Questions Concerning Solicitation:

36C26326Q0380: Women's Clinic Window Treatments

Minneapolis VA Medical Clinic

The following are inputs gathered from potential vendors for the site visit held on 3/25/26 at the women's clinic:

In waiting area 100:

- It is too tight to get behind the column so window treatment will run on either side of column (his comments). May be able to mount underside of curtain wall window frame instead.
- Electrical on left for treatment to left of column, electrical on right for window treatment to right of column

In all areas except for the waiting and vestibule:

- The ceiling drops below the window so no fascia is needed
