A. INTRODUCTION/ BACKGROUND:

The NRL Pomonkey Facility (NRL Code 8124) has a requirement of a qualified contractor to drill one new water well (bore hole) for a primary, potable water supply at the NRL Pomonkey Facility. The project site is located at 7425 Bumpy Oak Road, La Plata, MD.

The contractor will, in accordance with the terms and conditions set forth below, furnish all supervision, labor management, facilities, supplies, equipment and materials, and all required services necessary for the turn-key performance of the work. Well construction must be provided by a State of Maryland licensed well driller.

B. GENERAL CONTRACT INFORMATION: Provide service consisting of the following task:

a) Task: Provide all necessary labor, equipment, parts and supplies to:

Demolition / Decommission:

Decommission old well as required by Maryland state regulations, to include filling of old well with dry bentonite and properly cap or seals as per local state requirements. Prepare Water Well Abandonment-Sealing Report (electronic form found at New Well Abandonment form.pdf (maryland.gov)). The completed report must be signed by a licensed master well driller or supervising sanitarian. Remove existing pump, pressure tanks, associated pipe connection and any device related to the existing well operation. Properly dispose any material. Remove electrical connection back to point of connection. Existing well cannot be demolished and disconnected from the water distribution system until the new well is ready to be connected to the existing water distribution.

New Work:

Well Location:

- The well must be protected from the pollution of non-sanitary surroundings and should be located within 50 feet of the existing well (Well # CH-88-1739, water appropriation permit number CH1991G005(03)).
- All required permits and certifications must be valid and exist before and during all work performed to construct the well. This includes a permit to drill a well under the COMAR 26.04.04

Pump Specifications:

- The contractor shall provide a pump with footing and a protective screen sized to prevent the introduction of sand or silt into the suction line per American Water Works Association (AWWA) standards. It shall be capable of pumping water with 1 1/4 inch pipe, a minimum of 20 feet above the well head ground surface at any point on the Facility, while meeting volume of 10 gallons/min water flow with a 1 1/2 H.P. pump. If static water pressure is too deep, a 2 H.P. pump is to be used. The electric cable shall be made for underwater use, as long as needed per IEC 502 code.

Pressure Tank Specifications:

The contractor shall provide two pressure tanks and all associated piping and fittings to appropriately match the pump and well specifications.

Well Specification:

- The well depth is expected to be between 500 - 900 feet, depending on water volume, with a 4 1/2 inch diameter casing pipe, with a commercial pump screen material of Type 304 stainless steel.
- Obtain all required licenses/permits to proceed with installation. Application for new well can be found at New Well Application Form.pdf (maryland.gov).
- Drill a 4 1/2" well to a depth that tests show adequate yield of 10 gallons/min.
- Development of drilling via rotary drilled. Complete drilling to estimated depth of usable groundwater and estimate safe yield for well prior to completion. Develop well to maximum yield per foot of drawdown.
- Fill annular space from top to bottom with concrete grout and provide permanent casing with temporary well cap. Top of casing should be approximately 12" above ground level finished grade.
- Purchase, install and connect new water well pipe to two new, contractor furnished pressure tanks.
- Purchase adequate proposed pump capable of providing 10 gallons per minute. Install purchased pump and test for plumb and alignment per AWWA A100.
- Purchase and install new pump electrical wire and connect to existing electrical panel. New pump electrical wire must be furnished by the contractor that meets the specifications of the manufacturer of the pump. Failure in correctly sizing the diameter of wire conductor will result in re-work at contractor's expense. Per National Electric Code (NEC) a properly sized ground wire should be part of the wire bundle leading from the pump in the well to the controller.
- Conduct final pumping tests after well has been constructed, cleaned, and tested for plumb and alignment. The pump must meet volume per day requirements for 5 sustained days. Contractor will be responsible for providing all flow meters necessary to provide well yield. After pump is installed, the water well shall be fully tested for compliance. The cost of this capacity test shall be included in the cost of this work.
- Contractor will submit a completion report to the Approving Authority (Charles County Health Department). Completion Report can be found at New Well Completion Report.pdf (maryland.gov). (<https://mde.maryland.gov/programs/Water/BayRestorationFund/OnsiteDisposalSystems/Documents/NewWellCompletionReport.pdf>)
- Perform lab tests to indicate that the water is safe for human consumption and obtain a Certificate of Potability (COP). Refer to this site (MDE Water Well Construction) for additional information on COP. (<https://mde.maryland.gov/programs/Water/BayRestorationFund/OnsiteDisposalSystems/Pages/WellConstruction.aspx#Contact%20Info>)
- Clean work site area after completion of the work each day.
- Restore work site to pre-construction conditions.
- Monitor any discrepancies and corrective action.

Deliverables:

- Fully operational Well
 - Water Well (Bore hole) with specified casing 4 1/2 inch inside diameter meeting ASTM standards for wall thickness to a depth that can meet a water demand of 10 gallons/min for 5 consecutive days.

POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (JAN 2025)

(a) *Definitions.* As used in this clause-

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern-

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (d) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) If the Contractor represented its status as any of the small business concerns identified at 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (f) of this clause or, if applicable, paragraph (h) of this clause, for the NAICS code assigned to an order (except that paragraphs (c)(1) through (3) of this clause do not apply to an order issued under a Federal Supply Schedule contract at subpart 8.4)-

(1) Set aside exclusively for a small business concern identified at 19.000(a)(3) that is issued under an unrestricted multiple-award contract, unless the order is issued under the reserved portion of an unrestricted multiple-award contract (e.g., an order set aside for a woman-owned small business under a multiple-award contract that is not set-aside, unless the order is issued under the reserved portion of the multiple-award contract);

(2) Issued under a multiple-award contract set aside for small businesses that is further set aside for a specific socioeconomic category that differs from the underlying multiple-award contract (e.g., an order set aside for a HUBZone small business concern under a multiple-award contract that is set aside for small businesses);

(3) Issued under the part of the multiple-award contract that is set aside for small businesses that is further set aside for a specific socioeconomic category that differs from the underlying set-aside part of the multiple-award contract (e.g., an order set aside for a WOSB concern under the part of the multiple-award contract that is partially set aside for small businesses); and

(4) When the Contracting Officer explicitly requires it for an order issued under a multiple-award contract, including for an order issued under a Federal Supply Schedule contract (see 8.405-5(b) and 19.301-2(b)(2)).

(d) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards>.

(e) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(f) Except as provided in paragraph (h) of this clause, the Contractor shall make the representation(s) required by paragraphs (b) and (c) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, or with its offer for an order (see paragraph (c) of this clause), that the data have been validated or updated, and provide the date of the validation or update.

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation.

(Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions.* As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror shall select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

Section M - Evaluation Factors for Award

M-1 BASIS FOR AWARD

1. LOWEST PRICE TECHNICALLY ACCEPTABLE (LPTA):

a. Award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors set forth in the solicitation. To be considered technically acceptable, an offeror's proposal must be rated "acceptable" under all technical factors. An "acceptable" rating will be assigned to a proposal that has satisfied all of the requirements of the technical evaluation factors set forth herein. An "unacceptable" rating will be assigned to a proposal that has not satisfied one or more requirements of the technical evaluation factors.

b. Pricing shall be evaluated in accordance with completeness and reasonableness criteria that are described below.

c. In evaluating proposals, the Government will consider the following evaluation factors: Technical Capability and Price.

d. The Government intends to award a contract without discussions, but reserves the right to hold discussions if determined by the Government to be in its best interests. The Government may communicate with an Offeror in order to clarify, verify, or obtain additional information as it pertains to their proposal. Such communications will not constitute discussions within the meaning of FAR Part 15 and will not obligate the Government to make a competitive range determination, conduct discussions, or solicit or entertain revised proposals.

M-2 FACTORS TO BE EVALUATED

(a) The Government will award a contract resulting from this solicitation to the responsible vendor whose offer conforming to the solicitation will be most advantageous to the Government. Factors others than price shall be considered, and a Price /Technical Tradeoff analysis of both price and non-price factors will be conducted in evaluating each quote submitted. Trade-off considerations may result in the determination that it is in the best interest of the Government to award to other than the lowest priced Vendor or other than the highest technically rated Vendor. The following factors shall be used to evaluate offers:

1. TECHNICAL CAPABILITY

The Offeror shall furnish an overview of their capabilities to successfully complete the work described in the Statement of Work. The Offeror shall list all required licenses for the district of Washington, D.C. with the Technical Proposal.

The Government will evaluate quotes based on how well the proposed product(s) meet the requirement of Section C - Description /Specifications/Statement of Work.

For the purpose of evaluation, Technical Capability is defined as meeting all physical, functional, performance, and any other terms and conditions specified in the solicitation and its attachment(s).

2. PRICE FACTOR

The Government will evaluate price proposals to determine their price realism, completeness, and reasonableness. The Government will perform its price evaluation by comparing an Offeror's proposed prices against the Government's estimate as well as against each of the other Offerors. Any betterments for the Government shall clearly be identified within the price proposal. Price evaluations will not result in the assignment of adjective ratings.

Completeness is the degree to which an Offeror has priced all aspects of the work to be performed. Reasonableness has to do with whether the prices that are proposed are in accordance with current or reasonableness projections of prevailing costs found in the market place.

The Government will consider whether the price is realistic, that is, whether it adequately reflects an understanding of the project and whether it can support the proposed approach. Offerors are placed on notice that any offer which is unrealistic in terms of supporting the technical approach, or unrealistically low in price may be deemed reflective of an inherent lack of technical competency or indicative of failure to comprehend the complexity of the requirements and may be grounds for the rejection of the submission.

FAR SECTION V: FAR 52.212-2 - EVALUATION - COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021) applies to this acquisition.

The following table of technical requirements define specific value to the Government. Each requirement will be assessed an adjectival rating of Acceptable or Unacceptable, based on whether the information submitted both meets and exceeds specifications, meets specifications, or does not meet specifications.

RATING	ABBREVIATION	DEFINITION
Acceptable	A	The proposal contains no deficiencies or weaknesses. Based on information provided, the offeror demonstrates an understanding of the specifications required and MEETS all specifications.
Unacceptable	U	The proposal contains deficiencies, weaknesses, or omissions. Proposal fails to provide a reasonable, logical approach to fulfilling the government's requirements. Based on information provided, the proposal DOES NOT MEET all specifications.

3. PRICE REASONABLENESS:

(a) The Government anticipates making a determination of fair and reasonable price based on competitive quotes. If only one response is received, the Government may use other methods as described at 13.106-3(a)(2).

(b) Award on Initial Responses; Exchanges with Best-Suited Contractor

The Government anticipates selecting the best-suited contractor from initial responses, without engaging in exchanges with vendors.

Vendors are strongly encouraged to submit their best technical solutions and price in response to this RFQ. However, the Government may engage in limited exchanges to clarify certain aspects of quotes. Once the Government determines the contractor that is the best suited (i.e., the apparent successful contractor), the Government reserves the right to communicate with only that contractor to address any remaining issues and revise quotes, if necessary, and finalize an award with that contractor. These issues may include technical and price. If the parties cannot successfully address any remaining issues, as determined in the sole discretion of the Government, the Government reserves the right to conduct exchanges with the next best-suited contractor and address any remaining issues and revise quotes, if necessary, and finalize an award with that contractor.

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror, within the time for acceptance specified in the offer, shall result in a binding contract, without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End Solicitation)
