

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE J		PAGE 1 OF 5	
2. AMENDMENT/MODIFICATION NUMBER 0001		3. EFFECTIVE DATE 24 Mar 2026		4. REQUISITION/PURCHASE REQUISITION NUMBER See Continuation Sheet		5. PROJECT NUMBER (If applicable)	
6. ISSUED BY CODE NAVSUP WEAPON SYSTEMS SUPPORT PHILADELPHIA, 700 ROBBINS AVENUE PHILADELPHIA, PA 19111-5098 UNITED STATES Meghan Gubicza, Email: meghan.e.gubicza.civ@us.navy.mil Telephone: 2156979270		7. ADMINISTERED BY (If other than Item 6) CODE SCD: PAS:					
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code)				☒ (X)		9A. AMENDMENT OF SOLICITATION NUMBER N0038326RA051	
				☒ (X)		9B. DATED (SEE ITEM 11) 02 Mar 2026	
				☐		10A. MODIFICATION OF CONTRACT/ORDER NUMBER	
				☐		10B. DATED (SEE ITEM 13)	
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

See Section G - Contract Administration Data

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.**

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this amendment is to update Section C, 1.0 SCOPE - 1.1, 1.2, 1.4.1, 1.4.3. through 1.6.2, and 2.0

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Section C - Description/Specifications/Statement of Work

Miscellaneous text in this section has been modified to:

(a) Articles to be repaired and/or modified under this agreement, as shown on Attachment "A", will be shipped at the Government's expense to the plant of the contractor at:

BAE Systems Controls, Inc. (89954)

1098 Clark Street Endicott, NY 13760-2815

The contractor shall receive for each shipment a list (referencing this agreement number) of the articles included in the shipment.

(b) Upon receipt of such articles, the contractor shall:

- (1) Verify that the articles received corresponds with the list of the articles furnished for such shipment; and further verify that the articles received are covered by the applicable Delivery Order;
- (2) Segregate those assets that were improperly sent to the contractor, contact PCO for return shipping instructions, and return improperly sent items to the Government;
- (3) Advise the Government PCO if any portion of the required repair is covered under a warranty; or is a result of the furnishing by the contractor of articles that were defective in material and/or workmanship, or otherwise not in conformance with the requirements of the contract under which such articles were originally furnished;
- (4) Further advise the Government (PCO) of the results of the foregoing preliminary inspection, together with a list of the articles and quantities required to be repaired.

1.0 SCOPE

1.1. General. The items to be furnished hereunder are Government Furnished Property (GFP) and shall be repaired, tested, inspected, and accepted in accordance with the terms and conditions specified in this BOA. Equipment such as fixtures, jigs, dies, patterns, mylars, special tooling, special test equipment, or any other manufacturing aid required for the repair, manufacture, and/or testing of the subject item(s), will not be provided by the Government and shall be the responsibility of the Contractor unless expressly provided for on Attachment A. This limitation regarding the furnishing of equipment applies notwithstanding any reference to the contrary in any drawing, manual, or specification for the BOA items.

1.2. Repair Requirements. The Contractor shall provide the necessary facility, labor, materials, parts, and test and tooling equipment required to return the items (see Attachment A for a list of these items) to a Ready For Issue (RFI) condition. RFI is defined as that condition allowing the items to perform properly and reliably in an operational environment in a manner they were intended to operate. The Contractor shall identify on Attachment A the governing repair manual(s)/documents for each item covered by this BOA. On the same attachment, the Contractor must identify the facility for each item where repair, including final test and inspection, is completed.

1.2.1. Changes to repair manuals/documents and changes to drawings or specifications for the manufacture of parts utilized in these repairs require Procuring Contracting Officer (PCO) approval. In addition, as provided for in Section 2.3, requests for changes to a repair source or repair facility shall be submitted in writing to the PCO and must be approved prior to making any such change.

1.2.2. Any repairs performed using unapproved changes to manuals, drawings, specifications, or unapproved changes to a repair source or facility are not permitted.

1.2.3. The Contractor is not entitled to any equitable adjustment to the price or BOA terms based on the Government's disapproval of a requested change to manuals, drawings, specifications, or to a repair source or facility.

1.3. Beyond Physical Repair (BPR)

1.3.1. Scope. An item is BPR when the item is not capable of being repaired in accordance with the Statement of Work due to the extent of physical damage.

1.3.2. Procedures. The Contractor shall obtain written concurrence from DCMA for all units determined by the Contractor to be BPR. All such determinations, including the basis for the determination and the DCMA written concurrence shall be provided by the Contractor to

the PCO, with a copy to the Inventory Manager (IM). After receipt of the required documentation, the PCO shall provide the Contractor disposition instructions, either requesting the submission of a proposal for BPR pricing, or ordering the disposal of the item. If asked to provide a BPR pricing proposal, the Contractor shall provide the proposal to the PCO within 30 days of receipt of the request. Any disposal ordered shall be performed by the Contractor in accordance with all applicable regulations and the Contractor's approved Government property disposal procedures and the Contractor's approved Government property disposal procedures.

1.4. Beyond Economical Repair (BER)

1.4.1. Scope. An item is BER if the cost of the repair exceeds 80% of the replacement price for items identified on Attachment A. This replacement price is for the purposes of BER determinations only, and may not be used or relied on by the offeror in the pricing of the repairs required by this BOA.

1.4.2. Procedures. The Contractor shall obtain written concurrence from DCMA for all units determined by the Contractor to be BER. All such determinations, including the basis for the determination, the repair required, the Contractor's proposed BER price to repair, and the DCMA written concurrence, shall be provided by the Contractor to the PCO, with a copy to the IM. After receipt of the required documentation, the PCO shall provide the Contractor disposition instructions, either providing contractual authority for repair of the item or ordering the disposal of the item. The Contractor is not authorized to proceed with the repair until notification is received from the PCO. If provided disposition disposal instructions, the contractor shall submit a proposal for disposal pricing to the PCO within 30 days of receipt of these instructions. Any disposal ordered shall be performed by the Contractor in accordance with all applicable regulations and the Contractor's approved Government property disposal procedures.

1.4.3. The following additional procedures may apply, if authorized, for the replacement of a BER SRA (Shop Repairable Assembly) within a WRA (Weapons Repairable Assembly) when the SRA has not been separately inducted. The Contractor may request authorization to:

Ship in place an accepted item from an existing spares or repair [INSERT BOA/CONTRACT NUMBER], if any, or MILSTRIP the SRA(s),

Authorization to ship in place or MILSTRIP must be provided by the IM in writing to the Contractor and must be appropriately documented in accordance with the WEB-BASED COMMERCIAL ASSET VISIBILITY (WEBCAV) STATEMENT OF WORK. The Contractor must provide written notification of any item shipped in place or MILSTRIPed to the PCO and an equitable adjustment may be required. If authorization to ship in place or MILSTRIP is not provided, the Contractor shall contact the PCO for further instructions.

1.5. Missing on Induction (MOI).

1.5.1. Scope. A WRA is subject to this MOI provision if the item received by the Contractor for repair is missing one or more SRAs and the SRA is not a separately inducted item. Contractor replacement of MOI SRAs is not included in the contract price. Items received by the Contractor missing consumable parts are not MOI items. Rather, repair of such items and replacement of the missing consumable parts are included in the contract price and the item shall be inducted and repaired by the Contractor under this [INSERT BOA/CONTRACT NUMBER].

1.5.2. Procedures. The Contractor shall immediately notify DCMA when an item is received with MOI SRA(s) and shall obtain written verification from DCMA for all WRAs determined to have MOI SRA(s). The Contractor shall provide written notice of all such determinations, including identification of the missing SRA(s), and the DCMA written verification, to the IM with a copy to the PCO and ACO prior to induction and/or repair of the WRA. The Contractor shall not proceed with repair of WRAs with MOI SRAs until instructions on how to proceed are provided to the Contractor.

1.5.3. The following additional procedures may apply, if authorized, for the replacement of a MOI SRA within a WRA. The Contractor may request authorization to:

Ship in place an accepted item from an existing spares or repair [INSERT BOA/CONTRACT NUMBER], if any, or MILSTRIP the SRA(s),

Authorization to ship in place or MILSTRIP must be provided by the IM in writing to the Contractor and must be appropriately documented in accordance with the WEB-BASED COMMERCIAL ASSET VISIBILITY (WEBCAV) STATEMENT OF WORK. If either of these options is not authorized, the Contractor shall contact the PCO for further instructions.

1.6. Swapping SRAs

1.6.1. Scope. On rare occasions the Contractor may request authority to replace a failed but repairable SRA (within an inducted WRA) that is not BPR, BER or MOI.

1.6.2. Procedures. The Contractor may request authorization to replace the failed SRA unit from the Contractor's production line, by MILSTRIP for an RFI item from Government stock, or with another repairable WRA, i.e. cannibalization. Permission from the PCO must be obtained and an equitable adjustment may be required. Authorization to ship in place from the Contractor's production line or MILSTRIP must be appropriately documented in accordance with the WEB-BASED COMMERCIAL ASSET VISIBILITY (WEBCAV) STATEMENT OF WORK. Although permission from the PCO is required if the SRA is obtained from another repairable WRA (cannibalized), that transaction does not have to be input into CAV.

2.0 PARTS AND MATERIAL

2.1. The Contractor is responsible for supplying all parts and material necessary to perform the required repairs under this BOA unless parts or material are specifically identified on Attachment A as Government Furnished Material (GFM). All parts and material used in performance of this BOA shall be in accordance with the latest approved revision of applicable drawings and specifications. The Contractor shall ensure it has access for the duration of this BOA to updated drawings and specifications for parts and material required for repairs performed under this BOA. Any change to such parts/material drawings or specifications requires Government PCO approval.

2.2. All parts and material shall be new in accordance with FAR 52.211-5, Material Requirements, which is incorporated by reference herein. Authorization to use other than new material as defined by FAR 52.211-5 requires written approval from the PCO. In addition, cannibalization of piece parts must be approved by the PCO. Cannibalization of units that have not been inducted is not authorized and requires specific additional approval by the PCO. Cannibalization or swapping, including any actions authorized under paragraphs 1.5 and 1.6, shall not render an item BER or BPR.

2.3. Written approval from the PCO must be obtained prior to any change to the manufacturing source or manufacturing facility for all parts which require source approval. However, if the Contractor has been delegated authority in writing by another Navy Command to approve a change in manufacturing source or a manufacturing facility, the Contractor may implement such a change after notifying the PCO, providing a copy of such delegation to the PCO, and receiving acknowledgment of such delegation from the PCO.

2.3.1. Where there has been a change to a manufacturing source, the Contractor shall complete all qualification testing that was required when that item or component was originally qualified. Any changes in such testing shall be submitted to the Contracting Officer for Government review and approval. Any repairs performed using unapproved changes to such drawings, specifications or manufacturing source or facility are not authorized. The Contractor is not authorized to deliver any items until such testing (including revised testing as properly approved) has been completed and the delivered items are repaired/manufactured in accordance with the qualification requirements package.

2.3.2. The Contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a requested change to the drawings, specifications or manufacturing source or facility.

2.4. Purchased Material Control and Parts Control. The Contractor shall establish and maintain a system of control over purchased parts and material. Such controls shall, at a minimum, ensure that the parts and material purchased are in compliance with the requirements of this BOA.

2.5. Receiving Inspection of Purchased Parts and Material. Purchased parts and material shall be inspected by the Contractor upon receipt at the Contractor's facility to ensure conformance with all requirements of the applicable drawings and specifications. Alternatively, the Contractor shall submit, prior to contract award, evidence for Government review and approval of a purchased parts and material system which provides for adequate inspection to ensure parts and material conform with all requirements of the applicable drawings and specifications.

2.5.1. Evidence of such inspections shall be maintained by the Contractor or Subcontractor for Government review at least twelve (12) months following the conclusion of the contract. The inspection report shall, at a minimum, include a record of all dimensional data (coordinate/positional), material, finish, and processes with appropriate pass/fail criteria, such as certifications, and actual dimensional readings.

3.0 INSPECTION PROVISIONS

3.1. Government inspection shall be in accordance with FAR 52.246-2, Inspection of Supplies - Fixed-Price incorporated by reference in Section E, at source by DCMA unless otherwise specified in the BOA or as authorized by the Administrative Contracting Officer (ACO) or PCO. Acceptance testing shall be conducted under the surveillance of the DCMA QAR. These tests shall include all tests necessary to assure that the items repaired conform to the performance required to provide Ready For-Issue material. The DCMA retains the authority to require the Contractor to conduct or reconduct any tests deemed necessary to ensure compliance with the manuals, drawings and specifications applicable to this BOA.

The contractor shall furnish on an "as required" basis all parts required to complete servicing of repairable articles hereunder within established delivery schedules. Such parts shall be in accordance with applicable drawings and specifications.

The CAV Statement of Work (SOW) is located at: <https://www.navsupsupport.navy.mil/NAVSUP-Enterprise/NAVSUP-Weapon-Systems-Support/Provisions-Instructions-and-Contract/>; and incorporated herein by reference. The CAV SOW applies to all Orders for repair.

a) Deliver By dates for spares orders hereunder shall be specified on each delivery order.

b) Orders issued under the BOA shall be binding upon the date of issuance provided pricing and delivery schedule have been agreed to prior to issuance. The contractor shall, except as specified in paragraphs (a) and (b) below, immediately proceed with performance of the order.

- a) The contractor shall stop performance immediately and notify the Contracting Officer within 30 days of the date of order when an item to be delivered cannot be identified by the given part number or when an item's configuration has been superseded as a result of an approved engineering change. After receipt of such notice, the Contracting Officer will advise the contractor of any actions to be taken, including whether performance is authorized.
- b) The contractor shall not proceed with performance of any order when the contractor's applicable representations or certifications set forth in the BOA cannot be made by the contractor as to such order. Revised representations and/or certifications shall be provided to the Contracting Officer within ten days of the date of order issuance.
- c) The PQDR process shall apply to any item received with a latent defect or in nonconforming condition.
