Experience

KBR -- Solutions Architect

2025 - present

Support enterprise technology strategy, solution architecture, technical capture, proposal solutioning, emerging-technology assessment, and modernization initiatives.

Booz Allen Hamilton -- Solutions Architect

2024 - 2025

Supported DoD CIO Information Enterprise across software modernization policy, AI4SDLC governance, cloud, DevSecOps, acquisition coordination, and Navy Market growth support.

DoD CIO Information Enterprise - Software Modernization and Cloud Directorate

- Primary author for DoD Modern Software Directive and Instruction work; led a 10-week Department-wide collaboration to identify policy gaps and drive modernization.
- Led SHARE IT Act implementation guidance to streamline software reuse, acquisition, and licensing compliance.
- Aligned initiatives with Deputy Secretary goals in the Fulcrum IT Advancement Strategy to modernize digital infrastructure and improve interoperability.
- Directed strategic and technical modernization of CODE.mil and CLOUD.mil, including ownership transition support from Defense Digital Service and strengthened software sharing posture.
- Created the Digital Arsenal catalog of DevSecOps platforms and software factories for DoD-wide visibility and reuse.
- Developed AI-enabled frameworks for quantitative and qualitative policy analysis, enabling scalable, repeatable evaluation of policy issuances.
- Authored DoD-wide software modernization strategies and implementation plans.
- Co-authored and coordinated DevSecOps publications, including DoD Enterprise DevSecOps Fundamentals, and supported DevSecOps Community of Practice strategic planning.
- Designed and proposed the Enterprise Development Services Baseline to establish a centralized digital common for developers across the Department.
- Engaged Military Department CIOs, DevSecOps platforms, and software factories to align strategic planning, policy harmonization, and operational integration.
- Co-led the AI for Software Development Lifecycle work group; authored AI integration policies and guidance under a tri-chaired SES-level Senior Steering Group.
- Moderated and reviewed presentations for the DoD Weapon Systems Software Summit and continued engagement for the following summit cycle.

Booz Allen Navy Market Support

- Provided executive-level guidance on Global Defense-aligned, AWS-focused marketing initiatives for Navy Market leadership.
- Advised VP/SVP stakeholders on strategic alignment, opportunity tracking, and GenAI applications to improve contract value delivery.
- Initiated GenAI strategy discussions for pre-award and post-award task management within the Navy Market.
- Provided domain guidance for localized opportunity pursuits to strengthen competitive positioning and client value.

KBR -- Solutions Architect

2022 - 2024

Supported Navy aviation mission-system modernization, IL5 cloud architecture, DevSecOps alignment, software/data modernization, secure cloud integration, and technical capture.

COMFRC HQ Digital Group - AvPLM Cloud Migration and Modernization IPT

- Led AWS-based cloud architecture for Aviation Product Lifecycle Management to improve capability, scalability, and security.
- Implemented modernization approaches that strengthened cloud integration and security posture while increasing team proficiency in cloud operations.
- Coordinated with engineering and AWS stakeholders on security-first cloud optimization to mitigate vulnerabilities and improve resilience.
- Built relationships with AWS and the Naval Enterprise to secure technical consultancy and support.
- Applied naval and defense cybersecurity practices and DevSecOps principles in team workflows.
- Produced and delivered training on cloud modernization, DevSecOps, and cybersecurity to enable continuous learning.

PEO MLB - Logistics IT Services

- Integrated AvPLM efforts into the LOG-IT portfolio and developed long-term cloud adoption strategies aligned to enterprise technology goals, resilience, and efficiency.

Clearance: Top Secret

KBR Capture, Proposal, and Technical Writing

- Section Lead for IAC MAC Task Order P1-23-2505 proposal to modernize three legacy logistics systems; shaped integration and efficiency approach.
- Performed technical review and provided strategic input for LOG IT Portfolio Integration RFP N68520-23-R-3001, aligning response material to cloud integration and long-term infrastructure objectives.
- Lead Technical Writer for IAC MAC Task Order P1-22-2426; developed operational support strategy and designed a LOG-IT Single Point of Entry concept to improve accessibility and interoperability.
- Technical Writer for AvPLM Technical Services Contract N00421-18-D-0056; produced lifecycle management documentation focused on process streamlining and aviation logistics modernization.
- Panelist at a Red Hat-sponsored Tech Day on delivering value in cloud.

Booz Allen Hamilton -- Solutions Architect

2019 - 2022

Advised Information Warfare, NAVAIR, PEO Digital, PEO Submarines, OPNAV, and NECC stakeholders on DevSecOps, secure cloud architecture, modernization strategy, and Compile-to-Combat initiatives.

PEO Digital

- Trusted advisor to the Service Family Owner for Software Practice and Automation; provided cloud and cybersecurity guidance to shape strategy and operating model.
- Led mission-owner outreach for Black Pearl; captured requirements and aligned platform adoption to mission objectives.
- Led Black Pearl onboarding; built repeatable onboarding, training, and support patterns to scale platform use across the enterprise.
- Supported integration of Marine Corps Business Operations Support Services into PEO Digital command and control with cloud infrastructure and security guidance.

PEO Submarines - PMS 435

- Provided DevSecOps, software factory, and cloud SME support to improve cybersecurity posture and operational efficiency.
- Advised cross-functional teams on preferred software, security, and operations practices.

NAVAIR Cloud Broker - Policy Lead

- Led architecture assessments for custom and COTS applications; developed modernization and cloud migration strategies with scope, cost analysis, and technical advisories.
- Provided architecture support to roughly 30 teams across about 75 applications, ranging from tactical adjustments to full-stack redevelopment.
- Advised on organizational change and application modernization, translating complex strategy for executives and product teams.
- Engaged teams through recurring meetings and stand-ups; delivered guidance on software development, cloud adoption, policy updates, and technical execution.
- Authored documentation and training on software modernization, cloud migration, and cybersecurity, including a Software Modernization Approach document that bridged leadership expectations and technical execution.

Department of Defense and Navy Strategy Support

- Participant and guest speaker, NavalX Center for Adaptive Warfighting Scrum for Leaders, NAVAIR Pax River, on agile leadership in cybersecurity and software development.
- Contributor, DevSecOps Task Force Behavior and Practices subgroup; gathered and synthesized enterprise feedback and briefed DASN IWAR on adoption path forward.
- Participant in DevSecOps technical exchanges on Compile-to-Combat implementation challenges and strategies.
- Led OPNAV N2N6 software modernization alternatives analysis leveraging Cloud Broker and Service Provider capabilities.
- Implemented cloud development strategies that reduced operational costs by roughly 90 percent while maintaining operational efficiency.
- Recommended production and staging approaches projected to reduce environment costs by more than 60 percent while maintaining security and accreditation standards.
- Briefed senior Navy leaders on NAV-ITAS Compile-to-Combat compliance roadmap and modernization initiatives at the Pentagon.
- Opening presenter on Compile-to-Combat at the MyNavy HR Cybersecurity Off-Site, presenting immediately before senior Navy leadership.

Clearance: Top Secret

NECC and Internal Booz Allen Growth

- Led architecture and gap analysis for the Readiness and Cost Reporting Program; produced modernization and cloud migration roadmap to improve efficiency and resilience.
- Provided cloud adoption guidance at IL5 and IL6; facilitated discussions between Amazon and Navy stakeholders to enable secure cloud use.
- Participated in internal market strategy groups to improve positioning, capture, and retention.
- Developed internal resources for cross-training in DoD/Navy policy, cloud/software concepts, and Agile methods.
- Led architecture analysis and solutioning for white papers, technical responses, quick-look assessments, cloud broker performance, Agile Core Services integration, NCCS intake automation, NSWCCD A Department DevSecOps response, NAVAIR AIBI, NDG CIO, and NECC IAC MAC PMO-IT work.

KBRwyle -- Cloud Architect / Site Reliability Engineer

2018 - 2019

Built and operated automated cloud environments with CI/CD, configuration management, monitoring, recovery automation, disaster-recovery planning, documentation, and cost tracking.

- Architected and built scalable, reliable, automated cloud environments with supporting documentation.
- Implemented configuration management, CI/CD, and cloud monitoring to improve reliability and deployment velocity.
- Partnered with development teams to monitor service health and implement automated failure recovery to reduce downtime.
- Developed cloud best practices and procedures for deployment and cloud-native operations.
- Managed system implementation, monitoring, refresh cycles, and disaster-recovery planning across cloud services.
- Implemented cost-tracking mechanisms to monitor and reduce cloud spend without degrading service quality.

KBRwyle -- Architecture Analyst / Software Engineer

2018

Stabilized multi-host development environments spanning TFS, SQL, SharePoint, Fortify, custom apps, ESXi/vCenter, and storage.

- Diagnosed and resolved issues across single-host and multi-host deployments, including TFS, SQL, SharePoint, Fortify, and custom applications.
- Analyzed an inherited development environment and delivered remediation recommendations focused on root-cause resolution.
- Administered a multi-host ESXi environment, including a roughly 70-VM HA cluster and NAS devices with roughly 80 TB raw / 60 TB usable capacity.

KBR -- Software Engineer

2015 - 2018

Delivered Agile software, strengthened ALM and security tooling, configured Fortify SSC/SCA, reduced technical debt, and shipped reusable shared libraries.

- Delivered iterative product increments using Agile/Scrum under tight timelines.
- Applied MVP and MVC patterns to produce maintainable architectures.
- Managed and optimized the Application Lifecycle Management tool suite.
- Administered HP Fortify Software Security Center and Static Code Analysis across C/C++, ColdFusion, Java, and C#/.NET.
- Designed and delivered a loosely coupled packaged shared library to accelerate development and releases.
- Provided cross-department technical support and led intern integration, training, and supervision.
- Streamlined ALM configurations and reduced long-term technical debt through process improvements.

Education

University of Maryland Global Campus -- B.S., Cybersecurity Management and Policy	2023
CompTIA Security+ (SY0-601)	2023
AWS Certified Cloud Practitioner	2019
AWS Certified Solutions Architect - Associate	2019
HPE ASE - Fortify v1	2016
Certified ScrumMaster	2016
College of Southern Maryland -- A.S., Computer Science	2016
James A. Forest Career and Technology Center -- Cisco Accredited Computer Networking Academy	2012

Papers

Agent Control Plane Reference Architecture (ACP-RA) (2026). <https://www.adamboas.com/writing/acp-ra/>
Continuous Assurance Fabric Reference Architecture (CAF-RA) (2026). <https://www.adamboas.com/writing/caf-ra/>
From PDFs to Pull Requests (2025). <https://www.adamboas.com/writing/code-as-policy/>

Speaking

Modern Day Marine - Model-Based Systems Engineering (2026). <https://www.adamboas.com/speaking/>
DON Red Hat PAX River Tech Day - Partner Lunch Panel (2024). <https://www.adamboas.com/speaking/>
NavalX Scrum for Leaders - Agile Leadership (2022). <https://www.adamboas.com/speaking/>
OPNAV N7 MyNavy HR Cybersecurity Off-Site (2020). <https://www.adamboas.com/speaking/>

Private expanded resume draft. Home address and earlier roles intentionally omitted.
