Technology
JTR	Joint Travel Regulation
JPAS	Joint Personnel Adjudication System
KO	Contracting Officer
OCI	Organizational Conflict of Interest
OCONUS	Outside Continental United States (includes Alaska and Hawaii)
ODC	Other Direct Costs
OPSEC	Operations Security
PA	Property Administrator
PII	Personally Identifiable Information
PIPO	Phase In/Phase Out
POC	Point of Contact
PRS	Performance Requirements Summary
PWS	Performance Work Statement
QA	Quality Assurance
QAP	Quality Assurance Program
QASP	Quality Assurance Surveillance Plan
QC	Quality Control
QCP	Quality Control Program
RA	Requiring Activity
RACER	Robotic Autonomy in Complex Environments for Resiliency
RHP	RACER Heavy Platform
RCO	Regional Contracting Office
SIGE	Safety and Health Protection Plan
TE	Technical Exhibit
USAG	United States Army Garrison
USAREUR	United States Army Europe
UOM	Unit of Measure

PART 3
GOVERNMENT PROPERTY (GP) AND SERVICES

3. Government Property and Services

3.1 Services: Reserved

3.2 Facilities: The Government will provide necessary office space and access to maintenance facilities at Government installations as required. During the course of this contract, the Contractor shall not make or cause to be made temporary or permanent alterations to Government owned or controlled real property facilities without the written approval of the KO/COR. Facilities may include buildings and structures. The Contractor shall be responsible for keeping the work area neat and free from unsafe conditions. The Contractor shall use reasonable care to avoid damaging existing buildings, equipment, and vegetation on the Government installation. If the Contractor's failure to use reasonable care causes damage to any of this property, the Contractor shall replace or repair the damage at no expense to the Government as the Contracting Officer directs. If the Contractor fails or refuses to make such repair or replacement, the Contractor shall be liable for the cost, which may be deducted from the contract price.

3.3 Utilities: The Government will provide all utilities in the facility to the Contractor for their use in performing tasks outlined in this PWS. The Contractor shall instruct employees in utilities conservation practices. The Contractor shall operate under conditions that preclude the waste of utilities, which include turning off the water faucets or valves, light switches, etc. after using the required amount to accomplish tasks requiring the use of the utilities.

3.4 Equipment: The Government will provide the four (4) RACER Heavy Platforms (RHP) and other equipment to accomplish work under the PWS and is subject to change based on resource requirements. This includes computers, printers, network services, and other data collection equipment/software as determined necessary by the Government. At no time does the title of GFE/GFP pass to the Contractor, and at no time may the Government be denied access to this equipment, property, and/or data.

3.5 Special Tooling and Test Equipment: Refer to Part 7 of this PWS for GP for this contract. Refer to GP FAR Clause 52.245-1.

3.6 Materials: The Government will provide access to any existing Government-Furnished Equipment (GFE) parts already transferred from the RCV program or procured through the original RACER contract.

3.7 Training: The Government will provide the following training: AT Level 1 Awareness, OPSEC, and iWATCH.

3.8 Common Access Cards (CAC): The Government will provide Common Access Cards (CAC) via the Trusted Associate Sponsorship System (TASS) (Web site <https://www.dmdc.osd.mil/tass/>).

PART 4

CONTRACTOR FURNISHED ITEMS AND SERVICES

4. Contractor Furnished Property and Services

4.1 General: The Contractor shall furnish all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items necessary to perform services as described in the PWS and associated contract documents, except for those items specified in Part 3 Government Property and Services.

4.2 Secret Facility Clearance: The Contractor shall possess and maintain a SECRET facility clearance from the Defense Security Service IAW DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM) and AR 380-49, Industrial Security Program. The Contractor's employees, performing work in support of this contract shall have been granted a SECRET from the Defense Industrial Security Clearance Office. The Facility Security Clearance must match the highest security clearance required for personnel. The DoD Contract Security Classification Specification (DD 254) is provided as an attachment in the basic contract.

4.3 Materials: The Contractor shall provide all specialized tools required for hardware and software maintenance on the M5 RACER Heavy Platforms.

4.4 Vehicles and Equipment: The Contractor shall The Contractor shall provide a fully equipped trailer or van containing specialized tools and essential spare parts required to perform the work under this contract.

4.5 Background Checks): The Contractor shall provide Background Checks in accordance with this PWS and as determined by the Government.

PART 5

SPECIFIC TASKS

5.1 Basic Services: T The Contractor shall provide services for the maintenance and sustainment of four (4) RACER Heavy Platforms.

5.2 Tasks: Tasks consist of the following: The Contractor shall provide service level subject matter expertise to maintain and sustain the RHP hardware. The Contractor shall provide service level subject matter expertise to maintain and sustain the RHP software. The Contractor shall provide recommendations to the 36th Engineer Brigade on utilization and best practices for the RHP.

5.2.1 Program Management: The contractor shall establish and maintain a clear and effective program management structure to oversee all work performed under this contract.

5.2.1.1 Program Manager (PM): The contractor shall designate a Program Manager (PM) who will serve as the single point of contact for all contract-related matters. The PM shall be responsible for the overall management of the contract, including supervision of contractor personnel, coordination of support, and ensuring that all performance, schedule, and cost requirements are met.

(a) STD: The PM shall be reachable by phone or email during normal duty hours (0900-1700 CST, Monday-Friday). Program management shall be conducted in accordance with industry best practices.

AQL: 100% Compliant

5.2.1.2 Program Management Reviews (PMR): The contractor shall participate in quarterly Program Management Reviews (PMRs) with the Government.

(a) STD: PMRs will be conducted to discuss performance, schedule, risks, and overall status. The contractor shall prepare and present materials for these reviews (A028) NLT three business days prior to the scheduled PMR.

AQL: Pass or Fail

5.2.1.3 [REDACTED]: The Contractor shall manage a subcontract [REDACTED] [REDACTED] to provide base-platform-specific support and parts.

(a) STD: [REDACTED] subcontractors are available to meet the hardware maintenance guidelines specified in this document.

AQL: Pass or Fail

5.2.2 On-site Field Support

5.2.2.1 FSR Responsibilities: The FSRs shall serve as the primary on-site technical experts for the RHP systems, providing diagnostics, maintenance oversight, and technical guidance. The Contractor shall develop products and perform revisions of existing materials based on

results of training analysis, fielding of new systems to meet evolving needs of the Senior Commander.

(a) STD: FSRs shall be on-site during mutually agreed-upon core hours and available for surge support as required by the unit's operational tempo. All technical guidance shall be in accordance with OEM documentation.

AQL: Pass or Fail. 90% of all technical issues are correctly diagnosed on the first attempt.

5.2.2.2 Field support for training events: The Contractor shall provide on-site field support for all designated training events.

(a) STD: Contractor will provide support for the following events: Learning Activity 6 (Fort Hood, TX, April 2026), Learning Activity 7 (Fort Hood, TX, September 2026), Learning Activity 8 (Fort Hood, TX, November 2026), and Learning Activity 9 (National Training Center, Fort Irwin, CA, March 2027).

AQL: Pass or Fail.

5.2.2.3 FSR Qualifications: FSRs shall possess certification and documented expertise on the RHP systems.

(a) STD: Contractor shall provide proof of experience for all proposed FSRs. AQL: 100% of FSRs assigned to the contract must possess documented expertise.

5.2.3 Platform Maintenance and Sustainment

5.2.3.1 Routine maintenance: The contractor shall be responsible for all hardware and software maintenance actions required to sustain the four (4) RHPs.

(a) STD: All maintenance shall be performed in accordance with the procedures and specifications outlined in the OEM technical manuals and service bulletins. The contractor shall maintain an Operational Readiness (OR) rate of 90% for the RHP fleet, calculated monthly.

AQL: Pass or Fail. 90% of all technical issues are correctly diagnosed on the first attempt.

(b) STD: The contractor shall respond to a request for corrective maintenance within 24 hours of notification. The system shall be returned to Fully Mission-Capable (FMC) status within a timeframe agreed upon with the COR, dependent on the complexity of the repair and parts availability.

AQL: Pass or Fail.

(c) STD: The Contractor shall provide software support for the autonomy systems on all four platforms. This includes remote support from software engineers to provide security patches, bug fixes, and performance enhancements as required.

AQL: Pass or Fail.

5.2.3.2 Preventative maintenance: Before each training event, the Contractor shall conduct thorough preventive maintenance on all operational platforms

(b) STD: Contractors are on site and conduct preventive maintenance checks and services (PMCS) on each RHP that will be used within hours prior to the training event.

AQL: Pass or Fail.

5.2.3.3 Maintenance and Repair Records: The contractor shall document all maintenance actions in a Maintenance Log (A029).

(a) STD: The Maintenance Log shall be 100% accurate and complete for all maintenance actions. The log shall be submitted to the COR no later than the 5th business day of the following month.

AQL: Pass or Fail

5.2.4 Parts and Supply Chain Management: The contractor shall establish and manage a comprehensive supply chain for all necessary parts and materials.

5.2.4.1 Parts: The Contractor shall procure the hard ware components required to maintain and sustain the four RHPs.

(a) STD: All parts and components supplied under this contract shall be OEM-certified. The contractor shall manage inventory in accordance with commercial best practices for logistics and supply chain management. Any expense exceeding \$10,000 shall require prior discussion and approval with the designated Government event leads.

AQL: The Contractor shall manage a materials budget of \$350,000 to acquire necessary components not available in current inventory. This includes, but is not limited to, OEM platform parts, autonomy sensors, fluids, and filters.

5.2.4.2 Network Subscriptions: The Contractor shall procure and manage data service subscriptions.

(a) STD: Data service subscriptions will cover the mounted Starlink and cell modems on each platform, to include a shared total of 2TB of eSIM data and blocks of 500 GB of data per Starlink, to be active during training events.

AQL: Pass or fail.

5.2.5 Software and Systems Support: The contractor shall provide full life cycle support for the specialized software and firmware integral to the RHP systems.

(a) STD: Software installation and patching shall be performed in accordance with OEM-provided instructions and security guidelines.

AQL: Software updates and security patches installed timely as coordinated with the COR to align with operational schedules.

5.2.6. Training: The contractor shall provide training to the end-users (Soldiers).

(a) STD: The Contractor shall deliver comprehensive training to end-users (Soldiers) to ensure safe and effective operation of the platforms. This includes operator-level repair training and regular refresher training prior to events.

AQL: Contractor provides Operator New Equipment Training (OPNET) refresher training within one week prior to any training event.

5.3 Service Contract Reporting

5.3.1 System for Award Management (SAM) Service Contract Report (SCR): The Contractor shall report ALL Contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract for the 36th Engineer Brigade via a secure data collection site. The Contractor is required to completely fill in all required data fields through the following web address: www.sam.gov. Reporting inputs will be for the labor executed during the period of performance during each Government FY, which runs from October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk by clicking “View Assistance for SAM.gov” which is located at the top of the SAM.gov website. From there, you can select “Contact Our Service Desk” which will allow you to contact SAM.gov directly. If contract period of performance ends prior to September 30, the Contractor has 30 calendar days from end date of the contract to complete the SAM SCR requirement.

Steps for Submitting a Service Contract Report (SCR)

1. Go to www.sam.gov and log in.
2. Select Entity Registrations and then select Service Contract Reporting.
3. SAM displays your entities which have service contracts and meet the reporting criteria. Select View by entity to see the service contracts for each entity.
4. Next, select Add for the service contract against which you want to create a Service Contract Report. Each service contract which meets the FAR Subpart 4.1703 reporting thresholds is displayed.
5. You will be taken to the Complete Service Contract Report page. SAM displays the contract details and allows you to report. You are required to enter the following information:
 - **Total Amount Invoiced:** Total dollar amount invoiced for services performed during the previous Government fiscal year under the contract (this amount should include the prime and any subcontract amount).
 - **Prime Contractor Hours Expended:** Prime contractor direct labor hours expended on the services performed during the previous Government fiscal year. The amount you enter is automatically divided by 2,080 hours to calculate a Full Time Employee (FTE) equivalent, displayed under the Prime Contractor Hours Expended as Prime Contractor FTEs.

6. Report any required Tier 1 subcontractor information by selecting the Add Tier 1 Subcontract Information button.
7. When you are ready to submit the report, select Submit. This saves your report and returns you to the Select Service Contract page where you can create other SCRs or edit an existing SCR.

Steps for Editing a Submitted Report

1. Follow steps 1-4 above. Any previously submitted SCR will have a View/Edit button instead of an Add button.
2. Select View/Edit. You will be able to view the current SCR, edit available fields, and resubmit the record. You can also delete previously entered information altogether.

STD: All information provided by the Contractor shall be accurate, complete, and not exceed suspense dates noted in corresponding paragraph above.

AQL: 100% Compliant

(A030)

PART 6

APPLICABLE PUBLICATIONS

6. Applicable Publications (Current Editions): The following publications, manuals, regulations, etc. are mentioned in this PWS and are listed below.

- 6.1.1 Department Of Defense Contract Security Classification Specification (DD Form 254)
- 6.1.2 Department of Defense Security Agreement (DD Form 441)
- 6.1.3 National Industrial Security Program Operating Manual (DoD 5220.22-M)
- 6.1.4 Installation Access Control (AE Reg 190-16)
- 6.1.5 The Army Physical Security Program (AR 190-13)
- 6.1.6 Contractor Identification (AE Reg 27-715)
- 6.1.7 U.S. Army Corps of Engineers Safety and Health Requirements Manual (EM 385-1-1)
- 6.1.8 Information Assurance Workforce Improvement Program (DoD 8570-M)
- 6.1.9 Information Assurance Training Certification and Workforce Management Directive (DoDD 8570.01)
- 6.1.10 Information Assurance (AR 25-2)
- 6.1.11 Electromagnetic Compatibility Directive (2004/108/EC)
- 6.1.12 Policies and Procedures for Property Accountability (AR 735-5)
