

REQUEST FOR INFORMATION/ SOURCES SOUGHT

**Defense Logistics Agency
DLA Troop Support Europe & Africa**

OBJECTIVE

The Defense Logistics Agency (DLA) Troop Support Europe & Africa Contracting Unit, is issuing a Request for Information (RFI) seeking vendors to provide EU Specification commercial vehicles and equipment in the following nine (9) product groups throughout Europe and Africa:

1. Material Handling Equipment (i.e.: Fork Lifts, Man Lifts, Tow Tractors, Reach Stackers etc.)
2. Sweepers and Scrubbers (i.e.: Airfield Sweepers, Utility Sweepers, Vacuum Loaders etc.)
3. Cranes (i.e.: All-Terrain Hydraulic, Lattice Boom, Barge Mounted etc.)
4. Construction Equipment (i.e.: Wheel Loaders, Articulated Dump Trucks, Excavators etc.)
5. Fire and Emergency Vehicles (i.e.: Rescue Vehicles, Hazmat Vehicles, All-terrain Emergency Vehicles etc.)
6. Agricultural Equipment (i.e.: Tractors, Rotary Cutters, Flail Mowers, Sprayers, etc.)
7. Trucks and Trailers (i.e.: Tractor Trailers, Dump Trucks, Cement Mixers, Water Tankers, etc.)
8. Snow removal (i.e.: De-icing Vehicles, Snow Plows, Snow Blowers, etc.)
9. Portable Power Equipment (i.e.: Generators, Light Towers, Compressors, etc.)

DLA Troop Support Europe and Africa's objective for this RFI is to conduct Market Research on methods available to support the EU Specification Heavy Equipment Program requirements for our DoD customers. The information submitted in response to this RFI may be used to help the Government further define its requirements and understand the interest of potential companies.

OVERVIEW

DLA provides supply support and logistics services to the Army, Air Force, Navy, Marine Corps, and other federal agencies. The Government is requesting input from industry to determine the potential for an Indefinite Delivery Indefinite Quantity (IDIQ) in support of the DOD's potential EU Specification Heavy Equipment needs in Europe & Africa.

PROJECTED SCOPE OF WORK

The purpose of the EU Spec Heavy Equipment Europe & Africa Prime Vendor IDIQ is to provide a vehicle for the U.S. Military, Federal Government Agencies, and other authorized customers of DLA to purchase commercial vehicles and equipment in the following nine (9) product groups - Material Handling Equipment, Sweepers and Scrubbers, Cranes, Construction and Equipment, Fire and Emergency Vehicles, Agricultural Equipment, Trucks and Trailers, Snow removal, and Portable Power Equipment. This will enable our partners to get these EU Specification vehicles built to local specs, local maintenance, and in the time needed for the Area of Operation (AoR).

The Government is contemplating two approaches:

1. The first approach is to award a multiple award Indefinitely Delivery Indefinitely Quantity contract to various contractors where delivery orders would be competed between awardees. The Area of Responsibility (AOR) for Heavy Equipment delivery would be all of Europe and Africa.
2. The second approach would be to award three Prime Vendor contracts where each Vendor would be responsible for awards to respective Zones. Zones could be divided as follows:

North of the Alps Countries		Mediterranean Countries	
Zone 1		Zone 2	
Armenia	Latvia	Andorra	Portugal

GENERAL QUESTIONS

If you are currently doing business or have previous experience with a Heavy Equipment Program within Europe and Africa and/or provide similar customer support, please provide information in response to the following concerning brand new, European specification vehicles, machines and equipment including standard manufacturer warranty (If you've previously answered questions 1-4, please disregard).

1. What is your company's history and experience in providing heavy equipment in various locations in Europe & Africa?
2. Is your company a manufacturer, dealer or reseller?
3. Which of the 9 product groups listed in the RFI does your company specialize in?
4. Please provide a list of the specific models and brands you offer within each product group.
5. Does your company foresee any issues or concerns with either approach?
6. Are there any limiting factors or constraints with being able to support any location in Europe or Africa?
7. Is your company interested in pursuing either approach as a Prime Vendor? Why or why not?
8. Would you be able to support CENTCOM AOR if it were added as a zone/delivery location? Why or why not?

9. What solutions could you offer if a customer is interested in a Maintenance/warranty option beyond what the manufacturer already provides (Example: Manufacturer warranty is one year and the customer requires three years)?
10. Please list any additional information, comments, concerns or questions.
